

X12 837 Health Care Claim: Professional (X222A1)

X12 Release 5010 Revised May 3, 2024, 7:14 PM

This X12 Transaction Set contains the format and establishes the data contents of the Health Care Claim Transaction Set (837) for use within the context of an Electronic Data Interchange (EDI) environment. This transaction set can be used to submit health care claim billing information, encounter information, or both, from providers of health care services to payers, either directly or via intermediary billers and claims clearinghouses. It can also be used to transmit health care claims and billing payment information between payers with different payment responsibilities where coordination of benefits is required or between payers and regulatory agencies to monitor the rendering, billing, and/or payment of health care services within a specific health care/insurance industry segment.

For purposes of this standard, providers of health care products or services may include entities such as physicians, hospitals and other medical facilities or suppliers, dentists, and pharmacies, and entities providing medical information to meet regulatory requirements. The payer refers to a third party entity that pays claims or administers the insurance product or benefit or both. For example, a payer may be an insurance company, health maintenance organization (HMO), preferred provider organization (PPO), government agency (Medicare, Medicaid, Civilian Health and Medical Program of the Uniformed Services (CHAMPUS), etc.) or an entity such as a third party administrator (TPA) or third party organization (TPO) that may be contracted by one of those groups. A regulatory agency is an entity responsible, by law or rule, for administering and monitoring a statutory benefits program or a specific health care/insurance industry segment.

Delimiters ~ Segment * Element > Component ^ Repetition

Max use 1Required

Interchange Control Header

To start and identify an interchange of zero or more functional groups and interchange-related control segments

Example

ISA*00*
X*XX*XXXXXXXXXXXXXXXXX*260701*1606*^*00501*00000000
0*X*X*>~

ISA-01	I01 Authorization Information Qualifier	Identifier (ID)	Required
Code identifying the type of information in the Authorization Information			
00 No Authorization Information Present (No Meaningful Information in I02)			
ISA-02	I02 Authorization Information	Min 10Max 10String (AN)	Required
Information used for additional identification or authorization of the interchange sender or the data in the interchange; the type of information is set by the Authorization Information Qualifier (I01)			
ISA-03	I03 Security Information Qualifier	Identifier (ID)	Required
Code identifying the type of information in the Security Information			
00 No Security Information Present (No Meaningful Information in I04)			
ISA-04	I04 Security Information	Min 10Max 10String (AN)	Required
This is used for identifying the security information about the interchange sender or the data in the interchange; the type of information is set by the Security Information Qualifier (I03)			
ISA-05	I05 Interchange ID Qualifier	Min 2Max 2Identifier (ID)	Required
Code indicating the system/method of code structure used to designate the sender or receiver ID element being qualified			
> Codes			
ISA-06	I06 Interchange Sender ID	Min 15Max 15String (AN)	Required

Identification code published by the sender for other parties to use as the receiver ID to route data to them; the sender always codes this value in the sender ID element

<u>ISA-07</u>	I05 Interchange ID Qualifier	Min 2	Max 2	Identifier (ID)	Required
Code indicating the system/method of code structure used to designate the sender or receiver ID element being qualified					
> Codes					
<u>ISA-08</u>	I07 Interchange Receiver ID	Min 15	Max 15	String (AN)	Required
Identification code published by the receiver of the data; When sending, it is used by the sender as their sending ID, thus other parties sending to them will use this as a receiving ID to route data to them					
<u>ISA-09</u>	I08 Interchange Date	YYMMDD format		Date (DT)	Required
Date of the interchange					
<u>ISA-10</u>	I09 Interchange Time	HHMM format		Time (TM)	Required
Time of the interchange					
<u>ISA-11</u>	I65 Repetition Separator	Min 1	Max 1	String (AN)	Required
Type is not applicable; the repetition separator is a delimiter and not a data element; this field provides the delimiter used to separate repeated occurrences of a simple data element or a composite data structure; this value must be different than the data element separator, component element separator, and the segment terminator					
^ Repetition Separator					
<u>ISA-12</u>	I11 Interchange Control Version Number			Identifier (ID)	Required
Code specifying the version number of the interchange control segments					
00501 Standards Approved for Publication by ASC X12 Procedures Review Board through October 2003					
<u>ISA-13</u>	I12 Interchange Control Number	Min 9	Max 9	Numeric (NO)	Required
A control number assigned by the interchange sender					
<u>ISA-14</u>	I13 Acknowledgment Requested	Min 1	Max 1	Identifier (ID)	Required

Code indicating sender's request for an interchange acknowledgment

- 0 No Interchange Acknowledgment Requested
- 1 Interchange Acknowledgment Requested (TA1)

ISA-15

I14 Interchange Usage Indicator

Min 1Max 1

Identifier (ID)

Required

Code indicating whether data enclosed by this interchange envelope is test, production or information

- I Information
- P Production Data
- T Test Data

ISA-16

I15 Component Element Separator

Min 1Max 1

String (AN)

Required

Type is not applicable; the component element separator is a delimiter and not a data element; this field provides the delimiter used to separate component data elements within a composite data structure; this value must be different than the data element separator and the segment terminator

- > Component Element Separator

GS

Max use 1

Required

Functional Group Header

To indicate the beginning of a functional group and to provide control information

Example

GS*HC*XXXX*XXXXXX*20260701*0939*000000*XX*005010X
222A1~

<u>GS-01</u>	479 Functional Identifier Code			Identifier (ID)	Required
Code identifying a group of application related transaction sets					
HC Health Care Claim (837)					
<u>GS-02</u>	142 Application Sender's Code	Min 2	Max 15	T String (AN)	Required
Code identifying party sending transmission; codes agreed to by trading partners					
<u>GS-03</u>	124 Application Receiver's Code	Min 2	Max 15	T String (AN)	Required
Code identifying party receiving transmission; codes agreed to by trading partners					
<u>GS-04</u>	373 Date	CCYYMMDD format		Date (DT)	Required
Date expressed as CCYYMMDD where CC represents the first two digits of the calendar year					
<u>GS-05</u>	337 Time	HHMM, HHMMSS, HHMMSSD, or HHMMSSDD format		🕒 Time (TM)	Required
Time expressed in 24-hour clock time as follows: HHMM, or HHMMSS, or HHMMSSD, or HHMMSSDD, where H = hours (00-23), M = minutes (00-59), S = integer seconds (00-59) and DD = decimal seconds; decimal seconds are expressed as follows: D = tenths (0-9) and DD = hundredths (00-99)					
<u>GS-06</u>	28 Group Control Number	Min 1	Max 9	# Numeric (N0)	Required
Assigned number originated and maintained by the sender					
<u>GS-07</u>	455 Responsible Agency Code	Min 1	Max 2	Identifier (ID)	Required
Code identifying the issuer of the standard; this code is used in conjunction with Data Element 480					

- T Transportation Data Coordinating Committee (TDCC)
- X Accredited Standards Committee X12

GS-08

480 Version / Release / Industry Identifier Code

String (AN)

Required

Code indicating the version, release, subrelease, and industry identifier of the EDI standard being used, including the GS and GE segments; if code in DE455 in GS segment is X, then in DE 480 positions 1-3 are the version number; positions 4-6 are the release and subrelease, level of the version; and positions 7-12 are the industry or trade association identifiers (optionally assigned by user); if code in DE455 in GS segment is T, then other formats are allowed

005010X222A1

Heading

ST

0050 Heading > ST

Max use 1

Required

Transaction Set Header

To indicate the start of a transaction set and to assign a control number

Example

ST*837*0001*005010X222A1~

ST-01

143 Transaction Set Identifier Code

Identifier (ID)

Required

Code uniquely identifying a Transaction Set

- The transaction set identifier (ST01) is used by the translation routines of the interchange partners to select the appropriate transaction set definition (e.g., 810 selects the Invoice Transaction Set).

837 Health Care Claim

ST-02

329 Transaction Set Control Number

Min 4 Max 9 # Numeric (N)

Required

Identifying control number that must be unique within the transaction set functional group assigned by the originator for a transaction set

Usage notes

- The Transaction Set Control Number in ST02 and SE02 must be identical. The number must be unique within a specific interchange (ISA-IEA), but can repeat in other interchanges.

ST-03

1705 Implementation Guide Version Name

String (AN)

Required

Reference assigned to identify Implementation Convention

- The implementation convention reference (ST03) is used by the translation routines of the interchange partners to select the appropriate implementation convention to match the transaction set definition. When used, this implementation convention reference takes precedence over the implementation reference specified in the GS08.

Usage notes

- This element must be populated with the guide identifier named in Section 1.2.
- This field contains the same value as GS08. Some translator products strip off the ISA and GS segments prior to application (ST-SE) processing. Providing the information from the GS08 at this level will ensure that the appropriate application mapping is used at translation time.

005010X222A1

Beginning of Hierarchical Transaction

To define the business hierarchical structure of the transaction set and identify the business application purpose and reference data, i.e., number, date, and time

Usage notes

- The second example denotes the case where the entire transaction set contains ENCOUNTERS.

Example

BHT*0019*00*X*20260701*0757*31~

BHT-01

1005 Hierarchical Structure Code

Identifier (ID)

Required

Code indicating the hierarchical application structure of a transaction set that utilizes the HL segment to define the structure of the transaction set

0019 Information Source, Subscriber, Dependent

BHT-02

353 Transaction Set Purpose Code

Identifier (ID)

Required

Code identifying purpose of transaction set

Usage notes

- BHT02 is intended to convey the electronic transmission status of the 837 batch contained in this ST-SE envelope. The terms "original" and "reissue" refer to the electronic transmission status of the 837 batch, not the billing status.

00 Original

- ☐ Original transmissions are transmissions which have never been sent to the receiver.

18 Reissue

- ☐ If a transmission was disrupted and the receiver requests a retransmission, the sender uses "Reissue" to indicate the transmission has been previously sent.

BHT-03

127 Originator Application Transaction Identifier

String (AN)

Required

Min 1 Max 50

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- BHT03 is the number assigned by the originator to identify the transaction within the originator's business application system.

Usage notes

- The inventory file number of the transmission assigned by the submitter's system. This number operates as a batch control number.
- This field is limited to 30 characters.

BHT-04 **373 Transaction Set Creation Date** CCYYMMDD format **Date (DT)** **Required**

Date expressed as CCYYMMDD where CC represents the first two digits of the calendar year

- BHT04 is the date the transaction was created within the business application system.

Usage notes

- This is the date that the original submitter created the claim file from their business application system.

BHT-05 **337 Transaction Set Creation Time** **Time (TM)** **Required**
HHMM, HHMMSS, HHMMSSD, or HHMMSSDD format

Time expressed in 24-hour clock time as follows: HHMM, or HHMMSS, or HHMMSSD, or HHMMSSDD, where H = hours (00-23), M = minutes (00-59), S = integer seconds (00-59) and DD = decimal seconds; decimal seconds are expressed as follows: D = tenths (0-9) and DD = hundredths (00-99)

- BHT05 is the time the transaction was created within the business application system.

Usage notes

- This is the time that the original submitter created the claim file from their business application system.

BHT-06 **640 Claim or Encounter Identifier** **Identifier (ID)** **Required**

Code specifying the type of transaction

31 Subrogation Demand

- ☐ The subrogation demand code is only for use by state Medicaid agencies performing post payment recovery claiming with willing trading partners.
***NOTE: ***At the time of this writing, Subrogation Demand is not a HIPAA mandated use of the 837 transaction.

CH Chargeable

- ☐ Use CH when the transaction contains only fee for service claims or claims with at least one chargeable line item. If it is not clear whether a transaction contains claims or capitated encounters, or if the transaction contains a mix of claims and capitated encounters, use CH.

RP Reporting

- ☐ Use RP when the entire ST-SE envelope contains only capitated encounters.
Use RP when the transaction is being sent to an entity (usually not a payer or a normal provider payer transmission intermediary) for purposes other than adjudication of a claim. Such an entity could be a state health data agency which is using the 837 for health data reporting purposes.

1000A Submitter Name Loop

Max 1Required

Variants (all may be used)

Receiver Name Loop

NM10200Heading > Submitter Name Loop > NM1

Max use 1Required

Submitter Name

To supply the full name of an individual or organizational entity

Usage notes

- The submitter is the entity responsible for the creation and formatting of this transaction.

Example

NM1*41*1*XXX*X*XXXXX***46*XXXXXX~

NM1-0198Entity Identifier Code

Identifier (ID)Required

Code identifying an organizational entity, a physical location, property or an individual

41 Submitter

NM1-021065Entity Type Qualifier

Identifier (ID)Required

Code qualifying the type of entity

- NM102 qualifies NM103.

- 1 Person
- 2 Non-Person Entity

NM1-031035Submitter Last or Organization Name

Min 1Max 60String (AN)Required

Individual last name or organizational name

NM1-041036Submitter First Name

Min 1Max 35String (AN)Optional

Individual first name

NM1-051037Submitter Middle Name or Initial

Min 1Max 25String (AN)Optional

Individual middle name or initial

NM1-0866Identification Code Qualifier

Identifier (ID)Required

Code designating the system/method of code structure used for Identification Code (67)

46 Electronic Transmitter Identification Number (ETIN)

☐ Established by trading partner agreement

NM1-09

67 Submitter Identifier

Min 2 Max 80  String (AN) Required

Code identifying a party or other code

Submitter EDI Contact Information

To identify a person or office to whom administrative communications should be directed

Usage notes

- When the communication number represents a telephone number in the United States and other countries using the North American Dialing Plan (for voice, data, fax, etc.), the communication number must always include the area code and phone number using the format AAABBBCCCC where AAA is the area code, BBB is the telephone number prefix, and CCCC is the telephone number. Therefore, the following telephone number (555) 555-1234 would be represented as 5555551234. Do not submit long distance access numbers, such as "1", in the telephone number. Telephone extensions, when applicable, must be submitted in the next element immediately following the telephone number. When submitting telephone extensions, only submit the numeric extension. Do not include data that indicates an extension, such as "ext" or "x-".
- The contact information in this segment identifies the person in the submitter organization who deals with data transmission issues. If data transmission problems arise, this is the person to contact in the submitter organization.
- There are 2 repetitions of the PER segment to allow for six possible combinations of communication numbers including extensions.

Example

PER*IC*XX*EM*X*TE*X*FX*XXX~

- If either Communication Number Qualifier (PER-05) or Communication Number (PER-06) is present, then the other is required
- If either Communication Number Qualifier (PER-07) or Communication Number (PER-08) is present, then the other is required

PER-01

366 Contact Function Code

Identifier (ID)

Required

Code identifying the major duty or responsibility of the person or group named

IC Information Contact

PER-02

93 Submitter Contact Name

Min 1 Max 60 String (AN)

Optional

Free-form name

PER-03

365 Communication Number Qualifier

Identifier (ID)

Required

Code identifying the type of communication number

- EM Electronic Mail
- FX Facsimile
- TE Telephone

PER-04

364 Communication Number

Min 1 Max 256 String (AN)

Required

Complete communications number including country or area code when applicable

PER-05

365

Communication Number Qualifier

Identifier (ID)

Optional

Code identifying the type of communication number

EM

Electronic Mail

EX

Telephone Extension

FX

Facsimile

TE

Telephone

PER-06

Detail

2000A Billing Provider Hierarchical Level Loop

Max >1

Required

HL

0010

Detail > Billing Provider Hierarchical Level Loop > HL

Max use 1

Required

Hierarchical Level

To identify dependencies among and the content of hierarchically related groups of data segments

Example

HL *1**20*1~

HL-01

628 Hierarchical ID Number

Min 1

Max 12

String (AN)

Required

A unique number assigned by the sender to identify a particular data segment in a hierarchical structure

- HL01 shall contain a unique alphanumeric number for each occurrence of the HL segment in the transaction set. For example, HL01 could be used to indicate the number of occurrences of the HL segment, in which case the value of HL01 would be "1" for the initial HL segment and would be incremented by one in each subsequent HL segment within the transaction.

HL-03

735 Hierarchical Level Code

Identifier (ID)

Required

Code defining the characteristic of a level in a hierarchical structure

- HL03 indicates the context of the series of segments following the current HL segment up to the next occurrence of an HL segment in the transaction. For example, HL03 is used to indicate that subsequent segments in the HL loop form a logical grouping of data referring to shipment, order, or item-level information.

20 Information Source

HL-04

736 Hierarchical Child Code

Identifier (ID)

Optional

Code indicating if there are hierarchical child data segments subordinate to the level being described

- HL04 indicates whether or not there are subordinate (or child) HL segments related to the current HL segment.

1 Additional Subordinate HL Data Segment in This Hierarchical Structure.

Billing Provider Specialty Information

To specify the identifying characteristics of a provider

Usage notes

- Required when the payer's adjudication is known to be impacted by the provider taxonomy code.
If not required by this implementation guide, do not send.

Example

PRV*BI*PXC*XXXXXX~

PRV-01	1221 Provider Code	Identifier (ID)	Required
Code identifying the type of provider			
BI Billing			
PRV-02	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
PXC Health Care Provider Taxonomy Code			
PRV-03	127 Provider Taxonomy Code	Min 1 Max 50 String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			

Foreign Currency Information

To specify the currency (dollars, pounds, francs, etc.) used in a transaction

Usage notes

- Required when the amounts represented in this transaction are currencies other than the United States dollar. If not required by this implementation guide, do not send.
- It is REQUIRED that all amounts reported within the transaction are of the currency named in this segment. If this segment is not used, then it is required that all amounts in this transaction be expressed in US dollars.

Example

CUR*85*XXX~

CUR-01	98 Entity Identifier Code	Identifier (ID)	Required
--------	---------------------------	-----------------	----------

Code identifying an organizational entity, a physical location, property or an individual

85 Billing Provider

CUR-02	100 Currency Code	Min 3	Max 3	Identifier (ID)	Required
--------	-------------------	-------	-------	-----------------	----------

Code (Standard ISO) for country in whose currency the charges are specified

Usage notes

- The submitter must use the Currency Code, not the Country Code, for this element. For example the Currency Code CAD = Canadian dollars would be valid, while CA = Canada would be invalid.

2010AA Billing Provider Name Loop

Max 1Required

Variants (all may be used)

Pay-to Address Name Loop

Pay-To Plan Name Loop

NM10150Detail > Billing Provider Hierarchical Level Loop > Billing Provider Name Loop > NM1Max use 1Required

Billing Provider Name

To supply the full name of an individual or organizational entity

Usage notes

- Beginning on the NPI compliance date: When the Billing Provider is an organization health care provider, the organization health care provider's NPI or its subpart's NPI is reported in NM109. When a health care provider organization has determined that it needs to enumerate its subparts, it will report the NPI of a subpart as the Billing Provider. The subpart reported as the Billing Provider MUST always represent the most detailed level of enumeration as determined by the organization health care provider and MUST be the same identifier sent to any trading partner. For additional explanation, see section 1.10.3 Organization Health Care Provider Subpart Presentation.
- Prior to the NPI compliance date, proprietary identifiers necessary for the receiver to identify the Billing Provider entity are to be reported in the REF segment of Loop ID-2010BB.
- The Taxpayer Identifying Number (TIN) of the Billing Provider to be used for 1099 purposes must be reported in the REF segment of this loop.
- The Billing Provider may be an individual only when the health care provider performing services is an independent, unincorporated entity. In these cases, the Billing Provider is the individual whose social security number is used for 1099 purposes. That individual's NPI is reported in NM109, and the individual's Tax Identification Number must be reported in the REF segment of this loop. The individual's NPI must be reported when the individual provider is eligible for an NPI. See section 1.10.1 (Providers who are Not Eligible for Enumeration).
- When the individual or the organization is not a health care provider and, thus, not eligible to receive an NPI (For example, personal care services, carpenters, etc), the Billing Provider should be the legal entity. However, willing trading partners may agree upon varying definitions. Proprietary identifiers necessary for the receiver to identify the entity are to be reported in the Loop ID-2010BB REF, Billing Provider Secondary Identification segment. The TIN to be used for 1099 purposes must be reported in the REF (Tax Identification Number) segment of this loop.

Example

NM1*85*2*X*XX*XXXXXX**XXX*XX*XXX~

■ If either Identification Code Qualifier (NM1-08) or Billing Provider Identifier (NM1-09) is present, then the other is required

NM1-0198 Entity Identifier Code

Identifier (ID)Required

Code identifying an organizational entity, a physical location, property or an individual

85 Billing Provider

<u>NM1-02</u>	1065 Entity Type Qualifier			 Identifier (ID)	Required
Code qualifying the type of entity					
NM102 qualifies NM103.					
- Person - Non-Person Entity					
<u>NM1-03</u>	1035 Billing Provider Last or Organizational Name			 String (AN)	Required
				Min 1	Max 60
Individual last name or organizational name					
<u>NM1-04</u>	1036 Billing Provider First Name	Min 1	Max 35	 String (AN)	Optional
Individual first name					
<u>NM1-05</u>	1037 Billing Provider Middle Name or Initial	Min 1	Max 25	 String (AN)	Optional
Individual middle name or initial					
<u>NM1-07</u>	1039 Billing Provider Name Suffix	Min 1	Max 10	 String (AN)	Optional
Suffix to individual name					
<u>NM1-08</u>	66 Identification Code Qualifier			 Identifier (ID)	Optional
Code designating the system/method of code structure used for Identification Code (67)					
XX Centers for Medicare and Medicaid Services National Provider Identifier					
<u>NM1-09</u>	67 Billing Provider Identifier	Min 2	Max 80	 String (AN)	Optional
Code identifying a party or other code					

Billing Provider Address

To specify the location of the named party

Usage notes

- The Billing Provider Address must be a street address. Post Office Box or Lock Box addresses are to be sent in the Pay-To Address Loop (Loop ID-2010AB), if necessary.

Example

N3*XXXX*X~

<u>N3-01</u>	166 Billing Provider Address Line	Min 1	Max 55	String (AN)	Required
	Address information				
<u>N3-02</u>	166 Billing Provider Address Line	Min 1	Max 55	String (AN)	Optional
	Address information				

N4

0300 Detail > Billing Provider Hierarchical Level Loop > Billing Provider Name Loop > N4 Max use 1

Required

Billing Provider City, State, ZIP Code

To specify the geographic place of the named party

Example

N4*XXXXX*XX*XXXXXXXX*XXX~

■ Only one of Billing Provider State or Province Code (N4-02) or Country Subdivision Code (N4-07) may be present

■ If Country Subdivision Code (N4-07) is present, then Country Code (N4-04) is required

N4-01 **19 Billing Provider City Name** Min 2 Max 30  String (AN) Required

Free-form text for city name

- A combination of either N401 through N404, or N405 and N406 may be adequate to specify a location.

N4-02 **156 Billing Provider State or Province Code** Min 2 Max 2  Identifier (ID) Optional

Code (Standard State/Province) as defined by appropriate government agency

- N402 is required only if city name (N401) is in the U.S. or Canada.

N4-03 **116 Billing Provider Postal Zone or ZIP Code** Min 3 Max 15  Identifier (ID) Optional

Code defining international postal zone code excluding punctuation and blanks (zip code for United States)

Usage notes

- When reporting the ZIP code for U.S. addresses, the full nine digit ZIP code must be provided.

N4-04 **26 Country Code** Min 2 Max 3  Identifier (ID) Optional

Code identifying the country

Usage notes

- Use the alpha-2 country codes from Part 1 of ISO 3166.

N4-07 **1715 Country Subdivision Code** Min 1 Max 3  Identifier (ID) Optional

Code identifying the country subdivision

Usage notes

- Use the country subdivision codes from Part 2 of ISO 3166.

Billing Provider Tax Identification

To specify identifying information

Usage notes

- This is the tax identification number (TIN) of the entity to be paid for the submitted services.

Example

REF*EI*XXXXX~

Variants (all may be used)

REF Billing Provider UPIN/License Information

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

EI Employer's Identification Number

- ☐ The Employer's Identification Number must be a string of exactly nine numbers with no separators.

For example, "001122333" would be valid, while sending "001-12-2333" or "00-1122333" would be invalid.

SY Social Security Number

- ☐ The Social Security Number must be a string of exactly nine numbers with no separators. For example, sending "111002222" would be valid, while sending "111-00-2222" would be invalid.

REF-02

127 Billing Provider Tax Identification Number

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Billing Provider UPIN/License Information

To specify identifying information

Usage notes

- Required prior to the mandated HIPAA National Provider Identifier (NPI) implementation date when a UPIN and/or license number is necessary for the receiver to identify the provider.
OR
Required on or after the mandated NPI implementation date when NM109 of this loop is not used and a UPIN or license number is necessary for the receiver to identify the provider.
If not required by this implementation guide, do not send.
- Payer specific secondary identifiers are reported in the Loop ID-2010BB REF, Billing Provider Secondary Identification.

Example

REF*0B*XX~

Variants (all may be used)

REF Billing Provider Tax Identification

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
0B State License Number			
1G Provider UPIN Number			
UPINs must be formatted as either X99999 or XXX999.			
REF-02	127 Billing Provider License and/or UPIN Information	String (AN)	Required
		Min 1	Max 50
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			

PER

0400 Detail > Billing Provider Hierarchical Level Loop > Billing Provider Name Loop > PER-01

Max use 2

Optional

Billing Provider Contact Information

To identify a person or office to whom administrative communications should be directed

Usage notes

- Required when this information is different than that contained in the Loop ID-1000A - Submitter PER segment. If not required by this implementation guide, do not send.;
- When the communication number represents a telephone number in the United States and other countries using the North American Dialing Plan (for voice, data, fax, etc.), the communication number must always include the area code and phone number using the format AAABBBCCCC where AAA is the area code, BBB is the telephone number prefix, and CCCC is the telephone number. Therefore, the following telephone number (555) 555-1234 would be represented as 5555551234. Do not submit long distance access numbers, such as "1", in the telephone number. Telephone extensions, when applicable, must be submitted in the next element immediately following the telephone number. When submitting telephone extensions, only submit the numeric extension. Do not include data that indicates an extension, such as "ext" or "x-".
- There are 2 repetitions of the PER segment to allow for six possible combinations of communication numbers including extensions.

Example

PER*IC*XX*FX*XX*FX*XXXXX*TE*XXXX~

- If either Communication Number Qualifier (PER-05) or Communication Number (PER-06) is present, then the other is required
- If either Communication Number Qualifier (PER-07) or Communication Number (PER-08) is present, then the other is required

PER-01	366 Contact Function Code	Identifier (ID)	Required
	Code identifying the major duty or responsibility of the person or group named		
	IC Information Contact		
PER-02	93 Billing Provider Contact Name	Min 1 Max 60 String (AN)	Optional
	Free-form name		
PER-03	365 Communication Number Qualifier	Identifier (ID)	Required
	Code identifying the type of communication number		
	EM Electronic Mail		
	FX Facsimile		
	TE Telephone		
PER-04	364 Communication Number	Min 1 Max 256 String (AN)	Required

Complete communications number including country or area code when applicable

PER-05

365

2010AA Billing Provider Name Loop end

2010AB Pay-to Address Name Loop

Max 1Optional

Variants (all may be used)

Billing Provider Name Loop

Pay-To Plan Name Loop

NM1

0150Detail > Billing Provider Hierarchical Level Loop > Pay-to Address Name Loop > NM1

Max use 1

Required

Pay-to Address Name

To supply the full name of an individual or organizational entity

Usage notes

- Required when the address for payment is different than that of the Billing Provider. If not required by this implementation guide, do not send.;
- The purpose of Loop ID-2010AB has changed from previous versions. Loop ID-2010AB only contains address information when different from the Billing Provider Address. There are no applicable identifiers for Pay-To Address information.

Example

NM1*87*2~

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

87 Pay-to Provider

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.
- 1

Person
- 2

Non-Person Entity

Pay-to Address - ADDRESS

To specify the location of the named party

Example

N3 *XXXXXX *XXXXXX ~

N3-01	166 Pay-To Address Line	Min 1	Max 55	String (AN)	Required
Address information					

N3-02	166 Pay-To Address Line	Min 1	Max 55	String (AN)	Optional
Address information					

Pay-To Address City, State, ZIP Code

To specify the geographic place of the named party

Example

N4*XXXXX*XX*XXXXXXXX*XXX~

- Only one of Pay-to Address State Code (N4-02) or Country Subdivision Code (N4-07) may be present
- If Country Subdivision Code (N4-07) is present, then Country Code (N4-04) is required

N4-01	19 Pay-to Address City Name	Min 2	Max 30	String (AN)	Required
	Free-form text for city name				
	A combination of either N401 through N404, or N405 and N406 may be adequate to specify a location.				
N4-02	156 Pay-to Address State Code	Min 2	Max 2	Identifier (ID)	Optional
	Code (Standard State/Province) as defined by appropriate government agency				
	N402 is required only if city name (N401) is in the U.S. or Canada.				
N4-03	116 Pay-to Address Postal Zone or ZIP Code	Min 3	Max 15	Identifier (ID)	Optional
	Code defining international postal zone code excluding punctuation and blanks (zip code for United States)				
N4-04	26 Country Code	Min 2	Max 3	Identifier (ID)	Optional
	Code identifying the country				
	Usage notes Use the alpha-2 country codes from Part 1 of ISO 3166.				
N4-07	1715 Country Subdivision Code	Min 1	Max 3	Identifier (ID)	Optional
	Code identifying the country subdivision				
	Usage notes Use the country subdivision codes from Part 2 of ISO 3166.				

2010AB Pay-to Address Name Loop end

2010AC Pay-To Plan Name Loop

Max 1 Optional

Variants (all may be used)
Billing Provider Name Loop
Pay-to Address Name Loop

NM1

0150 Detail > Billing Provider Hierarchical Level Loop > Pay-To Plan Name Loop > NM1

Max use 1

Required

Pay-To Plan Name

To supply the full name of an individual or organizational entity

Usage notes

- Required when willing trading partners agree to use this implementation for their subrogation payment requests.
- This loop may only be used when BHT06 = 31.

Example

NM1*PE*2*X*****PI*XXX~

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

PE Payee

- ☐ PE is used to indicate the subrogated payee.

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.

2 Non-Person Entity

NM1-03

1035 Pay-To Plan Organizational Name

Min 1 Max 60

String (AN)

Required

Individual last name or organizational name

NM1-08

66 Identification Code Qualifier

Identifier (ID)

Required

Code designating the system/method of code structure used for Identification Code (67)

Usage notes

- Use code value "PI" when reporting Payor Identification.
Use code value "XV" when reporting Health Plan ID (HPID) or Other Entity Identifier (OEID).

Prior to the mandated implementation date for Health Plan Identifier, willing trading partners may agree to:

Follow a dual use approach in which both the HPID or OEID and the Payor Identification are sent. Send XV qualifier in NM108 with HPID or OEID in NM109 and the Payor Identification, that would have been sent using qualifier PI, in the corresponding REF segment using qualifier 2U (Payer Identification Number).

OR

Follow an early implementation approach in which the HPID or OEID is sent in NM109.

PI Payor Identification

XV Centers for Medicare and Medicaid Services PlanID

NM1-09	67 Pay-To Plan Primary Identifier	Min 2	Max 80	 String (AN)	Required
--------	--	-------	--------	---	----------

Code identifying a party or other code

Pay-to Plan Address

To specify the location of the named party

Example

N3*XXXX*XXXXX~

<u>N3-01</u>	166 Pay-To Plan Address Line Address information	Min 1	Max 55	String (AN)	Required
<u>N3-02</u>	166 Pay-To Plan Address Line Address information	Min 1	Max 55	String (AN)	Optional

N4

0300 Detail > Billing Provider Hierarchical Level Loop > Pay-To Plan Name Loop > N4

Max use 1

Required

Pay-To Plan City, State, ZIP Code

To specify the geographic place of the named party

Example

N4*XXXXXX*XX*XXXXXXXX*XXX~

- Only one of Pay-To Plan State or Province Code (N4-02) or Country Subdivision Code (N4-07) may be present
- If Country Subdivision Code (N4-07) is present, then Country Code (N4-04) is required

N4-01

19 Pay-To Plan City Name

Min 2 Max 30

String (AN)

Required

Free-form text for city name

- A combination of either N401 through N404, or N405 and N406 may be adequate to specify a location.

N4-02

156 Pay-To Plan State or Province Code

Min 2 Max 2

Identifier (ID)

Optional

Code (Standard State/Province) as defined by appropriate government agency

- N402 is required only if city name (N401) is in the U.S. or Canada.

N4-03

116 Pay-To Plan Postal Zone or ZIP Code

Min 3 Max 15

Identifier (ID)

Optional

Code defining international postal zone code excluding punctuation and blanks (zip code for United States)

N4-04

26 Country Code

Min 2 Max 3

Identifier (ID)

Optional

Code identifying the country

Usage notes

- Use the alpha-2 country codes from Part 1 of ISO 3166.

N4-07

1715 Country Subdivision Code

Min 1 Max 3

Identifier (ID)

Optional

Code identifying the country subdivision

Usage notes

- Use the country subdivision codes from Part 2 of ISO 3166.

Pay-to Plan Secondary Identification

To specify identifying information

Usage notes

- Required when an additional identification number to that provided in the NM109 of this loop is necessary to identify the entity.
If not required by this implementation guide, do not send.

Example

REF*FY*X~

Variants (all may be used)

REF Pay-To Plan Tax Identification Number

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
2U Payer Identification Number			
This code is only allowed when the qualifier XV is reported in NM108 of this loop.			
FY Claim Office Number			
NF National Association of Insurance Commissioners (NAIC) Code			
REF-02	127 Pay-to Plan Secondary Identifier	Min 1 Max 50 String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			

Pay-To Plan Tax Identification Number

To specify identifying information

Example

REF*EI*X~

Variants (all may be used)

REF Pay-to Plan Secondary Identification

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

EI Employer's Identification Number

- The Employer's Identification Number must be a string of exactly nine numbers with no separators.

For example, "001122333" would be valid, while sending "001-12-2333" or "00-1122333" would be invalid.

REF-02

127 Pay-To Plan Tax Identification Number

Min 1 Max 50 String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

2010AC Pay-To Plan Name Loop end

2000B Subscriber Hierarchical Level Loop

Max >1

Required

HL

0010

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop

Max Use 1

Required

Hierarchical Level

To identify dependencies among and the content of hierarchically related groups of data segments

Example

HL *2*1*22*1~

HL-01

628 Hierarchical ID Number

Min 1

Max 12

String (AN)

Required

A unique number assigned by the sender to identify a particular data segment in a hierarchical structure

- HL01 shall contain a unique alphanumeric number for each occurrence of the HL segment in the transaction set. For example, HL01 could be used to indicate the number of occurrences of the HL segment, in which case the value of HL01 would be "1" for the initial HL segment and would be incremented by one in each subsequent HL segment within the transaction.

HL-02

734 Hierarchical Parent ID Number

Min 1

Max 12

String (AN)

Required

Identification number of the next higher hierarchical data segment that the data segment being described is subordinate to

- HL02 identifies the hierarchical ID number of the HL segment to which the current HL segment is subordinate.

HL-03

735 Hierarchical Level Code

Identifier (ID)

Required

Code defining the characteristic of a level in a hierarchical structure

- HL03 indicates the context of the series of segments following the current HL segment up to the next occurrence of an HL segment in the transaction. For example, HL03 is used to indicate that subsequent segments in the HL loop form a logical grouping of data referring to shipment, order, or item-level information.

22 Subscriber

HL-04

736 Hierarchical Child Code

Identifier (ID)

Optional

Code indicating if there are hierarchical child data segments subordinate to the level being described

- HL04 indicates whether or not there are subordinate (or child) HL segments related to the current HL segment.

- 0 No Subordinate HL Segment in This Hierarchical Structure.
- 1 Additional Subordinate HL Data Segment in This Hierarchical Structure.

Subscriber Information

To record information specific to the primary insured and the insurance carrier for that insured

Example

SBR*E*18*XXXXX*XXXX*12*****FI~

SBR-01

1138 Payer Responsibility Sequence Number Code

Identifier (ID)

Required

Code identifying the insurance carrier's level of responsibility for a payment of a claim

Usage notes

- Within a given claim, the various values for the Payer Responsibility Sequence Number Code (other than value "U") may occur no more than once.

- A Payer Responsibility Four
- B Payer Responsibility Five
- C Payer Responsibility Six
- D Payer Responsibility Seven
- E Payer Responsibility Eight
- F Payer Responsibility Nine
- G Payer Responsibility Ten
- H Payer Responsibility Eleven
- P Primary
- S Secondary
- T Tertiary
- U Unknown

☐ This code may only be used in payer to payer COB claims when the original payer determined the presence of this coverage from eligibility files received from this payer or when the original claim did not provide the responsibility sequence for this payer.

SBR-02

1069 Individual Relationship Code

Identifier (ID)

Optional

Code indicating the relationship between two individuals or entities

- SBR02 specifies the relationship to the person insured.

18 Self

SBR-03

127 Subscriber Group or Policy Number

Min 1 Max 50 String (AN)

Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- SBR03 is policy or group number.

Usage notes

- This is not the number uniquely identifying the subscriber. The unique subscriber number is submitted in Loop ID-2010BA-NM109.

SBR-04 **93 Subscriber Group Name** Min 1 Max 60 String (AN) Optional

Free-form name

- SBR04 is plan name.

SBR-05 **1336 Insurance Type Code** Identifier (ID) Optional

Code identifying the type of insurance policy within a specific insurance program

- 12 Medicare Secondary Working Aged Beneficiary or Spouse with Employer Group Health Plan
- 13 Medicare Secondary End-Stage Renal Disease Beneficiary in the Mandated Coordination Period with an Employer's Group Health Plan
- 14 Medicare Secondary, No-fault Insurance including Auto is Primary
- 15 Medicare Secondary Worker's Compensation
- 16 Medicare Secondary Public Health Service (PHS) or Other Federal Agency
- 41 Medicare Secondary Black Lung
- 42 Medicare Secondary Veteran's Administration
- 43 Medicare Secondary Disabled Beneficiary Under Age 65 with Large Group Health Plan (LGHP)
- 47 Medicare Secondary, Other Liability Insurance is Primary

SBR-09 **1032 Claim Filing Indicator Code** Identifier (ID) Required

Code identifying type of claim

- 11 Other Non-Federal Programs
- 12 Preferred Provider Organization (PPO)
- 13 Point of Service (POS)
- 14 Exclusive Provider Organization (EPO)
- 15 Indemnity Insurance
- 16 Health Maintenance Organization (HMO) Medicare Risk
- 17 Dental Maintenance Organization
- AM Automobile Medical
- BL Blue Cross/Blue Shield
- CH Champus
- CI Commercial Insurance Co.
- DS Disability
- FI Federal Employees Program
- HM Health Maintenance Organization
- LM Liability Medical
- MA Medicare Part A
- MB Medicare Part B
- MC Medicaid
- OF Other Federal Program
 - ☐ Use code OF when submitting Medicare Part D claims.
- TV Title V
- VA Veterans Affairs Plan

WC Workers' Compensation Health Claim

ZZ Mutually Defined

☐ Use Code ZZ when Type of Insurance is not known.

Patient Information

To supply patient information

Usage notes

- Required when the patient is the subscriber or considered to be the subscriber and at least one of the element requirements are met. If not required by this implementation guide, do not send.

Example

PAT*****D8*X*01*00000000*Y~

- If either Date Time Period Format Qualifier (PAT-05) or Patient Death Date (PAT-06) is present, then the other is required
- If either Unit or Basis for Measurement Code (PAT-07) or Patient Weight (PAT-08) is present, then the other is required

<u>PAT-05</u>	1250 Date Time Period Format Qualifier	Identifier (ID)	Optional
Code indicating the date format, time format, or date and time format			
D8 Date Expressed in Format CCYYMMDD			
<u>PAT-06</u>	1251 Patient Death Date	Min 1Max 35String (AN)	Optional
Expression of a date, a time, or range of dates, times or dates and times			
PAT06 is the date of death.			
<u>PAT-07</u>	355 Unit or Basis for Measurement Code	Identifier (ID)	Optional
Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken			
01 Actual Pounds			
<u>PAT-08</u>	81 Patient Weight	Min 1Max 10# Decimal number (R)	Optional
Numeric value of weight			
PAT08 is the patient's weight.			
<u>PAT-09</u>	1073 Pregnancy Indicator	Identifier (ID)	Optional
Code indicating a Yes or No condition or response			
PAT09 indicates whether the patient is pregnant or not pregnant. Code "Y" indicates the patient is pregnant; code "N" indicates the patient is not pregnant.			
Usage notes			

- For this implementation, the listed value takes precedence over the semantic note.

Y Yes

2010BA Subscriber Name Loop

Max 1 Required

Variants (all may be used)
Payer Name Loop

NM1

0150

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Subscriber Name Loop > NM1

Max use 1

Required

Subscriber Name

To supply the full name of an individual or organizational entity

Usage notes

- In worker's compensation or other property and casualty claims, the "subscriber" may be a non-person entity (for example, the employer). However, this varies by state.

Example

NM1*IL*2*XXXX*XXXXX*XXX**XXXX*MI*XXX~

- If either Identification Code Qualifier (NM1-08) or Subscriber Primary Identifier (NM1-09) is present, then the other is required

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

IL Insured or Subscriber

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.

1

Person

2

Non-Person Entity

NM1-03

1035 Subscriber Last Name

Min 1Max 60

String (AN)

Required

Individual last name or organizational name

NM1-04

1036 Subscriber First Name

Min 1Max 35

String (AN)

Optional

Individual first name

NM1-05

1037 Subscriber Middle Name or Initial

Min 1Max 25

String (AN)

Optional

Individual middle name or initial

NM1-07

1039 Subscriber Name Suffix

Min 1Max 10

TString (AN)

Optional

Suffix to individual name

Usage notes

- Examples: I, II, III, IV, Jr, Sr
This data element is used only to indicate generation or patronymic.

NM1-08

66 Identification Code Qualifier

Identifier (ID)

Optional

Code designating the system/method of code structure used for Identification Code (67)

- II Standard Unique Health Identifier for each Individual in the United States
- ☐ Required if the HIPAA Individual Patient Identifier is mandated use. If not required, use value 'MI' instead.
- MI Member Identification Number
- ☐ The code MI is intended to be the subscriber's identification number as assigned by the payer. (For example, Insured's ID, Subscriber's ID, Health Insurance Claim Number (HIC), etc.)
- MI is also intended to be used in claims submitted to the Indian Health Service/Contract Health Services (IHS/CHS) Fiscal Intermediary for the purpose of reporting the Tribe Residency Code (Tribe County State). In the event that a Social Security Number (SSN) is also available on an IHS/CHS claim, put the SSN in REF02.
- When sending the Social Security Number as the Member ID, it must be a string of exactly nine numbers with no separators. For example, sending "111002222" would be valid, while sending "111-00-2222" would be invalid.

NM1-09

67 Subscriber Primary Identifier

Min 2Max 80

TString (AN)

Optional

Code identifying a party or other code

Subscriber Address

To specify the location of the named party

Usage notes

- Required when the patient is the subscriber or considered to be the subscriber. If not required by this implementation guide, do not send.

Example

N3*XXXX*XX~

<u>N3-01</u>	166	Subscriber Address Line	Min 1	Max 55	 String (AN)	Required
Address information						
<u>N3-02</u>	166	Subscriber Address Line	Min 1	Max 55	 String (AN)	Optional
Address information						

Subscriber City, State, ZIP Code

To specify the geographic place of the named party

Usage notes

- Required when the patient is the subscriber or considered to be the subscriber. If not required by this implementation guide, do not send.

Example

N4*XX*XX*XXXXXXXX*XXX~

- Only one of Subscriber State Code (N4-02) or Country Subdivision Code (N4-07) may be present
- If Country Subdivision Code (N4-07) is present, then Country Code (N4-04) is required

N4-01	19 Subscriber City Name	Min 2	Max 30	String (AN)	Required
-------	-------------------------	-------	--------	-------------	----------

Free-form text for city name

- A combination of either N401 through N404, or N405 and N406 may be adequate to specify a location.

N4-02	156 Subscriber State Code	Min 2	Max 2	Identifier (ID)	Optional
-------	---------------------------	-------	-------	-----------------	----------

Code (Standard State/Province) as defined by appropriate government agency

- N402 is required only if city name (N401) is in the U.S. or Canada.

N4-03	116 Subscriber Postal Zone or ZIP Code	Min 3	Max 15	Identifier (ID)	Optional
-------	--	-------	--------	-----------------	----------

Code defining international postal zone code excluding punctuation and blanks (zip code for United States)

N4-04	26 Country Code	Min 2	Max 3	Identifier (ID)	Optional
-------	-----------------	-------	-------	-----------------	----------

Code identifying the country

Usage notes

- Use the alpha-2 country codes from Part 1 of ISO 3166.

N4-07	1715 Country Subdivision Code	Min 1	Max 3	Identifier (ID)	Optional
-------	-------------------------------	-------	-------	-----------------	----------

Code identifying the country subdivision

Usage notes

- Use the country subdivision codes from Part 2 of ISO 3166.

Subscriber Demographic Information

To supply demographic information

Usage notes

- Required when the patient is the subscriber or considered to be the subscriber. If not required by this implementation guide, do not send.

Example

DMG*D8*XXXX*M~

DMG-01

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

D8 Date Expressed in Format CCYYMMDD

DMG-02

1251 Subscriber Birth Date

Min 1Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

- DMG02 is the date of birth.

DMG-03

1068 Subscriber Gender Code

Identifier (ID)

Required

Code indicating the sex of the individual

- F Female
- M Male
- U Unknown

Subscriber Secondary Identification

To specify identifying information

Usage notes

- Required when an additional identification number to that provided in NM109 of this loop is necessary for the claim processor to identify the entity. If not required by this implementation guide, do not send.

Example

REF*SY*XXXXX~

Variants (all may be used)

REF Property and Casualty Claim Number

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
SY Social Security Number			
The Social Security Number must be a string of exactly nine numbers with no separators. For example, sending "111002222" would be valid, while sending "111-00-2222" would be invalid.			
REF-02	127 Subscriber Supplemental Identifier	Min 1 Max 50 String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			

REF

0350

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Subscriber Name Loop > REF

Max use 1

Optional

Property and Casualty Claim Number

To specify identifying information

Usage notes

- Required when the services included in this claim are to be considered as part of a property and casualty claim. If not required by this implementation guide, do not send.
- This is a property and casualty payer-assigned claim number. Providers receive this number from the property and casualty payer during eligibility determinations or some other communication with that payer. See Section 1.4.2, Property and Casualty, for additional information about property and casualty claims.;
- This segment is not a HIPAA requirement as of this writing.

Example

REF*Y4*X~

Variants (all may be used)

REF Subscriber Secondary Identification

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
Y4 Agency Claim Number			
REF-02	127 Property Casualty Claim Number	Min 1 Max 50 String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			

Property and Casualty Subscriber Contact Information

To identify a person or office to whom administrative communications should be directed

Usage notes

- Required for Property and Casualty claims when this information is deemed necessary by the submitter. If not required by this implementation guide, do not send.
- When the communication number represents a telephone number in the United States and other countries using the North American Dialing Plan (for voice, data, fax, etc.), the communication number must always include the area code and phone number using the format AAABBBCCCC where AAA is the area code, BBB is the telephone number prefix, and CCCC is the telephone number. Therefore, the following telephone number (555) 555-1234 would be represented as 5555551234. Do not submit long distance access numbers, such as "1", in the telephone number. Telephone extensions, when applicable, must be submitted in the next element immediately following the telephone number. When submitting telephone extensions, only submit the numeric extension. Do not include data that indicates an extension, such as "ext" or "x-".

Example

PER*IC*X*TE*XXXXX*EX*XXXX~

- If either Communication Number Qualifier (PER-05) or Communication Number (PER-06) is present, then the other is required

PER-01	366 Contact Function Code	Identifier (ID)	Required
	Code identifying the major duty or responsibility of the person or group named		
	IC Information Contact		
PER-02	93 Name	Min 1 Max 60 String (AN)	Optional
	Free-form name		
PER-03	365 Communication Number Qualifier	Identifier (ID)	Required
	Code identifying the type of communication number		
	TE Telephone		
PER-04	364 Communication Number	Min 1 Max 256 String (AN)	Required
	Complete communications number including country or area code when applicable		
PER-05	365 Communication Number Qualifier	Identifier (ID)	Optional
	Code identifying the type of communication number		

EX Telephone Extension

PER-06

364 Communication Number

Min 1

Max 256

 String (AN)

Optional

Complete communications number including country or area code when applicable

2010BA Subscriber Name Loop end

2010BB Payer Name Loop

Max 1Required

Variants (all may be used)

Subscriber Name Loop

NM1

0150

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Payer Name Loop > NM1

Max use 1

Required

Payer Name

To supply the full name of an individual or organizational entity

Usage notes

- This is the destination payer.
- For the purposes of this implementation the term payer is synonymous with several other terms, such as, repricer and third party administrator.

Example

NM1*PR*2*X*****PI*XXXX~

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

PR Payer

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.

2 Non-Person Entity

NM1-03

1035 Payer Name

Min 1Max 60

String (AN)

Required

Individual last name or organizational name

NM1-08

66 Identification Code Qualifier

Identifier (ID)

Required

Code designating the system/method of code structure used for Identification Code (67)

Usage notes

- Use code value "PI" when reporting Payor Identification.
Use code value "XV" when reporting Health Plan ID (HPID) or Other Entity Identifier (OEID).

Prior to the mandated implementation date for Health Plan Identifier, willing trading partners may agree to:

Follow a dual use approach in which both the HPID or OEID and the Payor Identification are sent. Send XV qualifier in NM108 with HPID or OEID in NM109 and the Payor

Identification, that would have been sent using qualifier PI, in the corresponding REF segment using qualifier 2U (Payer Identification Number).

OR

Follow an early implementation approach in which the HPID or OEID is sent in NM109.

PI Payor Identification

XV Centers for Medicare and Medicaid Services PlanID

<u>NM1-09</u>	67 Payer Identifier	Min 2	Max 80	 String (AN)	Required
Code identifying a party or other code					

Payer Address

To specify the location of the named party

Usage notes

- Required when the payer address is available and the submitter intends for the claim to be printed on paper at the next EDI location (for example, a clearinghouse). If not required by this implementation guide, do not send.

Example

N3*XXXX*XXXX~

<u>N3-01</u>	166 Payer Address Line	Min 1	Max 55	String (AN)	Required
	Address information				
<u>N3-02</u>	166 Payer Address Line	Min 1	Max 55	String (AN)	Optional
	Address information				

N4

0300

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Payer Name Loop > N4

Max use 1

Optional

Payer City, State, ZIP Code

To specify the geographic place of the named party

Usage notes

- Required when the payer address is available and the submitter intends for the claim to be printed on paper at the next EDI location (for example, a clearinghouse). If not required by this implementation guide, do not send.

Example

N4*XXXXX*XX*XXXX*XXX~

- Only one of Payer State or Province Code (N4-02) or Country Subdivision Code (N4-07) may be present
- If Country Subdivision Code (N4-07) is present, then Country Code (N4-04) is required

N4-01	19 Payer City Name	Min 2	Max 30	String (AN)	Required
Free-form text for city name					
• A combination of either N401 through N404, or N405 and N406 may be adequate to specify a location.					
N4-02	156 Payer State or Province Code	Min 2	Max 2	Identifier (ID)	Optional
Code (Standard State/Province) as defined by appropriate government agency					
• N402 is required only if city name (N401) is in the U.S. or Canada.					
N4-03	116 Payer Postal Zone or ZIP Code	Min 3	Max 15	Identifier (ID)	Optional
Code defining international postal zone code excluding punctuation and blanks (zip code for United States)					
N4-04	26 Country Code	Min 2	Max 3	Identifier (ID)	Optional
Code identifying the country					
Usage notes					
• Use the alpha-2 country codes from Part 1 of ISO 3166.					
N4-07	1715 Country Subdivision Code	Min 1	Max 3	Identifier (ID)	Optional
Code identifying the country subdivision					
Usage notes					
• Use the country subdivision codes from Part 2 of ISO 3166.					

Payer Secondary Identification

To specify identifying information

Usage notes

- Required when an additional identification number to that provided in the NM109 of this loop is necessary to identify the entity.
If not required by this implementation guide, do not send.

Example

REF*2U*XXXX~

Variants (all may be used)

REF Billing Provider Secondary Identification

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

2U Payer Identification Number

- ☐
- This code is only allowed when the qualifier XV is reported in NM108 of this loop.

EI Employer's Identification Number

- ☐
- The Employer's Identification Number must be a string of exactly nine numbers with no separators.

For example, "001122333" would be valid, while sending "001-12-2333" or "00-1122333" would be invalid.

FY Claim Office Number

NF National Association of Insurance Commissioners (NAIC) Code

REF-02

127 Payer Secondary Identifier

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

0350

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Payer Name Loop > REF

Max use 2

Optional

Billing Provider Secondary Identification

To specify identifying information

Usage notes

- Required prior to the mandated NPI Implementation Date when an additional identification number is necessary for the receiver to identify the provider.
OR
Required on or after the mandated NPI Implementation Date when NM109 in Loop 2010AA is not used and an identification number other than the NPI is necessary for the receiver to identify the provider.
If not required by this implementation guide, do not send.

Example

REF*LU*XXX~

Variants (all may be used)

REF Payer Secondary Identification

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

- G2 Provider Commercial Number
- This code designates a proprietary provider number for the destination payer identified in the Payer Name loop, Loop ID-2010BB, associated with this claim. This is to be used by all payers including: Medicare, Medicaid, Blue Cross, etc.
- LU Location Number

REF-02

127 Billing Provider Secondary Identifier

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

2010BB Payer Name Loop end

2300 Claim Information Loop

Max 100

Optional

CLM

1300

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > CLM

Max use 1

Required

Claim Information

To specify basic data about the claim

Usage notes

- The developers of this implementation guide recommend that trading partners limit the size of the transaction (ST-SE envelope) to a maximum of 5000 CLM segments. There is no recommended limit to the number of ST-SE transactions within a GS-GE or ISA-IEA. Willing trading partners can agree to set limits higher.
- For purposes of this documentation, the claim detail information is presented only in the dependent level. Specific claim detail information can be given in either the subscriber or the dependent hierarchical level. Because of this, the claim information is said to "float." Claim information is positioned in the same hierarchical level that describes its owner-participant, either the subscriber or the dependent. In other words, the claim information, Loop ID-2300, is placed following Loop ID-2010BB in the Subscriber Hierarchical Level (HL) when patient information is sent in Loop ID-2010BA of the Subscriber HL. Claim information is placed in the Patient HL when the patient information is sent in Loop ID-2010CA of the Patient HL. When the patient is the subscriber or is considered to be the subscriber, Loop ID-2000C and Loop ID-2010CA are not sent. See Subscriber/Patient HL Segment explanation in section 1.4.3.2.2.1 for details.

Example

CLM*XXXX*00***XX>B>X*N*A*N*Y*P*AA>XX>>XX>XXX*09**
*****5~

CLM-01

1028 Patient Control Number

Min 1

Max 38

String (AN)

Required

Identifier used to track a claim from creation by the health care provider through payment

Usage notes

- The number that the submitter transmits in this position is echoed back to the submitter in the 835 and other transactions. This permits the submitter to use the value in this field as a key in the submitter's system to match the claim to the payment information returned in the 835 transaction. The two recommended identifiers are either the Patient Account Number or the Claim Number in the billing submitter's patient management system. The developers of this implementation guide strongly recommend that submitters use unique numbers for this field for each individual claim.
- When Loop ID-2010AC is present, CLM01 represents the subrogated Medicaid agency's claim number (ICN/DCN) from their original 835 CLP07 - Payer Claim Control Number. See Section 1.4.1.4 of the front matter for a description of post payment recovery claims for subrogated Medicaid agencies.
- The maximum number of characters to be supported for this field is '20'. Characters beyond the maximum are not required to be stored nor returned by any 837-receiving system.

CLM-02 **782 Total Claim Charge Amount** Min 1 Max 15 # Decimal number (R) Required

Monetary amount

- CLM02 is the total amount of all submitted charges of service segments for this claim.

Usage notes

- The Total Claim Charge Amount must be greater than or equal to zero.
- The total claim charge amount must balance to the sum of all service line charge amounts reported in the Professional Service (SV1) segments for this claim.

CLM-05 **C023 Health Care Service Location Information** Max use 1 Required

To provide information that identifies the place of service or the type of bill related to the location at which a health care service was rendered

C023-01 **1331 Place of Service Code** Min 1 Max 2 T String (AN) Required

Code identifying where services were, or may be, performed; the first and second positions of the Uniform Bill Type Code for Institutional Services or the Place of Service Codes for Professional or Dental Services.

C023-02 **1332 Facility Code Qualifier** Identifier (ID) Required

Code identifying the type of facility referenced

- C023-02 qualifies C023-01 and C023-03.

B Place of Service Codes for Professional or Dental Services

C023-03 **1325 Claim Frequency Code** Min 1 Max 1 Identifier (ID) Required

Code specifying the frequency of the claim; this is the third position of the Uniform Billing Claim Form Bill Type

CLM-06 **1073 Provider or Supplier Signature Indicator** Identifier (ID) Required

Code indicating a Yes or No condition or response

- CLM06 is provider signature on file indicator. A "Y" value indicates the provider signature is on file; an "N" value indicates the provider signature is not on file.

N No

Y Yes

CLM-07 **1359 Assignment or Plan Participation Code** Identifier (ID) Required

Code indicating whether the provider accepts assignment

Usage notes

- Within this element the context of the word assignment is related to the relationship between the provider and the payer. This is NOT the field for reporting whether the patient has or has not assigned benefits to the provider. The benefit assignment indicator is in CLM08.

A Assigned

- ☐ Required when the provider accepts assignment and/or has a participation agreement with the destination payer.

OR

Required when the provider does not accept assignment and/or have a participation agreement, but is advising the payer to adjudicate this specific claim under participating provider benefits as allowed under certain plans.

B Assignment Accepted on Clinical Lab Services Only

- ☐ Required when the provider accepts assignment for Clinical Lab Services only.

C Not Assigned

- ☐ Required when neither codes A ' nor B' apply.

CLM-08 1073 Benefits Assignment Certification Indicator

Identifier (ID)

Required

Code indicating a Yes or No condition or response

- CLM08 is assignment of benefits indicator. A "Y" value indicates insured or authorized person authorizes benefits to be assigned to the provider; an "N" value indicates benefits have not been assigned to the provider.

Usage notes

- This element answers the question whether or not the insured has authorized the plan to remit payment directly to the provider.

N No

W Not Applicable

- ☐ Use code 'W' when the patient refuses to assign benefits.

Y Yes

CLM-09 1363 Release of Information Code

Identifier (ID)

Required

Code indicating whether the provider has on file a signed statement by the patient authorizing the release of medical data to other organizations

Usage notes

- The Release of Information response is limited to the information carried in this claim.

I Informed Consent to Release Medical Information for Conditions or Diagnoses Regulated by Federal Statutes

- ☐ Required when the provider has not collected a signature AND state or federal laws do not require a signature be collected.

Y Yes, Provider has a Signed Statement Permitting Release of Medical Billing Data Related to a Claim

- ☐ Required when the provider has collected a signature.

OR

Required when state or federal laws require a signature be collected.

CLM-10 1351 Patient Signature Source Code

Identifier (ID)

Optional

Code indicating how the patient or subscriber authorization signatures were obtained and how they are being retained by the provider

P Signature generated by provider because the patient was not physically present for services

☐ Signature generated by an entity other than the patient according to State or Federal law.

CLM-11

C024 Related Causes Information

To identify one or more related causes and associated state or country information

Max use 1

Optional

Usage notes

Required when the services provided are employment related or the result of an accident.

If not required by this implementation guide, do not send.

C024-01 **1362 Related Causes Code**

Identifier (ID)

Required

Code identifying an accompanying cause of an illness, injury or an accident

AA Auto Accident

EM Employment

OA Other Accident

C024-02 **1362 Related Causes Code**

Min 2

Max 3

Identifier (ID)

Optional

Code identifying an accompanying cause of an illness, injury or an accident

C024-04 **156 Auto Accident State or Province Code**

Identifier (ID)

Optional

Min 2 Max 2

Code (Standard State/Province) as defined by appropriate government agency

- C024-04 and C024-05 apply only to auto accidents when C024-01, C024-02, or C024-03 is equal to "AA".

C024-05 **26 Country Code**

Min 2

Max 3

Identifier (ID)

Optional

Code identifying the country

CLM-12

1366 Special Program Indicator

Identifier (ID)

Optional

Code indicating the Special Program under which the services rendered to the patient were performed

02 Physically Handicapped Children's Program

☐ This code is used for Medicaid claims only.

03 Special Federal Funding

☐ This code is used for Medicaid claims only.

05 Disability

☐ This code is used for Medicaid claims only.

09 Second Opinion or Surgery

☐ This code is used for Medicaid claims only.

CLM-20 **1514 Delay Reason Code**

■ Identifier (ID) **Optional**

Code indicating the reason why a request was delayed

- 1** Proof of Eligibility Unknown or Unavailable
- 2** Litigation
- 3** Authorization Delays
- 4** Delay in Certifying Provider
- 5** Delay in Supplying Billing Forms
- 6** Delay in Delivery of Custom-made Appliances
- 7** Third Party Processing Delay
- 8** Delay in Eligibility Determination
- 9** Original Claim Rejected or Denied Due to a Reason Unrelated to the Billing Limitation Rules
- 10** Administration Delay in the Prior Approval Process
- 11** Other
- 15** Natural Disaster

Date - Accident

To specify any or all of a date, a time, or a time period

Usage notes

- Required when CLM11-1 or CLM11-2 has a value of AA' or OA'.
OR
Required when CLM11-1 or CLM11-2 has a value of `EM' and this claim is the result of an accident.
If not required by this implementation guide, do not send.

Example

DTP*439*D8*XX~

Variants (all may be used)

- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

439 Accident

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Accident Date

Min 1

Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Acute Manifestation

To specify any or all of a date, a time, or a time period

Usage notes

- Required when Loop ID-2300 CR208 = "A" or "M", the claim involves spinal manipulation, and the payer is Medicare. If not required by this implementation guide, do not send.

Example

DTP*453*D8*XXXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

453 Acute Manifestation of a Chronic Condition

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Acute Manifestation Date

Min 1 Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Admission

To specify any or all of a date, a time, or a time period

Usage notes

- Required on all ambulance claims when the patient was known to be admitted to the hospital.
- OR
- Required on all claims involving inpatient medical visits.
- If not required by this implementation guide, do not send.

Example

DTP*435*D8*XX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

435 Admission

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Related Hospitalization Admission Date

Min 1Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Assumed and Relinquished Care Dates

To specify any or all of a date, a time, or a time period

Usage notes

- Required to indicate "assumed care date" or "relinquished care date" when providers share post-operative care (global surgery claims). If not required by this implementation guide, do not send.
- Assumed Care Date is the date care was assumed by another provider during post-operative care. Relinquished Care Date is the date the provider filing this claim ceased post-operative care. See Medicare guidelines for further explanation of these dates.

Example: Surgeon "A" relinquished post-operative care to Physician "B" five days after surgery. When Surgeon "A" submits a claim, "A" will use code "091 - Report End" to indicate the day the surgeon relinquished care of this patient to Physician "B". When Physician "B" submits a claim, "B" will use code "090 - Report Start" to indicate the date they assumed care of this patient from Surgeon "A".

Example

DTP*090*D8*XXXXXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

- 090 Report Start
- ☐ Assumed Care Date - Use code "090" to indicate the date the provider filing this claim assumed care from another provider during post-operative care.
- 091 Report End
- ☐ Relinquished Care Date - Use code "091" to indicate the date the provider filing this claim relinquished post-operative care to another provider.

DTP-02

1250

Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251

Assumed or Relinquished Care Date

Min 1

Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Authorized Return to Work

To specify any or all of a date, a time, or a time period

Usage notes

- Required on claims where this information is necessary for adjudication of the claim (for example, workers compensation claims involving absence from work). If not required by this implementation guide, do not send.

Example

DTP*296*D8*XXXXXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

- 296 Initial Disability Period Return To Work
- ☐ This is the date the provider has authorized the patient to return to work.

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Work Return Date

Min 1Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Disability Dates

To specify any or all of a date, a time, or a time period

Usage notes

- Required on claims involving disability where, in the judgment of the provider, the patient was or will be unable to perform the duties normally associated with his/her work.
- OR
- Required on non-HIPAA claims (for example workers compensation or property and casualty) when required by the claims processor.
- If not required by this implementation guide, do not send.

Example

DTP*360*RD8*XXXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

- 314 Disability
 - ☐ Use code 314 when both disability start and end date are being reported.
- 360 Initial Disability Period Start
 - ☐ Use code 360 if patient is currently disabled and disability end date is unknown.
- 361 Initial Disability Period End
 - ☐ Use code 361 if patient is no longer disabled and the start date is unknown.

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

☐ Use code D8 when DTP01 is 360 or 361.

RD8 Range of Dates Expressed in Format CCYYMMDD-CCYYMMDD

☐ Use code RD8 when DTP01 is 314.

DTP-03

1251 Disability From Date

Min 1

Max 35

 String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Discharge

To specify any or all of a date, a time, or a time period

Usage notes

- Required for inpatient claims when the patient was discharged from the facility and the discharge date is known. If not required by this implementation guide, do not send.

Example

DTP*096*D8*XXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

096 Discharge

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Related Hospitalization Discharge Date

Min 1

Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Hearing and Vision Prescription Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required on claims where a prescription has been written for hearing devices or vision frames and lenses and it is being billed on this claim. If not required by this implementation guide, do not send.

Example

DTP*471*D8*XX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01	374 Date Time Qualifier	Identifier (ID)	Required
	Code specifying type of date or time, or both date and time		
	471 Prescription		
DTP-02	1250 Date Time Period Format Qualifier	Identifier (ID)	Required
	Code indicating the date format, time format, or date and time format		
	DTP02 is the date or time or period format that will appear in DTP03.		
	D8 Date Expressed in Format CCYYMMDD		
DTP-03	1251 Prescription Date	Min 1 Max 35 String (AN)	Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Last Menstrual Period

To specify any or all of a date, a time, or a time period

Usage notes

- Required when, in the judgment of the provider, the services on this claim are related to the patient's pregnancy. If not required by this implementation guide, do not send.

Example

DTP*484*D8*XXXXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

484 Last Menstrual Period

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Last Menstrual Period Date

Min 1Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Onset of Current Illness or Symptom

To specify any or all of a date, a time, or a time period

Usage notes

- Required for the initial medical service or visit performed in response to a medical emergency when the date is available and is different than the date of service. If not required by this implementation guide, do not send.
- This date is the onset of acute symptoms for the current illness or condition.

Example

DTP*431*D8*X~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

431 Onset of Current Symptoms or Illness

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Onset of Current Illness or Injury Date

Min 1 Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Initial Treatment Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when the Initial Treatment Date is known to impact adjudication for claims involving spinal manipulation, physical therapy, occupational therapy, speech language pathology, dialysis, optical refractions, or pregnancy. If not required by this implementation guide, do not send.
- Dates in Loop ID-2300 apply to all service lines within Loop ID-2400 unless a DTP segment occurs in Loop ID-2400 with the same value in DTP01. In that case, the DTP in Loop ID-2400 overrides the DTP in Loop ID-2300 for that service line only.

Example

DTP*454*D8*XXXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

454 Initial Treatment

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Initial Treatment Date

Min 1

Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Last Seen Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when claims involve services for routine foot care and it is known to impact the payer's adjudication process. If not required by this implementation guide, do not send.
- This is the date that the patient was seen by the attending or supervising physician for the qualifying medical condition related to the services performed.
- Dates in Loop ID-2300 apply to all service lines within Loop ID-2400 unless a DTP segment occurs in Loop ID-2400 with the same value in DTP01. In that case, the DTP in Loop ID-2400 overrides the DTP in Loop ID-2300 for that service line only.

Example

DTP*304*D8*XX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01	374 Date Time Qualifier	Identifier (ID)	Required
	Code specifying type of date or time, or both date and time		
	304 Latest Visit or Consultation		
DTP-02	1250 Date Time Period Format Qualifier	Identifier (ID)	Required
	Code indicating the date format, time format, or date and time format		
	• DTP02 is the date or time or period format that will appear in DTP03.		

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Last Seen Date

Min 1Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

DTP

1350

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > DTP

Max use 1

Optional

Date - Last Worked

To specify any or all of a date, a time, or a time period

Usage notes

- Required on claims where this information is necessary for adjudication of the claim (for example, workers compensation claims involving absence from work). If not required by this implementation guide, do not send.

Example

DTP*297*D8*XXXXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

297 Initial Disability Period Last Day Worked

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Last Worked Date

Min 1

Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Last X-ray Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when claim involves spinal manipulation and an x-ray was taken. If not required by this implementation guide, do not send.
- Dates in Loop ID-2300 apply to all service lines within Loop ID-2400 unless a DTP segment occurs in Loop ID-2400 with the same value in DTP01. In that case, the DTP in Loop ID-2400 overrides the DTP in Loop ID-2300 for that service line only.

Example

DTP*455*D8*X~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

455 Last X-Ray

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Last X-Ray Date

Min 1 Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Property and Casualty Date of First Contact

To specify any or all of a date, a time, or a time period

Usage notes

- Required for Property and Casualty claims when state mandated. If not required by this implementation guide, do not send.
- This is the date the patient first consulted the service provider for this condition. The date of first contact is the date the patient first consulted the provider by any means. It is not necessarily the Initial Treatment Date.

Example

DTP*444*D8*XXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Code specifying type of date or time, or both date and time

444 First Visit or Consultation

Identifier (ID)

Required

DTP-02

1250 Date Time Period Format Qualifier

Code indicating the date format, time format, or date and time format

DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

Identifier (ID)

Required

DTP-03

1251 Date Time Period

Min 1 Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Repricer Received Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when a repricer is passing the claim onto the payer. If not required by this implementation guide, do not send.

Example

DTP*050*D8*XXXXXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact

<u>DTP-01</u>	374 Date Time Qualifier	Identifier (ID)	Required
Code specifying type of date or time, or both date and time			
050 Received			
<u>DTP-02</u>	1250 Date Time Period Format Qualifier	Identifier (ID)	Required
Code indicating the date format, time format, or date and time format			
DTP02 is the date or time or period format that will appear in DTP03.			
D8 Date Expressed in Format CCYYMMDD			
<u>DTP-03</u>	1251 Repricer Received Date	Min 1 Max 35 String (AN)	Required

Expression of a date, a time, or range of dates, times or dates and times

Claim Supplemental Information

To identify the type or transmission or both of paperwork or supporting information

Usage notes

- Required when there is a paper attachment following this claim.
OR
Required when attachments are sent electronically (PWK02 = EL) but are transmitted in another functional group (for example, 275) rather than by paper. PWK06 is then used to identify the attached electronic documentation. The number in PWK06 is carried in the TRN of the electronic attachment.
OR
Required when the provider deems it necessary to identify additional information that is being held at the provider's office and is available upon request by the payer (or appropriate entity), but the information is not being submitted with the claim. Use the value of "AA" in PWK02 to convey this specific use of the PWK segment.
If not required by this implementation guide, do not send.

Example

PWK*06*BM***AC*XXXXXXX~

- If either Identification Code Qualifier (PWK-05) or Attachment Control Number (PWK-06) is present, then the other is required

PWK-01

755 Attachment Report Type Code

Identifier (ID)

Required

Code indicating the title or contents of a document, report or supporting item

- 03 Report Justifying Treatment Beyond Utilization Guidelines
- 04 Drugs Administered
- 05 Treatment Diagnosis
- 06 Initial Assessment
- 07 Functional Goals
- 08 Plan of Treatment
- 09 Progress Report
- 10 Continued Treatment
- 11 Chemical Analysis
- 13 Certified Test Report
- 15 Justification for Admission
- 21 Recovery Plan
- A3 Allergies/Sensitivities Document
- A4 Autopsy Report
- AM Ambulance Certification
- AS Admission Summary
- B2 Prescription
- B3 Physician Order
- B4 Referral Form
- BR Benchmark Testing Results
- BS Baseline
- BT Blanket Test Results
- CB Chiropractic Justification

CK Consent Form(s)
CT Certification
D2 Drug Profile Document

V5 Death Notification
XP Photographs

PWK-02 **756 Attachment Transmission Code**

Identifier (ID) **Required**

Code defining timing, transmission method or format by which reports are to be sent

AA Available on Request at Provider Site

- ☐ This means that the additional information is not being sent with the claim at this time.
 Instead, it is available to the payer (or appropriate entity) at their request.

BM By Mail

EL Electronically Only

- ☐ Indicates that the attachment is being transmitted in a separate X12 functional group.

EM E-Mail

FT File Transfer

- ☐ Required when the actual attachment is maintained by an attachment warehouse or similar vendor.

FX By Fax

PWK-05

66 Identification Code Qualifier

■ Identifier (ID)

Optional

Code designating the system/method of code structure used for Identification Code (67)

- PWK05 and PWK06 may be used to identify the addressee by a code number.

AC Attachment Control Number

PWK-06

67 Attachment Control Number

Min 2 Max 80 ■ String (AN)

Optional

Code identifying a party or other code

Usage notes

- PWK06 is used to identify the attached electronic documentation. The number in PWK06 is carried in the TRN of the electronic attachment.
- For the purpose of this implementation, the maximum field length is 50.

Contract Information

To specify basic data about the contract or contract line item

Usage notes

- The developers of this implementation guide note that the CN1 segment is for use only for post-adjudicated claims, which do not meet the definition of a health care claim under HIPAA. Consequently, at the time of this writing, the CN1 segment is for non-HIPAA use only.
- Required when the submitter is contractually obligated to supply this information on post-adjudicated claims. If not required by this implementation guide, do not send.

Example

CN1*04*0000*0000*XXXXX*0*X~

CN1-01	1166 Contract Type Code	Identifier (ID)	Required
	Code identifying a contract type		
	01 Diagnosis Related Group (DRG)		
	02 Per Diem		
	03 Variable Per Diem		
	04 Flat		
	05 Capitated		
	06 Percent		
	09 Other		
CN1-02	782 Contract Amount	Min 1Max 15# Decimal number (R)	Optional
	Monetary amount		
	CN102 is the contract amount.		
CN1-03	332 Contract Percentage	Min 1Max 6# Decimal number (R)	Optional
	Percent given in decimal format (e.g., 0.0 through 100.0 represents 0% through 100%)		
	CN103 is the allowance or charge percent.		
CN1-04	127 Contract Code	Min 1Max 50String (AN)	Optional
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier		
	CN104 is the contract code.		
CN1-05	338 Terms Discount Percentage	Min 1Max 6# Decimal number (R)	Optional

Terms discount percentage, expressed as a percent, available to the purchaser if an invoice is paid on or before the Terms Discount Due Date

CN1-06

799 Contract Version Identifier

Min 1

Max 30

 String (AN)

Optional

Revision level of a particular format, program, technique or algorithm

- CN106 is an additional identifying number for the contract.

Patient Amount Paid

To indicate the total monetary amount

Usage notes

- Required when patient has made payment specifically toward this claim. If not required by this implementation guide, do not send.
- Patient Amount Paid refers to the sum of all amounts paid on the claim by the patient or his or her representative(s).

Example

AMT*F5*000~

AMT-01	522 Amount Qualifier Code	Identifier (ID)	Required
	Code to qualify amount		
	F5 Patient Amount Paid		
AMT-02	782 Patient Amount Paid	Min 1 Max 15 # Decimal number (R)	Required
	Monetary amount		

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Clinical Laboratory Improvement Amendment (CLIA) Number

To specify identifying information

Usage notes

- Required for all CLIA certified facilities performing CLIA covered laboratory services. If not required by this implementation guide, do not send.
- If a CLIA number is indicated at the line level (Loop ID-2400) in addition to the claim level (Loop ID-2300), that would indicate an exception to the CLIA number at the claim level for that individual line.
- In cases where this claim contains both in-house and outsourced laboratory services, the CLIA Number for laboratory services performed by the Billing or Rendering Provider is reported in this loop. The CLIA number for laboratory services which were outsourced is reported in Loop ID-2400.

Example

REF *X4 *X~

Variants (all may be used)

- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Referral Number
- REF Repriced Claim Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

X4 Clinical Laboratory Improvement Amendment Number

REF-02

127 Clinical Laboratory Improvement Amendment Number

String (AN)

Required

Min 1 Max 50

Reference information as defined for a particular Transaction Set or as specified by the
Reference Identification Qualifier

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Adjusted Repriced Claim Number

To specify identifying information

Usage notes

- Required when this information is deemed necessary by the repricer. The segment is not completed by providers. The information is completed by repricers only. If not required by this implementation guide, do not send.
- This information is specific to the destination payer reported in Loop ID-2010BB.

Example

REF*9C*XX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Referral Number
- REF Repriced Claim Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

9C Adjusted Repriced Claim Reference Number

REF-02

127 Adjusted Repriced Claim Reference Number

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Care Plan Oversight

To specify identifying information

Usage notes

- Required when the physician is billing Medicare for Care Plan Oversight (CPO). If not required by this implementation guide, do not send.
- This is the number of the home health agency or hospice providing Medicare covered services to the patient for the period during which CPO services were furnished. Prior to the mandated HIPAA National Provider Identifier (NPI) implementation date this number is the Medicare Number. On or after the mandated HIPAA National Provider Identifier (NPI) implementation date this is the NPI.

Example

REF*1J*X~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Referral Number
- REF Repriced Claim Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Investigational Device Exemption Number

To specify identifying information

Usage notes

- Required when claim involves a Food and Drug Administration (FDA) assigned investigational device exemption (IDE) number. When more than one IDE applies, they must be split into separate claims. If not required by this implementation guide, do not send.

Example

REF*LX*XXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Referral Number
- REF Repriced Claim Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

LX Qualified Products List

REF-02

127 Investigational Device Exemption Identifier

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Claim Identifier For Transmission Intermediaries

To specify identifying information

Usage notes

- Required when this information is deemed necessary by transmission intermediaries (Automated Clearinghouses, and others) who need to attach their own unique claim number. If not required by this implementation guide, do not send.
- Although this REF is supplied for transmission intermediaries to attach their own unique claim number to a claim, 837-recipients are not required under HIPAA to return this number in any HIPAA transaction. Trading partners may voluntarily agree to this interaction if they wish.

Example

REF*D9*XXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Referral Number
- REF Repriced Claim Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

Usage notes

- Number assigned by clearinghouse, van, etc.

D9 Claim Number

REF-02

127 Value Added Network Trace Number

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- The value carried in this element is limited to a maximum of 20 positions.

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Mammography Certification Number

To specify identifying information

Usage notes

- Required when mammography services are rendered by a certified mammography provider. If not required by this implementation guide, do not send.

Example

REF*EW*XXXXXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Referral Number
- REF Repriced Claim Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

EW Mammography Certification Number

REF-02

127 Mammography Certification Number

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Mandatory Medicare (Section 4081) Crossover Indicator

To specify identifying information

Usage notes

- Required when the submitter is Medicare and the claim is a Medigap or COB crossover claim. If not required by this implementation guide, do not send.

Example

REF*F5*XX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Referral Number
- REF Repriced Claim Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

F5 Medicare Version Code

REF-02

127 Medicare Section 4081 Indicator

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- The allowed values for this element are:
 - Y 4081
 - N Regular crossover

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Prior Authorization

To specify identifying information

Usage notes

- Generally, preauthorization numbers are assigned by the payer or UMO to authorize a service prior to its being performed. The UMO (Utilization Management Organization) is generally the entity empowered to make a decision regarding the outcome of a health services review or the owner of information. The prior authorization number carried in this REF is specific to the destination payer reported in the Loop ID-2010BB. If other payers have similar numbers for this claim, report that information in the Loop ID-2330 loop REF which holds that payer's information.
- Numbers at this position apply to the entire claim unless they are overridden in the REF segment in Loop ID-2400. A reference identification is considered to be overridden if the value in REF01 is the same in both the Loop ID-2300 REF segment and the Loop ID-2400 REF segment. In that case, the Loop ID-2400 REF applies only to that specific line.
- Required when an authorization number is assigned by the payer or UMO
AND
the services on this claim were preauthorized.
If not required by this implementation guide, do not send.

Example

REF*G1*XXXXXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Payer Claim Control Number
- REF Referral Number
- REF Repriced Claim Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

G1 Prior Authorization Number

REF-02

127 Prior Authorization Number

Min 1 Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the
Reference Identification Qualifier

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Payer Claim Control Number

To specify identifying information

Usage notes

- Required when CLM05-3 (Claim Frequency Code) indicates this claim is a replacement or void to a previously adjudicated claim. If not required by this implementation guide, do not send.
- This information is specific to the destination payer reported in Loop ID-2010BB.

Example

REF*F8*X~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Referral Number
- REF Repriced Claim Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

F8 Original Reference Number

REF-02

127 Payer Claim Control Number

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Referral Number

To specify identifying information

Usage notes

- Required when a referral number is assigned by the payer or Utilization Management Organization (UMO)
AND
a referral is involved.
If not required by this implementation guide, do not send.
- Numbers at this position apply to the entire claim unless they are overridden in the REF segment in Loop ID-2400. A reference identification is considered to be overridden if the value in REF01 is the same in both the Loop ID-2300 REF segment and the Loop ID-2400 REF segment. In that case, the Loop ID-2400 REF applies only to that specific line.

Example

REF*9F*XXXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Repriced Claim Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

9F Referral Number

REF-02

127 Referral Number

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the
Reference Identification Qualifier

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Repriced Claim Number

To specify identifying information

Usage notes

- Required when this information is deemed necessary by the repricer. The segment is not completed by providers. The information is completed by repricers only. If not required by this implementation guide, do not send.
- This information is specific to the destination payer reported in Loop ID-2010BB.

Example

REF*9A*XXXXXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Referral Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

9A Repriced Claim Reference Number

REF-02

127 Repriced Claim Reference Number

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Medical Record Number

To specify identifying information

Usage notes

- Required when the provider needs to identify for future inquiries, the actual medical record of the patient identified in either Loop ID-2010BA or Loop ID-2010CA for this episode of care. If not required by this implementation guide, do not send.

Example

REF*EA*X~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Referral Number
- REF Repriced Claim Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

EA Medical Record Identification Number

REF-02

127 Medical Record Number

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Service Authorization Exception Code

To specify identifying information

Usage notes

- Required when mandated by government law or regulation to obtain authorization for specific service(s) but, for the reasons listed in REF02, the service was performed without obtaining the authorization. If not required by this implementation guide, do not send.

Example

REF*4N*X~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Referral Number
- REF Repriced Claim Number
- REF Medical Record Number

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

4N Special Payment Reference Number

REF-02

127 Service Authorization Exception Code

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- Allowable values for this element are:
 - 1 Immediate/Urgent Care
 - 2 Services Rendered in a Retroactive Period
 - 3 Emergency Care
 - 4 Client has Temporary Medicaid
 - 5 Request from County for Second Opinion to Determine if Recipient Can Work

- 6 Request for Override Pending
- 7 Special Handling

File Information

To transmit a fixed-format record or matrix contents

Usage notes

- Required when ALL of the following conditions are met:
- A regulatory agency concludes it must use the K3 to meet an emergency legislative requirement;
- The administering regulatory agency or other state organization has completed each one of the following steps:
contacted the X12N workgroup,
requested a review of the K3 data requirement to ensure there is not an existing method within the implementation guide to meet this requirement
- X12N determines that there is no method to meet the requirement.
If not required by this implementation guide, do not send.
- At the time of publication of this implementation, K3 segments have no specific use.
The K3 segment is expected to be used only when necessary to meet the unexpected data requirement of a legislative authority. Before this segment can be used :
- The X12N Health Care Claim workgroup must conclude there is no other available option in the implementation guide to meet the emergency legislative requirement.
- The requestor must submit a proposal for approval accompanied by the relevant business documentation to the X12N Health Care Claim workgroup chairs and receive approval for the request.
Upon review of the request, X12N will issue an approval or denial decision to the requesting entity. Approved usage(s) of the K3 segment will be reviewed by the X12N Health Care Claim workgroup to develop a permanent change to include the business case in future transaction implementations.
- Only when all of the requirements above have been met, may the regulatory agency require the temporary use of the K3 segment.
- X12N will submit the necessary data maintenance and refer the request to the appropriate data content committee(s).

Example

K3*XXXXXX~

K3-01	449 Fixed Format Information	Min 1	Max 80	String (AN)	Required
-------	------------------------------	-------	--------	-------------	----------

Data in fixed format agreed upon by sender and receiver

NTE

1900

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > NTE

Max use 1

Optional

Claim Note

To transmit information in a free-form format, if necessary, for comment or special instruction

Usage notes

- Required when in the judgment of the provider, the information is needed to substantiate the medical treatment and is not supported elsewhere within the claim data set.
If not required by this implementation guide, do not send.
- Information in the NTE segment in Loop ID-2300 applies to the entire claim unless overridden by information in the NTE segment in Loop ID-2400. Information is considered to be overridden when the value in NTE01 in Loop ID-2400 is the same as the value in NTE01 in Loop ID-2300.
- The developers of this implementation guide discourage using narrative information within the 837. Trading partners who use narrative information with claims are strongly encouraged to codify that information within the X12 environment.;

Example

NTE*TPO*XXXXX~

NTE-01	363 Note Reference Code	Identifier (ID)	Required
Code identifying the functional area or purpose for which the note applies			
ADD Additional Information			
CER Certification Narrative			
DCP Goals, Rehabilitation Potential, or Discharge Plans			
DGN Diagnosis Description			
TPO Third Party Organization Notes			
NTE-02	352 Claim Note Text	Min 1 Max 80 String (AN)	Required
A free-form description to clarify the related data elements and their content			

CR1

1950

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > CR1

Max use 1

Optional

Ambulance Transport Information

To supply information related to the ambulance service rendered to a patient

Usage notes

Required when it is necessary to justify the medical necessity of the level of ambulance services. If not required by this implementation guide, do not send.

- Required on all claims involving ambulance transport services. If not required by this implementation guide, do not send.
- The CR1 segment in Loop ID-2300 applies to the entire claim unless overridden by a CR1 segment at the service line level in Loop ID-2400 with the same value in CR101.

Example

CR1*LB*000000**C*DH*0***XXX*XX~

- If either Unit or Basis for Measurement Code (CR1-01) or Patient Weight (CR1-02) is present, then the other is required

CR1-01 355 Unit or Basis for Measurement Code

■ Identifier (ID)

Optional

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

LB Pound

CR1-02 81 Patient Weight

Min 1 Max 10 # Decimal number (R)

Optional

Numeric value of weight

- CR102 is the weight of the patient at time of transport.

CR1-04 1317 Ambulance Transport Reason Code

■ Identifier (ID)

Required

Code indicating the reason for ambulance transport

- A Patient was transported to nearest facility for care of symptoms, complaints, or both
 - ☐ Can be used to indicate that the patient was transferred to a residential facility.
- B Patient was transported for the benefit of a preferred physician
- C Patient was transported for the nearness of family members
- D Patient was transported for the care of a specialist or for availability of specialized equipment
- E Patient Transferred to Rehabilitation Facility

CR1-05 355 Unit or Basis for Measurement Code

■ Identifier (ID)

Required

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

DH Miles

CR1-06

380 Transport Distance

Min 1Max 15# Decimal number (R)

Required

Numeric value of quantity

- CR106 is the distance traveled during transport.

Usage notes

- 0 (zero) is a valid value when ambulance services do not include a charge for mileage.

CR1-09

352 Round Trip Purpose Description

Min 1Max 80T String (AN)

Optional

A free-form description to clarify the related data elements and their content

- CR109 is the purpose for the round trip ambulance service.

CR1-10

352 Stretcher Purpose Description

Min 1Max 80T String (AN)

Optional

A free-form description to clarify the related data elements and their content

- CR110 is the purpose for the usage of a stretcher during ambulance service.

Spinal Manipulation Service Information

To supply information related to the chiropractic service rendered to a patient

Usage notes

- Required on chiropractic claims involving spinal manipulation when the information is known to impact the payer's adjudication process. If not required by this implementation guide, do not send.

Example

CR2*****M**XXXX*XX~

CR2-08

1342 Patient Condition Code

Identifier (ID)

Required

Code indicating the nature of a patient's condition

- A Acute Condition
- C Chronic Condition
- D Non-acute
- E Non-Life Threatening
- F Routine
- G Symptomatic
- M Acute Manifestation of a Chronic Condition

CR2-10

352 Patient Condition Description

Min 1Max 80

String (AN)

Optional

A free-form description to clarify the related data elements and their content

- CR210 is a description of the patient's condition.

CR2-11

352 Patient Condition Description

Min 1Max 80

String (AN)

Optional

A free-form description to clarify the related data elements and their content

- CR211 is an additional description of the patient's condition.

Ambulance Certification

To supply information on conditions

Usage notes

- Required when the claim involves ambulance transport services
AND
when reporting condition codes in any of CRC03 through CRC07. If not required by this implementation guide, do not send.
- The CRC segment in Loop ID-2300 applies to the entire claim unless overridden by a CRC segment at the service line level in Loop ID-2400 with the same value in CRC01.
- Repeat this segment only when it is necessary to report additional unique values to those reported in CRC03 thru CRC07.

Example

CRC*07*N*12*XXX*XX*XXX*XX~

Variants (all may be used)

- CRC Patient Condition Information: Vision
- CRC Homebound Indicator
- CRC EPSDT Referral

CRC-01	1136 Code Category	Identifier (ID)	Required
Specifies the situation or category to which the code applies			
• CRC01 qualifies CRC03 through CRC07.			
07 Ambulance Certification			
CRC-02	1073 Certification Condition Indicator	Identifier (ID)	Required
Code indicating a Yes or No condition or response			
• CRC02 is a Certification Condition Code applies indicator. A "Y" value indicates the condition codes in CRC03 through CRC07 apply; an "N" value indicates the condition codes in CRC03 through CRC07 do not apply.			
N No			
Y Yes			
CRC-03	1321 Condition Code	Identifier (ID)	Required
Code indicating a condition			
Usage notes			
• The codes for CRC03 also can be used for CRC04 through CRC07.			
01 Patient was admitted to a hospital			
04 Patient was moved by stretcher			
05 Patient was unconscious or in shock			

- 06 Patient was transported in an emergency situation
- 07 Patient had to be physically restrained
- 08 Patient had visible hemorrhaging
- 09 Ambulance service was medically necessary
- 12 Patient is confined to a bed or chair
- ☐ Use code 12 to indicate patient was bedridden during transport.

CRC-04

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-05

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-06

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-07

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

Patient Condition Information: Vision

To supply information on conditions

Usage notes

- Required on vision claims involving replacement lenses or frames when this information is known to impact reimbursement. If not required by this implementation guide, do not send.

Example

CRC*E2*Y*L4*XX*XXX*XX*XXX~

Variants (all may be used)

- CRC Ambulance Certification
- CRC Homebound Indicator
- CRC EPSDT Referral

CRC-01

1136 Code Category

Identifier (ID)

Required

Specifies the situation or category to which the code applies

- CRC01 qualifies CRC03 through CRC07.

- E1 Spectacle Lenses
- E2 Contact Lenses
- E3 Spectacle Frames

CRC-02

1073 Certification Condition Indicator

Identifier (ID)

Required

Code indicating a Yes or No condition or response

- CRC02 is a Certification Condition Code applies indicator. A "Y" value indicates the condition codes in CRC03 through CRC07 apply; an "N" value indicates the condition codes in CRC03 through CRC07 do not apply.

- N No
- Y Yes

CRC-03

1321 Condition Code

Identifier (ID)

Required

Code indicating a condition

- L1 General Standard of 20 Degree or .5 Diopter Sphere or Cylinder Change Met
- L2 Replacement Due to Loss or Theft
- L3 Replacement Due to Breakage or Damage
- L4 Replacement Due to Patient Preference
- L5 Replacement Due to Medical Reason

CRC-04

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-05

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-06

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-07

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

Homebound Indicator

To supply information on conditions

Usage notes

- Required for Medicare claims when an independent laboratory renders an EKG tracing or obtains a specimen from a homebound or institutionalized patient. If not required by this implementation guide, do not send.

Example

CRC*75*Y*IH~

Variants (all may be used)

CRC Ambulance Certification

CRC Patient Condition Information: Vision

CRC EPSDT Referral

CRC-01	1136 Code Category	Identifier (ID)	Required
	Specifies the situation or category to which the code applies CRC01 qualifies CRC03 through CRC07.		
	75 Functional Limitations		
CRC-02	1073 Certification Condition Indicator	Identifier (ID)	Required
	Code indicating a Yes or No condition or response CRC02 is a Certification Condition Code applies indicator. A "Y" value indicates the condition codes in CRC03 through CRC07 apply; an "N" value indicates the condition codes in CRC03 through CRC07 do not apply.		
	Y Yes		
CRC-03	1321 Homebound Indicator	Identifier (ID)	Required
	Code indicating a condition		
	IH Independent at Home		

EPSDT Referral

To supply information on conditions

Usage notes

- Required on Early & Periodic Screening, Diagnosis, and Treatment (EPSDT) claims when the screening service is being billed in this claim. If not required by this implementation guide, do not send.

Example

CRC*ZZ*Y*AV*XX*XXX~

Variants (all may be used)

- CRC Ambulance Certification
- CRC Patient Condition Information: Vision
- CRC Homebound Indicator

CRC-01

1136 Code Qualifier

Identifier (ID)

Required

Specifies the situation or category to which the code applies

- CRC01 qualifies CRC03 through CRC07.

- ZZ Mutually Defined
- ☐ EPSDT Screening referral information.

CRC-02

1073 Certification Condition Code Applies Indicator

Identifier (ID)

Required

Code indicating a Yes or No condition or response

- CRC02 is a Certification Condition Code applies indicator. A "Y" value indicates the condition codes in CRC03 through CRC07 apply; an "N" value indicates the condition codes in CRC03 through CRC07 do not apply.

Usage notes

- The response answers the question: Was an EPSDT referral given to the patient?

- N No
- ☐ If no, then choose "NU" in CRC03 indicating no referral given.

Y Yes

CRC-03

1321 Condition Indicator

Identifier (ID)

Required

Code indicating a condition

Usage notes

- The codes for CRC03 also can be used for CRC04 through CRC05.

- AV Available - Not Used
- ☐ Patient refused referral.

- NU** Not Used
- ☐ This conditioner indicator must be used when the submitter answers "N" in CRC02.
- S2** Under Treatment
- ☐ Patient is currently under treatment for referred diagnostic or corrective health problem.
- ST** New Services Requested
- ☐ Patient is referred to another provider for diagnostic or corrective treatment for at least one health problem identified during an initial or periodic screening service (not including dental referrals).
- OR
- Patient is scheduled for another appointment with screening provider for diagnostic or corrective treatment for at least one health problem identified during an initial or periodic screening service (not including dental referrals).;

CRC-04

1321 Condition Indicator

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-05

1321 Condition Indicator

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

Health Care Diagnosis Code

To supply information related to the delivery of health care

Usage notes

- Do not transmit the decimal point for ICD codes. The decimal point is implied.

Example

HI *BK>XXXX*ABF>X*ABF>XXXX*ABF>X*BF>X*BF>XXXXXX*ABF>XXXX*ABF>XXXX*BF>XXXXXX*ABF>XXXX*BF>XXXXX*B
F>X~

Variants (all may be used)

HI Anesthesia Related Procedure

HI Condition Information

HI-01

C022 Health Care Code Information

To send health care codes and their associated dates, amounts and quantities

Max use 1

Required

C022-01

1270 Diagnosis Type Code

Identifier (ID)

Required

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

ABK International Classification of Diseases Clinical Modification (ICD-10-CM) Principal Diagnosis

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:

If a new rule names the ICD-10-CM as an allowable code set under HIPAA,

OR

The Secretary grants an exception to use the code set as a pilot project as allowed under the law,

OR

For claims which are not covered under HIPAA.

BK International Classification of Diseases Clinical Modification (ICD-9-CM) Principal Diagnosis

C022-02

1271 Diagnosis Code

Min 1

Max 30

String (AN)

Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-02

C022 Health Care Code Information

Max use 1

Optional

To send health care codes and their associated dates, amounts and quantities

Usage notes

Required when it is necessary to report an additional diagnosis and the preceding HI data elements have been used to report other diagnoses. If not required by this implementation guide, do not send.

C022-01 1270 Diagnosis Type Code

Identifier (ID)

Required

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

ABF International Classification of Diseases Clinical Modification (ICD-10-CM) Diagnosis

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:

If a new rule names the ICD-10-CM as an allowable code set under HIPAA,

OR

The Secretary grants an exception to use the code set as a pilot project as allowed under the law,

OR

For claims which are not covered under HIPAA.

BF International Classification of Diseases Clinical Modification (ICD-9-CM) Diagnosis

C022-02 1271 Diagnosis Code

Min 1 Max 30 String (AN)

Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-03

C022 Health Care Code Information

To send health care codes and their associated dates, amounts and quantities

Max use 1

Optional

Usage notes

Required when it is necessary to report an additional diagnosis and the preceding HI data elements have been used to report other diagnoses. If not required by this implementation guide, do not send.

C022-01 1270 Diagnosis Type Code

Identifier (ID)

Required

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

ABF International Classification of Diseases Clinical Modification (ICD-10-CM) Diagnosis

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:

If a new rule names the ICD-10-CM as an allowable code set under HIPAA,

OR

The Secretary grants an exception to use the code set as a pilot project as allowed under the law,

OR

For claims which are not covered under HIPAA.

- For claims which are not covered under HIPAA.

BF International Classification of Diseases Clinical Modification (ICD-9-CM) Diagnosis

C022-02 **1271 Diagnosis Code** Min 1 Max 30  String (AN) Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

Anesthesia Related Procedure

To supply information related to the delivery of health care

Usage notes

- Required on claims where anesthesiology services are being billed or reported when the provider knows the surgical code and knows the adjudication of the claim will depend on provision of the surgical code. If not required by this implementation guide, do not send.

Example

HI*BP>XXXXX*BO>XXXXXX~

Variants (all may be used)

HI Health Care Diagnosis Code

HI Condition Information

HI-01

C022 Health Care Code Information

To send health care codes and their associated dates, amounts and quantities

Max use 1

Required

C022-01

1270 Code List Qualifier Code

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

BP Health Care Financing Administration Common Procedural Coding System Principal Procedure

Identifier (ID)

Required

C022-02

1271 Anesthesia Related Surgical Procedure

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

String (AN)

Required

Min 1

Max 30

HI-02

C022 Health Care Code Information

To send health care codes and their associated dates, amounts and quantities

Max use 1

Optional

Usage notes

Required when it is necessary to report an additional procedure and the preceding HI data elements have been used to report other procedures. If not required by this implementation guide, do not send.

C022-01

1270 Code List Qualifier Code

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

Identifier (ID)

Required

BO Health Care Financing Administration Common Procedural Coding System

C022-02

1271 Industry Code

Min 1

Max 30

 String (AN)

Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

Condition Information

To supply information related to the delivery of health care

Usage notes

- Required when condition information applies to the claim.
If not required by this implementation guide, do not send.

Example

HI*BG>XX*BG>XXXXX*BG>XXX*BG>XXX*BG>X*BG>XXX*BG>X
X*BG>XXXXX*BG>X*BG>XXX*BG>X*BG>XX~

Variants (all may be used)

BG Condition

C022-02 **1271 Condition Code** Min 1 Max 30 String (AN) Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-09 **C022 Health Care Code Information** Max use 1 Optional

To send health care codes and their associated dates, amounts and quantities

Usage notes

Required when it is necessary to report an additional condition code and the preceding HI data elements have been used to report other condition codes. If not required by this implementation guide, do not send.

C022-01 **1270 Code List Qualifier Code** Identifier (ID) Required

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

BG Condition

C022-02 **1271 Condition Code** Min 1 Max 30  String (AN) **Required**

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-10 **C022 Health Care Code Information** To send health care codes and their associated dates, amounts and quantities Max use 1 **Optional**

Usage notes

Required when it is necessary to report an additional condition code and the preceding HI data elements have been used to report other condition codes. If not required by this implementation guide, do not send.

C022-01 **1270 Code List Qualifier Code**  Identifier (ID) **Required**

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

BG Condition

C022-02 **1271 Condition Code** Min 1 Max 30  String (AN) **Required**

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-11 **C022 Health Care Code Information** To send health care codes and their associated dates, amounts and quantities Max use 1 **Optional**

Usage notes

Required when it is necessary to report an additional condition code and the preceding HI data elements have been used to report other condition codes. If not required by this implementation guide, do not send.

C022-01 **1270 Code List Qualifier Code**  Identifier (ID) **Required**

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

BG Condition

C022-02

1271 Condition Code

Min 1Max 30

String (AN)

Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-12

C022 Health Care Code Information

To send health care codes and their associated dates, amounts and quantities

Max use 1

Optional

Usage notes

Required when it is necessary to report an additional condition code and the preceding HI data elements have been used to report other condition codes. If not required by this implementation guide, do not send.

C022-01

1270 Code List Qualifier Code

Identifier (ID)

Required

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

BG Condition

C022-02

1271 Condition Code

Min 1Max 30

String (AN)

Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

Claim Pricing/Repricing Information

To specify pricing or repricing information about a health care claim or line item

Usage notes

- Required when this information is deemed necessary by the repricer. The segment is not completed by providers. The information is completed by repricers only. If not required by this implementation guide, do not send.
- This information is specific to the destination payer reported in Loop ID-2010BB.
- For capitated encounters, pricing or repricing information usually is not applicable and is provided to qualify other information within the claim.

Example

HCP*05*0000000000000000*000000000000*XX*00000*XXX
X*00*****T1*1*2~

HCP-01

1473 Pricing Methodology

Identifier (ID)

Required

Code specifying pricing methodology at which the claim or line item has been priced or repriced

Usage notes

- Specific code use is determined by Trading Partner Agreement due to the variances in contracting policies in the industry.

- 00 Zero Pricing (Not Covered Under Contract)
- 01 Priced as Billed at 100%
- 02 Priced at the Standard Fee Schedule
- 03 Priced at a Contractual Percentage
- 04 Bundled Pricing
- 05 Peer Review Pricing
- 07 Flat Rate Pricing
- 08 Combination Pricing
- 09 Maternity Pricing
- 10 Other Pricing
- 11 Lower of Cost
- 12 Ratio of Cost
- 13 Cost Reimbursed
- 14 Adjustment Pricing

HCP-02

782 Repriced Allowed Amount

Min 1 Max 15 # Decimal number (R)

Required

Monetary amount

- HCP02 is the allowed amount.

HCP-03

782 Repriced Saving Amount

Min 1 Max 15 # Decimal number (R)

Optional

Monetary amount

- HCP03 is the savings amount.

Usage notes

- This information is specific to the destination payer reported in Loop ID-2010BB.

HCP-04 **127 Repricing Organization Identifier** Min 1 Max 50 String (AN) Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- HCP04 is the repricing organization identification number.

Usage notes

- This information is specific to the destination payer reported in Loop ID-2010BB.

HCP-05 **118 Repricing Per Diem or Flat Rate Amount** # Decimal number (R) Optional Min 1 Max 9

Rate expressed in the standard monetary denomination for the currency specified

- HCP05 is the pricing rate associated with per diem or flat rate repricing.

Usage notes

- This information is specific to the destination payer reported in Loop ID-2010BB.

HCP-06 **127 Repriced Approved Ambulatory Patient Group Code** String (AN) Optional Min 1 Max 50

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- HCP06 is the approved DRG code.
- HCP06, HCP07, HCP08, HCP10, and HCP12 are fields that will contain different values from the original submitted values.

Usage notes

- This information is specific to the destination payer reported in Loop ID-2010BB.

HCP-07 **782 Repriced Approved Ambulatory Patient Group Amount** # Decimal number (R) Optional Min 1 Max 15

Monetary amount

- HCP07 is the approved DRG amount.

Usage notes

- This information is specific to the destination payer reported in Loop ID-2010BB.

HCP-13 **901 Reject Reason Code** Identifier (ID) Optional

Code assigned by issuer to identify reason for rejection

- HCP13 is the rejection message returned from the third party organization.

Usage notes

- This information is specific to the destination payer reported in Loop ID-2010BB.

T1 Cannot Identify Provider as TPO (Third Party Organization) Participant

T2 Cannot Identify Payer as TPO (Third Party Organization) Participant

T3 Cannot Identify Insured as TPO (Third Party Organization) Participant

T4 Payer Name or Identifier Missing

T5 Certification Information Missing

T6 Claim does not contain enough information for re-pricing

HCP-14

1526 Policy Compliance Code

Identifier (ID)

Optional

Code specifying policy compliance

Usage notes

- This information is specific to the destination payer reported in Loop ID-2010BB.

1 Procedure Followed (Compliance)

2 Not Followed - Call Not Made (Non-Compliance Call Not Made)

3 Not Medically Necessary (Non-Compliance Non-Medically Necessary)

4 Not Followed Other (Non-Compliance Other)

5 Emergency Admit to Non-Network Hospital

HCP-15

1527 Exception Code

Identifier (ID)

Optional

Code specifying the exception reason for consideration of out-of-network health care services

- HCP15 is the exception reason generated by a third party organization.

Usage notes

- This information is specific to the destination payer reported in Loop ID-2010BB.

1 Non-Network Professional Provider in Network Hospital

2 Emergency Care

3 Services or Specialist not in Network

4 Out-of-Service Area

5 State Mandates

6 Other

2310A Referring Provider Name Loop

Max 2Optional

- Variants (all may be used)
- Rendering Provider Name Loop
- Service Facility Location Name Loop
- Supervising Provider Name Loop
- Ambulance Pick-up Location Loop
- Ambulance Drop-off Location Loop

NM1

2500

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Referring Provider Name Loop > NM1

Max use 1

Required

Referring Provider Name

To supply the full name of an individual or organizational entity

Usage notes

- Required when this claim involves a referral. If not required by this implementation guide, do not send.
- When reporting the provider who ordered services such as diagnostic and lab, use Loop ID-2310A at the claim level. For ordered services such as Durable Medical Equipment, use Loop ID-2420E at the line level.
- When there is only one referral on the claim, use code "DN - Referring Provider". When more than one referral exists and there is a requirement to report the additional referral, use code DN in the first iteration of this loop to indicate the referral received by the rendering provider on this claim. Use code "P3 - Primary Care Provider" in the second iteration of the loop to indicate the initial referral from the primary care provider or whatever provider wrote the initial referral for this patient's episode of care being billed/reported in this transaction.
- Information in Loop ID-2310 applies to the entire claim unless overridden on a service line by the presence of Loop ID-2420 with the same value in NM101.

Example

NM1*DN*1*XXX*XXX*XX**XXXXXX*XX*XXXXX~

- If either Identification Code Qualifier (NM1-08) or Referring Provider Identifier (NM1-09) is present, then the other is required

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

- DN Referring Provider
- Use on the first iteration of this loop. Use if loop is used only once.
- P3 Primary Care Provider
- Use only if loop is used twice. Use only on second iteration of this loop.

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

30/06/2026, 23:05

X12 HIPAA 837 Health Care Claim: Professional (X222A1) - Stedi EDI Guides

- NM102 qualifies NM103.

1 Person

<u>NM1-03</u>	1035 Referring Provider Last Name	Min 1	Max 60	String (AN)	Required
Individual last name or organizational name					
<u>NM1-04</u>	1036 Referring Provider First Name	Min 1	Max 35	String (AN)	Optional

REF

2710

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Referring Provider Name Loop > REF

Max use 3

Optional

Referring Provider Secondary Identification

To specify identifying information

Usage notes

- The REF segment in Loop ID-2310 applies to the entire claim unless overridden on the service line level by the presence of a REF segment with the same value in REF01.
- Required prior to the mandated HIPAA National Provider Identifier (NPI) implementation date when an identification number other than the NPI is necessary for the receiver to identify the provider.
OR
Required on or after the mandated NPI Implementation Date when NM109 in this loop is not used and an identification number other than the NPI is necessary for the receiver to identify the provider.
If not required by this implementation guide, do not send.

Example

REF*1G*XXX~

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

- 0B State License Number
- 1G Provider UPIN Number
 - ☐ UPINs must be formatted as either X99999 or XXX999.
- G2 Provider Commercial Number
 - ☐ This code designates a proprietary provider number for the destination payer identified in the Payer Name loop, Loop ID-2010BB, associated with this claim. This is to be used by all payers including: Medicare, Medicaid, Blue Cross, etc.

REF-02

127 Referring Provider Secondary Identifier

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

PRV

2550

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Rendering Provider Name Loop > PRV

Max use 1

Optional

Rendering Provider Specialty Information

To specify the identifying characteristics of a provider

Usage notes

- Required when adjudication is known to be impacted by the provider taxonomy code. If not required by this implementation guide, do not send.
- The PRV segment in Loop ID-2310 applies to the entire claim unless overridden on the service line level by the presence of a PRV segment with the same value in PRV01.

Example

PRV*PE*PXC*XXXX~

PRV-01	1221 Provider Code	Identifier (ID)	Required
Code identifying the type of provider			
PE Performing			
PRV-02	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
PXC Health Care Provider Taxonomy Code			
PRV-03	127 Provider Taxonomy Code	Min 1 Max 50 String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			

REF

2710

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Rendering Provider Name Loop > REF

Max use 4

Optional

Rendering Provider Secondary Identification

To specify identifying information

Usage notes

- The REF segment in Loop ID-2310 applies to the entire claim unless overridden on the service line level by the presence of a REF segment with the same value in REF01.
- Required prior to the mandated HIPAA National Provider Identifier (NPI) implementation date when an identification number other than the NPI is necessary for the receiver to identify the provider.
OR
Required on or after the mandated NPI Implementation Date when NM109 in this loop is not used and an identification number other than the NPI is necessary for the receiver to identify the provider.
If not required by this implementation guide, do not send.

Example

REF*LU*XXX~

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

0B

State License Number

1G

Provider UPIN Number

UPINs must be formatted as either X99999 or XXX999.

G2

Provider Commercial Number

This code designates a proprietary provider number for the destination payer identified in the Payer Name loop, Loop ID-2010BB, associated with this claim. This is to be used by all payers including: Medicare, Medicaid, Blue Cross, etc.

LU

Location Number

REF-02

127 Rendering Provider Secondary Identifier

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

2310B Rendering Provider Name Loop end

2310C Service Facility Location Name Loop

Max 1Optional

- Variants (all may be used)
- Referring Provider Name Loop
- Rendering Provider Name Loop
- Supervising Provider Name Loop
- Ambulance Pick-up Location Loop
- Ambulance Drop-off Location Loop

NM1

2500

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Facility Location Name Loop > NM1

Max use 1

Required

Service Facility Location Name

To supply the full name of an individual or organizational entity

Usage notes

- Required when the location of health care service is different than that carried in Loop ID-2010AA (Billing Provider).
If not required by this implementation guide, do not send.
- When an organization health care provider's NPI is provided to identify the Service Location, the organization health care provider must be external to the entity identified as the Billing Provider (for example, reference lab). It is not permissible to report an organization health care provider NPI as the Service Location if the entity being identified is a component (for example, subpart) of the Billing Provider. In that case, the subpart must be the Billing Provider.
- The purpose of this loop is to identify specifically where the service was rendered. When reporting ambulance services, do not use this loop. Use Loop ID-2310E - Ambulance Pick-up Location and Loop ID-2310F - Ambulance Drop-off Location.
- Information in Loop ID-2310 applies to the entire claim unless overridden on a service line by the presence of Loop ID-2420 with the same value in NM101.

Example

NM1*77*2*XXXXX*****XX*XXXXXX~

- If either Identification Code Qualifier (NM1-08) or Laboratory or Facility Primary Identifier (NM1-09) is present, then the other is required

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

77 Service Location

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.

2 Non-Person Entity

NM1-03

1035

Laboratory or Facility Name

Min 1 Max 60  String (AN)

Required

Individual last name or organizational name

NM1-08

66

Identification Code Qualifier

 Identifier (ID)

Optional

Code designating the system/method of code structure used for Identification Code (67)

XX Centers for Medicare and Medicaid Services National Provider Identifier

NM1-09

67

Laboratory or Facility Primary Identifier

Min 2 Max 80  String (AN)

Optional

Code identifying a party or other code

N3

2650

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Facility Location Name Loop > N3

Max use 1

Required

Service Facility Location Address

To specify the location of the named party

Usage notes

- If service facility location is in an area where there are no street addresses, enter a description of where the service was rendered (for example, "crossroad of State Road 34 and 45" or "Exit near Mile marker 265 on Interstate 80".)

Example

N3*X*XXXXXX~

N3-01	166 Laboratory or Facility Address Line	Min 1	Max 55	String (AN)	Required
	Address information				
N3-02	166 Laboratory or Facility Address Line	Min 1	Max 55	String (AN)	Optional
	Address information				

N4

2700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Facility Location Name Loop > N4

Max use 1

Required

Service Facility Location City, State, ZIP Code

To specify the geographic place of the named party

Example

N4*XX*XX*XXXXXXXX*XXX~

- Only one of Laboratory or Facility State or Province Code (N4-02) or Country Subdivision Code (N4-07) may be present
- If Country Subdivision Code (N4-07) is present, then Country Code (N4-04) is required

N4-01

19 Laboratory or Facility City Name

Min 2Max 30

String (AN)

Required

Free-form text for city name

- A combination of either N401 through N404, or N405 and N406 may be adequate to specify a location.

N4-02

156 Laboratory or Facility State or Province Code

Identifier (ID)

Optional

Min 2Max 2

Code (Standard State/Province) as defined by appropriate government agency

- N402 is required only if city name (N401) is in the U.S. or Canada.

N4-03

116 Laboratory or Facility Postal Zone or ZIP Code

Identifier (ID)

Optional

Min 3Max 15

Code defining international postal zone code excluding punctuation and blanks (zip code for United States)

Usage notes

- When reporting the ZIP code for U.S. addresses, the full nine digit ZIP code must be provided.

N4-04

26 Country Code

Min 2Max 3

Identifier (ID)

Optional

Code identifying the country

Usage notes

- Use the alpha-2 country codes from Part 1 of ISO 3166.

N4-07

1715 Country Subdivision Code

Min 1Max 3

Identifier (ID)

Optional

Code identifying the country subdivision

Usage notes

- Use the country subdivision codes from Part 2 of ISO 3166.

REF

2710

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Facility Location Name Loop > REF

Max use 3

Optional

Service Facility Location Secondary Identification

To specify identifying information

Usage notes

- Required prior to the mandated HIPAA National Provider Identifier (NPI) implementation date when an identification number other than the NPI is necessary for the receiver to identify the provider.
OR
Required on or after the mandated NPI Implementation Date when NM109 in this loop is not used and an identification number other than the NPI is necessary for the receiver to identify the provider.
If not required by this implementation guide, do not send.

Example

REF*0B*XXX~

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
0B State License Number			
G2 Provider Commercial Number			
This code designates a proprietary provider number for the destination payer identified in the Payer Name loop, Loop ID-2010BB, associated with this claim. This is to be used by all payers including: Medicare, Medicaid, Blue Cross, etc.			
LU Location Number			
REF-02	127 Laboratory or Facility Secondary Identifier	Min 1 Max 50 String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			

Service Facility Contact Information

To identify a person or office to whom administrative communications should be directed

Usage notes

- Required for Property and Casualty claims when this information is different than the information provided in Loop ID-1000A Submitter EDI Contact Information PER Segment, and Loop ID-2010AA Billing Provider Contact Information PER segment and when deemed necessary by the submitter.
If not required by this implementation guide, do not send.
- When the communication number represents a telephone number in the United States and other countries using the North American Dialing Plan (for voice, data, fax, etc.), the communication number must always include the area code and phone number using the format AAABBBCCCC where AAA is the area code, BBB is the telephone number prefix, and CCCC is the telephone number. Therefore, the following telephone number (555) 555-1234 would be represented as 5555551234. Do not submit long distance access numbers, such as "1", in the telephone number. Telephone extensions, when applicable, must be submitted in the next element immediately following the telephone number. When submitting telephone extensions, only submit the numeric extension. Do not include data that indicates an extension, such as "ext" or "x-".

Example

PER*IC*XX*TE*XXXXX*EX*XXXXX~

- If either Communication Number Qualifier (PER-05) or Communication Number (PER-06) is present, then the other is required

PER-01	366 Contact Function Code	Identifier (ID)	Required
	Code identifying the major duty or responsibility of the person or group named		
	IC Information Contact		
PER-02	93 Name	Min 1 Max 60 String (AN)	Optional
	Free-form name		
PER-03	365 Communication Number Qualifier	Identifier (ID)	Required
	Code identifying the type of communication number		
	TE Telephone		
PER-04	364 Communication Number	Min 1 Max 256 String (AN)	Required
	Complete communications number including country or area code when applicable		

PER-05

365

Communication Number Qualifier

Identifier (ID)

Optional

Code identifying the type of communication number

EX Telephone Extension

PER-06

364

Communication Number

Min 1Max 256

String (AN)

Optional

Complete communications number including country or area code when applicable

2310C Service Facility Location Name Loop end

2310D Supervising Provider Name Loop

Max 1Optional

- Variants (all may be used)
- Referring Provider Name Loop
- Rendering Provider Name Loop
- Service Facility Location Name Loop

Identifier (ID)

Optional

Code (Standard State/Province) as defined by appropriate government agency

- N402 is required only if city name (N401) is in the U.S. or Canada.

N4-03

116 Ambulance Pick-up Postal Zone or ZIP Code

Identifier (ID)

Optional

Min 3Max 15

Code defining international postal zone code excluding punctuation and blanks (zip code for United States)

N4-04

26 Country Code

Min 2Max 3

Identifier (ID)

Optional

Code identifying the country

Usage notes

- Use the alpha-2 country codes from Part 1 of ISO 3166.

N4-07

1715 Country Subdivision Code

Min 1Max 3

Identifier (ID)

Optional

Code identifying the country subdivision

Usage notes

- Use the country subdivision codes from Part 2 of ISO 3166.

2310E Ambulance Pick-up Location Loop end

2310F Ambulance Drop-off Location Loop

Max 1Optional

- Variants (all may be used)
- Referring Provider Name Loop
 - Rendering Provider Name Loop
 - Service Facility Location Name Loop
 - Supervising Provider Name Loop
 - Ambulance Pick-up Location Loop

NM12500

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Ambulance Drop-off Location Loop > NM1

Max use 1Required

Ambulance Drop-off Location

To supply the full name of an individual or organizational entity

- Usage notes
- Required when billing for ambulance or non-emergency transportation services. If not required by this implementation guide, do not send.
 - Information in Loop ID-2310 applies to the entire claim unless overridden on a service line by the presence of Loop ID-2420 with the same value in NM101.

Example

NM1*45*2*XX~

NM1-0198 Entity Identifier Code

Identifier (ID)Required

Code identifying an organizational entity, a physical location, property or an individual

45 Drop-off Location

NM1-021065 Entity Type Qualifier

Identifier (ID)Required

Code qualifying the type of entity

- NM102 qualifies NM103.

2 Non-Person Entity

NM1-031035 Ambulance Drop-off Location

Min 1Max 60String (AN)Optional

Individual last name or organizational name

Ambulance Drop-off Location Address

To specify the location of the named party

Example

N3*XXXXXX*XXXX~

<u>N3-01</u>	166 Ambulance Drop-off Address Line	Min 1	Max 55	String (AN)	Required
	Address information				
<u>N3-02</u>	166 Ambulance Drop-off Address Line	Min 1	Max 55	String (AN)	Optional
	Address information				

N4

2700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Ambulance Drop-off Location Loop > N4

Max use 1

Required

Ambulance Drop-off Location City, State, ZIP Code

To specify the geographic place of the named party

Example

N4*XXXX*XX*XXX*XX~

- Only one of Ambulance Drop-off State or Province Code (N4-02) or Country Subdivision Code (N4-07) may be present
- If Country Subdivision Code (N4-07) is present, then Country Code (N4-04) is required

N4-01

19 Ambulance Drop-off City Name

Min 2Max 30

String (AN)

Required

Free-form text for city name

- A combination of either N401 through N404, or N405 and N406 may be adequate to specify a location.

N4-02

156 Ambulance Drop-off State or Province Code

Identifier (ID)

Optional

Min 2Max 2

Code (Standard State/Province) as defined by appropriate government agency

- N402 is required only if city name (N401) is in the U.S. or Canada.

N4-03

116 Ambulance Drop-off Postal Zone or ZIP Code

Identifier (ID)

Optional

Min 3Max 15

Code defining international postal zone code excluding punctuation and blanks (zip code for United States)

N4-04

26 Country Code

Min 2Max 3

Identifier (ID)

Optional

Code identifying the country

Usage notes

- Use the alpha-2 country codes from Part 1 of ISO 3166.

N4-07

1715 Country Subdivision Code

Min 1Max 3

Identifier (ID)

Optional

Code identifying the country subdivision

Usage notes

- Use the country subdivision codes from Part 2 of ISO 3166.

2310F Ambulance Drop-off Location Loop end

2320 Other Subscriber Information Loop

Max 10

Optional

SBR

2900

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > SBR

Max use 1

Required

Other Subscriber Information

To record information specific to the primary insured and the insurance carrier for that insured

Usage notes

- Required when other payers are known to potentially be involved in paying on this claim. If not required by this implementation guide, do not send.
- All information contained in Loop ID-2320 applies only to the payer identified in Loop ID-2330B of this iteration of Loop ID-2320. It is specific only to that payer. If information for an additional payer is necessary, repeat Loop ID-2320 with its respective 2330 Loops.;
- See Crosswalking COB Data Elements section for more information on handling COB in the 837.

Example

SBR*F*19*XXX*XXXXXX*41*****TV~

SBR-01

1138 Payer Responsibility Sequence Number Code

Identifier (ID)

Required

Code identifying the insurance carrier's level of responsibility for a payment of a claim

Usage notes

- Within a given claim, the various values for the Payer Responsibility Sequence Number Code (other than value "U") may occur no more than once.

- A Payer Responsibility Four
- B Payer Responsibility Five
- C Payer Responsibility Six
- D Payer Responsibility Seven
- E Payer Responsibility Eight
- F Payer Responsibility Nine
- G Payer Responsibility Ten
- H Payer Responsibility Eleven
- P Primary
- S Secondary
- T Tertiary
- U Unknown

- ☐ This code may only be used in payer to payer COB claims when the original payer determined the presence of this coverage from eligibility files received from this payer or when the original claim did not provide the responsibility sequence for this payer.

SBR-02

1069 Individual Relationship Code

Identifier (ID)

Required

Code indicating the relationship between two individuals or entities

- SBR02 specifies the relationship to the person insured.

- 01 Spouse
- 18 Self
- 19 Child
- 20 Employee
- 21 Unknown
- 39 Organ Donor
- 40 Cadaver Donor
- 53 Life Partner
- G8 Other Relationship

SBR-03 **127 Insured Group or Policy Number** Min 1 Max 50 String (AN) Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- SBR03 is policy or group number.

Usage notes

- This is not the number uniquely identifying the subscriber. The unique subscriber number is submitted in Loop 2330A-NM109 for this iteration of Loop ID-2320.

SBR-04 **93 Other Insured Group Name** Min 1 Max 60 String (AN) Optional

Free-form name

- SBR04 is plan name.

SBR-05 **1336 Insurance Type Code** Identifier (ID) Optional

Code identifying the type of insurance policy within a specific insurance program

- 12 Medicare Secondary Working Aged Beneficiary or Spouse with Employer Group Health Plan
- 13 Medicare Secondary End-Stage Renal Disease Beneficiary in the Mandated Coordination Period with an Employer's Group Health Plan
- 14 Medicare Secondary, No-fault Insurance including Auto is Primary
- 15 Medicare Secondary Worker's Compensation
- 16 Medicare Secondary Public Health Service (PHS) or Other Federal Agency
- 41 Medicare Secondary Black Lung
- 42 Medicare Secondary Veteran's Administration
- 43 Medicare Secondary Disabled Beneficiary Under Age 65 with Large Group Health Plan (LGHP)
- 47 Medicare Secondary, Other Liability Insurance is Primary

SBR-09 **1032 Claim Filing Indicator Code** Identifier (ID) Required

Code identifying type of claim

- 11 Other Non-Federal Programs
- 12 Preferred Provider Organization (PPO)
- 13 Point of Service (POS)
- 14 Exclusive Provider Organization (EPO)
- 15 Indemnity Insurance

16 Health Maintenance Organization (HMO) Medicare Risk

17 Dental Maintenance Organization

AM Automobile Medical

BL Blue Cross/Blue Shield

CH Champus

CI Commercial Insurance Co.

DS Disability

FI Federal Employees Program

HM Health Maintenance Organization

LM Liability Medical

MA Medicare Part A

MB Medicare Part B

MC Medicaid

OF Other Federal Program

☐ Use code OF when submitting Medicare Part D claims.

TV Title V

VA Veterans Affairs Plan

WC Workers' Compensation Health Claim

ZZ Mutually Defined

☐ Use Code ZZ when Type of Insurance is not known.

CAS

2950

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > CAS

Max use 5

Optional

Claim Level Adjustments

To supply adjustment reason codes and amounts as needed for an entire claim or for a particular service within the claim being paid

Usage notes

- Required when the claim has been adjudicated by the payer identified in this loop, and the claim has claim level adjustment information. If not required by this implementation guide, do not send.
- Submitters must use this CAS segment to report prior payers' claim level adjustments that cause the amount paid to differ from the amount originally charged.
- Only one Group Code is allowed per CAS. If it is necessary to send more than one Group Code at the claim level, repeat the CAS segment.
- Codes and associated amounts must come from either paper remittance advice or 835s (Electronic Remittance Advice) received on the claim. When the information originates from a paper remittance advice that does not use the standard Claim Adjustment Reason Codes, the paper values must be converted to standard Claim Adjustment Reason Codes.;
- A single CAS segment contains six repetitions of the "adjustment trio" composed of adjustment reason code, adjustment amount, and adjustment quantity. These six adjustment trios are used to report up to six adjustments related to a particular Claim Adjustment Group Code (CAS01). The first non-zero adjustment is reported in the first adjustment trio (CAS02-CAS04). If there is a second non-zero adjustment, it is reported in the second adjustment trio (CAS05-CAS07), and so on through the sixth adjustment trio (CAS17-CAS19).

Example

```
CAS*CR*XXXX*0*0000*XXXX*0000000000000000*0*XX*00000
0000000000*00*XXXX*0000000000*0000000000000000*XX*0
0*00000000000000*XXXX*00000000000000*00000000000000~
```

- If Adjustment Reason Code (CAS-05) is present, then at least one of Adjustment Amount (CAS-06) or Adjustment Quantity (CAS-07) is required
- If Adjustment Amount (CAS-06) is present, then Adjustment Reason Code (CAS-05) is required
- If Adjustment Quantity (CAS-07) is present, then Adjustment Reason Code (CAS-05) is required
- If Adjustment Reason Code (CAS-08) is present, then at least one of Adjustment Amount (CAS-09) or Adjustment Quantity (CAS-10) is required
- If Adjustment Amount (CAS-09) is present, then Adjustment Reason Code (CAS-08) is required
- If Adjustment Quantity (CAS-10) is present, then Adjustment Reason Code (CAS-08) is required
- If Adjustment Reason Code (CAS-11) is present, then at least one of Adjustment Amount (CAS-12) or Adjustment Quantity (CAS-13) is required
- If Adjustment Amount (CAS-12) is present, then Adjustment Reason Code (CAS-11) is required
- If Adjustment Quantity (CAS-13) is present, then Adjustment Reason Code (CAS-11) is required
- If Adjustment Reason Code (CAS-14) is present, then at least one of Adjustment Amount (CAS-15) or Adjustment Quantity (CAS-16) is required

- If Adjustment Amount (CAS-15) is present, then Adjustment Reason Code (CAS-14) is required
- If Adjustment Quantity (CAS-16) is present, then Adjustment Reason Code (CAS-14) is required
- If Adjustment Reason Code (CAS-17) is present, then at least one of Adjustment Amount (CAS-18) or Adjustment Quantity (CAS-19) is required
- If Adjustment Amount (CAS-18) is present, then Adjustment Reason Code (CAS-17) is required
- If Adjustment Quantity (CAS-19) is present, then Adjustment Reason Code (CAS-17) is required

CAS-01 **1033 Claim Adjustment Group Code** ■ Identifier (ID) Required

Code identifying the general category of payment adjustment

- CO** Contractual Obligations
- CR** Correction and Reversals
- OA** Other adjustments
- PI** Payor Initiated Reductions
- PR** Patient Responsibility

CAS-02 **1034 Adjustment Reason Code** Min 1 Max 5 ■ Identifier (ID) Required

Code identifying the detailed reason the adjustment was made

Usage notes

- See CODE SOURCE 139: Claim Adjustment Reason Code

CAS-03 **782 Adjustment Amount** Min 1 Max 15 # Decimal number (R) Required

Monetary amount

- CAS03 is the amount of adjustment.

CAS-04 **380 Adjustment Quantity** Min 1 Max 15 # Decimal number (R) Optional

Numeric value of quantity

- CAS04 is the units of service being adjusted.

CAS-05 **1034 Adjustment Reason Code** Min 1 Max 5 ■ Identifier (ID) Optional

Code identifying the detailed reason the adjustment was made

CAS-06 **782 Adjustment Amount** Min 1 Max 15 # Decimal number (R) Optional

Monetary amount

- CAS06 is the amount of the adjustment.

CAS-07 **380 Adjustment Quantity** Min 1 Max 15 # Decimal number (R) Optional

Numeric value of quantity

- CAS07 is the units of service being adjusted.

CAS-08 **1034 Adjustment Reason Code** Min 1 Max 5 ■ Identifier (ID) Optional

Code identifying the detailed reason the adjustment was made

CAS-09 **782 Adjustment Amount** Min 1 Max 15 # Decimal number (R) Optional

Monetary amount

- CAS09 is the amount of the adjustment.

CAS-10 **380 Adjustment Quantity** Min 1 Max 15 # Decimal number (R) Optional

Numeric value of quantity

- CAS10 is the units of service being adjusted.

CAS-11 **1034 Adjustment Reason Code** Min 1 Max 5 ■ Identifier (ID) Optional

Code identifying the detailed reason the adjustment was made

CAS-12 **782 Adjustment Amount** Min 1 Max 15 # Decimal number (R) Optional

Monetary amount

- CAS12 is the amount of the adjustment.

CAS-13 **380 Adjustment Quantity** Min 1 Max 15 # Decimal number (R) Optional

Numeric value of quantity

- CAS13 is the units of service being adjusted.

CAS-14 **1034 Adjustment Reason Code** Min 1 Max 5 ■ Identifier (ID) Optional

Code identifying the detailed reason the adjustment was made

CAS-15

782 Adjustment Amount

Min 1

Max 15

#

Decimal number (R)

Optional

Monetary amount

- CAS15 is the amount of the adjustment.

CAS-16

380 Adjustment Quantity

Min 1

Max 15

#

Decimal number (R)

Optional

Numeric value of quantity

- CAS16 is the units of service being adjusted.

CAS-17

■

Identifier (ID)

Optional

Code identifying the detailed reason the adjustment was made

CAS-18

782 Adjustment Amount

Min 1

Max 15

#

Decimal number (R)

Optional

Monetary amount

- CAS18 is the amount of the adjustment.

CAS-19

380 Adjustment Quantity

Min 1

Max 15

#

Decimal number (R)

Optional

Numeric value of quantity

- CAS19 is the units of service being adjusted.

Coordination of Benefits (COB) Payer Paid Amount

To indicate the total monetary amount

Usage notes

- Required when the claim has been adjudicated by the payer identified in Loop ID-2330B of this loop.
OR
Required when Loop ID-2010AC is present. In this case, the claim is a post payment recovery claim submitted by a subrogated Medicaid agency.
If not required by this implementation guide, do not send.;

Example

AMT*D*0000000000000000~

Variants (all may be used)

AMT Coordination of Benefits (COB) Total Non-Covered Amount

AMT Remaining Patient Liability

AMT-01	522 Amount Qualifier Code	Identifier (ID)	Required
	Code to qualify amount		
	D Payor Amount Paid		

AMT-02	782 Payer Paid Amount	Min 1	Max 15	#	Decimal number (R)	Required
	Monetary amount					
	Usage notes					
	- It is acceptable to show "0" as the amount paid. - When Loop ID-2010AC is present, this is the amount the Medicaid agency actually paid.					

AMT

3000

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > AMT

Max use 1

Optional

Coordination of Benefits (COB) Total Non-Covered Amount

To indicate the total monetary amount

Usage notes

- Required when the destination payer's cost avoidance policy allows providers to bypass claim submission to the otherwise prior payer identified in Loop ID-2330B. If not required by this implementation guide, do not send.
- When this segment is used, the amount reported in AMT02 must equal the total claim charge amount reported in CLM02. Neither the prior payer paid AMT, nor any CAS segments are used as this claim has not been adjudicated by this payer.

Example

AMT * A8 * 00 ~

Variants (all may be used)

AMT Coordination of Benefits (COB) Payer Paid Amount

AMT Remaining Patient Liability

AMT-01	522 Amount Qualifier Code	Identifier (ID)	Required
	Code to qualify amount		
	A8 Noncovered Charges - Actual		
AMT-02	782 Non-Covered Charge Amount	Min 1 Max 15 # Decimal number (R)	Required
	Monetary amount		

AMT

3000

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > AMT

Max use 1

Optional

Remaining Patient Liability

To indicate the total monetary amount

Usage notes

- Required when the Other Payer identified in Loop ID-2330B (of this iteration of Loop ID-2320) has adjudicated this claim and provided claim level information only.
OR
Required when the Other Payer identified in Loop ID-2330B (of this iteration of Loop ID-2320) has adjudicated this claim and the provider received a paper remittance advice and the provider does not have the ability to report line item information.
If not required by this implementation guide, do not send.
- In the judgment of the provider, this is the remaining amount to be paid after adjudication by the Other Payer identified in Loop ID-2330B of this iteration of Loop ID-2320.
- This segment is only used in provider submitted claims. It is not used in Payer-to-Payer Coordination of Benefits (COB).
- This segment is not used if the line level (Loop ID-2430) Remaining Patient Liability AMT segment is used for this Other Payer.

Example

AMT*EAF*000000000~

Variants (all may be used)

- AMT Coordination of Benefits (COB) Payer Paid Amount
- AMT Coordination of Benefits (COB) Total Non-Covered Amount

AMT-01	522 Amount Qualifier Code	Identifier (ID)	Required
	Code to qualify amount		
	EAF Amount Owed		
AMT-02	782 Remaining Patient Liability	Min 1 Max 15 # Decimal number (R)	Required
	Monetary amount		

Other Insurance Coverage Information

To specify information associated with other health insurance coverage

Usage notes

- All information contained in the OI segment applies only to the payer identified in Loop ID-2330B in this iteration of Loop ID-2320.

Example

OI***Y*P***Y~

OI-03

1073 Benefits Assignment Certification Indicator

Identifier (ID)

Required

Code indicating a Yes or No condition or response

- OI03 is the assignment of benefits indicator. A "Y" value indicates insured or authorized person authorizes benefits to be assigned to the provider; an "N" value indicates benefits have not been assigned to the provider.

Usage notes

- This is a crosswalk from CLM08 when doing COB.
- This element answers the question whether or not the insured has authorized the plan to remit payment directly to the provider.

N No

W Not Applicable

☐ Use code 'W' when the patient refuses to assign benefits.

Y Yes

OI-04

1351 Patient Signature Source Code

Identifier (ID)

Optional

Code indicating how the patient or subscriber authorization signatures were obtained and how they are being retained by the provider

Usage notes

- This is a crosswalk from CLM10 when doing COB.
- P Signature generated by provider because the patient was not physically present for services
- ☐ Signature generated by an entity other than the patient according to State or Federal law.

OI-06

1363 Release of Information Code

Identifier (ID)

Required

Code indicating whether the provider has on file a signed statement by the patient authorizing the release of medical data to other organizations

Usage notes

- This is a crosswalk from CLM09 when doing COB.
- The Release of Information response is limited to the information carried in this claim.

I Informed Consent to Release Medical Information for Conditions or Diagnoses Regulated by Federal Statutes

- ☐ Required when the provider has not collected a signature AND state or federal laws do not require a signature be collected.
- Y Yes, Provider has a Signed Statement Permitting Release of Medical Billing Data Related to a Claim
 - ☐ Required when the provider has collected a signature.
 - OR
 - Required when state or federal laws require a signature be collected.

Outpatient Adjudication Information

To convey claim-level data related to the adjudication of Medicare claims not related to an inpatient setting

Usage notes

Required when returned in the remittance advice. If not required by this implementation guide, do not send.

- Required when outpatient adjudication information is reported in the remittance advice
OR
Required when it is necessary to report remark codes.
If not required by this implementation guide, do not send.

Example

MOA*0*00000*XXXX*XXXXX*XXX*X*XX*00000000000000*00000000~

MOA-01

954 Reimbursement Rate

Min 1Max 10# Decimal number (R)

Optional

Percentage expressed as a decimal (e.g., 0.0 through 1.0 represents 0% through 100%)

- MOA01 is the reimbursement rate.

MOA-02

782 HCPCS Payable Amount

Min 1Max 15# Decimal number (R)

Optional

Monetary amount

- MOA02 is the claim Health Care Financing Administration Common Procedural Coding System (HCPCS) payable amount.

MOA-03

127 Claim Payment Remark Code

Min 1Max 50T String (AN)

Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- MOA03 is the Claim Payment Remark Code. See Code Source 411.

MOA-04

127 Claim Payment Remark Code

Min 1Max 50T String (AN)

Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- MOA04 is the Claim Payment Remark Code. See Code Source 411.

MOA-05

127 Claim Payment Remark Code

Min 1Max 50T String (AN)

Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- MOA05 is the Claim Payment Remark Code. See Code Source 411.

MOA-06

127 Claim Payment Remark Code

Min 1Max 50

T

String (AN)

Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- MOA06 is the Claim Payment Remark Code. See Code Source 411.

MOA-07

127 Claim Payment Remark Code

Min 1Max 50

T

String (AN)

Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- MOA07 is the Claim Payment Remark Code. See Code Source 411.

MOA-08

782 End Stage Renal Disease Payment Amount

Decimal number (R)

Optional

Min 1Max 15

Monetary amount

- MOA08 is the End Stage Renal Disease (ESRD) payment amount.

MOA-09

782 Non-Payable Professional Component Billed Amount

Decimal number (R)

Optional

Min 1Max 15

Monetary amount

- MOA09 is the professional component amount billed but not payable.

2330A Other Subscriber Name Loop

Max 1 Required

- Variants (all may be used)
- Other Payer Name Loop
 - Other Payer Referring Provider Loop
 - Other Payer Rendering Provider Loop
 - Other Payer Service Facility Location Loop
 - Other Payer Supervising Provider Loop
 - Other Payer Billing Provider Loop

NM1

3250

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Subscriber Name Loop > NM1

Max use 1

Required

Other Subscriber Name

To supply the full name of an individual or organizational entity

Usage notes

- If the patient can be uniquely identified to the Other Payer indicated in this iteration of Loop ID-2320 by a unique Member Identification Number, then the patient is the subscriber or is considered to be the subscriber and is identified in this Other Subscriber's Name Loop ID-2330A.;
- If the patient is a dependent of the subscriber for this other coverage and cannot be uniquely identified to the Other Payer indicated in this iteration of Loop ID-2320 by a unique Member Identification Number, then the subscriber for this other coverage is identified in this Other Subscriber's Name Loop ID-2330A.
- See Crosswalking COB Data Elements section for more information on handling COB in the 837.

Example

NM1*IL*1*XXXXXX*XXXXXX*XXXXX**X*MI*XXXX~

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

IL Insured or Subscriber

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.

1

Person

2

Non-Person Entity

NM1-03

1035 Other Insured Last Name

Min 1

Max 60

String (AN)

Required

Individual last name or organizational name

NM1-04 **1036 Other Insured First Name** Min 1 Max 35  String (AN) Optional

Individual first name

NM1-05 **1037 Other Insured Middle Name** Min 1 Max 25  String (AN) Optional

Individual middle name or initial

NM1-07 **1039 Other Insured Name Suffix** Min 1 Max 10  String (AN) Optional

Suffix to individual name

NM1-08 **66 Identification Code Qualifier**  Identifier (ID) Required

Code designating the system/method of code structure used for Identification Code (67)

II Standard Unique Health Identifier for each Individual in the United States

 Required if the HIPAA Individual Patient Identifier is mandated use. If not required, use value 'MI' instead.

MI Member Identification Number

 The code MI is intended to be the subscriber's identification number as assigned by the payer. (For example, Insured's ID, Subscriber's ID, Health Insurance Claim Number (HIC), etc.)

MI is also intended to be used in claims submitted to the Indian Health Service/Contract Health Services (IHS/CHS) Fiscal Intermediary for the purpose of reporting the Tribe Residency Code (Tribe County State). In the event that a Social Security Number (SSN) is also available on an IHS/CHS claim, put the SSN in REF02.

When sending the Social Security Number as the Member ID, it must be a string of exactly nine numbers with no separators. For example, sending "111002222" would be valid, while sending "111-00-2222" would be invalid.

NM1-09 **67 Other Insured Identifier** Min 2 Max 80  String (AN) Required

Code identifying a party or other code

Other Subscriber Address

To specify the location of the named party

Usage notes

- Required when the information is available. If not required by this implementation guide, do not send.

Example

N3 * X * XXXXX ~

<u>N3-01</u>	166 Other Subscriber Address Line	Min 1	Max 55	String (AN)	Required
	Address information				
<u>N3-02</u>	166 Other Insured Address Line	Min 1	Max 55	String (AN)	Optional
	Address information				

N4

3400

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Subscriber Name Loop > N4

Max use 1

Optional

Other Subscriber City, State, ZIP Code

To specify the geographic place of the named party

Usage notes

- Required when the information is available. If not required by this implementation guide, do not send.

Example

N4*XXX*XX*XXXX*XXX~

- Only one of Other Subscriber State or Province Code (N4-02) or Country Subdivision Code (N4-07) may be present
- If Country Subdivision Code (N4-07) is present, then Country Code (N4-04) is required

N4-01

19 Other Subscriber City Name

Min 2

Max 30

String (AN)

Required

Free-form text for city name

- A combination of either N401 through N404, or N405 and N406 may be adequate to specify a location.

N4-02

156 Other Subscriber State or Province Code

Min 2

Max 2

Identifier (ID)

Optional

Code (Standard State/Province) as defined by appropriate government agency

- N402 is required only if city name (N401) is in the U.S. or Canada.

N4-03

116 Other Subscriber Postal Zone or ZIP Code

Min 3

Max 15

Identifier (ID)

Optional

Code defining international postal zone code excluding punctuation and blanks (zip code for United States)

N4-04

26 Country Code

Min 2

Max 3

Identifier (ID)

Optional

Code identifying the country

Usage notes

- Use the alpha-2 country codes from Part 1 of ISO 3166.

N4-07

1715 Country Subdivision Code

Min 1

Max 3

Identifier (ID)

Optional

Code identifying the country subdivision

Usage notes

- Use the country subdivision codes from Part 2 of ISO 3166.

REF

3550

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Subscriber Name Loop > REF

Max use 1

Optional

Other Subscriber Secondary Identification

To specify identifying information

Usage notes

- Required when an additional identification number to that provided in NM109 of this loop is necessary for the claim processor to identify the entity. If not required by this implementation guide, do not send.

Example

REF*SY*XXXX~

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

SY Social Security Number

- ☐ The Social Security Number must be a string of exactly nine numbers with no separators. For example, sending "111002222" would be valid, while sending "111-00-2222" would be invalid.

REF-02

127 Other Insured Additional Identifier

Min 1 Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

2330A Other Subscriber Name Loop end

2330B Other Payer Name Loop

Max 1

Required

- Variants (all may be used)
- Other Subscriber Name Loop
 - Other Payer Referring Provider Loop
 - Other Payer Rendering Provider Loop
 - Other Payer Service Facility Location Loop
 - Other Payer Supervising Provider Loop
 - Other Payer Billing Provider Loop

NM1

3250

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Payer Name Loop > NM1

Max use 1

Required

Other Payer Name

To supply the full name of an individual or organizational entity

Usage notes

- See Crosswalking COB Data Elements section for more information on handling COB in the 837.

Example

NM1*PR*2*XX*****PI*XXXXXXX~

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

PR Payer

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.

2 Non-Person Entity

NM1-03

1035 Other Payer Organization Name

Min 1

Max 60

String (AN)

Required

Individual last name or organizational name

NM1-08

66 Identification Code Qualifier

Identifier (ID)

Required

Code designating the system/method of code structure used for Identification Code (67)

Usage notes

- Use code value "PI" when reporting Payor Identification.
Use code value "XV" when reporting Health Plan ID (HPID) or Other Entity Identifier

(OEID).

Prior to the mandated implementation date for Health Plan Identifier, willing trading partners may agree to:

Follow a dual use approach in which both the HPID or OEID and the Payor Identification are sent. Send XV qualifier in NM108 with HPID or OEID in NM109 and the Payor Identification, that would have been sent using qualifier PI, in the corresponding REF segment using qualifier 2U (Payer Identification Number).

OR

Follow an early implementation approach in which the HPID or OEID is sent in NM109.

PI Payor Identification

XV Centers for Medicare and Medicaid Services PlanID

NM1-09

67 Other Payer Primary Identifier

Min 2 Max 80  String (AN) **Required**

Code identifying a party or other code

Usage notes

- When sending Line Adjudication Information for this payer, the identifier sent in SVD01 (Payer Identifier) of Loop ID-2430 (Line Adjudication Information) must match this value.;

Other Payer Address

To specify the location of the named party

Usage notes

- Required when the payer address is available and the submitter intends for the claim to be printed on paper at the next EDI location (for example, a clearinghouse). If not required by this implementation guide, do not send.

Example

N3*X*X~

N3-01	166 Other Payer Address Line	Min 1	Max 55	String (AN)	Required
	Address information				
N3-02	166 Other Payer Address Line	Min 1	Max 55	String (AN)	Optional
	Address information				

N4

3400

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Payer Name Loop > N4

Max use 1

Optional

Other Payer City, State, ZIP Code

To specify the geographic place of the named party

Usage notes

- Required when the payer address is available and the submitter intends for the claim to be printed on paper at the next EDI location (for example, a clearinghouse). If not required by this implementation guide, do not send.

Example

N4*XXX*XX*XXXXXX*XXX~

- Only one of Other Payer State or Province Code (N4-02) or Country Subdivision Code (N4-07) may be present
- If Country Subdivision Code (N4-07) is present, then Country Code (N4-04) is required

N4-01

19 Other Payer City Name

Min 2

Max 30

String (AN)

Required

Free-form text for city name

- A combination of either N401 through N404, or N405 and N406 may be adequate to specify a location.

N4-02

156 Other Payer State or Province Code

Min 2

Max 2

Identifier (ID)

Optional

Code (Standard State/Province) as defined by appropriate government agency

- N402 is required only if city name (N401) is in the U.S. or Canada.

N4-03

116 Other Payer Postal Zone or ZIP Code

Min 3

Max 15

Identifier (ID)

Optional

Code defining international postal zone code excluding punctuation and blanks (zip code for United States)

N4-04

26 Country Code

Min 2

Max 3

Identifier (ID)

Optional

Code identifying the country

Usage notes

- Use the alpha-2 country codes from Part 1 of ISO 3166.

N4-07

1715 Country Subdivision Code

Min 1

Max 3

Identifier (ID)

Optional

Code identifying the country subdivision

Usage notes

- Use the country subdivision codes from Part 2 of ISO 3166.

Claim Check or Remittance Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when the payer identified in this loop has previously adjudicated the claim and Loop ID-2430, Line Check or Remittance Date, is not used. If not required by this implementation guide, do not send.;

Example

DTP*573*D8*XXX~

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

573 Date Claim Paid

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Adjudication or Payment Date

Min 1

Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

REF

3550

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Payer Name Loop > REF

Max use 2

Optional

Other Payer Secondary Identifier

To specify identifying information

Usage notes

- Required when an additional identification number to that provided in the NM109 of this loop is necessary to identify the entity.
If not required by this implementation guide, do not send.

Example

REF*2U*X~

Variants (all may be used)

- REF Other Payer Prior Authorization Number
- REF Other Payer Referral Number
- REF Other Payer Claim Adjustment Indicator
- REF Other Payer Claim Control Number

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

2U Payer Identification Number

- This code is only allowed when the qualifier XV is reported in NM108 of this loop.

EI Employer's Identification Number

- The Employer's Identification Number must be a string of exactly nine numbers with no separators.

For example, "001122333" would be valid, while sending "001-12-2333" or "00-1122333" would be invalid.

FY Claim Office Number

NF National Association of Insurance Commissioners (NAIC) Code

REF-02

127 Other Payer Secondary Identifier

Min 1 Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

3550

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Payer Name Loop > REF

Max use 1

Optional

Other Payer Prior Authorization Number

To specify identifying information

Usage notes

- Required when the payer identified in this loop has assigned a prior authorization number to this claim.
If not required by this implementation guide, do not send.

Example

REF*G1*XXXX~

Variants (all may be used)

- REF Other Payer Secondary Identifier
- REF Other Payer Referral Number
- REF Other Payer Claim Adjustment Indicator
- REF Other Payer Claim Control Number

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
	Code qualifying the Reference Identification		
	G1 Prior Authorization Number		
REF-02	127 Other Payer Prior Authorization Number	Min 1 Max 50 String (AN)	Required
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier		

Other Payer Referral Number

To specify identifying information

Usage notes

- Required when the payer identified in this loop has assigned a referral number to this claim.
If not required by this implementation guide, do not send.

Example

REF*9F*XXXX~

Variants (all may be used)

- REF Other Payer Secondary Identifier
- REF Other Payer Prior Authorization Number
- REF Other Payer Claim Adjustment Indicator
- REF Other Payer Claim Control Number

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
	Code qualifying the Reference Identification		
	9F Referral Number		
REF-02	127 Other Payer Prior Authorization or Referral Number	String (AN)	Required
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier	Min 1	Max 50

REF

3550

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Payer Name Loop > REF

Max use 1

Optional

Other Payer Claim Adjustment Indicator

To specify identifying information

Usage notes

- Required when the claim is being sent in the payer-to-payer COB model,
AND
the destination payer is secondary to the payer identified in this Loop ID-2330B,
AND
the payer identified in this Loop ID-2330B has re-adjudicated the claim.
If not required by this implementation guide, do not send.

Example

REF*T4*XX~

Variants (all may be used)

- REF Other Payer Secondary Identifier
- REF Other Payer Prior Authorization Number
- REF Other Payer Referral Number
- REF Other Payer Claim Control Number

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

T4 Signal Code

REF-02

127 Other Payer Claim Adjustment Indicator

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- The only valid value for this element is 'Y'.

REF

3550

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Payer Name Loop > REF

Max use 1

Optional

Other Payer Claim Control Number

To specify identifying information

Usage notes

- Required when it is necessary to identify the Other Payer's Claim Control Number in a payer-to-payer COB situation.
OR
Required when the Other Payer's Claim Control Number is available.
If not required by this implementation guide, do not send.

Example

REF*F8*XXXX~

Variants (all may be used)

- REF Other Payer Secondary Identifier
- REF Other Payer Prior Authorization Number
- REF Other Payer Referral Number
- REF Other Payer Claim Adjustment Indicator

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
	Code qualifying the Reference Identification		
	F8 Original Reference Number		
REF-02	127 Other Payer's Claim Control Number	Min 1 Max 50 String (AN)	Required
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier		

2330B Other Payer Name Loop end

2330C Other Payer Referring Provider Loop

Max 2 Optional

- Variants (all may be used)
 Other Subscriber Name Loop
 Other Payer Name Loop
 Other Payer Rendering Provider Loop
 Other Payer Service Facility Location Loop
 Other Payer Supervising Provider Loop
 Other Payer Billing Provider Loop

NM1 3250 Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Payer Referring Provider Loop
 Max use 1 Required

Other Payer Referring Provider

To supply the full name of an individual or organizational entity

Usage notes

- See Crosswalking COB Data Elements section for more information on handling COB in the 837.
- Required prior to the mandated implementation of the HIPAA National Provider Identifier (NPI) rule when the provider in the corresponding Loop ID-2310 is sent and one or more additional payer-specific provider identification numbers are required by this non-destination payer (Loop ID-2330B) to identify the provider.
OR
Required after the mandated implementation of the NPI rule for providers who are not Health Care Providers when the provider is sent in the corresponding Loop ID-2310 and one or more additional payer-specific provider identification numbers are required by this non-destination payer (Loop ID-2330B) to identify the provider.
If not required by this implementation guide, do not send.

Example

NM1*DN*1~

NM1-01 98 Entity Identifier Code Identifier (ID) Required

Code identifying an organizational entity, a physical location, property or an individual

DN Referring Provider

☐ Use on the first iteration of this loop. Use if loop is used only once.

P3 Primary Care Provider

☐ Use only if loop is used twice. Use only on second iteration of this loop.

NM1-02 1065 Entity Type Qualifier Identifier (ID) Required

Code qualifying the type of entity

- NM102 qualifies NM103.

1 Person

REF

3550

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Payer Referring Provider Loop

Max use 3

Required

Other Payer Referring Provider Secondary Identification

To specify identifying information

Usage notes

- Non-destination (COB) payer's provider identification number(s).
- See Crosswalking COB Data Elements section for more information on handling COB in the 837.

Example

REF*G2*XXXXXX~

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
OB State License Number			
1G Provider UPIN Number			
☐ UPINs must be formatted as either X99999 or XXX999.			
G2 Provider Commercial Number			
☐ This code designates a proprietary provider number for the non-destination payer identified in the Other Payer Name Loop ID-2330B for this iteration of Loop ID-2320. This is true regardless of whether that payer is Medicare, Medicaid, a Blue Cross Blue Shield plan, a commercial plan, or any other health plan.			
REF-02	127 Other Payer Referring Provider Identifier	Min 1 Max 50 String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			

2330C Other Payer Referring Provider Loop end

2330D Other Payer Rendering Provider Loop

Max 1Optional

- Variants (all may be used)
- Other Subscriber Name Loop
 - Other Payer Name Loop
 - Other Payer Referring Provider Loop
 - Other Payer Service Facility Location Loop
 - Other Payer Supervising Provider Loop
 - Other Payer Billing Provider Loop

NM13250

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Payer Rendering Provider Loop

Max use 1Required

Other Payer Rendering Provider

To supply the full name of an individual or organizational entity

Usage notes

- See Crosswalking COB Data Elements section for more information on handling COB in the 837.
- Required prior to the mandated implementation of the HIPAA National Provider Identifier (NPI) rule when the provider in the corresponding Loop ID-2310 is sent and one or more additional payer-specific provider identification numbers are required by this non-destination payer (Loop ID-2330B) to identify the provider.
OR
Required after the mandated implementation of the NPI rule for providers who are not Health Care Providers when the provider is sent in the corresponding Loop ID-2310 and one or more additional payer-specific provider identification numbers are required by this non-destination payer (Loop ID-2330B) to identify the provider.
If not required by this implementation guide, do not send.

Example

NM1*82*1~

NM1-01	98 Entity Identifier Code	Identifier (ID)	Required
Code identifying an organizational entity, a physical location, property or an individual			
82 Rendering Provider			
NM1-02	1065 Entity Type Qualifier	Identifier (ID)	Required
Code qualifying the type of entity			
• NM102 qualifies NM103.			
1 Person			
2 Non-Person Entity

Max use 1

Required

Service Line Number

To reference a line number in a transaction set

Usage notes

- The LX functions as a line counter.
- The Service Line LX segment must begin with one and is incremented by one for each additional service line of a claim.
- LX01 is used to indicate bundling in SVD06 in the Line Item Adjudication loop. See Section 1.4.1.2 for more information on bundling and unbundling.

Example

LX*000000~

LX-01

554

Assigned Number

Min 1

Max 6

#

Numeric (NO)

Required

Number assigned for differentiation within a transaction set

SV1

3700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > SV1

Max use 1

Required

Professional Service

To specify the service line item detail for a health care professional

Example

```
SV1*IV>XXX>XX>XX>XX>XX>XXX*0000000000*MJ*00000000  
00*XX**00>00>00>00**Y**Y*Y***0~
```

SV1-01

C003 Composite Medical Procedure Identifier

To identify a medical procedure by its standardized codes and applicable modifiers

Max use 1

Required

C003-01

235 Product or Service ID Qualifier

Identifier (ID)

Required

Code identifying the type/source of the descriptive number used in Product/Service ID (234)

- C003-01 qualifies C003-02 and C003-08.

Usage notes

- The NDC number is used for reporting prescribed drugs and biologics when required by government regulation, or as deemed by the provider to enhance claim reporting or adjudication processes. The NDC number is reported in the LIN segment of Loop ID-2410 only.

- ER

Jurisdiction Specific Procedure and Supply Codes

☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:
If a new rule names the Jurisdiction Specific Procedure and Supply Codes as an allowable code set under HIPAA,
OR
The Secretary grants an exception to use the code set as a pilot project as allowed under the law,
OR
For claims which are not covered under HIPAA.
- HC

Health Care Financing Administration Common Procedural Coding System (HCPCS) Codes

☐ Because the AMA's CPT codes are also level 1 HCPCS codes, they are reported under HC.
- IV

Home Infusion EDI Coalition (HIEC) Product/Service Code

☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:
If a new rule names the Home Infusion EDI Coalition (HIEC) Product/Service Codes as an allowable code set under HIPAA,
OR
The Secretary grants an exception to use the code set as a pilot project as allowed under the law,
OR
For claims which are not covered under HIPAA.;
- WK

Advanced Billing Concepts (ABC) Codes

☐ At the time of this writing, this code set has been approved by the Secretary of HHS as a pilot project allowed under HIPAA law.
The qualifier may only be used in transactions covered under HIPAA;

By parties registered in the pilot project and their trading partners,
OR

If a new rule names the Complementary, Alternative, or Holistic Procedure Codes as an allowable code set under HIPAA,

OR

For claims which are not covered under HIPAA.

C003-02 **234 Procedure Code** Min 1 Max 48 **T** String (AN) **Required**

Identifying number for a product or service

- If C003-08 is used, then C003-02 represents the beginning value in the range in which the code occurs.

C003-03 **1339 Procedure Modifier** Min 2 Max 2 **T** String (AN) **Optional**

This identifies special circumstances related to the performance of the service, as defined by trading partners

- C003-03 modifies the value in C003-02 and C003-08.

C003-04 **1339 Procedure Modifier** Min 2 Max 2 **T** String (AN) **Optional**

This identifies special circumstances related to the performance of the service, as defined by trading partners

- C003-04 modifies the value in C003-02 and C003-08.

C003-05 **1339 Procedure Modifier** Min 2 Max 2 **T** String (AN) **Optional**

This identifies special circumstances related to the performance of the service, as defined by trading partners

- C003-05 modifies the value in C003-02 and C003-08.

C003-06 **1339 Procedure Modifier** Min 2 Max 2 **T** String (AN) **Optional**

This identifies special circumstances related to the performance of the service, as defined by trading partners

- C003-06 modifies the value in C003-02 and C003-08.

C003-07 **352 Description** Min 1 Max 80 **T** String (AN) **Optional**

A free-form description to clarify the related data elements and their content

- C003-07 is the description of the procedure identified in C003-02.

SV1-02 **782 Line Item Charge Amount** Min 1 Max 15 # Decimal number (R) Required

Monetary amount

- SV102 is the submitted service line item amount.

Usage notes

- This is the total charge amount for this service line. The amount is inclusive of the provider's base charge and any applicable tax and/or postage claimed amounts reported within this line's AMT segments.
- Zero "0" is an acceptable value for this element.

SV1-03 **355 Unit or Basis for Measurement Code** Identifier (ID) Required

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

MJ Minutes

- ☐ Required for Anesthesia claims.

Anesthesia time is counted from the moment that the practitioner, having completed the preoperative evaluation, starts an intravenous line, places monitors, administers pre-anesthesia sedation, or otherwise physically begins to prepare the patient for anesthesia. Time continues throughout the case and while the practitioner accompanies the patient to the post-anesthesia recovery unit (PACU). Time stops when the practitioner releases the patient to the care of PACU personnel.

UN Unit

SV1-04 **380 Service Unit Count** Min 1 Max 15 # Decimal number (R) Required

Numeric value of quantity

Usage notes

- Note: When a decimal is needed to report units, include it in this element, for example, "15.6".
- The maximum length for this field is 8 digits excluding the decimal. When a decimal is used, the maximum number of digits allowed to the right of the decimal is three.

SV1-05 **1331 Place of Service Code** Min 1 Max 2 T String (AN) Optional

Code identifying where services were, or may be, performed; the first and second positions of the Uniform Bill Type Code for Institutional Services or the Place of Service Codes for Professional or Dental Services.

- SV105 is the place of service.

Usage notes

- See CODE SOURCE 237: Place of Service Codes for Professional Claims

SV1-07 **C004 Composite Diagnosis Code Pointer** Max use 1 Required

To identify one or more diagnosis code pointers

C004-01 **1328 Diagnosis Code Pointer** Min 1 Max 2 # Numeric (N0) **Required**

A pointer to the diagnosis code in the order of importance to this service

- C004-01 identifies the primary diagnosis code for this service line.

Usage notes

- This first pointer designates the primary diagnosis for this service line. Remaining diagnosis pointers indicate declining level of importance to service line. Acceptable values are 1 through 12, and correspond to Composite Data Elements 01 through 12 in the Health Care Diagnosis Code HI segment in the Claim Loop ID-2300.

C004-02 **1328 Diagnosis Code Pointer** Min 1 Max 2 # Numeric (N0) **Optional**

A pointer to the diagnosis code in the order of importance to this service

- C004-02 identifies the second diagnosis code for this service line.

C004-03 **1328 Diagnosis Code Pointer** Min 1 Max 2 # Numeric (N0) **Optional**

A pointer to the diagnosis code in the order of importance to this service

- C004-03 identifies the third diagnosis code for this service line.

C004-04 **1328 Diagnosis Code Pointer** Min 1 Max 2 # Numeric (N0) **Optional**

A pointer to the diagnosis code in the order of importance to this service

- C004-04 identifies the fourth diagnosis code for this service line.

SV1-09 **1073 Emergency Indicator** ■ Identifier (ID) **Optional**

Code indicating a Yes or No condition or response

- SV109 is the emergency-related indicator; a "Y" value indicates service provided was emergency related; an "N" value indicates service provided was not emergency related.

Usage notes

- For this implementation, the listed value takes precedence over the semantic note.

Emergency definition: The patient requires immediate medical intervention as a result of severe, life threatening, or potentially disabling conditions.

Y Yes

SV1-11 **1073 EPSDT Indicator** ■ Identifier (ID) **Optional**

Code indicating a Yes or No condition or response

- SV111 is early and periodic screen for diagnosis and treatment of children (EPSDT) involvement; a "Y" value indicates EPSDT involvement; an "N" value indicates no EPSDT involvement.

Usage notes

- For this implementation, the listed value takes precedence over the semantic note.
- When this element is used, this service is not the screening service.

Y Yes

SV1-12

1073 Family Planning Indicator

■ Identifier (ID)

Optional

Code indicating a Yes or No condition or response

- SV112 is the family planning involvement indicator. A "Y" value indicates family planning services involvement; an "N" value indicates no family planning services involvement.

Usage notes

- For this implementation, the listed value takes precedence over the semantic note.

Y Yes

SV1-15

1327 Co-Pay Status Code

■ Identifier (ID)

Optional

Code indicating whether or not co-payment requirements were met on a line by line basis

- 0 Copay exempt

SV5

4000

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > SV5

Max use 1

Optional

Durable Medical Equipment Service

To specify the claim service detail for durable medical equipment

Usage notes

- Required when necessary to report both the rental and purchase price information for durable medical equipment. This is not used for claims where the provider is reporting only the rental price or only the purchase price. If not required by this implementation guide, do not send.

Example

SV5*HC>XX*DA*000*0000000*0*4~

■ If Rental Unit Price Indicator (SV5-06) is present, then DME Rental Price (SV5-04) is required

SV5-01

C003 Composite Medical Procedure Identifier

To identify a medical procedure by its standardized codes and applicable modifiers

Max use 1

Required

C003-01

235 Procedure Identifier

Identifier (ID)

Required

Code identifying the type/source of the descriptive number used in Product/Service ID (234)

- C003-01 qualifies C003-02 and C003-08.

HC Health Care Financing Administration Common Procedural Coding System (HCPCS) Codes
☐ Because the AMA's CPT codes are also level 1 HCPCS codes, they are reported under HC.

C003-02

234 Procedure Code

Min 1 Max 48 String (AN)

Required

Identifying number for a product or service

- If C003-08 is used, then C003-02 represents the beginning value in the range in which the code occurs.

Usage notes

- This value must be the same as that reported in SV101-2.

SV5-02

355 Unit or Basis for Measurement Code

Identifier (ID)

Required

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

DA Days

SV5-03

380 Length of Medical Necessity

Min 1 Max 15 # Decimal number (R)

Required

Numeric value of quantity

- SV503 is the length of medical treatment required.

SV5-04

782 DME Rental Price

Min 1Max 15# Decimal number (R)

Required

Monetary amount

- SV504 is the rental price.

SV5-05

782 DME Purchase Price

Min 1Max 15# Decimal number (R)

Required

Monetary amount

- SV505 is the purchase price.

SV5-06

594 Rental Unit Price Indicator

Identifier (ID)

Required

Code indicating frequency or type of activities or actions being reported

- SV506 is the frequency at which the rental equipment is billed.

- 1 Weekly
- 4 Monthly
- 6 Daily

PWK

4200

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > PWK

Max use 10

Optional

Line Supplemental Information

To identify the type or transmission or both of paperwork or supporting information

Usage notes

- Required when there is a paper attachment following this claim.
OR
Required when attachments are sent electronically (PWK02 = EL) but are transmitted in another functional group (for example, 275) rather than by paper. PWK06 is then used to identify the attached electronic documentation. The number in PWK06 is carried in the TRN of the electronic attachment.
OR
Required when the provider deems it necessary to identify additional information that is being held at the provider's office and is available upon request by the payer (or appropriate entity), but the information is not being submitted with the claim. Use the value of "AA" in PWK02 to convey this specific use of the PWK segment.
If not required by this implementation guide, do not send.

Example

PWK*HC*FX***AC*XXXXXXX~

Variants (all may be used)

PWK Durable Medical Equipment Certificate of Medical Necessity Indicator

- If either Identification Code Qualifier (PWK-05) or Attachment Control Number (PWK-06) is present, then the other is required

PWK-01

755 Attachment Report Type Code

Identifier (ID)

Required

Code indicating the title or contents of a document, report or supporting item

- 03 Report Justifying Treatment Beyond Utilization Guidelines
- 04 Drugs Administered
- 05 Treatment Diagnosis
- 06 Initial Assessment
- 07 Functional Goals
- 08 Plan of Treatment
- 09 Progress Report
- 10 Continued Treatment
- 11 Chemical Analysis
- 13 Certified Test Report
- 15 Justification for Admission
- 21 Recovery Plan
- A3 Allergies/Sensitivities Document
- A4 Autopsy Report
- AM Ambulance Certification
- AS Admission Summary
- B2 Prescription
- B3 Physician Order
- B4 Referral Form
- BR Benchmark Testing Results

BS	Baseline
BT	Blanket Test Results
CB	Chiropractic Justification

PWK-02 756 Attachment Transmission Code**■ Identifier (ID)** **Required**

Code defining timing, transmission method or format by which reports are to be sent

Usage notes

- Required when the actual attachment is maintained by an attachment warehouse or similar vendor.

AA Available on Request at Provider Site

- ☐ This means that the additional information is not being sent with the claim at this time.
Instead, it is available to the payer (or appropriate entity) at their request.

BM By Mail

EL Electronically Only

- ☐ Indicates that the attachment is being transmitted in a separate X12 functional group.

EM E-Mail

FT File Transfer

FX By Fax

PWK-05

66 Identification Code Qualifier

■ Identifier (ID)

Optional

Code designating the system/method of code structure used for Identification Code (67)

- PWK05 and PWK06 may be used to identify the addressee by a code number.

AC Attachment Control Number

PWK-06

67 Attachment Control Number

Min 2 Max 80 ■ String (AN)

Optional

Code identifying a party or other code

Usage notes

- PWK06 is used to identify the attached electronic documentation. The number in PWK06 is carried in the TRN of the electronic attachment.
- For the purpose of this implementation, the maximum field length is 50.

Durable Medical Equipment Certificate of Medical Necessity Indicator

To identify the type or transmission or both of paperwork or supporting information

Usage notes

- Required on claims that include a Durable Medical Equipment Regional Carrier (DMERC) Certificate of Medical Necessity (CMN). If not required by this implementation guide, do not send.;

Example

PWK*CT*AB~

Variants (all may be used)

PWK Line Supplemental Information

PWK-01

755 Attachment Report Type Code

Identifier (ID)

Required

Code indicating the title or contents of a document, report or supporting item

CT Certification

PWK-02

756 Attachment Transmission Code

Identifier (ID)

Required

Code defining timing, transmission method or format by which reports are to be sent

Usage notes

- Required when the actual attachment is maintained by an attachment warehouse or similar vendor.

- AB Previously Submitted to Payer
- AD Certification Included in this Claim
- AF Narrative Segment Included in this Claim
- AG No Documentation is Required
- NS Not Specified

☐ NS = Paperwork is available on request at the provider's site. This means that the paperwork is not being sent with the claim at this time. Instead, it is available to the payer (or appropriate entity) at their request.

CR1

4250

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > CR1

Max use 1

Optional

Ambulance Transport Information

To supply information related to the ambulance service rendered to a patient

Usage notes

Required when CR102 is used. If not required by this implementation guide, do not send.

- Required on ambulance transport services when the information applicable to any one of the segment's elements is different than the information reported in the CR1 at the claim level (Loop ID-2300). If not required by this implementation guide, do not send.

Example

CR1*LB*00000**D*DH*000000***XXXXXX*XX~

■ If either Unit or Basis for Measurement Code (CR1-01) or Patient Weight (CR1-02) is present, then the other is required

CR1-01

355 Unit or Basis for Measurement Code

■ Identifier (ID)

Optional

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

LB Pound

CR1-02

81 Patient Weight

Min 1 Max 10 # Decimal number (R)

Optional

Numeric value of weight

- CR102 is the weight of the patient at time of transport.

CR1-04

1317 Ambulance Transport Reason Code

■ Identifier (ID)

Required

Code indicating the reason for ambulance transport

- A Patient was transported to nearest facility for care of symptoms, complaints, or both
- B Patient was transported for the benefit of a preferred physician
- C Patient was transported for the nearness of family members
- D Patient was transported for the care of a specialist or for availability of specialized equipment
- E Patient Transferred to Rehabilitation Facility

CR1-05

355 Unit or Basis for Measurement Code

■ Identifier (ID)

Required

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

DH Miles

CR1-06

380 Transport Distance

Min 1 Max 15 # Decimal number (R)

Required

Numeric value of quantity

- CR106 is the distance traveled during transport.

Usage notes

- 0 (zero) is a valid value when ambulance services do not include a charge for mileage.

CR1-09

352 Round Trip Purpose Description

Min 1Max 80

T

String (AN)

Optional

A free-form description to clarify the related data elements and their content

- CR109 is the purpose for the round trip ambulance service.

CR1-10

352 Stretcher Purpose Description

Min 1Max 80

T

String (AN)

Optional

A free-form description to clarify the related data elements and their content

- CR110 is the purpose for the usage of a stretcher during ambulance service.

CR3

4350

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > CR3

Max use 1

Optional

Durable Medical Equipment Certification

To supply information regarding a physician's certification for durable medical equipment

Usage notes

- Required when a Durable Medical Equipment Regional Carrier Certificate of Medical Necessity (DMERC CMN) or a DMERC Information Form (DIF) or Oxygen Therapy Certification is included on this service line.
If not required by this implementation guide, do not send.

Example

CR3*I*MO*000000000~

CR3-01

Identifier (ID)

Required

Code indicating the type of certification

I

Initial

R

Renewal

S

Revised

CR3-02

355 Unit or Basis for Measurement Code

Identifier (ID)

Required

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

- CR302 and CR303 specify the time period covered by this certification.

MO

Months

CR3-03

380 Durable Medical Equipment Duration

Min 1

Max 15

Decimal number (R)

Required

Numeric value of quantity

Usage notes

- Length of time DME equipment is needed.

CRC

4500

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > CRC

Max use 3

Optional

Ambulance Certification

To supply information on conditions

Usage notes

- The maximum number of CRC segments which can occur per Loop ID-2400 is 3. Submitters are free to mix and match the three types of service line level CRC segments shown in this implementation guide to meet their billing or reporting needs but no more than a total of 3 CRC segments per Loop ID-2400 are allowed.
- Required on ambulance transport services when the information applicable to any one of the segment's elements is different than the information reported in the Ambulance Certification CRC at the claim level (Loop ID-2300). If not required by this implementation guide, do not send.

Example

CRC*07*Y*06*XXX*XX*XX*XXX~

CRC Hospice Employee Indicator

CRC Condition Indicator/Durable Medical Equipment

CRC-01	1136 Code Category	Identifier (ID)	Required
Specifies the situation or category to which the code applies			
• CRC01 qualifies CRC03 through CRC07.			
07 Ambulance Certification			
CRC-02	1073 Certification Condition Indicator	Identifier (ID)	Required
Code indicating a Yes or No condition or response			
• CRC02 is a Certification Condition Code applies indicator. A "Y" value indicates the condition codes in CRC03 through CRC07 apply; an "N" value indicates the condition codes in CRC03 through CRC07 do not apply.			
N No			
Y Yes			
CRC-03	1321 Condition Code	Identifier (ID)	Required
Code indicating a condition			
Usage notes			
• The codes for CRC03 also can be used for CRC04 through CRC07.			
01 Patient was admitted to a hospital			
04 Patient was moved by stretcher			
05 Patient was unconscious or in shock			
06 Patient was transported in an emergency situation			

- 07 Patient had to be physically restrained
- 08 Patient had visible hemorrhaging
- 09 Ambulance service was medically necessary
- 12 Patient is confined to a bed or chair
- ☐ Use code 12 to indicate patient was bedridden during transport.

CRC-04

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-05

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-06

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Code indicating a condition			
38 Certification signed by the physician is on file at the supplier's office			
ZV Replacement Item			
CRC-04	1321 Condition Indicator	Min 2 Max 3 Identifier (ID)	Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

Date - Service Date

To specify any or all of a date, a time, or a time period

Usage notes

- In cases where a drug is being billed on a service line, date range may be used to indicate drug duration for which the drug supply will be used by the patient. The difference in dates, including both the begin and end dates, are the days supply of the drug. Example: 20000101 - 20000107 (1/1/00 to 1/7/00) is used for a 7 day supply where the first day of the drug used by the patient is 1/1/00. In the event a drug is administered on less than a daily basis (for example, every other day) the date range would include the entire period during which the drug was supplied, including the last day the drug was used. Example: 20000101 - 20000108 (1/1/00 to 1/8/00) is used for an 8 days supply where the prescription is written for Q48 (every 48 hours), four doses of the drug are dispensed and the first dose is used on 1/1/00.

To specify any or all of a date, a time, or a time period

Usage notes

- Required when a Durable Medical Equipment Regional Carrier Certificate of Medical Necessity (DMERC CMN) or DMERC Information Form (DIF), or Oxygen Therapy Certification is included on this service line. If not required by this implementation guide, do not send.

Example

DTP*463*D8*XXXX~

Variants (all may be used)

- DTP Date - Service Date
- DTP Date - Prescription Date
- DTP DATE - Certification Revision/Recertification Date
- DTP Date - Initial Treatment Date
- DTP Date - Last Certification Date
- DTP Date - Last Seen Date
- DTP Date - Last X-ray Date
- DTP Date - Shipped Date
- DTP Date - Test Date

DTP-01	374 Date Time Qualifier	Identifier (ID)	Required
	Code specifying type of date or time, or both date and time		
	463 Begin Therapy		
DTP-02	1250 Date Time Period Format Qualifier	Identifier (ID)	Required
	Code indicating the date format, time format, or date and time format		
	DTP02 is the date or time or period format that will appear in DTP03.		
	D8 Date Expressed in Format CCYYMMDD		
DTP-03	1251 Begin Therapy Date	Min 1 Max 35 String (AN)	Required
	Expression of a date, a time, or range of dates, times or dates and times		

DTP

4550

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > DTP

Max use 1

Optional

Date - Initial Treatment Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when the Initial Treatment Date is known to impact adjudication for claims involving spinal manipulation, physcial therapy, occupational therapy, or speech language pathology and when different from what is reported at the claim level. If not required by this implementation guide, do not send.

Example

DTP*454*D8*XXXXXX~

Variants (all may be used)

- DTP Date - Service Date
- DTP Date - Prescription Date
- DTP DATE - Certification Revision/Recertification Date
- DTP Date - Begin Therapy Date
- DTP Date - Last Certification Date
- DTP Date - Last Seen Date
- DTP Date - Last X-ray Date
- DTP Date - Shipped Date
- DTP Date - Test Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

454 Initial Treatment

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Initial Treatment Date

Min 1Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

DTP

4550

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > DTP

Max use 1

Optional

Date - Last Certification Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when a Durable Medical Equipment Regional Carrier Certificate of Medical Necessity (DMERC CMN), DMERC Information Form (DIF), or Oxygen Therapy Certification is included on this service line. If not required by this implementation guide, do not send.
- This is the date the ordering physician signed the CMN or Oxygen Therapy Certification, or the date the supplier signed the DMERC Information Form (DIF).

Example

DTP*461*D8*XX~

Variants (all may be used)

- DTP Date - Service Date
- DTP Date - Prescription Date
- DTP DATE - Certification Revision/Recertification Date
- DTP Date - Begin Therapy Date
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last X-ray Date
- DTP Date - Shipped Date
- DTP Date - Test Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

461 Last Certification

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Last Certification Date

Min 1Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

DTP

4550

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > DTP

Max use 1

Optional

Date - Last Seen Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when a claim involves physician services for routine foot care; and is different than the date listed at the claim level and is known to impact the payer's adjudication process. If not required by this implementation guide, do not send.;

Example

DTP*304*D8*XXXX~

Variants (all may be used)

DTP Date - Service Date

DTP Date - Prescription Date

DTP DATE - Certification Revision/Recertification Date

DTP Date - Begin Therapy Date

DTP Date - Initial Treatment Date

DTP Date - Last Certification Date

DTP Date - Last X-ray Date

DTP Date - Shipped Date

DTP Date - Test Date

DTP-01	374 Date Time Qualifier	Identifier (ID)	Required
	Code specifying type of date or time, or both date and time		
	304 Latest Visit or Consultation		
DTP-02	1250 Date Time Period Format Qualifier	Identifier (ID)	Required
	Code indicating the date format, time format, or date and time format		
	DTP02 is the date or time or period format that will appear in DTP03.		
	D8 Date Expressed in Format CCYYMMDD		
DTP-03	1251 Treatment or Therapy Date	Min 1 Max 35 String (AN)	Required
	Expression of a date, a time, or range of dates, times or dates and times		

Date - Last X-ray Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when claim involves spinal manipulation and an x-ray was taken and is different than information at the claim level (Loop ID-2300). If not required by this implementation guide, do not send.

Example

DTP*455*D8*XXXX~

Variants (all may be used)

DTP Date - Service Date

DTP Date - Prescription Date

DTP DATE - Certification Revision/Recertification Date

DTP Date - Begin Therapy Date

DTP Date - Initial Treatment Date

DTP Date - Last Certification Date

DTP Date - Last Seen Date

DTP Date - Shipped Date

DTP Date - Test Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

455 Last X-Ray

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Last X-Ray Date

Min 1Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Shipped Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when billing or reporting shipped products. If not required by this implementation guide, do not send.

Example

DTP*011*D8*XXXXX~

Variants (all may be used)

DTP Date - Service Date

DTP Date - Prescription Date

DTP DATE - Certification Revision/Recertification Date

DTP Date - Begin Therapy Date

DTP Date - Initial Treatment Date

DTP Date - Last Certification Date

DTP Date - Last Seen Date

DTP Date - Last X-ray Date

DTP Date - Test Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

011 Shipped

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Shipped Date

Min 1Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Test Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required on initial EPO claims service lines for dialysis patients when test results are being billed or reported. If not required by this implementation guide, do not send.

Example

DTP*738*D8*XXXXXX~

Variants (all may be used)

DTP Date - Service Date

DTP Date - Prescription Date

DTP DATE - Certification Revision/Recertification Date

DTP Date - Begin Therapy Date

DTP Date - Initial Treatment Date

DTP Date - Last Certification Date

DTP Date - Last Seen Date

DTP Date - Last X-ray Date

DTP Date - Shipped Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

738

Most Recent Hemoglobin or Hematocrit or Both

739

Most Recent Serum Creatine

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

DTP02

is the date or time or period format that will appear in DTP03.

D8

Date Expressed in Format CCYYMMDD

DTP-03

1251 Test Performed Date

Min 1

Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

QTY

4600

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > QTY

Max use 1

Optional

Ambulance Patient Count

To specify quantity information

Usage notes

- Required when more than one patient is transported in the same vehicle for Ambulance or non-emergency transportation services. If not required by this implementation guide, do not send.
- The QTY02 is the only place to report the number of patients when there are multiple patients transported.

Example

QTY*PT*0000000000~

Variants (all may be used)

QTY Obstetric Anesthesia Additional Units

QTY-01	673 Quantity Qualifier	Identifier (ID)	Required
Code specifying the type of quantity			
PT Patients			
QTY-02	380 Ambulance Patient Count	Min 1 Max 15 # Decimal number (R)	Required
Numeric value of quantity			

QTY

4600

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > QTY

Max use 1

Optional

Obstetric Anesthesia Additional Units

To specify quantity information

Usage notes

- Required in conjunction with anesthesia for obstetric services when the anesthesia provider chooses to report additional complexity beyond the normal services reflected by the procedure base units and anesthesia time.
If not required by this implementation guide, do not send.

Example

QTY*FL*00000~

Variants (all may be used)

QTY Ambulance Patient Count

QTY-01	673 Quantity Qualifier	Identifier (ID)	Required
	Code specifying the type of quantity		
	FL Units		
QTY-02	380 Obstetric Additional Units	Min 1 Max 15 # Decimal number (R)	Required
	Numeric value of quantity		
	Usage notes		
	The number of additional units reported by an anesthesia provider to reflect additional complexity of services.		

MEA

4620

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > MEA

Max use 5

Optional

Test Result

To specify physical measurements or counts, including dimensions, tolerances, variances, and weights

(See Figures Appendix for example of use of C001)

Usage notes

- Required on Dialysis related service lines for ESRD. Use R1, R2, R3, or R4 to qualify the Hemoglobin, Hematocrit, Epoetin Starting Dosage, and Creatinine test results.
OR
Required on DMERC service lines to report the Patient's Height from the Certificate of Medical Necessity (CMN). Use HT qualifier.
If not required by this implementation guide, do not send.

Example

MEA*TR*R1*00000~

MEA-01	737 Measurement Reference Identification Code	Identifier (ID)	Required
Code identifying the broad category to which a measurement applies			
OG Original			
☐ Use OG to report Starting Dosage.			
TR Test Results			
MEA-02	738 Measurement Qualifier	Identifier (ID)	Required
Code identifying a specific product or process characteristic to which a measurement applies			
HT Height			
R1 Hemoglobin			
R2 Hematocrit			
R3 Epoetin Starting Dosage			
R4 Creatinine			
MEA-03	739 Test Results	Min 1 Max 15 # Decimal number (R)	Required
The value of the measurement			

Contract Information

To specify basic data about the contract or contract line item

Usage notes

- The developers of this implementation guide note that the CN1 segment is for use only for post-adjudicated claims, which do not meet the definition of a health care claim under HIPAA. Consequently, at the time of this writing, the CN1 segment is for non-HIPAA use only.
- Required when the submitter is contractually obligated to supply this information on post-adjudicated claims. If not required by this implementation guide, do not send.

Example

CN1*05*000*000000*XXX*000000*XXXXX~

CN1-01	1166 Contract Type Code	Identifier (ID)	Required
	Code identifying a contract type		
	01 Diagnosis Related Group (DRG)		
	02 Per Diem		
	03 Variable Per Diem		
	04 Flat		
	05 Capitated		
	06 Percent		
	09 Other		
CN1-02	782 Contract Amount	Min 1Max 15# Decimal number (R)	Optional
	Monetary amount		
	CN102 is the contract amount.		
CN1-03	332 Contract Percentage	Min 1Max 6# Decimal number (R)	Optional
	Percent given in decimal format (e.g., 0.0 through 100.0 represents 0% through 100%)		
	CN103 is the allowance or charge percent.		
CN1-04	127 Contract Code	Min 1Max 50String (AN)	Optional
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier		
	CN104 is the contract code.		
CN1-05	338 Terms Discount Percentage	Min 1Max 6# Decimal number (R)	Optional

Terms discount percentage, expressed as a percent, available to the purchaser if an invoice is paid on or before the Terms Discount Due Date

CN1-06

799 Contract Version Identifier

Min 1

Max 30

 String (AN)

Optional

Revision level of a particular format, program, technique or algorithm

- CN106 is an additional identifying number for the contract.

REF

4700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > REF

Max use 1

Optional

Clinical Laboratory Improvement Amendment (CLIA) Number

To specify identifying information

Usage notes

- Required for all CLIA certified facilities performing CLIA covered laboratory services and the number is different than the CLIA number reported at the claim level (Loop ID-2300). If not required by this implementation guide, do not send.;

Example

REF*X4*X~

Variants (all may be used)

- REF Immunization Batch Number
- REF Line Item Control Number
- REF Mammography Certification Number
- REF Referral Number
- REF Referring Clinical Laboratory Improvement Amendment (CLIA) Facility Identification
- REF Repriced Line Item Reference Number
- REF Adjusted Repriced Line Item Reference Number
- REF Prior Authorization

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
	Code qualifying the Reference Identification		
	X4 Clinical Laboratory Improvement Amendment Number		
REF-02	127 Clinical Laboratory Improvement Amendment Number	String (AN)	Required
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier	Min 1	Max 50

REF

4700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > REF

Max use 1

Optional

Immunization Batch Number

To specify identifying information

Usage notes

- Required when mandated by state or federal law or regulations to report an Immunization Batch Number. If not required by this implementation guide, do not send.

Example

REF*BT*XXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Line Item Control Number
- REF Mammography Certification Number
- REF Referral Number
- REF Referring Clinical Laboratory Improvement Amendment (CLIA) Facility Identification
- REF Repriced Line Item Reference Number
- REF Adjusted Repriced Line Item Reference Number
- REF Prior Authorization

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

BT Batch Number

REF-02

127 Immunization Batch Number

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

4700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > REF

Max use 1

Optional

Line Item Control Number

To specify identifying information

Usage notes

- Required when the submitter needs a line item control number for subsequent communications to or from the payer. If not required by this implementation guide, do not send.
- The line item control number must be unique within a patient control number (CLM01). Payers are required to return this number in the remittance advice transaction (835) if the provider sends it to them in the 837 and adjudication is based upon line item detail regardless of whether bundling or unbundling has occurred.
- Submitters are STRONGLY encouraged to routinely send a unique line item control number on all service lines, particularly if the submitter automatically posts their remittance advice. Submitting a unique line item control number allows the capability to automatically post by service line.

Example

REF*6R*XX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Immunization Batch Number
- REF Mammography Certification Number
- REF Referral Number
- REF Referring Clinical Laboratory Improvement Amendment (CLIA) Facility Identification
- REF Repriced Line Item Reference Number
- REF Adjusted Repriced Line Item Reference Number
- REF Prior Authorization

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
6R Provider Control Number			
REF-02	127 Line Item Control Number	Min 1 Max 50 String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			
Usage notes			
• The maximum number of characters to be supported for this field is 30'. A submitter may submit fewer characters depending upon their needs. However, the HIPAA maximum requirement to be supported by any			

receiving system is 30'. Characters beyond 30 are not required to be stored nor returned by any 837-receiving system.

REF

4700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > REF

Max use 1

Optional

Mammography Certification Number

To specify identifying information

Usage notes

- Required when mammography services are rendered by a certified mammography provider and the mammography certification number is different than that sent in Loop ID-2300. If not required by this implementation guide, do not send.

Example

REF*EW*XXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Immunization Batch Number
- REF Line Item Control Number
- REF Referral Number
- REF Referring Clinical Laboratory Improvement Amendment (CLIA) Facility Identification
- REF Repriced Line Item Reference Number
- REF Adjusted Repriced Line Item Reference Number
- REF Prior Authorization

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

EW Mammography Certification Number

REF-02

127 Mammography Certification Number

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

4700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > REF

Max use 5

Optional

Referral Number

To specify identifying information

Usage notes

- Required when this service line involved a referral number that is different than the number reported at the claim level (Loop-ID 2300).
If not required by this implementation guide, do not send.
- When it is necessary to report one or more non-destination payer Referral Numbers, the composite data element in REF04 is used to identify the payer which assigned this referral number.

Example

REF*9F*XXXXX**2U>XXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Immunization Batch Number
- REF Line Item Control Number
- REF Mammography Certification Number
- REF Referring Clinical Laboratory Improvement Amendment (CLIA) Facility Identification
- REF Repriced Line Item Reference Number
- REF Adjusted Repriced Line Item Reference Number
- REF Prior Authorization

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
	Code qualifying the Reference Identification		
	9F Referral Number		
REF-02	127 Referral Number	Min 1 Max 50 String (AN)	Required
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier		
REF-04	C040 Reference Identifier	Max use 1	Optional
	To identify one or more reference numbers or identification numbers as specified by the Reference Qualifier		
	- REF04 contains data relating to the value cited in REF02.		
	Usage notes		
	Required when the Referral Number reported in REF02 of this segment is for a non-destination payer.		

C040-01

128

Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

2U Payer Identification Number

C040-02

127

Other Payer Primary Identifier

Min 1Max 50String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- The payer identifier reported in this field must match the cooresponding payer identifier reported in Loop ID-2330B NM109.

REF

4700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > REF

Max use 1

Optional

Referring Clinical Laboratory Improvement Amendment (CLIA) Facility Identification

To specify identifying information

Usage notes

- Required for claims for any laboratory that referred tests to another laboratory covered by the CLIA Act that is billed on this line. If not required by this implementation guide, do not send.

Example

REF*F4*XXXXXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Immunization Batch Number
- REF Line Item Control Number
- REF Mammography Certification Number
- REF Referral Number
- REF Repriced Line Item Reference Number
- REF Adjusted Repriced Line Item Reference Number
- REF Prior Authorization

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
	Code qualifying the Reference Identification		
	F4 Facility Certification Number		
REF-02	127 Referring CLIA Number	Min 1 Max 50 String (AN)	Required
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier		

REF

4700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > REF

Max use 1

Optional

Repriced Line Item Reference Number

To specify identifying information

Usage notes

- Required when a repricing (pricing) organization needs to have an identifying number on the service line in their submission to their payer organization. This segment is not completed by providers. If not required by this implementation guide, do not send.

Example

REF*9B*XX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Immunization Batch Number
- REF Line Item Control Number
- REF Mammography Certification Number
- REF Referral Number
- REF Referring Clinical Laboratory Improvement Amendment (CLIA) Facility Identification
- REF Adjusted Repriced Line Item Reference Number
- REF Prior Authorization

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

9B Repriced Line Item Reference Number

REF-02

127 Repriced Line Item Reference Number

Min 1 Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

4700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > REF

Max use 1

Optional

Adjusted Repriced Line Item Reference Number

To specify identifying information

Usage notes

- Required when a repricing (pricing) organization needs to have an identifying number on an adjusted service line in their submission to their payer organization. This segment is not completed by providers. If not required by this implementation guide, do not send.

Example

REF*9D*X~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Immunization Batch Number
- REF Line Item Control Number
- REF Mammography Certification Number
- REF Referral Number
- REF Referring Clinical Laboratory Improvement Amendment (CLIA) Facility Identification
- REF Repriced Line Item Reference Number
- REF Prior Authorization

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
	Code qualifying the Reference Identification		
	9D Adjusted Repriced Line Item Reference Number		
REF-02	127 Adjusted Repriced Line Item Reference Number	String (AN)	Required
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier	Min 1	Max 50

REF

4700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > REF

Max use 5

Optional

Prior Authorization

To specify identifying information

Usage notes

- Required when service line involved a prior authorization number that is different than the number reported at the claim level (Loop ID-2300).
If not required by this implementation guide, do not send.
- When it is necessary to report one or more non-destination payer Prior Authorization Numbers, the composite data element in REF04 is used to identify the payer which assigned this number.

Example

REF*G1*XXXX**2U>XXXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Immunization Batch Number
- REF Line Item Control Number
- REF Mammography Certification Number
- REF Referral Number
- REF Referring Clinical Laboratory Improvement Amendment (CLIA) Facility Identification
- REF Repriced Line Item Reference Number
- REF Adjusted Repriced Line Item Reference Number

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
G1 Prior Authorization Number			
REF-02	127 Prior Authorization or Referral Number	Min 1 Max 50 String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			
REF-04	C040 Reference Identifier	Max use 1	Optional
To identify one or more reference numbers or identification numbers as specified by the Reference Qualifier			
- REF04 contains data relating to the value cited in REF02.			
Usage notes			
Required when the Prior Authorization Number reported in REF02 of this segment is for a non-destination payer.			

C040-01

128

Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

2U Payer Identification Number

C040-02

127

Other Payer Primary Identifier

Min 1Max 50String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- The payer identifier reported in this field must match the cooresponding payer identifier reported in Loop ID-2330B NM109.

AMT

4750

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > AMT

Max use 1

Optional

Sales Tax Amount

To indicate the total monetary amount

Usage notes

- Required when sales tax applies to the service line and the submitter is required to report that information to the receiver. If not required by this implementation guide, do not send.
- When reporting the Sales Tax Amount (AMT02), the amount reported in the Line Item Charge Amount (SV102) for this service line must include the amount reported in the Sales Tax Amount.

Example

AMT*T*000000000000~

Variants (all may be used)

AMT Postage Claimed Amount

AMT-01

522 Amount Qualifier Code

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > K3

Max use 10

Optional

File Information

To transmit a fixed-format record or matrix contents

Usage notes

- Required when ALL of the following conditions are met:
- A regulatory agency concludes it must use the K3 to meet an emergency legislative requirement;
- The administering regulatory agency or other state organization has completed each one of the following steps:
contacted the X12N workgroup,
requested a review of the K3 data requirement to ensure there is not an existing method within the implementation guide to meet this requirement
- X12N determines that there is no method to meet the requirement.
If not required by this implementation guide, do not send.
- At the time of publication of this implementation, K3 segments have no specific use.
The K3 segment is expected to be used only when necessary to meet the unexpected data requirement of a legislative authority. Before this segment can be used :
- The X12N Health Care Claim workgroup must conclude there is no other available option in the implementation guide to meet the emergency legislative requirement.
- The requestor must submit a proposal for approval accompanied by the relevant business documentation to the X12N Health Care Claim workgroup chairs and receive approval for the request.
Upon review of the request, X12N will issue an approval or denial decision to the requesting entity. Approved usage(s) of the K3 segment will be reviewed by the X12N Health Care Claim workgroup to develop a permanent change to include the business case in future transaction implementations.
- Only when all of the requirements above have been met, may the regulatory agency require the temporary use of the K3 segment.
- X12N will submit the necessary data maintenance and refer the request to the appropriate data content committee(s).

Example

K3*XXXX~

K3-01

449 Fixed Format Information

Min 1

Max 80

String (AN)

Required

Data in fixed format agreed upon by sender and receiver

NTE

4850

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > NTE

Max use 1

Optional

Line Note

To transmit information in a free-form format, if necessary, for comment or special instruction

Usage notes

- Required when in the judgment of the provider, the information is needed to substantiate the medical treatment and is not supported elsewhere within the claim data set.
If not required by this implementation guide, do not send.
- Use SV101-7 to describe non-specific procedure codes. Do not use this NTE Segment to describe a non-specific procedure code. If an NDC code is reported in Loop 2410, do not use this segment for a description of the procedure code. The NDC in loop 2410 will provide the description.

Example

NTE*ADD*XXXXX~

Variants (all may be used)

NTE Third Party Organization Notes

NTE-01

363 Note Reference Code

Identifier (ID)

Required

Code identifying the functional area or purpose for which the note applies

- ADD Additional Information
- DCP Goals, Rehabilitation Potential, or Discharge Plans

NTE-02

352 Line Note Text

Min 1Max 80

String (AN)

Required

A free-form description to clarify the related data elements and their content

Third Party Organization Notes

To transmit information in a free-form format, if necessary, for comment or special instruction

Usage notes

- Required when the TPO/repricer needs to forward additional information to the payer. This segment is not completed by providers. If not required by this implementation guide, do not send.

Example

NTE*TPO*XX~

Variants (all may be used)

NTE Line Note

NTE-01

363 Note Reference Code

Identifier (ID)

Required

Code identifying the functional area or purpose for which the note applies

TPO Third Party Organization Notes

NTE-02

352 Line Note Text

Min 1Max 80

String (AN)

Required

A free-form description to clarify the related data elements and their content

PS1

4880

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > PS1

Max use 1

Optional

Purchased Service Information

To specify the information about services that are purchased

Usage notes

- Required on non-vision service lines when adjudication is known to be impacted by the charge amount for services purchased from another source.
OR
Required on vision service lines when adjudication is known to be impacted by the acquisition cost of lenses.
If not required by this implementation guide, do not send.

Example

PS1*XXXXXX*00~

PS1-01	127	Purchased Service Provider Identifier	Min 1	Max 50	String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier						
PS101 is provider identification number.						
Usage notes						
This must be the identifier from the Purchased Service Provider Loop (Loop ID-2420B). When the Secondary Identifier REF is used, that is the identifier to be reported. If not present, use the identifier in NM109.						
PS1-02	782	Purchased Service Charge Amount	Min 1	Max 15	# Decimal number (R)	Required
Monetary amount						
PS102 is cost of the purchased service.						

Line Pricing/Repricing Information

To specify pricing or repricing information about a health care claim or line item

Usage notes

- This information is specific to the destination payer reported in Loop ID-2010BB.
- For capitated encounters, pricing or repricing information usually is not applicable and is provided to qualify other information within the claim.
- Required when this information is deemed necessary by the repricer. The segment is not completed by providers. The information is completed by repricers only. If not required by this implementation guide, do not send.

Example

HCP*11*000000000000*000000*XX*0000000*X*0**ER*XX
X*MJ*0*T6*5*5~

- If either Product or Service ID Qualifier (HCP-09) or Repriced Approved HCPCS Code (HCP-10) is present, then the other is required
- If either Unit or Basis for Measurement Code (HCP-11) or Repriced Approved Service Unit Count (HCP-12) is present, then the other is required

HCP-01

1473 Pricing Methodology

Identifier (ID)

Required

Code specifying pricing methodology at which the claim or line item has been priced or repriced

Usage notes

- Specific code use is determined by Trading Partner Agreement due to the variances in contracting policies in the industry.

- 00 Zero Pricing (Not Covered Under Contract)
- 01 Priced as Billed at 100%
- 02 Priced at the Standard Fee Schedule
- 03 Priced at a Contractual Percentage
- 04 Bundled Pricing
- 05 Peer Review Pricing
- 06 Per Diem Pricing
- 07 Flat Rate Pricing
- 08 Combination Pricing
- 09 Maternity Pricing
- 10 Other Pricing
- 11 Lower of Cost
- 12 Ratio of Cost
- 13 Cost Reimbursed
- 14 Adjustment Pricing

HCP-02

782 Repriced Allowed Amount

Min 1 Max 15 # Decimal number (R)

Required

Monetary amount

- HCP02 is the allowed amount.

HCP-03 **782 Repriced Saving Amount** Min 1 Max 15 # Decimal number (R) Optional

Monetary amount

- HCP03 is the savings amount.

HCP-04 **127 Repricing Organization Identifier** Min 1 Max 50 String (AN) Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- HCP04 is the repricing organization identification number.

HCP-05 **118 Repricing Per Diem or Flat Rate Amount** # Decimal number (R) Optional
Min 1 Max 9

Rate expressed in the standard monetary denomination for the currency specified

- HCP05 is the pricing rate associated with per diem or flat rate repricing.

HCP-06 **127 Repriced Approved Ambulatory Patient Group Code** String (AN) Optional
Min 1 Max 50

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- HCP06 is the approved DRG code.
- HCP06, HCP07, HCP08, HCP10, and HCP12 are fields that will contain different values from the original submitted values.

HCP-07 **782 Repriced Approved Ambulatory Patient Group Amount** # Decimal number (R) Optional
Min 1 Max 15

Monetary amount

- HCP07 is the approved DRG amount.

HCP-09 **235 Product or Service ID Qualifier** Identifier (ID) Optional

Code identifying the type/source of the descriptive number used in Product/Service ID (234)

ER Jurisdiction Specific Procedure and Supply Codes

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:
If a new rule names the Jurisdiction Specific Procedure and Supply Codes as an

allowable code set under HIPAA,
OR
The Secretary grants an exception to use the code set as a pilot project as allowed under the law,
OR
For claims which are not covered under HIPAA.

HC Health Care Financing Administration Common Procedural Coding System (HCPCS) Codes
☐ Because the AMA's CPT codes are also level 1 HCPCS codes, they are reported under HC.

IV Home Infusion EDI Coalition (HIEC) Product/Service Code
☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:
If a new rule names the Home Infusion EDI Coalition (HIEC) Product/Service Codes as an allowable code set under HIPAA,
OR
The Secretary grants an exception to use the code set as a pilot project as allowed under the law,
OR
For claims which are not covered under HIPAA.;

WK Advanced Billing Concepts (ABC) Codes
☐ At the time of this writing, this code set has been approved by the Secretary of HHS as a pilot project allowed under HIPAA law.
The qualifier may only be used in transactions covered under HIPAA;
By parties registered in the pilot project and their trading partners,
OR
If a new rule names the Complementary, Alternative, or Holistic Procedure Codes as an allowable code set under HIPAA,
OR
For claims which are not covered under HIPAA.

HCP-10

234 Repriced Approved HCPCS Code

Min 1 Max 48 String (AN)

Optional

Identifying number for a product or service

- HCP10 is the approved procedure code.

HCP-11

355 Unit or Basis for Measurement Code

 Identifier (ID)

Optional

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

MJ Minutes

UN Unit

HCP-12

380 Repriced Approved Service Unit Count

Decimal number (R)

Optional

Min 1 Max 15

Numeric value of quantity

- HCP12 is the approved service units or inpatient days.

Usage notes

- Note: When a decimal is needed to report units, include it in this element, for example, "15.6".
- The maximum length for this field is 8 digits excluding the decimal. When a decimal is used, the maximum number of digits allowed to the right of the decimal is three.

HCP-13**901 Reject Reason Code**

■ Identifier (ID)

Optional

Code assigned by issuer to identify reason for rejection

- HCP13 is the rejection message returned from the third party organization.

T1 Cannot Identify Provider as TPO (Third Party Organization) Participant

T2 Cannot Identify Payer as TPO (Third Party Organization) Participant

T3 Cannot Identify Insured as TPO (Third Party Organization) Participant

T4 Payer Name or Identifier Missing

T5 Certification Information Missing

T6 Claim does not contain enough information for re-pricing

HCP-14**1526 Policy Compliance Code**

■ Identifier (ID)

Optional

Code specifying policy compliance

- 1 Procedure Followed (Compliance)
- 2 Not Followed - Call Not Made (Non-Compliance Call Not Made)
- 3 Not Medically Necessary (Non-Compliance Non-Medically Necessary)
- 4 Not Followed Other (Non-Compliance Other)
- 5 Emergency Admit to Non-Network Hospital

HCP-15**1527 Exception Code**

■ Identifier (ID)

Optional

Code specifying the exception reason for consideration of out-of-network health care services

- HCP15 is the exception reason generated by a third party organization.

1 Non-Network Professional Provider in Network Hospital

2 Emergency Care

3 Services or Specialist not in Network

4 Out-of-Service Area

5 State Mandates

6 Other

2410 Drug Identification Loop

Max 1 Optional

LIN

4930

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Drug Identification Loop > LIN

Max use 1

Required

Drug Identification

To specify basic item identification data

Usage notes

- Required when government regulation mandates that prescribed drugs and biologics are reported with NDC numbers.
OR
Required when the provider or submitter chooses to report NDC numbers to enhance the claim reporting or adjudication processes.
OR
Required when an HHS approved pilot project specifies reporting of Universal Product Number (UPN) by parties registered in the pilot and their trading partners.
OR
Required when government regulation mandates that medical and surgical supplies are reported with UPN's.

If not required by this implementation guide, do not send.

- Drugs and biologics reported in this segment are a further specification of service(s) described in the SV1 segment of this Service Line Loop ID-2400.

Example

LIN**ON*XXX~

LIN-02

235 Product or Service ID Qualifier

Identifier (ID)

Required

Code identifying the type/source of the descriptive number used in Product/Service ID (234)

- LIN02 through LIN31 provide for fifteen different product/service IDs for each item. For example: Case, Color, Drawing No., U.P.C. No., ISBN No., Model No., or SKU.

Usage notes

- At the time of this writing, UPN code sets designated by values EN, EO, HI, ON, UK, and UP have been approved by the Secretary of HHS as a pilot project allowed under HIPAA law. During the pilot, these code values may only be used by parties registered in the pilot project and their trading partners. Beyond the pilot, these codes may only be used if mandated by government regulation.

- EN EAN/UCC - 13
- EO EAN/UCC - 8
- HI HIBC (Health Care Industry Bar Code) Supplier Labeling Standard Primary Data Message
- N4 National Drug Code in 5-4-2 Format
- ON Customer Order Number
- UK GTIN 14-digit Data Structure
- UP UCC - 12

LIN-03

234 National Drug Code or Universal Product Number

String (AN)

Required

Min 1Max 48

Identifying number for a product or service

Drug Quantity

To specify pricing information

Example

CTP*****0*ML~

CTP-04

380 National Drug Unit Count

Min 1

Max 15

#

Decimal number (R)

Required

Numeric value of quantity

CTP-05

C001 Composite Unit of Measure

To identify a composite unit of measure

Max use 1

Required

(See Figures Appendix for examples of use)

C001-01

355 Code Qualifier

Identifier (ID)

Required

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

- F2 International Unit
- GR Gram
- ME Milligram
- ML Milliliter
- UN Unit

REF

4950

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Drug Identification Loop > REF

Max use 1

Optional

Prescription or Compound Drug Association Number

To specify identifying information

Usage notes

- Required when dispensing of the drug has been done with an assigned prescription number.
OR
Required when the provided medication involves the compounding of two or more drugs being reported and there is no prescription number.
If not required by this implementation guide, do not send.
- In cases where a compound drug is being billed, the components of the compound will all have the same prescription number. Payers receiving the claim can relate all the components by matching the prescription number.
- For cases where the drug is provided without a prescription (for example, from a physician's office), the value provided in this segment is a "link sequence number". The link sequence number is a provider assigned number that is unique to this claim. Its purpose is to enable the receiver to piece together the components of the compound.

Example

REF* XZ* XXXX~

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

VY Link Sequence Number

XZ Pharmacy Prescription Number

REF-02

127 Prescription Number

Min 1 Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

2410 Drug Identification Loop end

2420A Rendering Provider Name Loop

Max 1 Optional

- Variants (all may be used)
- Purchased Service Provider Name Loop
- Service Facility Location Name Loop
- Supervising Provider Name Loop
- Ordering Provider Name Loop
- Referring Provider Name Loop
- Ambulance Pick-up Location Loop
- Ambulance Drop-off Location Loop

NM1

5000

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Rendering Provider Name Loop > NM1

Max use 1

Required

Rendering Provider Name

To supply the full name of an individual or organizational entity

Usage notes

- Used for all types of rendering providers including laboratories. The Rendering Provider is the person or company (laboratory or other facility) who rendered the care. In the case where a substitute provider (locum tenens) was used, enter that provider's information here.
- Required when the Rendering Provider NM1 information is different than that carried in the Loop ID-2310B Rendering Provider.
OR
Required when Loop ID-2310B Rendering Provider is not used AND this particular line item has different Rendering Provider information than that which is carried in Loop ID-2010AA Billing Provider.
If not required by this implementation guide, do not send.;

Example

NM1*82*2*XXXXX*XXX*XXXXXX**X*XX*XXXX~

- If either Identification Code Qualifier (NM1-08) or Rendering Provider Identifier (NM1-09) is present, then the other is required

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

82 Rendering Provider

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.

- 1 Person
- 2 Non-Person Entity

<u>NM1-03</u>	1035 Rendering Provider Last or Organization Name			 String (AN)	Required
				Min 1	Max 60
	Individual last name or organizational name				
<u>NM1-04</u>	1036 Rendering Provider First Name	Min 1	Max 35	 String (AN)	Optional
	Individual first name				
<u>NM1-05</u>	1037 Rendering Provider Middle Name or Initial	Min 1	Max 25	 String (AN)	Optional
	Individual middle name or initial				
<u>NM1-07</u>	1039 Rendering Provider Name Suffix	Min 1	Max 10	 String (AN)	Optional
	Suffix to individual name				
<u>NM1-08</u>	66 Identification Code Qualifier			 Identifier (ID)	Optional
	Code designating the system/method of code structure used for Identification Code (67)				
	XX Centers for Medicare and Medicaid Services National Provider Identifier				
<u>NM1-09</u>	67 Rendering Provider Identifier	Min 2	Max 80	 String (AN)	Optional
	Code identifying a party or other code				

Rendering Provider Specialty Information

To specify the identifying characteristics of a provider

Usage notes

- Required when adjudication is known to be impacted by the provider taxonomy code. If not required by this implementation guide, do not send.

Example

PRV*PE*PXC*XXXXXX~

PRV-01	1221 Provider Code	Identifier (ID)	Required
Code identifying the type of provider			
PE Performing			
PRV-02	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
PXC Health Care Provider Taxonomy Code			
PRV-03	127 Provider Taxonomy Code	Min 1Max 50String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			

REF

5250

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Rendering Provider Name Loop > REF

Max use 20

Optional

Rendering Provider Secondary Identification

To specify identifying information

Usage notes

- Required prior to the mandated HIPAA National Provider Identifier (NPI) implementation date when an identification number other than the NPI is necessary for the receiver to identify the provider.
OR
Required on or after the mandated NPI Implementation Date when NM109 in this loop is not used and an identification number other than the NPI is necessary for the receiver to identify the provider.
If not required by this implementation guide, do not send.
- When it is necessary to report one or more non-destination payer Secondary Identifiers, the composite data element in REF04 is used to identify the payer who assigned this identifier.

Example

REF*1G*XX**2U>X~

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

- 0B State License Number
- 1G Provider UPIN Number
 - UPINs must be formatted as either X99999 or XXX999.
- G2 Provider Commercial Number
 - This code designates a proprietary provider number for the destination payer identified in the Payer Name loop, Loop ID-2010BB, associated with this claim. This is to be used by all payers including: Medicare, Medicaid, Blue Cross, etc.
- LU Location Number

REF-02

127 Rendering Provider Secondary Identifier

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF-04

C040 Reference Identifier

To identify one or more reference numbers or identification numbers as specified by the Reference Qualifier

Max use 1

Optional

- REF04 contains data relating to the value cited in REF02.

Usage notes

Required when the identifier reported in REF02 of this segment is for a non-destination payer.

C040-01

128

Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

2U Payer Identification Number

C040-02

127

Other Payer Primary Identifier

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- The payer identifier reported in this field must match the cooresponding payer identifier reported in Loop ID-2330B NM109.

2420A Rendering Provider Name Loop end

2420B Purchased Service Provider Name Loop

Max 1Optional

- Variants (all may be used)
- Rendering Provider Name Loop
- Service Facility Location Name Loop
- Supervising Provider Name Loop
- Ordering Provider Name Loop
- Referring Provider Name Loop
- Ambulance Pick-up Location Loop
- Ambulance Drop-off Location Loop

NM1

5000

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Purchased Service Provider Name Loop > N...

Max use 1Required

Purchased Service Provider Name

To supply the full name of an individual or organizational entity

Usage notes

- Required when the service reported in this line item is a purchased service. If not required by this implementation guide, do not send.
- Purchased services are situations where, for example, a physician purchases a diagnostic exam from an outside entity. Purchased services do not include substitute (locum tenens) provider situations.

Example

NM1*QB*1*****XX*XXXX~

- If either Identification Code Qualifier (NM1-08) or Purchased Service Provider Identifier (NM1-09) is present, then the other is required

NM1-01

98 Entity Identifier Code

■ Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

Usage notes

- The entity identifier in NM101 applies to all segments in this iteration of Loop ID-2420.

QB Purchase Service Provider

NM1-02

1065 Entity Type Qualifier

■ Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.

- 1 Person
- 2 Non-Person Entity

NM1-08

66 Identification Code Qualifier

■ Identifier (ID)

Optional

Code designating the system/method of code structure used for Identification Code (67)

XX Centers for Medicare and Medicaid Services National Provider Identifier

NM1-09

67 Purchased Service Provider Identifier

Min 2

Max 80

 String (AN)

Optional

Code identifying a party or other code

REF

5250

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Purchased Service Provider Name Loop > REI

Max use 20

Optional

Purchased Service Provider Secondary Identification

To specify identifying information

Usage notes

- Required prior to the mandated HIPAA National Provider Identifier (NPI) implementation date when an identification number other than the NPI is necessary for the receiver to identify the provider.
OR
Required on or after the mandated NPI Implementation Date when NM109 in this loop is not used and an identification number other than the NPI is necessary for the receiver to identify the provider.
If not required by this implementation guide, do not send.
- When it is necessary to report one or more non-destination payer Secondary Identifiers, the composite data element in REF04 is used to identify the payer who assigned this identifier.

Example

REF*0B*XX**2U>XXX~

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
	Code qualifying the Reference Identification 0B State License Number 1G Provider UPIN Number ☐ UPINs must be formatted as either X99999 or XXX999. G2 Provider Commercial Number ☐ This code designates a proprietary provider number for the destination payer identified in the Payer Name loop, Loop ID-2010BB, associated with this claim. This is to be used by all payers including: Medicare, Medicaid, Blue Cross, etc.		
REF-02	127 Purchased Service Provider Secondary Identifier	String (AN)	Required
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier	Min 1	Max 50
REF-04	C040 Reference Identifier		Optional
	To identify one or more reference numbers or identification numbers as specified by the Reference Qualifier - REF04 contains data relating to the value cited in REF02. Usage notes Required when the identifier reported in REF02 of this segment is for a non-destination payer.	Max use 1	

C040-01

128

Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

2U Payer Identification Number

C040-02

127

Other Payer Primary Identifier

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- The payer identifier reported in this field must match the cooresponding payer identifier reported in Loop ID-2330B NM109.

2420B Purchased Service Provider Name Loop end

2420C Service Facility Location Name Loop

Max 1Optional

- Variants (all may be used)
- Rendering Provider Name Loop
 - Purchased Service Provider Name Loop
 - Supervising Provider Name Loop
 - Ordering Provider Name Loop
 - Referring Provider Name Loop
 - Ambulance Pick-up Location Loop
 - Ambulance Drop-off Location Loop

NM1

5000

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Service Facility Location Name Loop > NM1

Max use 1

Required

Service Facility Location Name

To supply the full name of an individual or organizational entity

Usage notes

- When an organization health care provider's NPI is provided to identify the Service Location, the organization health care provider must be external to the entity identified as the Billing Provider (for example, reference lab). It is not permissible to report an organization health care provider NPI as the Service Location if the entity being identified is a component (for example, subpart) of the Billing Provider. In that case, the subpart must be the Billing Provider.
- Required when the location of health care service for this service line is different than that carried in Loop ID-2010AA Billing Provider or Loop ID-2310C Service Facility Location. If not required by this implementation guide, do not send.
- The purpose of this loop is to identify specifically where the service was rendered. When reporting ambulance services, do not use this loop. Use the pick-up (2420G) and drop-off location (2420H) loops elsewhere in this transaction.;

Example

NM1*77*2*XXXXX*****XX*XXX~

- If either Identification Code Qualifier (NM1-08) or Laboratory or Facility Primary Identifier (NM1-09) is present, then the other is required

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

77 Service Location

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.

2 Non-Person Entity

NM1-03

1035 Laboratory or Facility Name

Min 1Max 60

 String (AN)

Required

Required

Free-form text for city name

- A combination of either N401 through N404, or N405 and N406 may be adequate to specify a location.

N4-02

156 Laboratory or Facility State or Province Code

Identifier (ID)

Optional

Min 2Max 2

Code (Standard State/Province) as defined by appropriate government agency

- N402 is required only if city name (N401) is in the U.S. or Canada.

N4-03

116 Laboratory or Facility Postal Zone or ZIP Code

Identifier (ID)

Optional

Min 3Max 15

Code defining international postal zone code excluding punctuation and blanks (zip code for United States)

Usage notes

- When reporting the ZIP code for U.S. addresses, the full nine digit ZIP code must be provided.

N4-04

26 Country Code

Min 2Max 3

Identifier (ID)

Optional

Code identifying the country

Usage notes

- Use the alpha-2 country codes from Part 1 of ISO 3166.

N4-07

1715 Country Subdivision Code

Min 1Max 3

Identifier (ID)

Optional

Code identifying the country subdivision

Usage notes

- Use the country subdivision codes from Part 2 of ISO 3166.

REF

5250

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Service Facility Location Name Loop > REF

Max use 3

Optional

Service Facility Location Secondary Identification

To specify identifying information

Usage notes

- When it is necessary to report one or more non-destination payer Secondary Identifiers, the composite data element in REF04 is used to identify the payer who assigned this identifier.
- Required prior to the mandated HIPAA National Provider Identifier (NPI) implementation date when an identification number other than the NPI is necessary for the receiver to identify the provider.
OR
Required on or after the mandated NPI implementation date when the entity is not a Health Care provider (a.k.a. an atypical provider), and an identifier is necessary for the claims processor to identify the entity.
If not required by this implementation guide, do not send.

Example

REF*G2*XXXX**2U>XX~

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
G2 Provider Commercial Number			
☐ This code designates a proprietary provider number for the destination payer identified in the Payer Name loop, Loop ID-2010BB, associated with this claim. This is to be used by all payers including: Medicare, Medicaid, Blue Cross, etc.			
LU Location Number			
REF-02	127 Service Facility Location Secondary Identifier	String (AN)	Required
		Min 1	Max 50
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			
REF-04	C040 Reference Identifier	Max use 1	Optional
To identify one or more reference numbers or identification numbers as specified by the Reference Qualifier			
- REF04 contains data relating to the value cited in REF02.			
Usage notes			
Required when the identifier reported in REF02 of this segment is for a non-destination payer.			
C040-01	128 Reference Identification Qualifier	Identifier (ID)	Required

Code qualifying the Reference Identification

2U Payer Identification Number

C040-02

127 Other Payer Primary Identifier

Min 1

Max 50

T String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- The payer identifier reported in this field must match the cooresponding payer identifier reported in Loop ID-2330B NM109.

2U Payer Identification Number

C040-02

127

Other Payer Primary Identifier

Min 1Max 50String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- The payer identifier reported in this field must match the cooresponding payer identifier reported in Loop ID-2330B NM109.

PER

5300

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Ordering Provider Name Loop > PER

Max use 1

Optional

Ordering Provider Contact Information

To identify a person or office to whom administrative communications should be directed

Usage notes

- Required when a Durable Medical Equipment Regional Carrier Certificate of Medical Necessity (DMERC CMN) or DMERC Information Form (DIF), or Oxygen Therapy Certification is included on this service line. If not required by this implementation guide, do not send.
- When the communication number represents a telephone number in the United States and other countries using the North American Dialing Plan (for voice, data, fax, etc.), the communication number must always include the area code and phone number using the format AAABBBCCCC where AAA is the area code, BBB is the telephone number prefix, and CCCC is the telephone number. Therefore, the following telephone number (555) 555-1234 would be represented as 5555551234. Do not submit long distance access numbers, such as "1", in the telephone number. Telephone extensions, when applicable, must be submitted in the next element immediately following the telephone number. When submitting telephone extensions, only submit the numeric extension. Do not include data that indicates an extension, such as "ext" or "x-".

Example

PER*IC*XX*EM*XXXXXX*EX*X*TE*XXXXXX~

- If either Communication Number Qualifier (PER-05) or Communication Number (PER-06) is present, then the other is required

NM1

5000

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Referring Provider Name Loop > NM1

Max use 1

Required

Referring Provider Name

To supply the full name of an individual or organizational entity

Usage notes

- When reporting the provider who ordered services such as diagnostic and lab, use Loop ID-2310A at the claim level. For ordered services such as Durable Medical Equipment, use Loop ID-2420E at the line level.
- When there is only one referral on the claim, use code "DN - Referring Provider". When more than one referral exists and there is a requirement to report the additional referral, use code DN in the first iteration of this loop to indicate the referral received by the rendering provider on this claim. Use code "P3 - Primary Care Provider" in the second iteration of the loop to indicate the initial referral from the primary care provider or whatever provider wrote the initial referral for this patient's episode of care being billed/reported in this transaction.
- Required when this service line involves a referral and the referring provider differs from that reported at the claim level (loop 2310A). If not required by this implementation guide, may be provided at the sender's discretion, but cannot be required by the receiver.

Example

NM1*DN*1*XXX*XXXXX*XXXXX**XXXXX*XX*XXXXXXXX~

- If either Identification Code Qualifier (NM1-08) or Referring Provider Identifier (NM1-09) is present, then the other is required

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

DN Referring Provider

- Use on the first iteration of this loop. Use if loop is used only once.

P3 Primary Care Provider

- Use only if loop is used twice. Use only on second iteration of this loop.

NM1-02

Required

Ambulance Drop-off Location City, State, ZIP Code

To specify the geographic place of the named party

Example

N4*XXXXX*XX*XXXXXXXX*XX~

- Only one of Ambulance Drop-off State or Province Code (N4-02) or Country Subdivision Code (N4-07) may be present
- If Country Subdivision Code (N4-07) is present, then Country Code (N4-04) is required

N4-01

19 Ambulance Drop-off City Name

Min 2 Max 30

String (AN)

Required

Free-form text for city name

- A combination of either N401 through N404, or N405 and N406 may be adequate to specify a location.

N4-02

156 Ambulance Drop-off State or Province Code

Identifier (ID)

Optional

Min 2 Max 2

Code (Standard State/Province) as defined by appropriate government agency

- N402 is required only if city name (N401) is in the U.S. or Canada.

N4-03

116 Ambulance Drop-off Postal Zone or ZIP Code

Identifier (ID)

Optional

Min 3 Max 15

Code defining international postal zone code excluding punctuation and blanks (zip code for United States)

N4-04

26 Country Code

Min 2 Max 3

Identifier (ID)

Optional

Code identifying the country

Usage notes

- Use the alpha-2 country codes from Part 1 of ISO 3166.

N4-07

1715 Country Subdivision Code

Min 1 Max 3

Identifier (ID)

Optional

Code identifying the country subdivision

Usage notes

- Use the country subdivision codes from Part 2 of ISO 3166.

2420H Ambulance Drop-off Location Loop end

2430 Line Adjudication Information Loop

Max 15

Optional

SVD

5400

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Line Adjudication Information Loop > SVD

Max use 1

Required

Line Adjudication Information

To convey service line adjudication information for coordination of benefits between the initial payers of a health care claim and all subsequent payers

Usage notes

- Required when the claim has been previously adjudicated by payer identified in Loop ID-2330B and this service line has payments and/or adjustments applied to it. If not required by this implementation guide, do not send.
- To show unbundled lines: If, in the original claim, line 3 is unbundled into (for example) 2 additional lines, then the SVD for line 3 is used 3 times: once for the original adjustment to line 3 and then two more times for the additional unbundled lines.

Example

SVD*XXXXX*00000000*WK>XXXX>XX>XX>XX>XX>X**0000*0000~

SVD-01

67 Other Payer Primary Identifier

Min 2

Max 80

String (AN)

Required

Code identifying a party or other code

- SVD01 is the payer identification code.

Usage notes

- This identifier indicates the payer responsible for the reimbursement described in this iteration of the 2430 loop. The identifier indicates the Other Payer by matching the appropriate Other Payer Primary Identifier (Loop ID-2330B, element NM109).

SVD-02

782 Service Line Paid Amount

Min 1

Max 15

Decimal number (R)

Required

Monetary amount

- SVD02 is the amount paid for this service line.

Usage notes

- Zero "0" is an acceptable value for this element.

SVD-03

C003 Composite Medical Procedure Identifier

To identify a medical procedure by its standardized codes and applicable modifiers

Max use 1

Required

- SVD03 represents the medical procedure code upon which adjudication of this service line was based. This may be different than the submitted medical procedure code.

C003-01

235 Product or Service ID Qualifier

Identifier (ID)

Required

Code identifying the type/source of the descriptive number used in Product/Service ID (234)

- C003-01 qualifies C003-02 and C003-08.

ER Jurisdiction Specific Procedure and Supply Codes

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:
If a new rule names the Jurisdiction Specific Procedure and Supply Codes as an allowable code set under HIPAA,
OR
The Secretary grants an exception to use the code set as a pilot project as allowed under the law,
OR
For claims which are not covered under HIPAA.

HC Health Care Financing Administration Common Procedural Coding System (HCPCS) Codes

- ☐ Because the AMA's CPT codes are also level 1 HCPCS codes, they are reported under HC.

IV Home Infusion EDI Coalition (HIEC) Product/Service Code

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:
If a new rule names the Home Infusion EDI Coalition (HIEC) Product/Service Codes as an allowable code set under HIPAA,
OR
The Secretary grants an exception to use the code set as a pilot project as allowed under the law,
OR
For claims which are not covered under HIPAA.;

WK Advanced Billing Concepts (ABC) Codes

- ☐ At the time of this writing, this code set has been approved by the Secretary of HHS as a pilot project allowed under HIPAA law.
The qualifier may only be used in transactions covered under HIPAA;
By parties registered in the pilot project and their trading partners,
OR
If a new rule names the Complementary, Alternative, or Holistic Procedure Codes as an allowable code set under HIPAA,
OR
For claims which are not covered under HIPAA.

C003-02

234 Procedure Code

Min 1Max 48

 String (AN)

Required

Identifying number for a product or service

- If C003-08 is used, then C003-02 represents the beginning value in the range in which the code occurs.

C003-03

1339 Procedure Modifier

Min 2Max 2

 String (AN)

Optional

This identifies special circumstances related to the performance of the service, as defined by trading partners

- C003-03 modifies the value in C003-02 and C003-08.

C003-04 **1339 Procedure Modifier** Min 2 Max 2 **T** String (AN) **Optional**

This identifies special circumstances related to the performance of the service, as defined by trading partners

- C003-04 modifies the value in C003-02 and C003-08.

C003-05 **1339 Procedure Modifier** Min 2 Max 2 **T** String (AN) **Optional**

This identifies special circumstances related to the performance of the service, as defined by trading partners

- C003-05 modifies the value in C003-02 and C003-08.

C003-06 **1339 Procedure Modifier** Min 2 Max 2 **T** String (AN) **Optional**

This identifies special circumstances related to the performance of the service, as defined by trading partners

- C003-06 modifies the value in C003-02 and C003-08.

C003-07 **352 Procedure Code Description** Min 1 Max 80 **T** String (AN) **Optional**

A free-form description to clarify the related data elements and their content

- C003-07 is the description of the procedure identified in C003-02.

SVD-05 **380 Paid Service Unit Count** Min 1 Max 15 # Decimal number (R) **Required**

Numeric value of quantity

- SVD05 is the paid units of service.

Usage notes

- This is the number of paid units from the remittance advice. When paid units are not present on the remittance advice, use the original billed units.
- The maximum length for this field is 8 digits excluding the decimal. When a decimal is used, the maximum number of digits allowed to the right of the decimal is three.

SVD-06 **554 Bundled or Unbundled Line Number** Min 1 Max 6 # Numeric (N0) **Optional**

Number assigned for differentiation within a transaction set

- SVD06 is only used for bundling of service lines. It references the LX Assigned Number of the service line into which this service line was bundled.

CAS

5450

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Line Adjudication Information Loop > CAS

Max use 5

Optional

Line Adjustment

To supply adjustment reason codes and amounts as needed for an entire claim or for a particular service within the claim being paid

Usage notes

- Required when the payer identified in Loop 2330B made line level adjustments which caused the amount paid to differ from the amount originally charged. If not required by this implementation guide, do not send.
- A single CAS segment contains six repetitions of the "adjustment trio" composed of adjustment reason code, adjustment amount, and adjustment quantity. These six adjustment trios are used to report up to six adjustments related to a particular Claim Adjustment Group Code (CAS01). The first non-zero adjustment is reported in the first adjustment trio (CAS02-CAS04). If there is a second non-zero adjustment, it is reported in the second adjustment trio (CAS05-CAS07), and so on through the sixth adjustment trio (CAS17-CAS19).

Example

```
CAS*CR*X*000*0000*XXXXX*0000000000*0000*XXXXX*000
000000*0000000000000000*X*0000*0*X*000000000000000*000
000*X*0000000000000000*0000000000~
```

- If Adjustment Reason Code (CAS-05) is present, then at least one of Adjustment Amount (CAS-06) or Adjustment Quantity (CAS-07) is required
- If Adjustment Amount (CAS-06) is present, then Adjustment Reason Code (CAS-05) is required
- If Adjustment Quantity (CAS-07) is present, then Adjustment Reason Code (CAS-05) is required
- If Adjustment Reason Code (CAS-08) is present, then at least one of Adjustment Amount (CAS-09) or Adjustment Quantity (CAS-10) is required
- If Adjustment Amount (CAS-09) is present, then Adjustment Reason Code (CAS-08) is required
- If Adjustment Quantity (CAS-10) is present, then Adjustment Reason Code (CAS-08) is required
- If Adjustment Reason Code (CAS-11) is present, then at least one of Adjustment Amount (CAS-12) or Adjustment Quantity (CAS-13) is required
- If Adjustment Amount (CAS-12) is present, then Adjustment Reason Code (CAS-11) is required
- If Adjustment Quantity (CAS-13) is present, then Adjustment Reason Code (CAS-11) is required
- If Adjustment Reason Code (CAS-14) is present, then at least one of Adjustment Amount (CAS-15) or Adjustment Quantity (CAS-16) is required
- If Adjustment Amount (CAS-15) is present, then Adjustment Reason Code (CAS-14) is required
- If Adjustment Quantity (CAS-16) is present, then Adjustment Reason Code (CAS-14) is required
- If Adjustment Reason Code (CAS-17) is present, then at least one of Adjustment Amount (CAS-18) or Adjustment Quantity (CAS-19) is required
- If Adjustment Amount (CAS-18) is present, then Adjustment Reason Code (CAS-17) is required
- If Adjustment Quantity (CAS-19) is present, then Adjustment Reason Code (CAS-17) is required

<u>CAS-01</u>	1033 Claim Adjustment Group Code	■ Identifier (ID)	Required

Optional

Monetary amount

- CAS18 is the amount of the adjustment.

CAS-19

380 Adjustment Quantity

Min 1Max 15# Decimal number (R)

Optional

Numeric value of quantity

- CAS19 is the units of service being adjusted.

Line Check or Remittance Date

To specify any or all of a date, a time, or a time period

Example

DTP*573*D8*XXXXXX~

DTP-01	374 Date Time Qualifier	Identifier (ID)	Required
Code specifying type of date or time, or both date and time			
573 Date Claim Paid			
DTP-02	1250 Date Time Period Format Qualifier	Identifier (ID)	Required
Code indicating the date format, time format, or date and time format			
DTP02 is the date or time or period format that will appear in DTP03.			
D8 Date Expressed in Format CCYYMMDD			
DTP-03	1251 Adjudication or Payment Date	Min 1 Max 35 String (AN)	Required
Expression of a date, a time, or range of dates, times or dates and times			

AMT

5505

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Line Adjudication Information Loop > AMT

Max use 1

Optional

Remaining Patient Liability

To indicate the total monetary amount

Usage notes

- In the judgment of the provider, this is the remaining amount to be paid after adjudication by the Other Payer referenced in SVD01 of this iteration of Loop ID-2430.
- This segment is only used in provider submitted claims. It is not used in Payer-to-Payer Coordination of Benefits (COB).
- Required when the Other Payer referenced in SVD01 of this iteration of Loop ID-2430 has adjudicated this claim, provided line level information, and the provider has the ability to report line item information. If not required by this implementation guide, do not send.
- This segment is not used if the claim level (Loop ID-2320) Remaining Patient Liability AMT segment is used for this Other Payer.

Example

AMT*EAF*00~

AMT-01	522 Amount Qualifier Code	Identifier (ID)	Required
	Code to qualify amount		
	EAF Amount Owed		
AMT-02	782 Remaining Patient Liability	Min 1 Max 15 # Decimal number (R)	Required
	Monetary amount		

2430 Line Adjudication Information Loop end

2440 Form Identification Code Loop

Max >1Optional

LQ5510

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Form Identification Code Loop > LQ

Max use 1Required

Form Identification Code

To identify standard industry codes

Usage notes

- Required when adjudication is known to be impacted by one of the types of supporting documentation (standardized paper forms) listed in LQ01. If not required by this implementation guide, do not send.
- Loop ID-2440 is designed to allow providers to attach standardized supplemental information to the claim when required to do so by the payer. The LQ segment contains information to identify the form (LQ01) and the specific form number (LQ02). In the example given below, LQ01=UT which identifies the form as a Medicare DMERC CMN form. LQ02=01.02 identifies which DMERC CMN form is being used.
- An example application of this Form Identification Code Loop is for Medicare DMERC claims for which the DME provider is required to obtain a Certificate of Medical Necessity (DMERC CMN) or DMERC Information Form (DIF), or Oxygen Therapy Certification from the referring physician. Another example is payer documentation requirements for Home Health services.

Example

LQ*AS*XXXX~

■ If Code List Qualifier Code (LQ-01) is present, then Form Identifier (LQ-02) is required

LQ-011270Code List Qualifier Code

Identifier (ID)Required

Code identifying a specific industry code list

AS Form Type Code

- ☐ Code value AS indicates that a Home Health form from External Code Source 656 is being identified in LQ02.

UT Centers for Medicare and Medicaid Services (CMS) Durable Medical Equipment Regional Carrier (DMERC) Certificate of Medical Necessity (CMN) Forms

LQ-021271Form Identifier

Min 1Max 30String (AN)Required

Code indicating a code from a specific industry code list

Supporting Documentation

To specify information in response to a codified questionnaire document

Usage notes

- The LQ segment is used to identify the general (LQ01) and specific type (LQ02) for the form being reported in Loop ID-2440. The FRM segment is used to answer specific questions on the form identified in the LQ segment. FRM01 is used to indicate the question being answered. Answers can take one of 4 forms: FRM02 for Yes/No questions, FRM03 for text/uncodified answers, FRM04 for answers which use dates, and FRM05 for answers which are percents. For each FRM01 (question) use a remaining FRM element, choosing the element which has the most appropriate format. One FRM segment is used for each question/answer pair.

The example below shows how the FRM can be used to answer all the pertinent questions on DMERC form 0802 (LQU708.02~).

Example

FRM*XXXXXX*Y*XXXXXX*20260701*000~

- At least one of Question Response (FRM-02), Question Response (FRM-03), Question Response (FRM-04) or Question Response (FRM-05) is required

FRM-01

350 Question Number/Letter

Min 1Max 20

String (AN)

Required

Alphanumeric characters assigned for differentiation within a transaction set

- FRM01 is the question number on a questionnaire or codified form.

FRM-02

1073 Question Response

Identifier (ID)

Optional

Code indicating a Yes or No condition or response

- FRM02, FRM03, FRM04 and FRM05 are responses which only have meaning in reference to the question identified in FRM01.

N No
W Not Applicable
Y Yes

FRM-03

127 Question Response

Min 1Max 50

String (AN)

Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

FRM-04

373 Question Response

CCYYMMDD format

Date (DT)

Optional

Date expressed as CCYYMMDD where CC represents the first two digits of the calendar year

FRM-05

332 Question Response

Min 1

Max 6

#

Decimal number (R)

Optional

Percent given in decimal format (e.g., 0.0 through 100.0 represents 0% through 100%)

2440 Form Identification Code Loop end

2400 Service Line Number Loop end

2300 Claim Information Loop end

2000C Patient Hierarchical Level Loop

Max >1Optional

HL

0010

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > HL

Max use 1

Required

Hierarchical Level

To identify dependencies among and the content of hierarchically related groups of data segments

Example

HL *3*2*23*0~

HL-01

628 Hierarchical ID Number

Min 1Max 12

String (AN)

Required

A unique number assigned by the sender to identify a particular data segment in a hierarchical structure

- HL01 shall contain a unique alphanumeric number for each occurrence of the HL segment in the transaction set. For example, HL01 could be used to indicate the number of occurrences of the HL segment, in which case the value of HL01 would be "1" for the initial HL segment and would be incremented by one in each subsequent HL segment within the transaction.

HL-02

734 Hierarchical Parent ID Number

Min 1Max 12

String (AN)

Required

Identification number of the next higher hierarchical data segment that the data segment being described is subordinate to

- HL02 identifies the hierarchical ID number of the HL segment to which the current HL segment is subordinate.

HL-03

735 Hierarchical Level Code

Identifier (ID)

Required

Code defining the characteristic of a level in a hierarchical structure

- HL03 indicates the context of the series of segments following the current HL segment up to the next occurrence of an HL segment in the transaction. For example, HL03 is used to indicate that subsequent segments in the HL loop form a logical grouping of data referring to shipment, order, or item-level information.

23 Dependent

HL-04

736 Hierarchical Child Code

Identifier (ID)

Optional

Code indicating if there are hierarchical child data segments subordinate to the level being described

- HL04 indicates whether or not there are subordinate (or child) HL segments related to the current HL segment.

0 No Subordinate HL Segment in This Hierarchical Structure.

PAT

0070

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > PAT

Max use 1

Required

Patient Information

To supply patient information

Example

PAT*G8****D8*XXXXX*01*0000*Y~

- If either Date Time Period Format Qualifier (PAT-05) or Patient Death Date (PAT-06) is present, then the other is required
- If either Unit or Basis for Measurement Code (PAT-07) or Patient Weight (PAT-08) is present, then the other is required

PAT-01

1069 Individual Relationship Code

Identifier (ID)

Required

Code indicating the relationship between two individuals or entities

Usage notes

- Specifies the patient's relationship to the person insured.

01

Spouse

19

Child

20

Employee

21

Unknown

39

Organ Donor

40

Cadaver Donor

53

Life Partner

G8

Other Relationship

PAT-05

1250 Date Time Period Format Qualifier

Identifier (ID)

Optional

Code indicating the date format, time format, or date and time format

D8

Date Expressed in Format CCYYMMDD

PAT-06

1251 Patient Death Date

Min 1

Max 35

String (AN)

Optional

Expression of a date, a time, or range of dates, times or dates and times

- PAT06 is the date of death.

PAT-07

355 Unit or Basis for Measurement Code

Identifier (ID)

Optional

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

01

Actual Pounds

PAT-08

81 Patient Weight

Min 1

Max 10

Decimal number (R)

Optional

Numeric value of weight

- PAT08 is the patient's weight.

PAT-09

1073 Pregnancy Indicator

■ Identifier (ID)

Optional

Code indicating a Yes or No condition or response

- PAT09 indicates whether the patient is pregnant or not pregnant. Code "Y" indicates the patient is pregnant; code "N" indicates the patient is not pregnant.

Usage notes

- For this implementation, the listed value takes precedence over the semantic note.

Y Yes

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Patient Name Loop > N4

Max use 1

Required

Patient City, State, ZIP Code

To specify the geographic place of the named party

Example

N4*XXXXXX*XX*XXXXXX*XXX~

- Only one of Patient State Code (N4-02) or Country Subdivision Code (N4-07) may be present
- If Country Subdivision Code (N4-07) is present, then Country Code (N4-04) is required

N4-01

19 Patient City Name

Min 2Max 30

String (AN)

Required

Free-form text for city name

- A combination of either N401 through N404, or N405 and N406 may be adequate to specify a location.

N4-02

156 Patient State Code

Min 2Max 2

Identifier (ID)

Optional

Code (Standard State/Province) as defined by appropriate government agency

- N402 is required only if city name (N401) is in the U.S. or Canada.

N4-03

116 Patient Postal Zone or ZIP Code

Min 3Max 15

Identifier (ID)

Optional

Code defining international postal zone code excluding punctuation and blanks (zip code for United States)

N4-04

26 Country Code

Min 2Max 3

Identifier (ID)

Optional

Code identifying the country

Usage notes

- Use the alpha-2 country codes from Part 1 of ISO 3166.

N4-07

1715 Country Subdivision Code

Min 1Max 3

Identifier (ID)

Optional

Code identifying the country subdivision

Usage notes

- Use the country subdivision codes from Part 2 of ISO 3166.

Patient Demographic Information

To supply demographic information

Example

DMG*D8*XXX*M~

DMG-01

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

D8 Date Expressed in Format CCYYMMDD

DMG-02

1251 Patient Birth Date

Min 1

Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

- DMG02 is the date of birth.

DMG-03

1068 Patient Gender Code

Identifier (ID)

Required

Code indicating the sex of the individual

- F Female
- M Male
- U Unknown

REF

0350

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Patient Name Loop > REF

Max use 1

Optional

Property and Casualty Claim Number

To specify identifying information

Usage notes

- Required when the services included in this claim are to be considered as part of a property and casualty claim. If not required by this implementation guide, do not send.
- This is a property and casualty payer-assigned claim number. Providers receive this number from the property and casualty payer during eligibility determinations or some other communication with that payer. See Section 1.4.2, Property and Casualty, for additional information about property and casualty claims.;
- This segment is not a HIPAA requirement as of this writing.

Example

REF*Y4*X~

Variants (all may be used)

REF Property and Casualty Patient Identifier

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
Y4 Agency Claim Number			
REF-02	127 Property Casualty Claim Number	Min 1 Max 50 String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			

REF

0350

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Patient Name Loop > REF

Max use 1

Optional

Property and Casualty Patient Identifier

To specify identifying information

Usage notes

- Required when an identification number is needed by the receiver to identify the patient for Property and Casualty claims. If not required by this implementation guide, do not send.

Example

REF*SY*XXXXXX~

Variants (all may be used)

REF Property and Casualty Claim Number

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

1W Member Identification Number

- ☐ This code designates a patient identification number used by the destination payer identified in the Payer Name loop, Loop ID 2010BB, associated with this claim.

SY Social Security Number

- ☐ The Social Security Number must be a string of exactly nine numbers with no separators. For example, sending "111002222" would be valid, while sending "111-00-2222" would be invalid.

REF-02

127 Property and Casualty Patient Identifier

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

PER

0400

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Patient Name Loop > PER

Max use 1

Optional

Property and Casualty Patient Contact Information

To identify a person or office to whom administrative communications should be directed

Usage notes

- Required for Property and Casualty claims when this information is different than the information provided in the Subscriber Contact Information PER segment in Loop ID-2010BA and this information is deemed necessary by the submitter. If not required by this implementation guide, do not send.
- When the communication number represents a telephone number in the United States and other countries using the North American Dialing Plan (for voice, data, fax, etc.), the communication number must always include the area code and phone number using the format AAABBBCCCC where AAA is the area code, BBB is the telephone number prefix, and CCCC is the telephone number. Therefore, the following telephone number (555) 555-1234 would be represented as 5555551234. Do not submit long distance access numbers, such as "1", in the telephone number. Telephone extensions, when applicable, must be submitted in the next element immediately following the telephone number. When submitting telephone extensions, only submit the numeric extension. Do not include data that indicates an extension, such as "ext" or "x-".

Example

PER*IC*XXXX*TE*X*EX*X~

-  If either Communication Number Qualifier (PER-05) or Communication Number (PER-06) is present, then the other is required

PER-01

366 Contact Function Code

Identifier (ID)

Required

Code identifying the major duty or responsibility of the person or group named

IC Information Contact

PER-02

93 Name

Min 1

Max 60

String (AN)

Optional

Free-form name

PER-03

365 Communication Number Qualifier

Identifier (ID)

Required

Code identifying the type of communication number

TE Telephone

PER-04

364 Communication Number

Min 1

Max 256

String (AN)

Required

Complete communications number including country or area code when applicable

PER-05

365 Communication Number Qualifier

Identifier (ID)

Optional

Code identifying the type of communication number

EX Telephone Extension

PER-06

364 Communication Number

Min 1

Max 256

 String (AN)

Optional

Complete communications number including country or area code when applicable

2010CA Patient Name Loop end

2300 Claim Information Loop

Max 100

Required

CLM

1300

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > CLM

Max use 1

Required

Claim Information

To specify basic data about the claim

Usage notes

- The developers of this implementation guide recommend that trading partners limit the size of the transaction (ST-SE envelope) to a maximum of 5000 CLM segments. There is no recommended limit to the number of ST-SE transactions within a GS-GE or ISA-IEA. Willing trading partners can agree to set limits higher.
- For purposes of this documentation, the claim detail information is presented only in the dependent level. Specific claim detail information can be given in either the subscriber or the dependent hierarchical level. Because of this, the claim information is said to "float." Claim information is positioned in the same hierarchical level that describes its owner-participant, either the subscriber or the dependent. In other words, the claim information, Loop ID-2300, is placed following Loop ID-2010BB in the Subscriber Hierarchical Level (HL) when patient information is sent in Loop ID-2010BA of the Subscriber HL. Claim information is placed in the Patient HL when the patient information is sent in Loop ID-2010CA of the Patient HL. When the patient is the subscriber or is considered to be the subscriber, Loop ID-2000C and Loop ID-2010CA are not sent. See Subscriber/Patient HL Segment explanation in section 1.4.3.2.2.1 for details.

Example

CLM*XXX*00***XX>B>X*N*C*N*I*P*OA>XXX>>XX>XXX*09**
*****5~

CLM-01

1028 Patient Control Number

Min 1

Max 38

String (AN)

Required

Identifier used to track a claim from creation by the health care provider through payment

Usage notes

- The number that the submitter transmits in this position is echoed back to the submitter in the 835 and other transactions. This permits the submitter to use the value in this field as a key in the submitter's system to match the claim to the payment information returned in the 835 transaction. The two recommended identifiers are either the Patient Account Number or the Claim Number in the billing submitter's patient management system. The developers of this implementation guide strongly recommend that submitters use unique numbers for this field for each individual claim.
- When Loop ID-2010AC is present, CLM01 represents the subrogated Medicaid agency's claim number (ICN/DCN) from their original 835 CLP07 - Payer Claim Control Number. See Section 1.4.1.4 of the front matter for a description of post payment recovery claims for subrogated Medicaid agencies.
- The maximum number of characters to be supported for this field is '20'. Characters beyond the maximum are not required to be stored nor returned by any 837-receiving system.

CLM-02 **782 Total Claim Charge Amount** Min 1 Max 15 # Decimal number (R) Required

Monetary amount

- CLM02 is the total amount of all submitted charges of service segments for this claim.

Usage notes

- The Total Claim Charge Amount must be greater than or equal to zero.
- The total claim charge amount must balance to the sum of all service line charge amounts reported in the Professional Service (SV1) segments for this claim.

CLM-05 **C023 Health Care Service Location Information** Max use 1 Required

To provide information that identifies the place of service or the type of bill related to the location at which a health care service was rendered

C023-01 **1331 Place of Service Code** Min 1 Max 2 T String (AN) Required

Code identifying where services were, or may be, performed; the first and second positions of the Uniform Bill Type Code for Institutional Services or the Place of Service Codes for Professional or Dental Services.

C023-02 **1332 Facility Code Qualifier** Identifier (ID) Required

Code identifying the type of facility referenced

- C023-02 qualifies C023-01 and C023-03.

B Place of Service Codes for Professional or Dental Services

C023-03 **1325 Claim Frequency Code** Min 1 Max 1 Identifier (ID) Required

Code specifying the frequency of the claim; this is the third position of the Uniform Billing Claim Form Bill Type

CLM-06 **1073 Provider or Supplier Signature Indicator** Identifier (ID) Required

Code indicating a Yes or No condition or response

- CLM06 is provider signature on file indicator. A "Y" value indicates the provider signature is on file; an "N" value indicates the provider signature is not on file.

N No

Y Yes

CLM-07 **1359 Assignment or Plan Participation Code** Identifier (ID) Required

Code indicating whether the provider accepts assignment

Usage notes

- Within this element the context of the word assignment is related to the relationship between the provider and the payer. This is NOT the field for reporting whether the patient has or has not assigned benefits to the provider. The benefit assignment indicator is in CLM08.

A Assigned

- ☐ Required when the provider accepts assignment and/or has a participation agreement with the destination payer.

OR

Required when the provider does not accept assignment and/or have a participation agreement, but is advising the payer to adjudicate this specific claim under participating provider benefits as allowed under certain plans.

B Assignment Accepted on Clinical Lab Services Only

- ☐ Required when the provider accepts assignment for Clinical Lab Services only.

C Not Assigned

- ☐ Required when neither codes A ' nor B' apply.

CLM-08 1073 Benefits Assignment Certification Indicator

Identifier (ID)

Required

Code indicating a Yes or No condition or response

- CLM08 is assignment of benefits indicator. A "Y" value indicates insured or authorized person authorizes benefits to be assigned to the provider; an "N" value indicates benefits have not been assigned to the provider.

Usage notes

- This element answers the question whether or not the insured has authorized the plan to remit payment directly to the provider.

N No

W Not Applicable

- ☐ Use code 'W' when the patient refuses to assign benefits.

Y Yes

CLM-09 1363 Release of Information Code

Identifier (ID)

Required

Code indicating whether the provider has on file a signed statement by the patient authorizing the release of medical data to other organizations

Usage notes

- The Release of Information response is limited to the information carried in this claim.

I Informed Consent to Release Medical Information for Conditions or Diagnoses Regulated by Federal Statutes

- ☐ Required when the provider has not collected a signature AND state or federal laws do not require a signature be collected.

Y Yes, Provider has a Signed Statement Permitting Release of Medical Billing Data Related to a Claim

- ☐ Required when the provider has collected a signature.

OR

Required when state or federal laws require a signature be collected.

CLM-10 1351 Patient Signature Source Code

Identifier (ID)

Optional

Code indicating how the patient or subscriber authorization signatures were obtained and how they are being retained by the provider

P Signature generated by provider because the patient was not physically present for services

☐ Signature generated by an entity other than the patient according to State or Federal law.

CLM-11

C024 Related Causes Information

To identify one or more related causes and associated state or country information

Max use 1

Optional

Usage notes

Required when the services provided are employment related or the result of an accident.

If not required by this implementation guide, do not send.

C024-01 **1362 Related Causes Code**

■ Identifier (ID)

Required

Code identifying an accompanying cause of an illness, injury or an accident

AA Auto Accident

EM Employment

OA Other Accident

C024-02 **1362 Related Causes Code**

Min 2

Max 3

■ Identifier (ID)

Optional

Code identifying an accompanying cause of an illness, injury or an accident

C024-04 **156 Auto Accident State or Province Code**

■ Identifier (ID)

Optional

Min 2 Max 2

Code (Standard State/Province) as defined by appropriate government agency

- C024-04 and C024-05 apply only to auto accidents when C024-01, C024-02, or C024-03 is equal to "AA".

C024-05 **26 Country Code**

Min 2

Max 3

■ Identifier (ID)

Optional

Code identifying the country

CLM-12

1366 Special Program Indicator

■ Identifier (ID)

Optional

Code indicating the Special Program under which the services rendered to the patient were performed

02 Physically Handicapped Children's Program

☐ This code is used for Medicaid claims only.

03 Special Federal Funding

☐ This code is used for Medicaid claims only.

05 Disability

☐ This code is used for Medicaid claims only.

09 Second Opinion or Surgery

☐ This code is used for Medicaid claims only.

CLM-20 **1514 Delay Reason Code**

■ Identifier (ID) **Optional**

Code indicating the reason why a request was delayed

- 1** Proof of Eligibility Unknown or Unavailable
- 2** Litigation
- 3** Authorization Delays
- 4** Delay in Certifying Provider
- 5** Delay in Supplying Billing Forms
- 6** Delay in Delivery of Custom-made Appliances
- 7** Third Party Processing Delay
- 8** Delay in Eligibility Determination
- 9** Original Claim Rejected or Denied Due to a Reason Unrelated to the Billing Limitation Rules
- 10** Administration Delay in the Prior Approval Process
- 11** Other
- 15** Natural Disaster

Date - Accident

To specify any or all of a date, a time, or a time period

Usage notes

- Required when CLM11-1 or CLM11-2 has a value of AA' or OA'.
OR
Required when CLM11-1 or CLM11-2 has a value of `EM' and this claim is the result of an accident.
If not required by this implementation guide, do not send.

Example

DTP*439*D8*XXXXXX~

Variants (all may be used)

- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

439 Accident

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Accident Date

Min 1 Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Acute Manifestation

To specify any or all of a date, a time, or a time period

Usage notes

- Required when Loop ID-2300 CR208 = "A" or "M", the claim involves spinal manipulation, and the payer is Medicare. If not required by this implementation guide, do not send.

Example

DTP*453*D8*XXXXXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

453 Acute Manifestation of a Chronic Condition

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Acute Manifestation Date

Min 1 Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Admission

To specify any or all of a date, a time, or a time period

Usage notes

- Required on all ambulance claims when the patient was known to be admitted to the hospital.
- OR
- Required on all claims involving inpatient medical visits.
- If not required by this implementation guide, do not send.

Example

DTP*435*D8*XXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Code specifying type of date or time, or both date and time

435 Admission

Identifier (ID)

Required

DTP-02

1250 Date Time Period Format Qualifier

Code indicating the date format, time format, or date and time format

DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

Identifier (ID)

Required

DTP-03

1251 Related Hospitalization Admission Date

Min 1 Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Assumed and Relinquished Care Dates

To specify any or all of a date, a time, or a time period

Usage notes

- Required to indicate "assumed care date" or "relinquished care date" when providers share post-operative care (global surgery claims). If not required by this implementation guide, do not send.
- Assumed Care Date is the date care was assumed by another provider during post-operative care. Relinquished Care Date is the date the provider filing this claim ceased post-operative care. See Medicare guidelines for further explanation of these dates.

Example: Surgeon "A" relinquished post-operative care to Physician "B" five days after surgery. When Surgeon "A" submits a claim, "A" will use code "091 - Report End" to indicate the day the surgeon relinquished care of this patient to Physician "B". When Physician "B" submits a claim, "B" will use code "090 - Report Start" to indicate the date they assumed care of this patient from Surgeon "A".

Example

DTP*091*D8*XXXXXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

- 090 Report Start

☐ Assumed Care Date - Use code "090" to indicate the date the provider filing this claim assumed care from another provider during post-operative care.
- 091 Report End

☐ Relinquished Care Date - Use code "091" to indicate the date the provider filing this claim relinquished post-operative care to another provider.

DTP-02

1250

Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

•

DTP02 is the date or time or period format that will appear in DTP03.

D8

Date Expressed in Format CCYYMMDD

DTP-03

1251

Assumed or Relinquished Care Date

Min 1

Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

DTP

1350

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > DTP

Max use 1

Optional

Date - Authorized Return to Work

To specify any or all of a date, a time, or a time period

Usage notes

- Required on claims where this information is necessary for adjudication of the claim (for example, workers compensation claims involving absence from work). If not required by this implementation guide, do not send.

Example

DTP*296*D8*XXXXXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

- 296 Initial Disability Period Return To Work
- ☐ This is the date the provider has authorized the patient to return to work.

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Work Return Date

Min 1

Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Disability Dates

To specify any or all of a date, a time, or a time period

Usage notes

- Required on claims involving disability where, in the judgment of the provider, the patient was or will be unable to perform the duties normally associated with his/her work.
- OR
- Required on non-HIPAA claims (for example workers compensation or property and casualty) when required by the claims processor.
- If not required by this implementation guide, do not send.

Example

DTP*360*D8*XXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

- 314 Disability
 - Use code 314 when both disability start and end date are being reported.
- 360 Initial Disability Period Start
 - Use code 360 if patient is currently disabled and disability end date is unknown.
- 361 Initial Disability Period End
 - Use code 361 if patient is no longer disabled and the start date is unknown.

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

☐ Use code D8 when DTP01 is 360 or 361.

RD8 Range of Dates Expressed in Format CCYYMMDD-CCYYMMDD

☐ Use code RD8 when DTP01 is 314.

DTP-03

1251 Disability From Date

Min 1

Max 35

 String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Discharge

To specify any or all of a date, a time, or a time period

Usage notes

- Required for inpatient claims when the patient was discharged from the facility and the discharge date is known. If not required by this implementation guide, do not send.

Example

DTP*096*D8*XXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

096 Discharge

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Related Hospitalization Discharge Date

Min 1

Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Hearing and Vision Prescription Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required on claims where a prescription has been written for hearing devices or vision frames and lenses and it is being billed on this claim. If not required by this implementation guide, do not send.

Example

DTP*471*D8*XXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

471 Prescription

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Prescription Date

Min 1 Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Last Menstrual Period

To specify any or all of a date, a time, or a time period

Usage notes

- Required when, in the judgment of the provider, the services on this claim are related to the patient's pregnancy. If not required by this implementation guide, do not send.

Example

DTP*484*D8*XXXXXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

484 Last Menstrual Period

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Last Menstrual Period Date

Min 1

Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Onset of Current Illness or Symptom

To specify any or all of a date, a time, or a time period

Usage notes

- Required for the initial medical service or visit performed in response to a medical emergency when the date is available and is different than the date of service. If not required by this implementation guide, do not send.
- This date is the onset of acute symptoms for the current illness or condition.

Example

DTP*431*D8*XX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

431 Onset of Current Symptoms or Illness

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Onset of Current Illness or Injury Date

Min 1 Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

DTP

1350

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > DTP

Max use 1

Optional

Date - Initial Treatment Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when the Initial Treatment Date is known to impact adjudication for claims involving spinal manipulation, physical therapy, occupational therapy, speech language pathology, dialysis, optical refractions, or pregnancy. If not required by this implementation guide, do not send.
- Dates in Loop ID-2300 apply to all service lines within Loop ID-2400 unless a DTP segment occurs in Loop ID-2400 with the same value in DTP01. In that case, the DTP in Loop ID-2400 overrides the DTP in Loop ID-2300 for that service line only.

Example

DTP*454*D8*XXXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

454 Initial Treatment

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Initial Treatment Date

Min 1

Max 35

 String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Last Seen Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when claims involve services for routine foot care and it is known to impact the payer's adjudication process. If not required by this implementation guide, do not send.
- This is the date that the patient was seen by the attending or supervising physician for the qualifying medical condition related to the services performed.
- Dates in Loop ID-2300 apply to all service lines within Loop ID-2400 unless a DTP segment occurs in Loop ID-2400 with the same value in DTP01. In that case, the DTP in Loop ID-2400 overrides the DTP in Loop ID-2300 for that service line only.

Example

DTP*304*D8*XXXXXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

304 Latest Visit or Consultation

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Last Seen Date

Min 1

Max 35

T

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Last Worked

To specify any or all of a date, a time, or a time period

Usage notes

- Required on claims where this information is necessary for adjudication of the claim (for example, workers compensation claims involving absence from work). If not required by this implementation guide, do not send.

Example

DTP*297*D8*XXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

297 Initial Disability Period Last Day Worked

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Last Worked Date

Min 1 Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Last X-ray Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when claim involves spinal manipulation and an x-ray was taken. If not required by this implementation guide, do not send.
- Dates in Loop ID-2300 apply to all service lines within Loop ID-2400 unless a DTP segment occurs in Loop ID-2400 with the same value in DTP01. In that case, the DTP in Loop ID-2400 overrides the DTP in Loop ID-2300 for that service line only.

Example

DTP*455*D8*XXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Property and Casualty Date of First Contact
- DTP Date - Repricer Received Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

455 Last X-Ray

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Last X-Ray Date

Min 1

Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

DTP

1350

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > DTP

Max use 1

Optional

Date - Property and Casualty Date of First Contact

To specify any or all of a date, a time, or a time period

Usage notes

- Required for Property and Casualty claims when state mandated. If not required by this implementation guide, do not send.
- This is the date the patient first consulted the service provider for this condition. The date of first contact is the date the patient first consulted the provider by any means. It is not necessarily the Initial Treatment Date.

Example

DTP*444*D8*XX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Repricer Received Date

DTP-01	374 Date Time Qualifier	Identifier (ID)	Required
	Code specifying type of date or time, or both date and time		
	444 First Visit or Consultation		
DTP-02	1250 Date Time Period Format Qualifier	Identifier (ID)	Required
	Code indicating the date format, time format, or date and time format		
	DTP02 is the date or time or period format that will appear in DTP03.		
	D8 Date Expressed in Format CCYYMMDD		
DTP-03	1251 Date Time Period	Min 1 Max 35 String (AN)	Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Repricer Received Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when a repricer is passing the claim onto the payer. If not required by this implementation guide, do not send.

Example

DTP*050*D8*XXXXX~

Variants (all may be used)

- DTP Date - Accident
- DTP Date - Acute Manifestation
- DTP Date - Admission
- DTP Date - Assumed and Relinquished Care Dates
- DTP Date - Authorized Return to Work
- DTP Date - Disability Dates
- DTP Date - Discharge
- DTP Date - Hearing and Vision Prescription Date
- DTP Date - Last Menstrual Period
- DTP Date - Onset of Current Illness or Symptom
- DTP Date - Initial Treatment Date
- DTP Date - Last Seen Date
- DTP Date - Last Worked
- DTP Date - Last X-ray Date
- DTP Date - Property and Casualty Date of First Contact

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

050 Received

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Repricer Received Date

Min 1

Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Claim Supplemental Information

To identify the type or transmission or both of paperwork or supporting information

Usage notes

- Required when there is a paper attachment following this claim.
OR
Required when attachments are sent electronically (PWK02 = EL) but are transmitted in another functional group (for example, 275) rather than by paper. PWK06 is then used to identify the attached electronic documentation. The number in PWK06 is carried in the TRN of the electronic attachment.
OR
Required when the provider deems it necessary to identify additional information that is being held at the provider's office and is available upon request by the payer (or appropriate entity), but the information is not being submitted with the claim. Use the value of "AA" in PWK02 to convey this specific use of the PWK segment.
If not required by this implementation guide, do not send.

Example

PWK*PN*BM***AC*XXXXX~

- If either Identification Code Qualifier (PWK-05) or Attachment Control Number (PWK-06) is present, then the other is required

PWK-01

755 Attachment Report Type Code

Identifier (ID)

Required

Code indicating the title or contents of a document, report or supporting item

- 03 Report Justifying Treatment Beyond Utilization Guidelines
- 04 Drugs Administered
- 05 Treatment Diagnosis
- 06 Initial Assessment
- 07 Functional Goals
- 08 Plan of Treatment
- 09 Progress Report
- 10 Continued Treatment
- 11 Chemical Analysis
- 13 Certified Test Report
- 15 Justification for Admission
- 21 Recovery Plan
- A3 Allergies/Sensitivities Document
- A4 Autopsy Report
- AM Ambulance Certification
- AS Admission Summary
- B2 Prescription
- B3 Physician Order
- B4 Referral Form
- BR Benchmark Testing Results
- BS Baseline
- BT Blanket Test Results
- CB Chiropractic Justification

CK Consent Form(s)
CT Certification
D2 Drug Profile Document
DA Dental Models
DB Durable Medical Equipment Prescription
DG Diagnostic Report
DJ Discharge Monitoring Report
DS Discharge Summary
EB Explanation of Benefits (Coordination of Benefits or Medicare Secondary Payor)
HC Health Certificate
HR Health Clinic Records
I5 Immunization Record
IR State School Immunization Records
LA Laboratory Results
M1 Medical Record Attachment
MT Models
NN Nursing Notes
OB Operative Note
OC Oxygen Content Averaging Report
OD Orders and Treatments Document
OE Objective Physical Examination (including vital signs) Document
OX Oxygen Therapy Certification
OZ Support Data for Claim
P4 Pathology Report
P5 Patient Medical History Document
PE Parenteral or Enteral Certification
PN Physical Therapy Notes
PO Prosthetics or Orthotic Certification
PQ Paramedical Results
PY Physician's Report

RB Radiology Films
RR Radiology Reports
RT Report of Tests and Analysis Report
RX Renewable Oxygen Content Averaging Report
SG Symptoms Document
V5 Death Notification
XP Photographs

PWK-02 **756 Attachment Transmission Code**

Identifier (ID) **Required**

Code defining timing, transmission method or format by which reports are to be sent

AA Available on Request at Provider Site

- ☐ This means that the additional information is not being sent with the claim at this time.
 Instead, it is available to the payer (or appropriate entity) at their request.

BM By Mail

EL Electronically Only

- ☐ Indicates that the attachment is being transmitted in a separate X12 functional group.

EM E-Mail

FT File Transfer

- ☐ Required when the actual attachment is maintained by an attachment warehouse or similar vendor.

FX By Fax

PWK-05

66 Identification Code Qualifier

■ Identifier (ID)

Optional

Code designating the system/method of code structure used for Identification Code (67)

- PWK05 and PWK06 may be used to identify the addressee by a code number.

AC Attachment Control Number

PWK-06

67 Attachment Control Number

Min 2 Max 80 ■ String (AN)

Optional

Code identifying a party or other code

Usage notes

- PWK06 is used to identify the attached electronic documentation. The number in PWK06 is carried in the TRN of the electronic attachment.
- For the purpose of this implementation, the maximum field length is 50.

Contract Information

To specify basic data about the contract or contract line item

Usage notes

- The developers of this implementation guide note that the CN1 segment is for use only for post-adjudicated claims, which do not meet the definition of a health care claim under HIPAA. Consequently, at the time of this writing, the CN1 segment is for non-HIPAA use only.
- Required when the submitter is contractually obligated to supply this information on post-adjudicated claims. If not required by this implementation guide, do not send.

Example

CN1*04*0000000*000000*X*0000*XXX~

CN1-01	1166 Contract Type Code	Identifier (ID)	Required
	Code identifying a contract type		
	01 Diagnosis Related Group (DRG)		
	02 Per Diem		
	03 Variable Per Diem		
	04 Flat		
	05 Capitated		
	06 Percent		
	09 Other		
CN1-02	782 Contract Amount	Min 1Max 15# Decimal number (R)	Optional
	Monetary amount		
	• CN102 is the contract amount.		
CN1-03	332 Contract Percentage	Min 1Max 6# Decimal number (R)	Optional
	Percent given in decimal format (e.g., 0.0 through 100.0 represents 0% through 100%)		
	• CN103 is the allowance or charge percent.		
CN1-04	127 Contract Code	Min 1Max 50String (AN)	Optional
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier		
	• CN104 is the contract code.		
CN1-05	338 Terms Discount Percentage	Min 1Max 6# Decimal number (R)	Optional

Terms discount percentage, expressed as a percent, available to the purchaser if an invoice is paid on or before the Terms Discount Due Date

CN1-06

799 Contract Version Identifier

Min 1

Max 30

 String (AN)

Optional

Revision level of a particular format, program, technique or algorithm

- CN106 is an additional identifying number for the contract.

Patient Amount Paid

To indicate the total monetary amount

Usage notes

- Required when patient has made payment specifically toward this claim. If not required by this implementation guide, do not send.
- Patient Amount Paid refers to the sum of all amounts paid on the claim by the patient or his or her representative(s).

Example

AMT*F5*00000000000000~

AMT-01	522 Amount Qualifier Code	Identifier (ID)	Required
	Code to qualify amount		
	F5 Patient Amount Paid		
AMT-02	782 Patient Amount Paid	Min 1 Max 15 # Decimal number (R)	Required
	Monetary amount		

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Clinical Laboratory Improvement Amendment (CLIA) Number

To specify identifying information

Usage notes

- Required for all CLIA certified facilities performing CLIA covered laboratory services. If not required by this implementation guide, do not send.
- If a CLIA number is indicated at the line level (Loop ID-2400) in addition to the claim level (Loop ID-2300), that would indicate an exception to the CLIA number at the claim level for that individual line.
- In cases where this claim contains both in-house and outsourced laboratory services, the CLIA Number for laboratory services performed by the Billing or Rendering Provider is reported in this loop. The CLIA number for laboratory services which were outsourced is reported in Loop ID-2400.

Example

REF *X4*XXXXXX~

Variants (all may be used)

- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Referral Number
- REF Repriced Claim Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

X4 Clinical Laboratory Improvement Amendment Number

REF-02

127 Clinical Laboratory Improvement Amendment Number

String (AN)

Required

Min 1 Max 50

Reference information as defined for a particular Transaction Set or as specified by the
Reference Identification Qualifier

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Adjusted Repriced Claim Number

To specify identifying information

Usage notes

- Required when this information is deemed necessary by the repricer. The segment is not completed by providers. The information is completed by repricers only. If not required by this implementation guide, do not send.
- This information is specific to the destination payer reported in Loop ID-2010BB.

Example

REF*9C*X~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Referral Number
- REF Repriced Claim Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

9C Adjusted Repriced Claim Reference Number

REF-02

127 Adjusted Repriced Claim Reference Number

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Care Plan Oversight

To specify identifying information

Usage notes

- Required when the physician is billing Medicare for Care Plan Oversight (CPO). If not required by this implementation guide, do not send.
- This is the number of the home health agency or hospice providing Medicare covered services to the patient for the period during which CPO services were furnished. Prior to the mandated HIPAA National Provider Identifier (NPI) implementation date this number is the Medicare Number. On or after the mandated HIPAA National Provider Identifier (NPI) implementation date this is the NPI.

Example

REF*1J*XXXXXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Referral Number
- REF Repriced Claim Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Demonstration Project Identifier

To specify identifying information

Usage notes

- Required when it is necessary to identify claims which are atypical in ways such as content, purpose, and/or payment, as could be the case for a demonstration or other special project, or a clinical trial. If not required by this implementation guide, do not send.

Example

REF*P4*XXXXXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Referral Number
- REF Repriced Claim Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

P4 Project Code

REF-02

127 Demonstration Project Identifier

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Investigational Device Exemption Number

To specify identifying information

Usage notes

- Required when claim involves a Food and Drug Administration (FDA) assigned investigational device exemption (IDE) number. When more than one IDE applies, they must be split into separate claims. If not required by this implementation guide, do not send.

Example

REF*LX*XXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Claim Identifier For Transmission Intermediaries

To specify identifying information

Usage notes

- Required when this information is deemed necessary by transmission intermediaries (Automated Clearinghouses, and others) who need to attach their own unique claim number. If not required by this implementation guide, do not send.
- Although this REF is supplied for transmission intermediaries to attach their own unique claim number to a claim, 837-recipients are not required under HIPAA to return this number in any HIPAA transaction. Trading partners may voluntarily agree to this interaction if they wish.

Example

REF*D9*XXXXXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Referral Number
- REF Repriced Claim Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
Usage notes			
• Number assigned by clearinghouse, van, etc.			
D9 Claim Number			
REF-02	127 Value Added Network Trace Number	Min 1 Max 50 String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			
Usage notes			

- The value carried in this element is limited to a maximum of 20 positions.

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Mammography Certification Number

To specify identifying information

Usage notes

- Required when mammography services are rendered by a certified mammography provider. If not required by this implementation guide, do not send.

Example

REF*EW*XXXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number

REF-02

127 Medicare Section 4081 Indicator

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- The allowed values for this element are:
 - Y 4081
 - N Regular crossover

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Prior Authorization

To specify identifying information

Usage notes

- Generally, preauthorization numbers are assigned by the payer or UMO to authorize a service prior to its being performed. The UMO (Utilization Management Organization) is generally the entity empowered to make a decision regarding the outcome of a health services review or the owner of information. The prior authorization number carried in this REF is specific to the destination payer reported in the Loop ID-2010BB. If other payers have similar numbers for this claim, report that information in the Loop ID-2330 loop REF which holds that payer's information.
- Numbers at this position apply to the entire claim unless they are overridden in the REF segment in Loop ID-2400. A reference identification is considered to be overridden if the value in REF01 is the same in both the Loop ID-2300 REF segment and the Loop ID-2400 REF segment. In that case, the Loop ID-2400 REF applies only to that specific line.
- Required when an authorization number is assigned by the payer or UMO
AND
the services on this claim were preauthorized.
If not required by this implementation guide, do not send.

Example

REF*G1*XXXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Payer Claim Control Number
- REF Referral Number
- REF Repriced Claim Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

G1 Prior Authorization Number

REF-02

127 Prior Authorization Number

Min 1 Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the
Reference Identification Qualifier

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Payer Claim Control Number

To specify identifying information

Usage notes

- Required when CLM05-3 (Claim Frequency Code) indicates this claim is a replacement or void to a previously adjudicated claim. If not required by this implementation guide, do not send.
- This information is specific to the destination payer reported in Loop ID-2010BB.

Example

REF*F8*XXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Referral Number
- REF Repriced Claim Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

F8 Original Reference Number

REF-02

127 Payer Claim Control Number

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Referral Number

To specify identifying information

Usage notes

- Required when a referral number is assigned by the payer or Utilization Management Organization (UMO)
AND
a referral is involved.
If not required by this implementation guide, do not send.
- Numbers at this position apply to the entire claim unless they are overridden in the REF segment in Loop ID-2400. A reference identification is considered to be overridden if the value in REF01 is the same in both the Loop ID-2300 REF segment and the Loop ID-2400 REF segment. In that case, the Loop ID-2400 REF applies only to that specific line.

Example

REF*9F*XXXXXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Repriced Claim Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

9F Referral Number

REF-02

127 Referral Number

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the
Reference Identification Qualifier

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Repriced Claim Number

To specify identifying information

Usage notes

- Required when this information is deemed necessary by the repricer. The segment is not completed by providers. The information is completed by repricers only. If not required by this implementation guide, do not send.
- This information is specific to the destination payer reported in Loop ID-2010BB.

Example

REF*9A*XX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Referral Number
- REF Medical Record Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

9A Repriced Claim Reference Number

REF-02

127 Repriced Claim Reference Number

Min 1 Max 50 String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Medical Record Number

To specify identifying information

Usage notes

- Required when the provider needs to identify for future inquiries, the actual medical record of the patient identified in either Loop ID-2010BA or Loop ID-2010CA for this episode of care. If not required by this implementation guide, do not send.

Example

REF*EA*XXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Referral Number
- REF Repriced Claim Number
- REF Service Authorization Exception Code

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

EA Medical Record Identification Number

REF-02

127 Medical Record Number

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF1800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > REF

Max use 1

Optional

Service Authorization Exception Code

To specify identifying information

Usage notes

- Required when mandated by government law or regulation to obtain authorization for specific service(s) but, for the reasons listed in REF02, the service was performed without obtaining the authorization. If not required by this implementation guide, do not send.

Example

REF*4N*XXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Adjusted Repriced Claim Number
- REF Care Plan Oversight
- REF Demonstration Project Identifier
- REF Investigational Device Exemption Number
- REF Claim Identifier For Transmission Intermediaries
- REF Mammography Certification Number
- REF Mandatory Medicare (Section 4081) Crossover Indicator
- REF Prior Authorization
- REF Payer Claim Control Number
- REF Referral Number
- REF Repriced Claim Number
- REF Medical Record Number

REF-01128Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

4N Special Payment Reference Number

REF-02127Service Authorization Exception Code

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- Allowable values for this element are:
 - 1 Immediate/Urgent Care
 - 2 Services Rendered in a Retroactive Period
 - 3 Emergency Care
 - 4 Client has Temporary Medicaid
 - 5 Request from County for Second Opinion to Determine if Recipient Can Work

6 Request for Override Pending

7 Special Handling

File Information

To transmit a fixed-format record or matrix contents

Usage notes

- Required when ALL of the following conditions are met:
- A regulatory agency concludes it must use the K3 to meet an emergency legislative requirement;
- The administering regulatory agency or other state organization has completed each one of the following steps:
contacted the X12N workgroup,
requested a review of the K3 data requirement to ensure there is not an existing method within the implementation guide to meet this requirement
- X12N determines that there is no method to meet the requirement.
If not required by this implementation guide, do not send.
- At the time of publication of this implementation, K3 segments have no specific use.
The K3 segment is expected to be used only when necessary to meet the unexpected data requirement of a legislative authority. Before this segment can be used :
- The X12N Health Care Claim workgroup must conclude there is no other available option in the implementation guide to meet the emergency legislative requirement.
- The requestor must submit a proposal for approval accompanied by the relevant business documentation to the X12N Health Care Claim workgroup chairs and receive approval for the request.
Upon review of the request, X12N will issue an approval or denial decision to the requesting entity. Approved usage(s) of the K3 segment will be reviewed by the X12N Health Care Claim workgroup to develop a permanent change to include the business case in future transaction implementations.
- Only when all of the requirements above have been met, may the regulatory agency require the temporary use of the K3 segment.
- X12N will submit the necessary data maintenance and refer the request to the appropriate data content committee(s).

Example

K3*X~

K3-01	449 Fixed Format Information	Min 1	Max 80	String (AN)	Required
Data in fixed format agreed upon by sender and receiver					

NTE

1900

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > NTE

Max use 1

Optional

Claim Note

To transmit information in a free-form format, if necessary, for comment or special instruction

Usage notes

- Required when in the judgment of the provider, the information is needed to substantiate the medical treatment and is not supported elsewhere within the claim data set.
If not required by this implementation guide, do not send.
- Information in the NTE segment in Loop ID-2300 applies to the entire claim unless overridden by information in the NTE segment in Loop ID-2400. Information is considered to be overridden when the value in NTE01 in Loop ID-2400 is the same as the value in NTE01 in Loop ID-2300.
- The developers of this implementation guide discourage using narrative information within the 837. Trading partners who use narrative information with claims are strongly encouraged to codify that information within the X12 environment.;

Example

NTE*TPO*XXXXXX~

NTE-01	363 Note Reference Code	Identifier (ID)	Required
Code identifying the functional area or purpose for which the note applies			
ADD Additional Information			
CER Certification Narrative			
DCP Goals, Rehabilitation Potential, or Discharge Plans			
DGN Diagnosis Description			
TPO Third Party Organization Notes			
NTE-02	352 Claim Note Text	Min 1 Max 80 String (AN)	Required
A free-form description to clarify the related data elements and their content			

Ambulance Transport Information

To supply information related to the ambulance service rendered to a patient

Usage notes

Required when it is necessary to justify the medical necessity of the level of ambulance services. If not required by this implementation guide, do not send.

- Required on all claims involving ambulance transport services. If not required by this implementation guide, do not send.
- The CR1 segment in Loop ID-2300 applies to the entire claim unless overridden by a CR1 segment at the service line level in Loop ID-2400 with the same value in CR101.

Example

CR1*LB*000000**A*DH*00000000000000***X*XXXXXX~

- If either Unit or Basis for Measurement Code (CR1-01) or Patient Weight (CR1-02) is present, then the other is required

CR1-01

355 Unit or Basis for Measurement Code

Identifier (ID)

Optional

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

LB Pound

CR1-02

81 Patient Weight

Min 1Max 10# Decimal number (R)

Optional

Numeric value of weight

- CR102 is the weight of the patient at time of transport.

CR1-04

1317 Ambulance Transport Reason Code

Identifier (ID)

Required

Code indicating the reason for ambulance transport

- A Patient was transported to nearest facility for care of symptoms, complaints, or both
- ☐ Can be used to indicate that the patient was transferred to a residential facility.
- B Patient was transported for the benefit of a preferred physician
- C Patient was transported for the nearness of family members
- D Patient was transported for the care of a specialist or for availability of specialized equipment
- E Patient Transferred to Rehabilitation Facility

CR1-05

355 Unit or Basis for Measurement Code

Identifier (ID)

Required

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

DH Miles

CR1-06

380 Transport Distance

Min 1Max 15# Decimal number (R)

Required

Numeric value of quantity

- CR106 is the distance traveled during transport.

Usage notes

- 0 (zero) is a valid value when ambulance services do not include a charge for mileage.

CR1-09

352 Round Trip Purpose Description

Min 1Max 80T String (AN)

Optional

A free-form description to clarify the related data elements and their content

- CR109 is the purpose for the round trip ambulance service.

CR1-10

352 Stretcher Purpose Description

Min 1Max 80T String (AN)

Optional

A free-form description to clarify the related data elements and their content

- CR110 is the purpose for the usage of a stretcher during ambulance service.

Spinal Manipulation Service Information

To supply information related to the chiropractic service rendered to a patient

Usage notes

- Required on chiropractic claims involving spinal manipulation when the information is known to impact the payer's adjudication process. If not required by this implementation guide, do not send.

Example

CR2*****M**XXXX*X~

CR2-08

1342 Patient Condition Code

Identifier (ID)

Required

Code indicating the nature of a patient's condition

- A Acute Condition
- C Chronic Condition
- D Non-acute
- E Non-Life Threatening
- F Routine
- G Symptomatic
- M Acute Manifestation of a Chronic Condition

CR2-10

352 Patient Condition Description

Min 1Max 80

String (AN)

Optional

A free-form description to clarify the related data elements and their content

- CR210 is a description of the patient's condition.

CR2-11

352 Patient Condition Description

Min 1Max 80

String (AN)

Optional

A free-form description to clarify the related data elements and their content

- CR211 is an additional description of the patient's condition.

Ambulance Certification

To supply information on conditions

Usage notes

- Required when the claim involves ambulance transport services
AND
when reporting condition codes in any of CRC03 through CRC07. If not required by this implementation guide, do not send.
- The CRC segment in Loop ID-2300 applies to the entire claim unless overridden by a CRC segment at the service line level in Loop ID-2400 with the same value in CRC01.
- Repeat this segment only when it is necessary to report additional unique values to those reported in CRC03 thru CRC07.

Example

CRC*07*Y*04*XX*XXX*XX*XX~

Variants (all may be used)

- CRC Patient Condition Information: Vision
- CRC Homebound Indicator
- CRC EPSDT Referral

CRC-01	1136 Code Category	Identifier (ID)	Required
	Specifies the situation or category to which the code applies • CRC01 qualifies CRC03 through CRC07. 07 Ambulance Certification		
CRC-02	1073 Certification Condition Indicator	Identifier (ID)	Required
	Code indicating a Yes or No condition or response • CRC02 is a Certification Condition Code applies indicator. A "Y" value indicates the condition codes in CRC03 through CRC07 apply; an "N" value indicates the condition codes in CRC03 through CRC07 do not apply. N No Y Yes		
CRC-03	1321 Condition Code	Identifier (ID)	Required
	Code indicating a condition Usage notes • The codes for CRC03 also can be used for CRC04 through CRC07. 01 Patient was admitted to a hospital 04 Patient was moved by stretcher 05 Patient was unconscious or in shock		

- 06 Patient was transported in an emergency situation
- 07 Patient had to be physically restrained
- 08 Patient had visible hemorrhaging
- 09 Ambulance service was medically necessary
- 12 Patient is confined to a bed or chair
- ☐ Use code 12 to indicate patient was bedridden during transport.

CRC-04

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-05

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-06

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-07

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

Patient Condition Information: Vision

To supply information on conditions

Usage notes

- Required on vision claims involving replacement lenses or frames when this information is known to impact reimbursement. If not required by this implementation guide, do not send.

Example

CRC*E2*Y*L5*XX*XX*XXX*XX~

Variants (all may be used)

- CRC Ambulance Certification
- CRC Homebound Indicator
- CRC EPSDT Referral

CRC-01

1136 Code Category

Identifier (ID)

Required

Specifies the situation or category to which the code applies

- CRC01 qualifies CRC03 through CRC07.

- E1 Spectacle Lenses
- E2 Contact Lenses
- E3 Spectacle Frames

CRC-02

1073 Certification Condition Indicator

Identifier (ID)

Required

Code indicating a Yes or No condition or response

- CRC02 is a Certification Condition Code applies indicator. A "Y" value indicates the condition codes in CRC03 through CRC07 apply; an "N" value indicates the condition codes in CRC03 through CRC07 do not apply.

- N No
- Y Yes

CRC-03

1321 Condition Code

Identifier (ID)

Required

Code indicating a condition

- L1 General Standard of 20 Degree or .5 Diopter Sphere or Cylinder Change Met
- L2 Replacement Due to Loss or Theft
- L3 Replacement Due to Breakage or Damage
- L4 Replacement Due to Patient Preference
- L5 Replacement Due to Medical Reason

CRC-04

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-05

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-06

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-07

1321 Condition Code

Min 2

Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

Homebound Indicator

To supply information on conditions

Usage notes

- Required for Medicare claims when an independent laboratory renders an EKG tracing or obtains a specimen from a homebound or institutionalized patient. If not required by this implementation guide, do not send.

Example

CRC*75*Y*IH~

Variants (all may be used)

CRC Ambulance Certification

CRC Patient Condition Information: Vision

CRC EPSDT Referral

CRC-01

1136 Code Category

Identifier (ID)

Required

Specifies the situation or category to which the code applies

- CRC01 qualifies CRC03 through CRC07.

75 Functional Limitations

CRC-02

1073 Certification Condition Indicator

Identifier (ID)

Required

Code indicating a Yes or No condition or response

- CRC02 is a Certification Condition Code applies indicator. A "Y" value indicates the condition codes in CRC03 through CRC07 apply; an "N" value indicates the condition codes in CRC03 through CRC07 do not apply.

Y Yes

CRC-03

1321 Homebound Indicator

Identifier (ID)

Required

Code indicating a condition

IH Independent at Home

EPSDT Referral

To supply information on conditions

Usage notes

- Required on Early & Periodic Screening, Diagnosis, and Treatment (EPSDT) claims when the screening service is being billed in this claim. If not required by this implementation guide, do not send.

Example

CRC*ZZ*N*AV*XXX*XX~

Variants (all may be used)

- CRC Ambulance Certification
- CRC Patient Condition Information: Vision
- CRC Homebound Indicator

CRC-01

1136 Code Qualifier

Identifier (ID)

Required

Specifies the situation or category to which the code applies

- CRC01 qualifies CRC03 through CRC07.

- ZZ Mutually Defined
- ☐ EPSDT Screening referral information.

CRC-02

1073 Certification Condition Code Applies Indicator

Identifier (ID)

Required

Code indicating a Yes or No condition or response

- CRC02 is a Certification Condition Code applies indicator. A "Y" value indicates the condition codes in CRC03 through CRC07 apply; an "N" value indicates the condition codes in CRC03 through CRC07 do not apply.

Usage notes

- The response answers the question: Was an EPSDT referral given to the patient?

- N No
- ☐ If no, then choose "NU" in CRC03 indicating no referral given.
- Y Yes

CRC-03

1321 Condition Indicator

Identifier (ID)

Required

Code indicating a condition

Usage notes

- The codes for CRC03 also can be used for CRC04 through CRC05.

- AV Available - Not Used
- ☐ Patient refused referral.

NU Not Used

- ☐ This conditioner indicator must be used when the submitter answers "N" in CRC02.

S2 Under Treatment

- ☐ Patient is currently under treatment for referred diagnostic or corrective health problem.

ST New Services Requested

- ☐ Patient is referred to another provider for diagnostic or corrective treatment for at least one health problem identified during an initial or periodic screening service (not including dental referrals).
- OR
- Patient is scheduled for another appointment with screening provider for diagnostic or corrective treatment for at least one health problem identified during an initial or periodic screening service (not including dental referrals).;

CRC-04

1321 Condition Indicator

Min 2 Max 3 ■ Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-05

1321 Condition Indicator

Min 2 Max 3 ■ Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

HI2310

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > HI

Max use 1

Required

Health Care Diagnosis Code

To supply information related to the delivery of health care

Usage notes

- Do not transmit the decimal point for ICD codes. The decimal point is implied.

Example

HI*ABK>XXX*BF>XXXXX*BF>X*ABF>XXXXXX*ABF>XXXXXX*B
F>XXXXX*BF>XXX*ABF>X*BF>XX*BF>X*BF>XXXXX*BF>XXX~

Variants (all may be used)

HI Anesthesia Related Procedure

HI Condition Information

HI-01

C022 Health Care Code Information

To send health care codes and their associated dates, amounts and quantities

Max use 1

Required

C022-01

1270 Diagnosis Type Code

Identifier (ID)

Required

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

ABK International Classification of Diseases Clinical Modification (ICD-10-CM) Principal Diagnosis

- This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:

If a new rule names the ICD-10-CM as an allowable code set under HIPAA,

OR

The Secretary grants an exception to use the code set as a pilot project as allowed under the law,

OR

For claims which are not covered under HIPAA.

BK International Classification of Diseases Clinical Modification (ICD-9-CM) Principal Diagnosis

C022-02

1271 Diagnosis Code

Min 1

Max 30

String (AN)

Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-02

C022 Health Care Code Information

To send health care codes and their associated dates, amounts and quantities

Max use 1

Optional

Usage notes

Required when it is necessary to report an additional diagnosis and the preceding HI data elements have been used to report other diagnoses. If not required by this implementation guide, do not send.

C022-01 **1270 Diagnosis Type Code** Identifier (ID) Required

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

ABF International Classification of Diseases Clinical Modification (ICD-10-CM) Diagnosis

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:

If a new rule names the ICD-10-CM as an allowable code set under HIPAA,

OR

The Secretary grants an exception to use the code set as a pilot project as allowed under the law,

OR

For claims which are not covered under HIPAA.

BF International Classification of Diseases Clinical Modification (ICD-9-CM) Diagnosis

C022-02 **1271 Diagnosis Code** Min 1 Max 30 String (AN) Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-03 **C022 Health Care Code Information** To send health care codes and their associated dates, amounts and quantities Max use 1 Optional

Usage notes

Required when it is necessary to report an additional diagnosis and the preceding HI data elements have been used to report other diagnoses. If not required by this implementation guide, do not send.

C022-01 **1270 Diagnosis Type Code** Identifier (ID) Required

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

ABF International Classification of Diseases Clinical Modification (ICD-10-CM) Diagnosis

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:

If a new rule names the ICD-10-CM as an allowable code set under HIPAA,

OR

The Secretary grants an exception to use the code set as a pilot project as allowed under the law,

OR

For claims which are not covered under HIPAA.

BF International Classification of Diseases Clinical Modification (ICD-9-CM) Diagnosis

C022-02 **1271 Diagnosis Code** Min 1 Max 30 String (AN) Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-04

C022 Health Care Code Information

To send health care codes and their associated dates, amounts and quantities

Max use 1

Optional

Usage notes

Required when it is necessary to report an additional diagnosis and the preceding HI data elements have been used to report other diagnoses. If not required by this implementation guide, do not send.

C022-01 1270 Diagnosis Type Code

Identifier (ID)

Required

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

ABF International Classification of Diseases Clinical Modification (ICD-10-CM) Diagnosis

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:

If a new rule names the ICD-10-CM as an allowable code set under HIPAA,

OR

The Secretary grants an exception to use the code set as a pilot project as allowed under the law,

OR

For claims which are not covered under HIPAA.

BF International Classification of Diseases Clinical Modification (ICD-9-CM) Diagnosis

C022-02 1271 Diagnosis Code

Min 1 Max 30 String (AN)

Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-05

C022 Health Care Code Information

To send health care codes and their associated dates, amounts and quantities

Max use 1

Optional

Usage notes

Required when it is necessary to report an additional diagnosis and the preceding HI data elements have been used to report other diagnoses. If not required by this implementation guide, do not send.

C022-01 1270 Diagnosis Type Code

Identifier (ID)

Required

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

ABF International Classification of Diseases Clinical Modification (ICD-10-CM) Diagnosis

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:
- If a new rule names the ICD-10-CM as an allowable code set under HIPAA,
- OR
- The Secretary grants an exception to use the code set as a pilot project as allowed under the law,
- OR
- For claims which are not covered under HIPAA.

BF International Classification of Diseases Clinical Modification (ICD-9-CM) Diagnosis

C022-02 **1271 Diagnosis Code** Min 1 Max 30 **String (AN)** **Required**

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-06 **C022 Health Care Code Information** To send health care codes and their associated dates, amounts and quantities Max use 1 **Optional**

Usage notes

Required when it is necessary to report an additional diagnosis and the preceding HI data elements have been used to report other diagnoses. If not required by this implementation guide, do not send.

C022-01 **1270 Diagnosis Type Code** **Identifier (ID)** **Required**

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

ABF International Classification of Diseases Clinical Modification (ICD-10-CM) Diagnosis

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:
- If a new rule names the ICD-10-CM as an allowable code set under HIPAA,
- OR
- The Secretary grants an exception to use the code set as a pilot project as allowed under the law,
- OR
- For claims which are not covered under HIPAA.

BF International Classification of Diseases Clinical Modification (ICD-9-CM) Diagnosis

C022-02 **1271 Diagnosis Code** Min 1 Max 30 **String (AN)** **Required**

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-07 **C022 Health Care Code Information** To send health care codes and their associated dates, amounts and quantities Max use 1 **Optional**

Usage notes

Required when it is necessary to report an additional diagnosis and the preceding HI data elements have been used to report other diagnoses. If not required by this implementation guide, do not send.

C022-01 **1270 Diagnosis Type Code**

Identifier (ID)

Required

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

ABF International Classification of Diseases Clinical Modification (ICD-10-CM) Diagnosis

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:

If a new rule names the ICD-10-CM as an allowable code set under HIPAA,

OR

The Secretary grants an exception to use the code set as a pilot project as allowed under the law,

OR

For claims which are not covered under HIPAA.

BF International Classification of Diseases Clinical Modification (ICD-9-CM) Diagnosis

- ☐ ICD-9 Codes

C022-02 **1271 Diagnosis Code**

Min 1 Max 30

String (AN)

Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-08

C022 Health Care Code Information

To send health care codes and their associated dates, amounts and quantities

Max use 1

Optional

Usage notes

Required when it is necessary to report an additional diagnosis and the preceding HI data elements have been used to report other diagnoses. If not required by this implementation guide, do not send.

C022-01 **1270 Diagnosis Type Code**

Identifier (ID)

Required

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

ABF International Classification of Diseases Clinical Modification (ICD-10-CM) Diagnosis

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:

If a new rule names the ICD-10-CM as an allowable code set under HIPAA,

OR

The Secretary grants an exception to use the code set as a pilot project as allowed under the law,

OR

For claims which are not covered under HIPAA.

BF International Classification of Diseases Clinical Modification (ICD-9-CM) Diagnosis

C022-02 **1271 Diagnosis Code** Min 1 Max 30 **T** String (AN) **Required**

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-09 **C022 Health Care Code Information** To send health care codes and their associated dates, amounts and quantities Max use 1 **Optional**

Usage notes

Required when it is necessary to report an additional diagnosis and the preceding HI data elements have been used to report other diagnoses. If not required by this implementation guide, do not send.

C022-01 **1270 Diagnosis Type Code** **Identifier (ID)** **Required**

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

ABF International Classification of Diseases Clinical Modification (ICD-10-CM) Diagnosis

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:
 - If a new rule names the ICD-10-CM as an allowable code set under HIPAA,
 - OR
 - The Secretary grants an exception to use the code set as a pilot project as allowed under the law,
 - OR
 - For claims which are not covered under HIPAA.

BF International Classification of Diseases Clinical Modification (ICD-9-CM) Diagnosis

C022-02 **1271 Diagnosis Code** Min 1 Max 30 **T** String (AN) **Required**

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-10 **C022 Health Care Code Information** To send health care codes and their associated dates, amounts and quantities Max use 1 **Optional**

Usage notes

Required when it is necessary to report an additional diagnosis and the preceding HI data elements have been used to report other diagnoses. If not required by this implementation guide, do not send.

C022-01 **1270 Diagnosis Type Code** **Identifier (ID)** **Required**

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

ABF International Classification of Diseases Clinical Modification (ICD-10-CM) Diagnosis

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:

If a new rule names the ICD-10-CM as an allowable code set under HIPAA,

OR

The Secretary grants an exception to use the code set as a pilot project as allowed under the law,

OR

For claims which are not covered under HIPAA.

BF International Classification of Diseases Clinical Modification (ICD-9-CM) Diagnosis

C022-02 **1271** Diagnosis Code

Min 1 Max 30  String (AN)

Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-11

C022 Health Care Code Information

To send health care codes and their associated dates, amounts and quantities

Max use 1

Optional

Usage notes

Required when it is necessary to report an additional diagnosis and the preceding HI data elements have been used to report other diagnoses. If not required by this implementation guide, do not send.

C022-01 **1270** Diagnosis Type Code

 Identifier (ID)

Required

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

ABF International Classification of Diseases Clinical Modification (ICD-10-CM) Diagnosis

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:

If a new rule names the ICD-10-CM as an allowable code set under HIPAA,

OR

The Secretary grants an exception to use the code set as a pilot project as allowed under the law,

OR

For claims which are not covered under HIPAA.

BF International Classification of Diseases Clinical Modification (ICD-9-CM) Diagnosis

C022-02 **1271** Diagnosis Code

Min 1 Max 30  String (AN)

Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-12	C022 Health Care Code Information	To send health care codes and their associated dates, amounts and quantities	Max use 1	Optional
Usage notes				
Required when it is necessary to report an additional diagnosis and the preceding HI data elements have been used to report other diagnoses. If not required by this implementation guide, do not send.				

C022-01	1270 Diagnosis Type Code	Identifier (ID)	Required
Code identifying a specific industry code list			
• C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.			
ABF International Classification of Diseases Clinical Modification (ICD-10-CM) Diagnosis			
☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:			
If a new rule names the ICD-10-CM as an allowable code set under HIPAA,			
OR			
The Secretary grants an exception to use the code set as a pilot project as allowed under the law,			
OR			
For claims which are not covered under HIPAA.			
BF International Classification of Diseases Clinical Modification (ICD-9-CM) Diagnosis			

C022-02	1271 Diagnosis Code	Min 1	Max 30	String (AN)	Required
Code indicating a code from a specific industry code list					
• If C022-08 is used, then C022-02 represents the beginning value in a range of codes.					

Anesthesia Related Procedure

To supply information related to the delivery of health care

Usage notes

- Required on claims where anesthesiology services are being billed or reported when the provider knows the surgical code and knows the adjudication of the claim will depend on provision of the surgical code. If not required by this implementation guide, do not send.

Example

HI*BP>XXX*BO>XXXXX~

Variants (all may be used)

HI Health Care Diagnosis Code

HI Condition Information

HI-01

C022 Health Care Code Information

To send health care codes and their associated dates, amounts and quantities

Max use 1

Required

C022-01

1270 Code List Qualifier Code

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

BP Health Care Financing Administration Common Procedural Coding System Principal Procedure

Identifier (ID)

Required

C022-02

1271 Anesthesia Related Surgical Procedure

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

String (AN)

Required

Min 1

Max 30

HI-02

C022 Health Care Code Information

To send health care codes and their associated dates, amounts and quantities

Max use 1

Optional

Usage notes

Required when it is necessary to report an additional procedure and the preceding HI data elements have been used to report other procedures. If not required by this implementation guide, do not send.

C022-01

1270 Code List Qualifier Code

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

Identifier (ID)

Required

BO Health Care Financing Administration Common Procedural Coding System

C022-02

1271 Industry Code

Min 1

Max 30

 String (AN)

Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

Condition Information

To supply information related to the delivery of health care

Usage notes

- Required when condition information applies to the claim.
If not required by this implementation guide, do not send.

Example

HI * BG>XXX * BG>XX * BG>XX * BG>XXX * BG>XX * BG>X * B
G>XXXXX * BG>XXXXXX * BG>X * BG>XXXXX * BG>XXX~

Variants (all may be used)

- HI Health Care Diagnosis Code
- HI Anesthesia Related Procedure

HI-01

C022 Health Care Code Information

To send health care codes and their associated dates, amounts and quantities

Max use 1

Required

C022-01

1270 Code List Qualifier Code

Code identifying a specific industry code list

• C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

BG Condition

Identifier (ID)

Required

C022-02

1271 Condition Code

Code indicating a code from a specific industry code list

• If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

Min 1 Max 30 String (AN)

Required

HI-02

C022 Health Care Code Information

To send health care codes and their associated dates, amounts and quantities

Max use 1

Optional

Usage notes

Required when it is necessary to report an additional condition code and the preceding HI data elements have been used to report other condition codes. If not required by this implementation guide, do not send.

C022-01

1270 Code List Qualifier Code

Code identifying a specific industry code list

• C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

Identifier (ID)

Required

BG Condition

C022-02 **1271 Condition Code** Min 1 Max 30  String (AN) **Required**

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-03 **C022 Health Care Code Information** To send health care codes and their associated dates, amounts and quantities Max use 1 **Optional**

Usage notes

Required when it is necessary to report an additional condition code and the preceding HI data elements have been used to report other condition codes. If not required by this implementation guide, do not send.

C022-01 **1270 Code List Qualifier Code**  Identifier (ID) **Required**

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

BG Condition

C022-02 **1271 Condition Code** Min 1 Max 30  String (AN) **Required**

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-04 **C022 Health Care Code Information** To send health care codes and their associated dates, amounts and quantities Max use 1 **Optional**

Usage notes

Required when it is necessary to report an additional condition code and the preceding HI data elements have been used to report other condition codes. If not required by this implementation guide, do not send.

C022-01 **1270 Code List Qualifier Code**  Identifier (ID) **Required**

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

BG Condition

C022-02 **1271 Condition Code** Min 1 Max 30  String (AN) **Required**

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

<u>HI-05</u>	C022 Health Care Code Information	To send health care codes and their associated dates, amounts and quantities	Max use 1	Optional
Usage notes				
Required when it is necessary to report an additional condition code and the preceding HI data elements have been used to report other condition codes. If not required by this implementation guide, do not send.				

<u>C022-01</u>	1270 Code List Qualifier Code	■ Identifier (ID)	Required
Code identifying a specific industry code list			
• C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.			
BG Condition

• If C022-08 is used, then C022-02 represents the beginning value in a range of codes.			

<u>HI-07</u>	C022 Health Care Code Information	To send health care codes and their associated dates, amounts and quantities	Max use 1	Optional
Usage notes				

Required when it is necessary to report an additional condition code and the preceding HI data elements have been used to report other condition codes. If not required by this implementation guide, do not send.

C022-01 **1270 Code List Qualifier Code** Identifier (ID) Required

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

BG Condition

C022-02 **1271 Condition Code** Min 1 Max 30 String (AN) Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-08 **C022 Health Care Code Information** Max use 1 Optional

To send health care codes and their associated dates, amounts and quantities

Usage notes

Required when it is necessary to report an additional condition code and the preceding HI data elements have been used to report other condition codes. If not required by this implementation guide, do not send.

C022-01 **1270 Code List Qualifier Code** Identifier (ID) Required

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

BG Condition

C022-02 **1271 Condition Code** Min 1 Max 30 String (AN) Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-09 **C022 Health Care Code Information** Max use 1 Optional

To send health care codes and their associated dates, amounts and quantities

Usage notes

Required when it is necessary to report an additional condition code and the preceding HI data elements have been used to report other condition codes. If not required by this implementation guide, do not send.

C022-01 **1270 Code List Qualifier Code** Identifier (ID) Required

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

BG Condition

C022-02 **1271 Condition Code** Min 1 Max 30  String (AN) **Required**

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-10 **C022 Health Care Code Information** To send health care codes and their associated dates, amounts and quantities Max use 1 **Optional**

Usage notes

Required when it is necessary to report an additional condition code and the preceding HI data elements have been used to report other condition codes. If not required by this implementation guide, do not send.

C022-01 **1270 Code List Qualifier Code**  Identifier (ID) **Required**

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

BG Condition

C022-02 **1271 Condition Code** Min 1 Max 30  String (AN) **Required**

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-11 **C022 Health Care Code Information** To send health care codes and their associated dates, amounts and quantities Max use 1 **Optional**

Usage notes

Required when it is necessary to report an additional condition code and the preceding HI data elements have been used to report other condition codes. If not required by this implementation guide, do not send.

C022-01 **1270 Code List Qualifier Code**  Identifier (ID) **Required**

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

BG Condition

C022-02

1271 Condition Code

Min 1Max 30

String (AN)

Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

HI-12

C022 Health Care Code Information

To send health care codes and their associated dates, amounts and quantities

Max use 1

Optional

Usage notes

Required when it is necessary to report an additional condition code and the preceding HI data elements have been used to report other condition codes. If not required by this implementation guide, do not send.

C022-01

1270 Code List Qualifier Code

Identifier (ID)

Required

Code identifying a specific industry code list

- C022-01 qualifies C022-02, C022-04, C022-05, C022-06 and C022-08.

BG Condition

C022-02

1271 Condition Code

Min 1Max 30

String (AN)

Required

Code indicating a code from a specific industry code list

- If C022-08 is used, then C022-02 represents the beginning value in a range of codes.

Claim Pricing/Repricing Information

To specify pricing or repricing information about a health care claim or line item

Usage notes

- Required when this information is deemed necessary by the repricer. The segment is not completed by providers. The information is completed by repricers only. If not required by this implementation guide, do not send.
- This information is specific to the destination payer reported in Loop ID-2010BB.
- For capitated encounters, pricing or repricing information usually is not applicable and is provided to qualify other information within the claim.

Example

HCP*14*0000000*0*X*0000*XXXXXX*0000000000000000***
***T5*1*3~

HCP-01

1473 Pricing Methodology

Identifier (ID)

Required

Code specifying pricing methodology at which the claim or line item has been priced or repriced

Usage notes

- Specific code use is determined by Trading Partner Agreement due to the variances in contracting policies in the industry.

- 00 Zero Pricing (Not Covered Under Contract)
- 01 Priced as Billed at 100%
- 02 Priced at the Standard Fee Schedule
- 03 Priced at a Contractual Percentage
- 04 Bundled Pricing
- 05 Peer Review Pricing
- 07 Flat Rate Pricing
- 08 Combination Pricing
- 09 Maternity Pricing
- 10 Other Pricing
- 11 Lower of Cost
- 12 Ratio of Cost
- 13 Cost Reimbursed
- 14 Adjustment Pricing

HCP-02

782 Repriced Allowed Amount

Min 1 Max 15 # Decimal number (R)

Required

Monetary amount

- HCP02 is the allowed amount.

HCP-03

782 Repriced Saving Amount

Min 1 Max 15 # Decimal number (R)

Optional

Monetary amount

- HCP03 is the savings amount.

Usage notes

- This information is specific to the destination payer reported in Loop ID-2010BB.

HCP-04

127 Repricing Organization Identifier

Min 1 Max 50  String (AN) Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- HCP04 is the repricing organization identification number.

Usage notes

- This information is specific to the destination payer reported in Loop ID-2010BB.

HCP-05

118 Repricing Per Diem or Flat Rate Amount

Decimal number (R) Optional

Min 1 Max 9

Rate expressed in the standard monetary denomination for the currency specified

- HCP05 is the pricing rate associated with per diem or flat rate repricing.

Usage notes

- This information is specific to the destination payer reported in Loop ID-2010BB.

HCP-06

127 Repriced Approved Ambulatory Patient Group Code

 String (AN) Optional

Min 1 Max 50

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- HCP06 is the approved DRG code.
- HCP06, HCP07, HCP08, HCP10, and HCP12 are fields that will contain different values from the original submitted values.

Usage notes

- This information is specific to the destination payer reported in Loop ID-2010BB.

HCP-07

782 Repriced Approved Ambulatory Patient Group Amount

Decimal number (R) Optional

Min 1 Max 15

Monetary amount

- HCP07 is the approved DRG amount.

Usage notes

- This information is specific to the destination payer reported in Loop ID-2010BB.

HCP-13

901 Reject Reason Code

 Identifier (ID) Optional

Code assigned by issuer to identify reason for rejection

- HCP13 is the rejection message returned from the third party organization.

Usage notes

- This information is specific to the destination payer reported in Loop ID-2010BB.

T1 Cannot Identify Provider as TPO (Third Party Organization) Participant

T2 Cannot Identify Payer as TPO (Third Party Organization) Participant

T3 Cannot Identify Insured as TPO (Third Party Organization) Participant

T4 Payer Name or Identifier Missing

T5 Certification Information Missing

T6 Claim does not contain enough information for re-pricing

HCP-14

1526 Policy Compliance Code

Identifier (ID)

Optional

Code specifying policy compliance

Usage notes

- This information is specific to the destination payer reported in Loop ID-2010BB.

1 Procedure Followed (Compliance)

2 Not Followed - Call Not Made (Non-Compliance Call Not Made)

3 Not Medically Necessary (Non-Compliance Non-Medically Necessary)

4 Not Followed Other (Non-Compliance Other)

5 Emergency Admit to Non-Network Hospital

HCP-15

1527 Exception Code

Identifier (ID)

Optional

Code specifying the exception reason for consideration of out-of-network health care services

- HCP15 is the exception reason generated by a third party organization.

Usage notes

- This information is specific to the destination payer reported in Loop ID-2010BB.

1 Non-Network Professional Provider in Network Hospital

2 Emergency Care

3 Services or Specialist not in Network

4 Out-of-Service Area

5 State Mandates

6 Other

2310A Referring Provider Name Loop

Max 2 Optional

- Variants (all may be used)
- Rendering Provider Name Loop
- Service Facility Location Name Loop
- Supervising Provider Name Loop
- Ambulance Pick-up Location Loop
- Ambulance Drop-off Location Loop

2500

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Referring Provider Name Loop > NM1

Max use 1

Required

Referring Provider Name

To supply the full name of an individual or organizational entity

Usage notes

- Required when this claim involves a referral. If not required by this implementation guide, do not send.
- When reporting the provider who ordered services such as diagnostic and lab, use Loop ID-2310A at the claim level. For ordered services such as Durable Medical Equipment, use Loop ID-2420E at the line level.
- When there is only one referral on the claim, use code "DN - Referring Provider". When more than one referral exists and there is a requirement to report the additional referral, use code DN in the first iteration of this loop to indicate the referral received by the rendering provider on this claim. Use code "P3 - Primary Care Provider" in the second iteration of the loop to indicate the initial referral from the primary care provider or whatever provider wrote the initial referral for this patient's episode of care being billed/reported in this transaction.
- Information in Loop ID-2310 applies to the entire claim unless overridden on a service line by the presence of Loop ID-2420 with the same value in NM101.

Example

NM1*DN*1*XX*XXX*X**XXXX*XX*XXXXXXXX~

- If either Identification Code Qualifier (NM1-08) or Referring Provider Identifier (NM1-09) is present, then the other is required

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

- DN Referring Provider
- ☐ Use on the first iteration of this loop. Use if loop is used only once.
- P3 Primary Care Provider
- ☐ Use only if loop is used twice. Use only on second iteration of this loop.

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.

1 Person

<u>NM1-03</u>	1035 Referring Provider Last Name	Min 1	Max 60	 String (AN)	Required
Individual last name or organizational name					
<u>NM1-04</u>	1036 Referring Provider First Name	Min 1	Max 35	 String (AN)	Optional
Individual first name					
<u>NM1-05</u>	1037 Referring Provider Middle Name or Initial	Min 1	Max 25	 String (AN)	Optional
Individual middle name or initial					
<u>NM1-07</u>	1039 Referring Provider Name Suffix	Min 1	Max 10	 String (AN)	Optional
Suffix to individual name					
<u>NM1-08</u>	66 Identification Code Qualifier	 Identifier (ID)			Optional
Code designating the system/method of code structure used for Identification Code (67)					
XX Centers for Medicare and Medicaid Services National Provider Identifier					
<u>NM1-09</u>	67 Referring Provider Identifier	Min 2	Max 80	 String (AN)	Optional
Code identifying a party or other code					

REF

2710

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Referring Provider Name Loop > REF

Max use 3

Optional

Referring Provider Secondary Identification

To specify identifying information

Usage notes

- The REF segment in Loop ID-2310 applies to the entire claim unless overridden on the service line level by the presence of a REF segment with the same value in REF01.
- Required prior to the mandated HIPAA National Provider Identifier (NPI) implementation date when an identification number other than the NPI is necessary for the receiver to identify the provider.
OR
Required on or after the mandated NPI Implementation Date when NM109 in this loop is not used and an identification number other than the NPI is necessary for the receiver to identify the provider.
If not required by this implementation guide, do not send.

Example

REF*1G*XXX~

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

- 0B State License Number
- 1G Provider UPIN Number
 - ☐ UPINs must be formatted as either X99999 or XXX999.
- G2 Provider Commercial Number
 - ☐ This code designates a proprietary provider number for the destination payer identified in the Payer Name loop, Loop ID-2010BB, associated with this claim. This is to be used by all payers including: Medicare, Medicaid, Blue Cross, etc.

REF-02

127 Referring Provider Secondary Identifier

Min 1 Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

2310A Referring Provider Name Loop end

2310B Rendering Provider Name Loop

Max 1Optional

- Variants (all may be used)

Referring Provider Name Loop

Ambulance Pick-up Location Loop

Ambulance Drop-off Location Loop

NM12500

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Rendering Provider Name Loop > NM1

Max use 1Required

Rendering Provider Name

To supply the full name of an individual or organizational entity

- Usage notes
- Required when the Rendering Provider information is different than that carried in Loop ID-2010AA - Billing Provider.
If not required by this implementation guide, do not send.
 - Used for all types of rendering providers including laboratories. The Rendering Provider is the person or company (laboratory or other facility) who rendered the care. In the case where a substitute provider (locum tenens) was used, enter that provider's information here.
 - Information in Loop ID-2310 applies to the entire claim unless overridden on a service line by the presence of Loop ID-2420 with the same value in NM101.

Example

NM1*82*1*XXX*XXXXX*XXXX**XXX*XX*XXXXXX~

■ If either Identification Code Qualifier (NM1-08) or Rendering Provider Identifier (NM1-09) is present, then the other is required

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

82 Rendering Provider

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.

- 1 Person
- 2 Non-Person Entity

NM1-03

1035 Rendering Provider Last or Organization Name

String (AN)

Required

Min 1Max 60

Individual last name or organizational name

NM1-04

1036 Rendering Provider First Name

Min 1

Max 35

 String (AN)

Optional

Individual first name

NM1-05

1037 Rendering Provider Middle Name or Initial

Min 1

Max 25

 String (AN)

Optional

Individual middle name or initial

NM1-07

1039 Rendering Provider Name Suffix

Min 1

Max 10

 String (AN)

Optional

Suffix to individual name

NM1-08

66 Identification Code Qualifier

 Identifier (ID)

PRV

2550

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Rendering Provider Name Loop > PRV

Max use 1

Optional

Rendering Provider Specialty Information

To specify the identifying characteristics of a provider

Usage notes

- Required when adjudication is known to be impacted by the provider taxonomy code. If not required by this implementation guide, do not send.
- The PRV segment in Loop ID-2310 applies to the entire claim unless overridden on the service line level by the presence of a PRV segment with the same value in PRV01.

Example

PRV*PE*PXC*XXX~

PRV-01	1221 Provider Code	Identifier (ID)	Required
Code identifying the type of provider			
PE Performing			
PRV-02	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
PXC Health Care Provider Taxonomy Code			
PRV-03	127 Provider Taxonomy Code	Min 1 Max 50 String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			

REF

2710

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Rendering Provider Name Loop > REF

Max use 4

Optional

Rendering Provider Secondary Identification

To specify identifying information

Usage notes

- The REF segment in Loop ID-2310 applies to the entire claim unless overridden on the service line level by the presence of a REF segment with the same value in REF01.
- Required prior to the mandated HIPAA National Provider Identifier (NPI) implementation date when an identification number other than the NPI is necessary for the receiver to identify the provider.
OR
Required on or after the mandated NPI Implementation Date when NM109 in this loop is not used and an identification number other than the NPI is necessary for the receiver to identify the provider.
If not required by this implementation guide, do not send.

Example

REF*1G*X~

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

0B State License Number

1G Provider UPIN Number

- ☐ UPINs must be formatted as either X99999 or XXX999.

G2 Provider Commercial Number

- ☐ This code designates a proprietary provider number for the destination payer identified in the Payer Name loop, Loop ID-2010BB, associated with this claim. This is to be used by all payers including: Medicare, Medicaid, Blue Cross, etc.

LU Location Number

REF-02

127 Rendering Provider Secondary Identifier

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

2310B Rendering Provider Name Loop end

2310C Service Facility Location Name Loop

Max 1 Optional

- Variants (all may be used)
- Referring Provider Name Loop
- Rendering Provider Name Loop
- Supervising Provider Name Loop
- Ambulance Pick-up Location Loop
- Ambulance Drop-off Location Loop

NM1

2500

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Facility Location Name Loop > N...

Max use 1 Required

Service Facility Location Name

To supply the full name of an individual or organizational entity

Usage notes

- Required when the location of health care service is different than that carried in Loop ID-2010AA (Billing Provider).
If not required by this implementation guide, do not send.
- When an organization health care provider's NPI is provided to identify the Service Location, the organization health care provider must be external to the entity identified as the Billing Provider (for example, reference lab). It is not permissible to report an organization health care provider NPI as the Service Location if the entity being identified is a component (for example, subpart) of the Billing Provider. In that case, the subpart must be the Billing Provider.
- The purpose of this loop is to identify specifically where the service was rendered. When reporting ambulance services, do not use this loop. Use Loop ID-2310E - Ambulance Pick-up Location and Loop ID-2310F - Ambulance Drop-off Location.
- Information in Loop ID-2310 applies to the entire claim unless overridden on a service line by the presence of Loop ID-2420 with the same value in NM101.

Example

NM1*77*2*XXX*****XX*XX~

- If either Identification Code Qualifier (NM1-08) or Laboratory or Facility Primary Identifier (NM1-09) is present, then the other is required

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

77 Service Location

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.

2 Non-Person Entity

NM1-03

1035 Laboratory or Facility Name

Min 1Max 60

T

String (AN)

Required

Individual last name or organizational name

NM1-08

66 Identification Code Qualifier

■

Identifier (ID)

Optional

Code designating the system/method of code structure used for Identification Code (67)

XX Centers for Medicare and Medicaid Services National Provider Identifier

NM1-09

67 Laboratory or Facility Primary Identifier

Min 2Max 80

T

String (AN)

Optional

Code identifying a party or other code

N3

2650

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Facility Location Name Loop > N3

Max use 1

Required

Service Facility Location Address

To specify the location of the named party

Usage notes

- If service facility location is in an area where there are no street addresses, enter a description of where the service was rendered (for example, "crossroad of State Road 34 and 45" or "Exit near Mile marker 265 on Interstate 80".)

Example

N3*X*XXX~

N3-01

166 Laboratory or Facility Address Line

Min 1

Max 55

T String (AN)

Required

Address information

N3-02

166 Laboratory or Facility Address Line

Min 1

Max 55

T String (AN)

Optional

Address information

N4

2700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Facility Location Name Loop > N4

Max use 1

Required

Service Facility Location City, State, ZIP Code

To specify the geographic place of the named party

Example

N4*XXXXX*XX*XXXXX*XX~

- Only one of Laboratory or Facility State or Province Code (N4-02) or Country Subdivision Code (N4-07) may be present
- If Country Subdivision Code (N4-07) is present, then Country Code (N4-04) is required

N4-01

19 Laboratory or Facility City Name

Min 2Max 30

String (AN)

Required

Free-form text for city name

- A combination of either N401 through N404, or N405 and N406 may be adequate to specify a location.

N4-02

156 Laboratory or Facility State or Province Code

Identifier (ID)

Optional

Min 2Max 2

Code (Standard State/Province) as defined by appropriate government agency

- N402 is required only if city name (N401) is in the U.S. or Canada.

N4-03

116 Laboratory or Facility Postal Zone or ZIP Code

Identifier (ID)

Optional

Min 3Max 15

Code defining international postal zone code excluding punctuation and blanks (zip code for United States)

Usage notes

- When reporting the ZIP code for U.S. addresses, the full nine digit ZIP code must be provided.

N4-04

26 Country Code

Min 2Max 3

Identifier (ID)

Optional

Code identifying the country

Usage notes

- Use the alpha-2 country codes from Part 1 of ISO 3166.

N4-07

1715 Country Subdivision Code

Min 1Max 3

Identifier (ID)

Optional

Code identifying the country subdivision

Usage notes

- Use the country subdivision codes from Part 2 of ISO 3166.

REF

2710

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Facility Location Name Loop > REF

Max use 3

Optional

Service Facility Location Secondary Identification

To specify identifying information

Usage notes

- Required prior to the mandated HIPAA National Provider Identifier (NPI) implementation date when an identification number other than the NPI is necessary for the receiver to identify the provider.
OR
Required on or after the mandated NPI Implementation Date when NM109 in this loop is not used and an identification number other than the NPI is necessary for the receiver to identify the provider.
If not required by this implementation guide, do not send.

Example

REF*0B*X~

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
0B State License Number			
G2 Provider Commercial Number			
This code designates a proprietary provider number for the destination payer identified in the Payer Name loop, Loop ID-2010BB, associated with this claim. This is to be used by all payers including: Medicare, Medicaid, Blue Cross, etc.			
LU Location Number			
REF-02	127 Laboratory or Facility Secondary Identifier	Min 1 Max 50 String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			

PER

2750

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Facility Location Name Loop > PE..

Max use 1Optional

Service Facility Contact Information

To identify a person or office to whom administrative communications should be directed

Usage notes

- Required for Property and Casualty claims when this information is different than the information provided in Loop ID-1000A Submitter EDI Contact Information PER Segment, and Loop ID-2010AA Billing Provider Contact Information PER segment and when deemed necessary by the submitter.
If not required by this implementation guide, do not send.
- When the communication number represents a telephone number in the United States and other countries using the North American Dialing Plan (for voice, data, fax, etc.), the communication number must always include the area code and phone number using the format AAABBBCCCC where AAA is the area code, BBB is the telephone number prefix, and CCCC is the telephone number. Therefore, the following telephone number (555) 555-1234 would be represented as 5555551234. Do not submit long distance access numbers, such as "1", in the telephone number. Telephone extensions, when applicable, must be submitted in the next element immediately following the telephone number. When submitting telephone extensions, only submit the numeric extension. Do not include data that indicates an extension, such as "ext" or "x-".

Example

PER*IC*X*TE*XXX*EX*XXX~

- If either Communication Number Qualifier (PER-05) or Communication Number (PER-06) is present, then the other is required

PER-01

366 Contact Function Code

Identifier (ID)

Required

Code identifying the major duty or responsibility of the person or group named

IC Information Contact

PER-02

93 Name

Min 1Max 60

String (AN)

Optional

Free-form name

PER-03

365 Communication Number Qualifier

Identifier (ID)

Required

Code identifying the type of communication number

TE Telephone

PER-04

364 Communication Number

Min 1Max 256

String (AN)

Required

Complete communications number including country or area code when applicable

PER-05

365

Communication Number Qualifier

Identifier (ID)

Optional

Code identifying the type of communication number

EX Telephone Extension

PER-06

364

- Use the country subdivision codes from Part 2 of ISO 3166.

2310F Ambulance Drop-off Location Loop end

2320 Other Subscriber Information Loop

Max 10 Optional

SBR

2900

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > SBR

Max use 1

Required

Other Subscriber Information

To record information specific to the primary insured and the insurance carrier for that insured

Usage notes

- Required when other payers are known to potentially be involved in paying on this claim. If not required by this implementation guide, do not send.
- All information contained in Loop ID-2320 applies only to the payer identified in Loop ID-2330B of this iteration of Loop ID-2320. It is specific only to that payer. If information for an additional payer is necessary, repeat Loop ID-2320 with its respective 2330 Loops.;
- See Crosswalking COB Data Elements section for more information on handling COB in the 837.

Example

SBR*U*01*X*XXXXXX*16****13~

SBR-01

1138 Payer Responsibility Sequence Number Code

Identifier (ID)

Required

Code identifying the insurance carrier's level of responsibility for a payment of a claim

Usage notes

- Within a given claim, the various values for the Payer Responsibility Sequence Number Code (other than value "U") may occur no more than once.

- A Payer Responsibility Four
- B Payer Responsibility Five
- C Payer Responsibility Six
- D Payer Responsibility Seven
- E Payer Responsibility Eight
- F Payer Responsibility Nine
- G Payer Responsibility Ten
- H Payer Responsibility Eleven
- P Primary
- S Secondary
- T Tertiary
- U Unknown

- ☐ This code may only be used in payer to payer COB claims when the original payer determined the presence of this coverage from eligibility files received from this payer or when the original claim did not provide the responsibility sequence for this payer.

SBR-02

1069 Individual Relationship Code

Identifier (ID)

Required

Code indicating the relationship between two individuals or entities

- SBR02 specifies the relationship to the person insured.

- 01 Spouse
- 18 Self
- 19 Child
- 20 Employee
- 21 Unknown
- 39 Organ Donor
- 40 Cadaver Donor
- 53 Life Partner
- G8 Other Relationship

SBR-03**127 Insured Group or Policy Number**Min 1 Max 50  String (AN)

Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- SBR03 is policy or group number.

Usage notes

- This is not the number uniquely identifying the subscriber. The unique subscriber number is submitted in Loop 2330A-NM109 for this iteration of Loop ID-2320.

SBR-04**93 Other Insured Group Name**Min 1 Max 60  String (AN)

Optional

Free-form name

- SBR04 is plan name.

SBR-05**1336 Insurance Type Code** Identifier (ID)

Optional

Code identifying the type of insurance policy within a specific insurance program

- 12 Medicare Secondary Working Aged Beneficiary or Spouse with Employer Group Health Plan
- 13 Medicare Secondary End-Stage Renal Disease Beneficiary in the Mandated Coordination Period with an Employer's Group Health Plan
- 14 Medicare Secondary, No-fault Insurance including Auto is Primary
- 15 Medicare Secondary Worker's Compensation
- 16 Medicare Secondary Public Health Service (PHS) or Other Federal Agency
- 41 Medicare Secondary Black Lung
- 42 Medicare Secondary Veteran's Administration
- 43 Medicare Secondary Disabled Beneficiary Under Age 65 with Large Group Health Plan (LGHP)
- 47 Medicare Secondary, Other Liability Insurance is Primary

SBR-09**1032 Claim Filing Indicator Code** Identifier (ID)

Required

Code identifying type of claim

- 11 Other Non-Federal Programs
- 12 Preferred Provider Organization (PPO)
- 13 Point of Service (POS)
- 14 Exclusive Provider Organization (EPO)
- 15 Indemnity Insurance

16 Health Maintenance Organization (HMO) Medicare Risk

WC Workers' Compensation Health Claim

ZZ Mutually Defined

☐ Use Code ZZ when Type of Insurance is not known.

CAS

2950

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > CAS Max use 5 Optional

Claim Level Adjustments

To supply adjustment reason codes and amounts as needed for an entire claim or for a particular service within the claim being paid

Usage notes

- Required when the claim has been adjudicated by the payer identified in this loop, and the claim has claim level adjustment information. If not required by this implementation guide, do not send.
- Submitters must use this CAS segment to report prior payers' claim level adjustments that cause the amount paid to differ from the amount originally charged.
- Only one Group Code is allowed per CAS. If it is necessary to send more than one Group Code at the claim level, repeat the CAS segment.
- Codes and associated amounts must come from either paper remittance advice or 835s (Electronic Remittance Advice) received on the claim. When the information originates from a paper remittance advice that does not use the standard Claim Adjustment Reason Codes, the paper values must be converted to standard Claim Adjustment Reason Codes.;
- A single CAS segment contains six repetitions of the "adjustment trio" composed of adjustment reason code, adjustment amount, and adjustment quantity. These six adjustment trios are used to report up to six adjustments related to a particular Claim Adjustment Group Code (CAS01). The first non-zero adjustment is reported in the first adjustment trio (CAS02-CAS04). If there is a second non-zero adjustment, it is reported in the second adjustment trio (CAS05-CAS07), and so on through the sixth adjustment trio (CAS17-CAS19).

Example

```
CAS*PI*XXXXX*0000000000*0000000000000000*X*00000000
000000*0000*X*0000000000000000*0*XXXXX*00000000*00
0*X*000000*00*XXXXX*00000000000*00~
```

- If Adjustment Reason Code (CAS-05) is present, then at least one of Adjustment Amount (CAS-06) or Adjustment Quantity (CAS-07) is required
- If Adjustment Amount (CAS-06) is present, then Adjustment Reason Code (CAS-05) is required
- If Adjustment Quantity (CAS-07) is present, then Adjustment Reason Code (CAS-05) is required
- If Adjustment Reason Code (CAS-08) is present, then at least one of Adjustment Amount (CAS-09) or Adjustment Quantity (CAS-10) is required
- If Adjustment Amount (CAS-09) is present, then Adjustment Reason Code (CAS-08) is required
- If Adjustment Quantity (CAS-10) is present, then Adjustment Reason Code (CAS-08) is required
- If Adjustment Reason Code (CAS-11) is present, then at least one of Adjustment Amount (CAS-12) or Adjustment Quantity (CAS-13) is required
- If Adjustment Amount (CAS-12) is present, then Adjustment Reason Code (CAS-11) is required
- If Adjustment Quantity (CAS-13) is present, then Adjustment Reason Code (CAS-11) is required
- If Adjustment Reason Code (CAS-14) is present, then at least one of Adjustment Amount (CAS-15) or Adjustment Quantity (CAS-16) is required

- If Adjustment Amount (CAS-15) is present, then Adjustment Reason Code (CAS-14) is required
- If Adjustment Quantity (CAS-16) is present, then Adjustment Reason Code (CAS-14) is required
- If Adjustment Reason Code (CAS-17) is present, then at least one of Adjustment Amount (CAS-18) or Adjustment Quantity (CAS-19) is required
- If Adjustment Amount (CAS-18) is present, then Adjustment Reason Code (CAS-17) is required
- If Adjustment Quantity (CAS-19) is present, then Adjustment Reason Code (CAS-17) is required

CAS-01 **1033 Claim Adjustment Group Code** ■ Identifier (ID) Required

Code identifying the general category of payment adjustment

- CO** Contractual Obligations
- CR** Correction and Reversals
- OA** Other adjustments
- PI** Payor Initiated Reductions
- PR** Patient Responsibility

CAS-02 **1034 Adjustment Reason Code** Min 1 Max 5 ■ Identifier (ID) Required

Code identifying the detailed reason the adjustment was made

Usage notes

- See CODE SOURCE 139: Claim Adjustment Reason Code

CAS-03 **782 Adjustment Amount** Min 1 Max 15 # Decimal number (R) Required

Monetary amount

- CAS03 is the amount of adjustment.

CAS-04 **380 Adjustment Quantity** Min 1 Max 15 # Decimal number (R) Optional

Numeric value of quantity

- CAS04 is the units of service being adjusted.

CAS-05 **1034 Adjustment Reason Code** Min 1 Max 5 ■ Identifier (ID) Optional

Code identifying the detailed reason the adjustment was made

CAS-06 **782 Adjustment Amount** Min 1 Max 15 # Decimal number (R) Optional

Monetary amount

- CAS06 is the amount of the adjustment.

CAS-07 **380 Adjustment Quantity** Min 1 Max 15 # Decimal number (R) Optional

Numeric value of quantity

- CAS07 is the units of service being adjusted.

CAS-08 **1034 Adjustment Reason Code** Min 1 Max 5 ■ Identifier (ID) Optional

Code identifying the detailed reason the adjustment was made

CAS-09 **782 Adjustment Amount** Min 1 Max 15 # Decimal number (R) Optional

Monetary amount

- CAS09 is the amount of the adjustment.

CAS-10 **380 Adjustment Quantity** Min 1 Max 15 # Decimal number (R) Optional

Numeric value of quantity

- CAS10 is the units of service being adjusted.

CAS-11 **1034 Adjustment Reason Code** Min 1 Max 5 ■ Identifier (ID) Optional

Code identifying the detailed reason the adjustment was made

CAS-12 **782 Adjustment Amount** Min 1 Max 15 # Decimal number (R) Optional

Monetary amount

- CAS12 is the amount of the adjustment.

CAS-13 **380 Adjustment Quantity** Min 1 Max 15 # Decimal number (R) Optional

Numeric value of quantity

- CAS13 is the units of service being adjusted.

CAS-14 **1034 Adjustment Reason Code** Min 1 Max 5 ■ Identifier (ID) Optional

Code identifying the detailed reason the adjustment was made

CAS-15

782 Adjustment Amount

Min 1Max 15# Decimal number (R)

Optional

Monetary amount

- CAS15 is the amount of the adjustment.

CAS-16

380 Adjustment Quantity

Min 1Max 15# Decimal number (R)

Optional

Numeric value of quantity

- CAS16 is the units of service being adjusted.

CAS-17

1034 Adjustment Reason Code

Min 1Max 5Identifier (ID)

Optional

Code identifying the detailed reason the adjustment was made

CAS-18

782 Adjustment Amount

Min 1Max 15# Decimal number (R)

Optional

Monetary amount

- CAS18 is the amount of the adjustment.

CAS-19

380 Adjustment Quantity

Min 1Max 15# Decimal number (R)

Optional

Numeric value of quantity

- CAS19 is the units of service being adjusted.

AMT

3000

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > AMT

Max use 1

Optional

Coordination of Benefits (COB) Payer Paid Amount

To indicate the total monetary amount

Usage notes

- Required when the claim has been adjudicated by the payer identified in Loop ID-2330B of this loop.
OR
Required when Loop ID-2010AC is present. In this case, the claim is a post payment recovery claim submitted by a subrogated Medicaid agency.
If not required by this implementation guide, do not send.;

Example

AMT*D*0000000~

Variants (all may be used)

AMT Coordination of Benefits (COB) Total Non-Covered Amount

AMT Remaining Patient Liability

AMT-01

522 Amount Qualifier Code

Identifier (ID)

Required

Code to qualify amount

D Payor Amount Paid

AMT-02

782 Payer Paid Amount

Min 1

Max 15

#

Decimal number (R)

Required

Monetary amount

Usage notes

- It is acceptable to show "0" as the amount paid.
- When Loop ID-2010AC is present, this is the amount the Medicaid agency actually paid.

Coordination of Benefits (COB) Total Non-Covered Amount

To indicate the total monetary amount

Usage notes

- Required when the destination payer's cost avoidance policy allows providers to bypass claim submission to the otherwise prior payer identified in Loop ID-2330B. If not required by this implementation guide, do not send.
- When this segment is used, the amount reported in AMT02 must equal the total claim charge amount reported in CLM02. Neither the prior payer paid AMT, nor any CAS segments are used as this claim has not been adjudicated by this payer.

Example

AMT * A8 * 000~

Variants (all may be used)

AMT Coordination of Benefits (COB) Payer Paid Amount

AMT Remaining Patient Liability

AMT-01	522 Amount Qualifier Code	Identifier (ID)	Required
	Code to qualify amount		
	A8 Noncovered Charges - Actual		
AMT-02	782 Non-Covered Charge Amount	Min 1 Max 15 # Decimal number (R)	Required
	Monetary amount		

AMT

3000

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > AMT

Max use 1

Optional

Remaining Patient Liability

To indicate the total monetary amount

Usage notes

- Required when the Other Payer identified in Loop ID-2330B (of this iteration of Loop ID-2320) has adjudicated this claim and provided claim level information only.
OR
Required when the Other Payer identified in Loop ID-2330B (of this iteration of Loop ID-2320) has adjudicated this claim and the provider received a paper remittance advice and the provider does not have the ability to report line item information.
If not required by this implementation guide, do not send.
- In the judgment of the provider, this is the remaining amount to be paid after adjudication by the Other Payer identified in Loop ID-2330B of this iteration of Loop ID-2320.
- This segment is only used in provider submitted claims. It is not used in Payer-to-Payer Coordination of Benefits (COB).
- This segment is not used if the line level (Loop ID-2430) Remaining Patient Liability AMT segment is used for this Other Payer.

Example

AMT*EAF*0000000000000000~

Variants (all may be used)

AMT Coordination of Benefits (COB) Payer Paid Amount

AMT Coordination of Benefits (COB) Total Non-Covered Amount

AMT-01	522 Amount Qualifier Code	Identifier (ID)	Required
	Code to qualify amount		
	EAF Amount Owed		
AMT-02	782 Remaining Patient Liability	Min 1 Max 15 # Decimal number (R)	Required
	Monetary amount		

Other Insurance Coverage Information

To specify information associated with other health insurance coverage

Usage notes

- All information contained in the OI segment applies only to the payer identified in Loop ID-2330B in this iteration of Loop ID-2320.

Example

OI***W*P***Y~

OI-03

1073 Benefits Assignment Certification Indicator

Identifier (ID)

Required

Code indicating a Yes or No condition or response

- OI03 is the assignment of benefits indicator. A "Y" value indicates insured or authorized person authorizes benefits to be assigned to the provider; an "N" value indicates benefits have not been assigned to the provider.

Usage notes

- This is a crosswalk from CLM08 when doing COB.
- This element answers the question whether or not the insured has authorized the plan to remit payment directly to the provider.

- N No
- W Not Applicable
- ☐ Use code 'W' when the patient refuses to assign benefits.
- Y Yes

OI-04

1351 Patient Signature Source Code

Identifier (ID)

Optional

Code indicating how the patient or subscriber authorization signatures were obtained and how they are being retained by the provider

Usage notes

- This is a crosswalk from CLM10 when doing COB.
- P Signature generated by provider because the patient was not physically present for services
- ☐ Signature generated by an entity other than the patient according to State or Federal law.

OI-06

1363 Release of Information Code

Identifier (ID)

Required

Code indicating whether the provider has on file a signed statement by the patient authorizing the release of medical data to other organizations

Usage notes

- This is a crosswalk from CLM09 when doing COB.
- The Release of Information response is limited to the information carried in this claim.

- I Informed Consent to Release Medical Information for Conditions or Diagnoses Regulated by Federal Statutes

- ☐ Required when the provider has not collected a signature AND state or federal laws do not require a signature be collected.
- Y Yes, Provider has a Signed Statement Permitting Release of Medical Billing Data Related to a Claim
 - ☐ Required when the provider has collected a signature.
 - OR
 - Required when state or federal laws require a signature be collected.

Outpatient Adjudication Information

To convey claim-level data related to the adjudication of Medicare claims not related to an inpatient setting

Usage notes

Required when returned in the remittance advice. If not required by this implementation guide, do not send.

- Required when outpatient adjudication information is reported in the remittance advice
OR
Required when it is necessary to report remark codes.
If not required by this implementation guide, do not send.

Example

MOA*00000*000000000000*X*XX*XX*XXX*X*000000000000
0*00~

MOA-01

954 Reimbursement Rate

Min 1Max 10# Decimal number (R)

Optional

Percentage expressed as a decimal (e.g., 0.0 through 1.0 represents 0% through 100%)

- MOA01 is the reimbursement rate.

MOA-02

782 HCPCS Payable Amount

Min 1Max 15# Decimal number (R)

Optional

Monetary amount

- MOA02 is the claim Health Care Financing Administration Common Procedural Coding System (HCPCS) payable amount.

MOA-03

127 Claim Payment Remark Code

Min 1Max 50T String (AN)

Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- MOA03 is the Claim Payment Remark Code. See Code Source 411.

MOA-04

127 Claim Payment Remark Code

Min 1Max 50T String (AN)

Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- MOA04 is the Claim Payment Remark Code. See Code Source 411.

MOA-05

127 Claim Payment Remark Code

Min 1Max 50T String (AN)

Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- MOA05 is the Claim Payment Remark Code. See Code Source 411.

MOA-06

127 Claim Payment Remark Code

Min 1Max 50

T

String (AN)

Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- MOA06 is the Claim Payment Remark Code. See Code Source 411.

MOA-07

127 Claim Payment Remark Code

Min 1Max 50

T

String (AN)

Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- MOA07 is the Claim Payment Remark Code. See Code Source 411.

MOA-08

782 End Stage Renal Disease Payment Amount

Decimal number (R)

Optional

Min 1Max 15

Monetary amount

- MOA08 is the End Stage Renal Disease (ESRD) payment amount.

MOA-09

782 Non-Payable Professional Component Billed Amount

Decimal number (R)

Optional

Min 1Max 15

Monetary amount

- MOA09 is the professional component amount billed but not payable.

2330A Other Subscriber Name Loop

Max 1

Required

- Variants (all may be used)
- Other Payer Name Loop
 - Other Payer Referring Provider Loop
 - Other Payer Rendering Provider Loop
 - Other Payer Service Facility Location Loop
 - Other Payer Supervising Provider Loop
 - Other Payer Billing Provider Loop

NM1

3250

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Subscriber Name Loop > NM1

Max use 1

Required

Other Subscriber Name

To supply the full name of an individual or organizational entity

Usage notes

- If the patient can be uniquely identified to the Other Payer indicated in this iteration of Loop ID-2320 by a unique Member Identification Number, then the patient is the subscriber or is considered to be the subscriber and is identified in this Other Subscriber's Name Loop ID-2330A.;
- If the patient is a dependent of the subscriber for this other coverage and cannot be uniquely identified to the Other Payer indicated in this iteration of Loop ID-2320 by a unique Member Identification Number, then the subscriber for this other coverage is identified in this Other Subscriber's Name Loop ID-2330A.
- See Crosswalking COB Data Elements section for more information on handling COB in the 837.

Example

NM1*IL*1*X*XXXXX*XXXXX**XXXXXX*II*XXXX~

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

IL Insured or Subscriber

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.

- 1 Person
- 2 Non-Person Entity

NM1-03

1035 Other Insured Last Name

Min 1

Max 60

String (AN)

Required

Individual last name or organizational name

NM1-04 **1036 Other Insured First Name** Min 1 Max 35  String (AN) Optional

Individual first name

NM1-05 **1037 Other Insured Middle Name** Min 1 Max 25  String (AN) Optional

Individual middle name or initial

NM1-07 **1039 Other Insured Name Suffix** Min 1 Max 10  String (AN) Optional

Suffix to individual name

NM1-08 **66 Identification Code Qualifier**  Identifier (ID) Required

Code designating the system/method of code structure used for Identification Code (67)

II Standard Unique Health Identifier for each Individual in the United States

☐ Required if the HIPAA Individual Patient Identifier is mandated use. If not required, use value 'MI' instead.

MI Member Identification Number

☐ The code MI is intended to be the subscriber's identification number as assigned by the payer. (For example, Insured's ID, Subscriber's ID, Health Insurance Claim Number (HIC), etc.)

MI is also intended to be used in claims submitted to the Indian Health Service/Contract Health Services (IHS/CHS) Fiscal Intermediary for the purpose of reporting the Tribe Residency Code (Tribe County State). In the event that a Social Security Number (SSN) is also available on an IHS/CHS claim, put the SSN in REF02.

When sending the Social Security Number as the Member ID, it must be a string of exactly nine numbers with no separators. For example, sending "111002222" would be valid, while sending "111-00-2222" would be invalid.

NM1-09 **67 Other Insured Identifier** Min 2 Max 80  String (AN) Required

Code identifying a party or other code

N3

3320

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Subscriber Name Loop > N3

Max use 1

Optional

Other Subscriber Address

To specify the location of the named party

Usage notes

- Required when the information is available. If not required by this implementation guide, do not send.

Example

N3*XXX*XX~

N3-01	166 Other Subscriber Address Line	Min 1	Max 55	T String (AN)	Required
	Address information				
N3-02	166 Other Insured Address Line	Min 1	Max 55	T String (AN)	Optional
	Address information				

N4

3400

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Subscriber Name Loop > N4

Max use 1

Optional

Other Subscriber City, State, ZIP Code

To specify the geographic place of the named party

Usage notes

- Required when the information is available. If not required by this implementation guide, do not send.

Example

N4*XXX*XX*XXXX*XX~

- Only one of Other Subscriber State or Province Code (N4-02) or Country Subdivision Code (N4-07) may be present
- If Country Subdivision Code (N4-07) is present, then Country Code (N4-04) is required

N4-01

19 Other Subscriber City Name

Min 2

Max 30

String (AN)

Required

Free-form text for city name

- A combination of either N401 through N404, or N405 and N406 may be adequate to specify a location.

N4-02

156 Other Subscriber State or Province Code

Min 2

Max 2

Identifier (ID)

Optional

Code (Standard State/Province) as defined by appropriate government agency

- N402 is required only if city name (N401) is in the U.S. or Canada.

N4-03

116 Other Subscriber Postal Zone or ZIP Code

Min 3

Max 15

Identifier (ID)

Optional

Code defining international postal zone code excluding punctuation and blanks (zip code for United States)

N4-04

26 Country Code

Min 2

Max 3

Identifier (ID)

Optional

Code identifying the country

Usage notes

- Use the alpha-2 country codes from Part 1 of ISO 3166.

N4-07

1715 Country Subdivision Code

Min 1

Max 3

Identifier (ID)

Optional

Code identifying the country subdivision

Usage notes

- Use the country subdivision codes from Part 2 of ISO 3166.

REF

3550

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Subscriber Name Loop > REF

Max used 1Optional

Other Subscriber Secondary Identification

To specify identifying information

Usage notes

- Required when an additional identification number to that provided in NM109 of this loop is necessary for the claim processor to identify the entity. If not required by this implementation guide, do not send.

Example

REF*SY*XX~

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

- SY Social Security Number
- ☐ The Social Security Number must be a string of exactly nine numbers with no separators. For example, sending "111002222" would be valid, while sending "111-00-2222" would be invalid.

REF-02

127 Other Insured Additional Identifier

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

2330A Other Subscriber Name Loop end

2330B Other Payer Name Loop

Max 1

Required

- Variants (all may be used)
- Other Subscriber Name Loop
 - Other Payer Referring Provider Loop
 - Other Payer Rendering Provider Loop
 - Other Payer Service Facility Location Loop
 - Other Payer Supervising Provider Loop
 - Other Payer Billing Provider Loop

NM1

3250

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Payer Name Loop > NM1

Max use 1

Required

Other Payer Name

To supply the full name of an individual or organizational entity

Usage notes

- See Crosswalking COB Data Elements section for more information on handling COB in the 837.

Example

NM1*PR*2*XXXX*****XV*XXXXX~

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

PR Payer

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.

2 Non-Person Entity

NM1-03

1035 Other Payer Organization Name

Min 1

Max 60

String (AN)

Required

Individual last name or organizational name

NM1-08

66 Identification Code Qualifier

Identifier (ID)

Required

Code designating the system/method of code structure used for Identification Code (67)

Usage notes

- Use code value "PI" when reporting Payor Identification.
- Use code value "XV" when reporting Health Plan ID (HPID) or Other Entity Identifier

(OEID).

Prior to the mandated implementation date for Health Plan Identifier, willing trading partners may agree to:

Follow a dual use approach in which both the HPID or OEID and the Payor Identification are sent. Send XV qualifier in NM108 with HPID or OEID in NM109 and the Payor Identification, that would have been sent using qualifier PI, in the corresponding REF segment using qualifier 2U (Payer Identification Number).

OR

Follow an early implementation approach in which the HPID or OEID is sent in NM109.

PI Payor Identification

XV Centers for Medicare and Medicaid Services PlanID

NM1-09

67 Other Payer Primary Identifier

Min 2 Max 80  String (AN) Required

Code identifying a party or other code

Usage notes

- When sending Line Adjudication Information for this payer, the identifier sent in SVD01 (Payer Identifier) of Loop ID-2430 (Line Adjudication Information) must match this value.;

3320

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Payer Name Loop > N3

Max use 1

Optional

Other Payer Address

To specify the location of the named party

Usage notes

- Required when the payer address is available and the submitter intends for the claim to be printed on paper at the next EDI location (for example, a clearinghouse). If not required by this implementation guide, do not send.

Example

N3*XXXX*XXXXXX~

<u>N3-01</u>	166 Other Payer Address Line	Min 1	Max 55	T String (AN)	Required
	Address information				
<u>N3-02</u>	166 Other Payer Address Line	Min 1	Max 55	T String (AN)	Optional
	Address information				

N4

3400

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Payer Information Loop > Other Payer Name Loop > N4

Max use: 1

Optional

Other Payer City, State, ZIP Code

To specify the geographic place of the named party

Usage notes

- Required when the payer address is available and the submitter intends for the claim to be printed on paper at the next EDI location (for example, a clearinghouse). If not required by this implementation guide, do not send.

Example

N4*XXXXX*XX*XXX*XX~

- Only one of Other Payer State or Province Code (N4-02) or Country Subdivision Code (N4-07) may be present
- If Country Subdivision Code (N4-07) is present, then Country Code (N4-04) is required

N4-01	19 Other Payer City Name	Min 2	Max 30	String (AN)	Required
	Free-form text for city name				
	A combination of either N401 through N404, or N405 and N406 may be adequate to specify a location.				
N4-02	156 Other Payer State or Province Code	Min 2	Max 2	Identifier (ID)	Optional
	Code (Standard State/Province) as defined by appropriate government agency				
	N402 is required only if city name (N401) is in the U.S. or Canada.				
N4-03	116 Other Payer Postal Zone or ZIP Code	Min 3	Max 15	Identifier (ID)	Optional
	Code defining international postal zone code excluding punctuation and blanks (zip code for United States)				
N4-04	26 Country Code	Min 2	Max 3	Identifier (ID)	Optional
	Code identifying the country				
	Usage notes Use the alpha-2 country codes from Part 1 of ISO 3166.				
N4-07	1715 Country Subdivision Code	Min 1	Max 3	Identifier (ID)	Optional
	Code identifying the country subdivision				
	Usage notes				

- Use the country subdivision codes from Part 2 of ISO 3166.

3450

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Name Loop > DTP

Max use 1, Optional

Claim Check or Remittance Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when the payer identified in this loop has previously adjudicated the claim and Loop ID-2430, Line Check or Remittance Date, is not used. If not required by this implementation guide, do not send.;

Example

DTP*573*D8*XXX~

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

573 Date Claim Paid

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Adjudication or Payment Date

Min 1 Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

REF

3550

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Name Loop > REF

Max use 2Optional

Other Payer Secondary Identifier

To specify identifying information

Usage notes

- Required when an additional identification number to that provided in the NM109 of this loop is necessary to identify the entity.
If not required by this implementation guide, do not send.

Example

REF*FY*XXXXX~

Variants (all may be used)

- REF Other Payer Prior Authorization Number
- REF Other Payer Referral Number
- REF Other Payer Claim Adjustment Indicator
- REF Other Payer Claim Control Number

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

2U Payer Identification Number

- This code is only allowed when the qualifier XV is reported in NM108 of this loop.

EI Employer's Identification Number

- The Employer's Identification Number must be a string of exactly nine numbers with no separators.

For example, "001122333" would be valid, while sending "001-12-2333" or "00-1122333" would be invalid.

FY Claim Office Number

NF National Association of Insurance Commissioners (NAIC) Code

REF-02

127 Other Payer Secondary Identifier

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

3550

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Name Loop > REF

Max used 1Optional

Other Payer Prior Authorization Number

To specify identifying information

Usage notes

- Required when the payer identified in this loop has assigned a prior authorization number to this claim.
If not required by this implementation guide, do not send.

Example

REF*G1*X~

Variants (all may be used)

- REF Other Payer Secondary Identifier
- REF Other Payer Referral Number
- REF Other Payer Claim Adjustment Indicator
- REF Other Payer Claim Control Number

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
	Code qualifying the Reference Identification		
	G1 Prior Authorization Number		
REF-02	127 Other Payer Prior Authorization Number	Min 1Max 50String (AN)	Required
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier		

REF

3550

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Name Loop > REF

Max used 1Optional

Other Payer Referral Number

To specify identifying information

Usage notes

- Required when the payer identified in this loop has assigned a referral number to this claim.
If not required by this implementation guide, do not send.

Example

REF*9F*XX~

Variants (all may be used)

- REF Other Payer Secondary Identifier
- REF Other Payer Prior Authorization Number
- REF Other Payer Claim Adjustment Indicator
- REF Other Payer Claim Control Number

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

9F Referral Number

REF-02

127 Other Payer Prior Authorization or Referral Number

String (AN)

Required

Min 1Max 50

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

3550

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Name Loop > REF

Max used 1Optional

Other Payer Claim Adjustment Indicator

To specify identifying information

Usage notes

- Required when the claim is being sent in the payer-to-payer COB model,
AND
the destination payer is secondary to the payer identified in this Loop ID-2330B,
AND
the payer identified in this Loop ID-2330B has re-adjudicated the claim.
If not required by this implementation guide, do not send.

Example

REF*T4*XX~

Variants (all may be used)

- REF Other Payer Secondary Identifier
- REF Other Payer Prior Authorization Number
- REF Other Payer Referral Number
- REF Other Payer Claim Control Number

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
	Code qualifying the Reference Identification		
	T4 Signal Code		
REF-02	127 Other Payer Claim Adjustment Indicator	Min 1Max 50String (AN)	Required
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier		
	Usage notes		
	The only valid value for this element is `Y`.		

REF

3550

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Payer Name Loop > REF

Max used: 1Optional

Other Payer Claim Control Number

To specify identifying information

Usage notes

- Required when it is necessary to identify the Other Payer's Claim Control Number in a payer-to-payer COB situation.
OR
Required when the Other Payer's Claim Control Number is available.
If not required by this implementation guide, do not send.

Example

REF*F8*XXXXXX~

Variants (all may be used)

- REF Other Payer Secondary Identifier
- REF Other Payer Prior Authorization Number
- REF Other Payer Referral Number
- REF Other Payer Claim Adjustment Indicator

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
	Code qualifying the Reference Identification		
	F8 Original Reference Number		
REF-02	127 Other Payer's Claim Control Number	Min 1Max 50String (AN)	Required
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier		

2330B Other Payer Name Loop end

2330C Other Payer Referring Provider Loop

Max 2Optional

- Variants (all may be used)
 Other Subscriber Name Loop
 Other Payer Name Loop
 Other Payer Rendering Provider Loop
 Other Payer Service Facility Location Loop
 Other Payer Supervising Provider Loop
 Other Payer Billing Provider Loop

NM1

3250

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Referring Provider Loop > NM1

Max use 1Required

Other Payer Referring Provider

To supply the full name of an individual or organizational entity

Usage notes

- See Crosswalking COB Data Elements section for more information on handling COB in the 837.
- Required prior to the mandated implementation of the HIPAA National Provider Identifier (NPI) rule when the provider in the corresponding Loop ID-2310 is sent and one or more additional payer-specific provider identification numbers are required by this non-destination payer (Loop ID-2330B) to identify the provider.
OR
Required after the mandated implementation of the NPI rule for providers who are not Health Care Providers when the provider is sent in the corresponding Loop ID-2310 and one or more additional payer-specific provider identification numbers are required by this non-destination payer (Loop ID-2330B) to identify the provider.
If not required by this implementation guide, do not send.

Example

NM1*DN*1~

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

DN Referring Provider

☐

Use on the first iteration of this loop. Use if loop is used only once.

P3 Primary Care Provider

☐

Use only if loop is used twice. Use only on second iteration of this loop.

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.

1 Person

REF

3550

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Referring Provider Loop > REF

Max use 3

Required

Other Payer Referring Provider Secondary Identification

To specify identifying information

Usage notes

- Non-destination (COB) payer's provider identification number(s).
- See Crosswalking COB Data Elements section for more information on handling COB in the 837.

Example

REF*0B*XXXX~

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

- 0B State License Number
- 1G Provider UPIN Number
 - ☐ UPINs must be formatted as either X99999 or XXX999.
- G2 Provider Commercial Number
 - ☐ This code designates a proprietary provider number for the non-destination payer identified in the Other Payer Name Loop ID-2330B for this iteration of Loop ID-2320. This is true regardless of whether that payer is Medicare, Medicaid, a Blue Cross Blue Shield plan, a commercial plan, or any other health plan.

REF-02

127 Other Payer Referring Provider Identifier

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

2330C Other Payer Referring Provider Loop end

2330D Other Payer Rendering Provider Loop

Max 1 Optional

- Variants (all may be used)
- Other Subscriber Name Loop
 - Other Payer Name Loop
 - Other Payer Referring Provider Loop
 - Other Payer Service Facility Location Loop
 - Other Payer Supervising Provider Loop
 - Other Payer Billing Provider Loop

NM1

3250

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Other Subscriber Information Loop > Other Payer Rendering Provider Loop > NM1

Max use 1 Required

Other Payer Rendering Provider

To supply the full name of an individual or organizational entity

Usage notes

- See Crosswalking COB Data Elements section for more information on handling COB in the 837.
- Required prior to the mandated implementation of the HIPAA National Provider Identifier (NPI) rule when the provider in the corresponding Loop ID-2310 is sent and one or more additional payer-specific provider identification numbers are required by this non-destination payer (Loop ID-2330B) to identify the provider.
OR
Required after the mandated implementation of the NPI rule for providers who are not Health Care Providers when the provider is sent in the corresponding Loop ID-2310 and one or more additional payer-specific provider identification numbers are required by this non-destination payer (Loop ID-2330B) to identify the provider.
If not required by this implementation guide, do not send.

Example

NM1*82*1~

NM1-01	98 Entity Identifier Code	Identifier (ID)	Required
	Code identifying an organizational entity, a physical location, property or an individual		
	82 Rendering Provider		
NM1-02	1065 Entity Type Qualifier	Identifier (ID)	Required
	Code qualifying the type of entity		
	NM102 qualifies NM103.		

- 1 Person
- 2 Non-Person Entity

REF

2320 Other Subscriber Information Loop end

2400 Service Line Number Loop

Max 50 Required

LX

3650

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > LX

Max use 1

Required

Service Line Number

To reference a line number in a transaction set

Usage notes

- The LX functions as a line counter.
- The Service Line LX segment must begin with one and is incremented by one for each additional service line of a claim.
- LX01 is used to indicate bundling in SVD06 in the Line Item Adjudication loop. See Section 1.4.1.2 for more information on bundling and unbundling.

Example

LX*00000~

LX-01

554 Assigned Number

Min 1

Max 6

Numeric (N0)

Required

Number assigned for differentiation within a transaction set

SV1

3700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > SV1

Max use 1

Required

Professional Service

To specify the service line item detail for a health care professional

Example

SV1*IV>XXXXXX>XX>XX>XX>XX>XXXXXX*000000000000*M
J*000000*XX**00>00>00>0**Y**Y*Y***0~

SV1-01

C003 Composite Medical Procedure Identifier

To identify a medical procedure by its standardized codes and applicable modifiers

Max use 1

Required

C003-01

235 Product or Service ID Qualifier

Identifier (ID)

Required

Code identifying the type/source of the descriptive number used in Product/Service ID (234)

- C003-01 qualifies C003-02 and C003-08.

Usage notes

- The NDC number is used for reporting prescribed drugs and biologics when required by government regulation, or as deemed by the provider to enhance claim reporting or adjudication processes. The NDC number is reported in the LIN segment of Loop ID-2410 only.

ER Jurisdiction Specific Procedure and Supply Codes

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:
If a new rule names the Jurisdiction Specific Procedure and Supply Codes as an allowable code set under HIPAA,
OR
The Secretary grants an exception to use the code set as a pilot project as allowed under the law,
OR
For claims which are not covered under HIPAA.

HC Health Care Financing Administration Common Procedural Coding System (HCPCS) Codes

- ☐ Because the AMA's CPT codes are also level 1 HCPCS codes, they are reported under HC.

IV Home Infusion EDI Coalition (HIEC) Product/Service Code

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:
If a new rule names the Home Infusion EDI Coalition (HIEC) Product/Service Codes as an allowable code set under HIPAA,
OR
The Secretary grants an exception to use the code set as a pilot project as allowed under the law,
OR
For claims which are not covered under HIPAA.;

WK Advanced Billing Concepts (ABC) Codes

- ☐ At the time of this writing, this code set has been approved by the Secretary of HHS as a pilot project allowed under HIPAA law.
The qualifier may only be used in transactions covered under HIPAA;

By parties registered in the pilot project and their trading partners,
OR

If a new rule names the Complementary, Alternative, or Holistic Procedure Codes as an allowable code set under HIPAA,

OR

For claims which are not covered under HIPAA.

C003-02 **234 Procedure Code** Min 1 Max 48 **T** String (AN) **Required**

Identifying number for a product or service

- If C003-08 is used, then C003-02 represents the beginning value in the range in which the code occurs.

C003-03 **1339 Procedure Modifier** Min 2 Max 2 **T** String (AN) **Optional**

This identifies special circumstances related to the performance of the service, as defined by trading partners

- C003-03 modifies the value in C003-02 and C003-08.

C003-04 **1339 Procedure Modifier** Min 2 Max 2 **T** String (AN) **Optional**

This identifies special circumstances related to the performance of the service, as defined by trading partners

- C003-04 modifies the value in C003-02 and C003-08.

C003-05 **1339 Procedure Modifier** Min 2 Max 2 **T** String (AN) **Optional**

This identifies special circumstances related to the performance of the service, as defined by trading partners

- C003-05 modifies the value in C003-02 and C003-08.

C003-06 **1339 Procedure Modifier** Min 2 Max 2 **T** String (AN) **Optional**

This identifies special circumstances related to the performance of the service, as defined by trading partners

- C003-06 modifies the value in C003-02 and C003-08.

C003-07 **352 Description** Min 1 Max 80 **T** String (AN) **Optional**

A free-form description to clarify the related data elements and their content

- C003-07 is the description of the procedure identified in C003-02.

SV1-02 **782 Line Item Charge Amount** Min 1 Max 15 # Decimal number (R) Required

Monetary amount

- SV102 is the submitted service line item amount.

Usage notes

- This is the total charge amount for this service line. The amount is inclusive of the provider's base charge and any applicable tax and/or postage claimed amounts reported within this line's AMT segments.
- Zero "0" is an acceptable value for this element.

SV1-03 **355 Unit or Basis for Measurement Code** Identifier (ID) Required

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

MJ Minutes

- ☐ Required for Anesthesia claims.

Anesthesia time is counted from the moment that the practitioner, having completed the preoperative evaluation, starts an intravenous line, places monitors, administers pre-anesthesia sedation, or otherwise physically begins to prepare the patient for anesthesia. Time continues throughout the case and while the practitioner accompanies the patient to the post-anesthesia recovery unit (PACU). Time stops when the practitioner releases the patient to the care of PACU personnel.

UN Unit

SV1-04 **380 Service Unit Count** Min 1 Max 15 # Decimal number (R) Required

Numeric value of quantity

Usage notes

- Note: When a decimal is needed to report units, include it in this element, for example, "15.6".
- The maximum length for this field is 8 digits excluding the decimal. When a decimal is used, the maximum number of digits allowed to the right of the decimal is three.

SV1-05 **1331 Place of Service Code** Min 1 Max 2 T String (AN) Optional

Code identifying where services were, or may be, performed; the first and second positions of the Uniform Bill Type Code for Institutional Services or the Place of Service Codes for Professional or Dental Services.

- SV105 is the place of service.

Usage notes

- See CODE SOURCE 237: Place of Service Codes for Professional Claims

SV1-07 **C004 Composite Diagnosis Code Pointer** Max use 1 Required

To identify one or more diagnosis code pointers

C004-01 **1328 Diagnosis Code Pointer** Min 1 Max 2 # Numeric (N0) **Required**

A pointer to the diagnosis code in the order of importance to this service

- C004-01 identifies the primary diagnosis code for this service line.

Usage notes

- This first pointer designates the primary diagnosis for this service line. Remaining diagnosis pointers indicate declining level of importance to service line. Acceptable values are 1 through 12, and correspond to Composite Data Elements 01 through 12 in the Health Care Diagnosis Code HI segment in the Claim Loop ID-2300.

C004-02 **1328 Diagnosis Code Pointer** Min 1 Max 2 # Numeric (N0) **Optional**

A pointer to the diagnosis code in the order of importance to this service

- C004-02 identifies the second diagnosis code for this service line.

C004-03 **1328 Diagnosis Code Pointer** Min 1 Max 2 # Numeric (N0) **Optional**

A pointer to the diagnosis code in the order of importance to this service

- C004-03 identifies the third diagnosis code for this service line.

C004-04 **1328 Diagnosis Code Pointer** Min 1 Max 2 # Numeric (N0) **Optional**

A pointer to the diagnosis code in the order of importance to this service

- C004-04 identifies the fourth diagnosis code for this service line.

SV1-09 **1073 Emergency Indicator** ■ Identifier (ID) **Optional**

Code indicating a Yes or No condition or response

- SV109 is the emergency-related indicator; a "Y" value indicates service provided was emergency related; an "N" value indicates service provided was not emergency related.

Usage notes

- For this implementation, the listed value takes precedence over the semantic note.

Emergency definition: The patient requires immediate medical intervention as a result of severe, life threatening, or potentially disabling conditions.

Y Yes

SV1-11 **1073 EPSDT Indicator** ■ Identifier (ID) **Optional**

Code indicating a Yes or No condition or response

- SV111 is early and periodic screen for diagnosis and treatment of children (EPSDT) involvement; a "Y" value indicates EPSDT involvement; an "N" value indicates no EPSDT involvement.

Usage notes

- For this implementation, the listed value takes precedence over the semantic note.
- When this element is used, this service is not the screening service.

Y Yes

SV1-12

1073 Family Planning Indicator

■ Identifier (ID)

Optional

Code indicating a Yes or No condition or response

- SV112 is the family planning involvement indicator. A "Y" value indicates family planning services involvement; an "N" value indicates no family planning services involvement.

Usage notes

- For this implementation, the listed value takes precedence over the semantic note.

Y Yes

SV1-15

1327 Co-Pay Status Code

■ Identifier (ID)

Optional

Code indicating whether or not co-payment requirements were met on a line by line basis

- 0 Copay exempt

SV5

4000

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > SV5

Max use 1

Optional

Durable Medical Equipment Service

To specify the claim service detail for durable medical equipment

Usage notes

- Required when necessary to report both the rental and purchase price information for durable medical equipment. This is not used for claims where the provider is reporting only the rental price or only the purchase price. If not required by this implementation guide, do not send.

Example

SV5*HC>XXX*DA*0*000000000000*00000000*4~

■ If Rental Unit Price Indicator (SV5-06) is present, then DME Rental Price (SV5-04) is required

SV5-01

C003 Composite Medical Procedure Identifier

To identify a medical procedure by its standardized codes and applicable modifiers

Max use 1

Required

C003-01

235 Procedure Identifier

Identifier (ID)

Required

Code identifying the type/source of the descriptive number used in Product/Service ID (234)

- C003-01 qualifies C003-02 and C003-08.

HC Health Care Financing Administration Common Procedural Coding System (HCPCS) Codes
☐ Because the AMA's CPT codes are also level 1 HCPCS codes, they are reported under HC.

C003-02

234 Procedure Code

Min 1

Max 48

String (AN)

Required

Identifying number for a product or service

- If C003-08 is used, then C003-02 represents the beginning value in the range in which the code occurs.

Usage notes

- This value must be the same as that reported in SV101-2.

SV5-02

355 Unit or Basis for Measurement Code

Identifier (ID)

Required

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

DA Days

SV5-03

380 Length of Medical Necessity

Min 1

Max 15

Decimal number (R)

Required

Numeric value of quantity

- SV503 is the length of medical treatment required.

SV5-04

782 DME Rental Price

Min 1Max 15# Decimal number (R)

Required

Monetary amount

- SV504 is the rental price.

SV5-05

782 DME Purchase Price

Min 1Max 15# Decimal number (R)

Required

Monetary amount

- SV505 is the purchase price.

SV5-06

594 Rental Unit Price Indicator

Identifier (ID)

Required

Code indicating frequency or type of activities or actions being reported

- SV506 is the frequency at which the rental equipment is billed.

- 1 Weekly
- 4 Monthly
- 6 Daily

Line Supplemental Information

To identify the type or transmission or both of paperwork or supporting information

Usage notes

- Required when there is a paper attachment following this claim.
OR
Required when attachments are sent electronically (PWK02 = EL) but are transmitted in another functional group (for example, 275) rather than by paper. PWK06 is then used to identify the attached electronic documentation. The number in PWK06 is carried in the TRN of the electronic attachment.
OR
Required when the provider deems it necessary to identify additional information that is being held at the provider's office and is available upon request by the payer (or appropriate entity), but the information is not being submitted with the claim. Use the value of "AA" in PWK02 to convey this specific use of the PWK segment.
If not required by this implementation guide, do not send.

Example

PWK*06*EL***AC*XX~

Variants (all may be used)

PWK Durable Medical Equipment Certificate of Medical Necessity Indicator

- If either Identification Code Qualifier (PWK-05) or Attachment Control Number (PWK-06) is present, then the other is required

PWK-01

755 Attachment Report Type Code

Identifier (ID)

Required

Code indicating the title or contents of a document, report or supporting item

- 03 Report Justifying Treatment Beyond Utilization Guidelines
- 04 Drugs Administered
- 05 Treatment Diagnosis
- 06 Initial Assessment
- 07 Functional Goals
- 08 Plan of Treatment
- 09 Progress Report
- 10 Continued Treatment
- 11 Chemical Analysis
- 13 Certified Test Report
- 15 Justification for Admission
- 21 Recovery Plan
- A3 Allergies/Sensitivities Document
- A4 Autopsy Report
- AM Ambulance Certification
- AS Admission Summary
- B2 Prescription
- B3 Physician Order
- B4 Referral Form
- BR Benchmark Testing Results

BS	Baseline
BT	Blanket Test Results

XP	Photographs

PWK-02 756 Attachment Transmission Code**■ Identifier (ID)** **Required**

Code defining timing, transmission method or format by which reports are to be sent

Usage notes

- Required when the actual attachment is maintained by an attachment warehouse or similar vendor.

AA Available on Request at Provider Site

- ☐ This means that the additional information is not being sent with the claim at this time.
Instead, it is available to the payer (or appropriate entity) at their request.

BM By Mail

EL Electronically Only

- ☐ Indicates that the attachment is being transmitted in a separate X12 functional group.

EM E-Mail

FT File Transfer

FX By Fax

PWK-05

66 Identification Code Qualifier

■ Identifier (ID)

Optional

Code designating the system/method of code structure used for Identification Code (67)

- PWK05 and PWK06 may be used to identify the addressee by a code number.

AC Attachment Control Number

PWK-06

67 Attachment Control Number

Min 2 Max 80 ■ String (AN)

Optional

Code identifying a party or other code

Usage notes

- PWK06 is used to identify the attached electronic documentation. The number in PWK06 is carried in the TRN of the electronic attachment.
- For the purpose of this implementation, the maximum field length is 50.

Durable Medical Equipment Certificate of Medical Necessity Indicator

To identify the type or transmission or both of paperwork or supporting information

Usage notes

- Required on claims that include a Durable Medical Equipment Regional Carrier (DMERC) Certificate of Medical Necessity (CMN). If not required by this implementation guide, do not send.;

Example

PWK*CT*AD~

Variants (all may be used)

PWK Line Supplemental Information

PWK-01

755 Attachment Report Type Code

Identifier (ID)

Required

Code indicating the title or contents of a document, report or supporting item

CT Certification

PWK-02

756 Attachment Transmission Code

Identifier (ID)

Required

Code defining timing, transmission method or format by which reports are to be sent

Usage notes

- Required when the actual attachment is maintained by an attachment warehouse or similar vendor.

- AB Previously Submitted to Payer
- AD Certification Included in this Claim
- AF Narrative Segment Included in this Claim
- AG No Documentation is Required
- NS Not Specified

☐ NS = Paperwork is available on request at the provider's site. This means that the paperwork is not being sent with the claim at this time. Instead, it is available to the payer (or appropriate entity) at their request.

Ambulance Transport Information

To supply information related to the ambulance service rendered to a patient

Usage notes

Required when CR102 is used. If not required by this implementation guide, do not send.

- Required on ambulance transport services when the information applicable to any one of the segment's elements is different than the information reported in the CR1 at the claim level (Loop ID-2300). If not required by this implementation guide, do not send.

Example

CR1*LB*0000000**E*DH*00000000***XXXX*XX~

- If either Unit or Basis for Measurement Code (CR1-01) or Patient Weight (CR1-02) is present, then the other is required

CR1-01

355 Unit or Basis for Measurement Code

Identifier (ID)

Optional

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

LB Pound

CR1-02

81 Patient Weight

Min 1Max 10# Decimal number (R)

Optional

Numeric value of weight

- CR102 is the weight of the patient at time of transport.

CR1-04

1317 Ambulance Transport Reason Code

Identifier (ID)

Required

Code indicating the reason for ambulance transport

- A Patient was transported to nearest facility for care of symptoms, complaints, or both
- B Patient was transported for the benefit of a preferred physician
- C Patient was transported for the nearness of family members
- D Patient was transported for the care of a specialist or for availability of specialized equipment
- E Patient Transferred to Rehabilitation Facility

CR1-05

355 Unit or Basis for Measurement Code

Identifier (ID)

Required

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

DH Miles

CR1-06

380 Transport Distance

Min 1Max 15# Decimal number (R)

Required

Numeric value of quantity

- CR106 is the distance traveled during transport.

Usage notes

- 0 (zero) is a valid value when ambulance services do not include a charge for mileage.

CR1-09

352

Round Trip Purpose Description

Min 1Max 80

T

String (AN)

Optional

A free-form description to clarify the related data elements and their content

- CR109 is the purpose for the round trip ambulance service.

CR1-10

352

Stretcher Purpose Description

Min 1Max 80

T

String (AN)

Optional

A free-form description to clarify the related data elements and their content

- CR110 is the purpose for the usage of a stretcher during ambulance service.

CR3

4350

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > CR3

Max use 1

Optional

Durable Medical Equipment Certification

To supply information regarding a physician's certification for durable medical equipment

Usage notes

- Required when a Durable Medical Equipment Regional Carrier Certificate of Medical Necessity (DMERC CMN) or a DMERC Information Form (DIF) or Oxygen Therapy Certification is included on this service line.
If not required by this implementation guide, do not send.

Example

CR3*I*MO*00000000~

CR3-01

1322 Certification Type Code

Identifier (ID)

Required

Code indicating the type of certification

I

Initial

R

Renewal

S

Revised

CR3-02

355 Unit or Basis for Measurement Code

Identifier (ID)

Required

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

- CR302 and CR303 specify the time period covered by this certification.

MO

Months

CR3-03

380 Durable Medical Equipment Duration

Min 1

Max 15

Decimal number (R)

Required

Numeric value of quantity

Usage notes

- Length of time DME equipment is needed.

Ambulance Certification

To supply information on conditions

Usage notes

- The maximum number of CRC segments which can occur per Loop ID-2400 is 3. Submitters are free to mix and match the three types of service line level CRC segments shown in this implementation guide to meet their billing or reporting needs but no more than a total of 3 CRC segments per Loop ID-2400 are allowed.
- Required on ambulance transport services when the information applicable to any one of the segment's elements is different than the information reported in the Ambulance Certification CRC at the claim level (Loop ID-2300). If not required by this implementation guide, do not send.

Example

CRC*07*Y*09*XXX*XXX*XX*XXX~

Variants (all may be used)

CRC Hospice Employee Indicator

CRC Condition Indicator/Durable Medical Equipment

CRC-01	1136 Code Category	Identifier (ID)	Required
Specifies the situation or category to which the code applies			
• CRC01 qualifies CRC03 through CRC07.			
07 Ambulance Certification			
CRC-02	1073 Certification Condition Indicator	Identifier (ID)	Required
Code indicating a Yes or No condition or response			
• CRC02 is a Certification Condition Code applies indicator. A "Y" value indicates the condition codes in CRC03 through CRC07 apply; an "N" value indicates the condition codes in CRC03 through CRC07 do not apply.			
N No			
Y Yes			
CRC-03	1321 Condition Code	Identifier (ID)	Required
Code indicating a condition			
Usage notes			
• The codes for CRC03 also can be used for CRC04 through CRC07.			
01 Patient was admitted to a hospital			
04 Patient was moved by stretcher			
05 Patient was unconscious or in shock			
06 Patient was transported in an emergency situation			

- 07 Patient had to be physically restrained
- 08 Patient had visible hemorrhaging
- 09 Ambulance service was medically necessary
- 12 Patient is confined to a bed or chair
 - ☐ Use code 12 to indicate patient was bedridden during transport.

CRC-04

1321 Condition Code

Min 2Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-05

1321 Condition Code

Min 2Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-06

1321 Condition Code

Min 2Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

CRC-07

1321 Condition Code

Min 2Max 3

Identifier (ID)

Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

Hospice Employee Indicator

To supply information on conditions

Usage notes

- Required on all Medicare claims involving physician services to hospice patients. If not required by this implementation guide, do not send.
- The maximum number of CRC segments which can occur per Loop ID-2400 is 3. Submitters are free to mix and match the three types of service line level CRC segments shown in this implementation guide to meet their billing or reporting needs but no more than a total of 3 CRC segments per Loop ID-2400 are allowed.
- The example shows the method used to indicate whether the rendering provider is an employee of the hospice.

N No			
Y Yes			
CRC-03	1321 Condition Indicator	Identifier (ID)	Required
Code indicating a condition			
38 Certification signed by the physician is on file at the supplier's office			
ZV Replacement Item			
CRC-04	1321 Condition Indicator	Min 2 Max 3 Identifier (ID)	Optional

Code indicating a condition

Usage notes

- Use the codes listed in CRC03.

Date - Service Date

To specify any or all of a date, a time, or a time period

Usage notes

- In cases where a drug is being billed on a service line, date range may be used to indicate drug duration for which the drug supply will be used by the patient. The difference in dates, including both the begin and end dates, are the days supply of the drug. Example: 20000101 - 20000107 (1/1/00 to 1/7/00) is used for a 7 day supply where the first day of the drug used by the patient is 1/1/00. In the event a drug is administered on less than a daily basis (for example, every other day) the date range would include the entire period during which the drug was supplied, including the last day the drug was used. Example: 20000101 - 20000108 (1/1/00 to 1/8/00) is used for an 8 days supply where the prescription is written for Q48 (every 48 hours), four doses of the drug are dispensed and the first dose is used on 1/1/00.

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

472 Service

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

Usage notes

- RD8 is required only when the "To and From" dates are different. However, at the discretion of the submitter, RD8 can also be used when the "To and From" dates are the same.

D8 Date Expressed in Format CCYYMMDD
RD8 Range of Dates Expressed in Format CCYYMMDD-CCYYMMDD

DTP-03

1251 Service Date

Min 1

Max 35

 String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Prescription Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when a drug is billed for this line and a prescription was written (or otherwise communicated by the prescriber if not written). If not required by this implementation guide, do not send.

Example

DTP*471*D8*XXX~

Variants (all may be used)

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

461 Last Certification

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Last Certification Date

Min 1Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Last Seen Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when a claim involves physician services for routine foot care; and is different than the date listed at the claim level and is known to impact the payer's adjudication process. If not required by this implementation guide, do not send.;

Example

DTP*304*D8*XX~

Variants (all may be used)

- DTP Date - Service Date
- DTP Date - Prescription Date
- DTP DATE - Certification Revision/Recertification Date
- DTP Date - Begin Therapy Date
- DTP Date - Initial Treatment Date
- DTP Date - Last Certification Date
- DTP Date - Last X-ray Date
- DTP Date - Shipped Date
- DTP Date - Test Date

DTP-01	374 Date Time Qualifier	Identifier (ID)	Required
	Code specifying type of date or time, or both date and time		
	304 Latest Visit or Consultation		
DTP-02	1250 Date Time Period Format Qualifier	Identifier (ID)	Required
	Code indicating the date format, time format, or date and time format		
	• DTP02 is the date or time or period format that will appear in DTP03.		
	D8 Date Expressed in Format CCYYMMDD		
DTP-03	1251 Treatment or Therapy Date	Min 1 Max 35 String (AN)	Required
	Expression of a date, a time, or range of dates, times or dates and times		

Date - Last X-ray Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when claim involves spinal manipulation and an x-ray was taken and is different than information at the claim level (Loop ID-2300). If not required by this implementation guide, do not send.

Example

DTP*455*D8*XX~

Variants (all may be used)

DTP Date - Service Date

DTP Date - Prescription Date

DTP DATE - Certification Revision/Recertification Date

DTP Date - Begin Therapy Date

DTP Date - Initial Treatment Date

DTP Date - Last Certification Date

DTP Date - Last Seen Date

DTP Date - Shipped Date

DTP Date - Test Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

455 Last X-Ray

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Last X-Ray Date

Min 1Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Shipped Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required when billing or reporting shipped products. If not required by this implementation guide, do not send.

Example

DTP*011*D8*XXX~

Variants (all may be used)

DTP Date - Service Date

DTP Date - Prescription Date

DTP DATE - Certification Revision/Recertification Date

DTP Date - Begin Therapy Date

DTP Date - Initial Treatment Date

DTP Date - Last Certification Date

DTP Date - Last Seen Date

DTP Date - Last X-ray Date

DTP Date - Test Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

011 Shipped

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

- DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Shipped Date

Min 1Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

Date - Test Date

To specify any or all of a date, a time, or a time period

Usage notes

- Required on initial EPO claims service lines for dialysis patients when test results are being billed or reported. If not required by this implementation guide, do not send.

Example

DTP*738*D8*XXX~

Variants (all may be used)

- DTP Date - Service Date
- DTP Date - Prescription Date
- DTP DATE - Certification Revision/Recertification Date
- DTP Date - Begin Therapy Date
- DTP Date - Initial Treatment Date
- DTP Date - Last Certification Date
- DTP Date - Last Seen Date
- DTP Date - Last X-ray Date
- DTP Date - Shipped Date

DTP-01

374 Date Time Qualifier

Identifier (ID)

Required

Code specifying type of date or time, or both date and time

738 Most Recent Hemoglobin or Hematocrit or Both

739 Most Recent Serum Creatine

DTP-02

1250 Date Time Period Format Qualifier

Identifier (ID)

Required

Code indicating the date format, time format, or date and time format

DTP02 is the date or time or period format that will appear in DTP03.

D8 Date Expressed in Format CCYYMMDD

DTP-03

1251 Test Performed Date

Min 1Max 35

String (AN)

Required

Expression of a date, a time, or range of dates, times or dates and times

QTY

4600

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > QTY

Max use 1

Optional

Ambulance Patient Count

To specify quantity information

Usage notes

- Required when more than one patient is transported in the same vehicle for Ambulance or non-emergency transportation services. If not required by this implementation guide, do not send.
- The QTY02 is the only place to report the number of patients when there are multiple patients transported.

Example

QTY*PT*000000~

Variants (all may be used)

QTY Obstetric Anesthesia Additional Units

QTY-01	673 Quantity Qualifier	Identifier (ID)	Required
Code specifying the type of quantity			
PT Patients			
QTY-02	380 Ambulance Patient Count	Min 1 Max 15 # Decimal number (R)	Required
Numeric value of quantity			

QTY

4600

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > QTY

Max use 1

Optional

Obstetric Anesthesia Additional Units

To specify quantity information

Usage notes

- Required in conjunction with anesthesia for obstetric services when the anesthesia provider chooses to report additional complexity beyond the normal services reflected by the procedure base units and anesthesia time.
If not required by this implementation guide, do not send.

Example

QTY*FL*0000~

Variants (all may be used)

QTY Ambulance Patient Count

QTY-01

673 Quantity Qualifier

Identifier (ID)

Required

Code specifying the type of quantity

FL Units

QTY-02

380 Obstetric Additional Units

Min 1

Max 15

Decimal number (R)

Required

Numeric value of quantity

Usage notes

- The number of additional units reported by an anesthesia provider to reflect additional complexity of services.

Test Result

To specify physical measurements or counts, including dimensions, tolerances, variances, and weights

(See Figures Appendix for example of use of C001)

Usage notes

- Required on Dialysis related service lines for ESRD. Use R1, R2, R3, or R4 to qualify the Hemoglobin, Hematocrit, Epoetin Starting Dosage, and Creatinine test results.
OR
Required on DMERC service lines to report the Patient's Height from the Certificate of Medical Necessity (CMN). Use HT qualifier.
If not required by this implementation guide, do not send.

Example

MEA*TR*R4*000000000000~

MEA-01	737 Measurement Reference Identification Code	Identifier (ID)	Required
Code identifying the broad category to which a measurement applies			
OG Original			
☐ Use OG to report Starting Dosage.			
TR Test Results			

MEA-02	738 Measurement Qualifier	Identifier (ID)	Required
Code identifying a specific product or process characteristic to which a measurement applies			
HT Height			
R1 Hemoglobin			
R2 Hematocrit			
R3 Epoetin Starting Dosage			
R4 Creatinine			

MEA-03	739 Test Results	Min 1	Max 15	# Decimal number (R)	Required
The value of the measurement					

Contract Information

To specify basic data about the contract or contract line item

Usage notes

- The developers of this implementation guide note that the CN1 segment is for use only for post-adjudicated claims, which do not meet the definition of a health care claim under HIPAA. Consequently, at the time of this writing, the CN1 segment is for non-HIPAA use only.
- Required when the submitter is contractually obligated to supply this information on post-adjudicated claims. If not required by this implementation guide, do not send.

Example

CN1*09*000000000000*00*XX*0000*XXXX~

CN1-01	1166 Contract Type Code	Identifier (ID)	Required
Code identifying a contract type			
01 Diagnosis Related Group (DRG)			
02 Per Diem			
03 Variable Per Diem			
04 Flat			
05 Capitated			
06 Percent			
09 Other			
CN1-02	782 Contract Amount	Min 1Max 15# Decimal number (R)	Optional
Monetary amount			
• CN102 is the contract amount.			
CN1-03	332 Contract Percentage	Min 1Max 6# Decimal number (R)	Optional
Percent given in decimal format (e.g., 0.0 through 100.0 represents 0% through 100%)			
• CN103 is the allowance or charge percent.			
CN1-04	127 Contract Code	Min 1Max 50String (AN)	Optional
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			
• CN104 is the contract code.			
CN1-05	338 Terms Discount Percentage	Min 1Max 6# Decimal number (R)	Optional

Terms discount percentage, expressed as a percent, available to the purchaser if an invoice is paid on or before the Terms Discount Due Date

CN1-06

799 Contract Version Identifier

Min 1

Max 30

 String (AN)

Optional

Revision level of a particular format, program, technique or algorithm

- CN106 is an additional identifying number for the contract.

REF

4700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > REF

Max use 1

Optional

Clinical Laboratory Improvement Amendment (CLIA) Number

To specify identifying information

Usage notes

- Required for all CLIA certified facilities performing CLIA covered laboratory services and the number is different than the CLIA number reported at the claim level (Loop ID-2300). If not required by this implementation guide, do not send.;

Example

REF*X4*XXX~

Variants (all may be used)

- REF Immunization Batch Number
- REF Line Item Control Number
- REF Mammography Certification Number
- REF Referral Number
- REF Referring Clinical Laboratory Improvement Amendment (CLIA) Facility Identification
- REF Repriced Line Item Reference Number
- REF Adjusted Repriced Line Item Reference Number
- REF Prior Authorization

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

X4 Clinical Laboratory Improvement Amendment Number

REF-02

127 Clinical Laboratory Improvement Amendment Number

String (AN)

Required

Min 1Max 50

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

4700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > REF

Max use 1

Optional

Immunization Batch Number

To specify identifying information

Usage notes

- Required when mandated by state or federal law or regulations to report an Immunization Batch Number. If not required by this implementation guide, do not send.

Example

REF*BT*XXXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Line Item Control Number
- REF Mammography Certification Number
- REF Referral Number
- REF Referring Clinical Laboratory Improvement Amendment (CLIA) Facility Identification
- REF Repriced Line Item Reference Number
- REF Adjusted Repriced Line Item Reference Number
- REF Prior Authorization

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

BT Batch Number

REF-02

127 Immunization Batch Number

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

4700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > REF

Max use 1

Optional

Line Item Control Number

To specify identifying information

Usage notes

- Required when the submitter needs a line item control number for subsequent communications to or from the payer. If not required by this implementation guide, do not send.
- The line item control number must be unique within a patient control number (CLM01). Payers are required to return this number in the remittance advice transaction (835) if the provider sends it to them in the 837 and adjudication is based upon line item detail regardless of whether bundling or unbundling has occurred.
- Submitters are STRONGLY encouraged to routinely send a unique line item control number on all service lines, particularly if the submitter automatically posts their remittance advice. Submitting a unique line item control number allows the capability to automatically post by service line.

Example

REF*6R*XXXXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Immunization Batch Number
- REF Mammography Certification Number
- REF Referral Number
- REF Referring Clinical Laboratory Improvement Amendment (CLIA) Facility Identification
- REF Repriced Line Item Reference Number
- REF Adjusted Repriced Line Item Reference Number
- REF Prior Authorization

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

6R Provider Control Number

REF-02

127 Line Item Control Number

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- The maximum number of characters to be supported for this field is 30'. A submitter may submit fewer characters depending upon their needs. However, the HIPAA maximum requirement to be supported by any

receiving system is 30'. Characters beyond 30 are not required to be stored nor returned by any 837-receiving system.

REF

4700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > REF

Max use 1

Optional

Mammography Certification Number

To specify identifying information

Usage notes

- Required when mammography services are rendered by a certified mammography provider and the mammography certification number is different than that sent in Loop ID-2300. If not required by this implementation guide, do not send.

Example

REF*EW*XXXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Immunization Batch Number
- REF Line Item Control Number
- REF Referral Number
- REF Referring Clinical Laboratory Improvement Amendment (CLIA) Facility Identification
- REF Repriced Line Item Reference Number
- REF Adjusted Repriced Line Item Reference Number
- REF Prior Authorization

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

EW Mammography Certification Number

REF-02

127 Mammography Certification Number

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF

4700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > REF

Max use 5

Optional

Referral Number

To specify identifying information

Usage notes

- Required when this service line involved a referral number that is different than the number reported at the claim level (Loop-ID 2300).
If not required by this implementation guide, do not send.
- When it is necessary to report one or more non-destination payer Referral Numbers, the composite data element in REF04 is used to identify the payer which assigned this referral number.

Example

REF*9F*X**2U>XXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Immunization Batch Number
- REF Line Item Control Number
- REF Mammography Certification Number
- REF Referring Clinical Laboratory Improvement Amendment (CLIA) Facility Identification
- REF Repriced Line Item Reference Number
- REF Adjusted Repriced Line Item Reference Number
- REF Prior Authorization

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
Code qualifying the Reference Identification			
9F Referral Number			
REF-02	127 Referral Number	Min 1 Max 50 String (AN)	Required
Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier			
REF-04	C040 Reference Identifier	Max use 1	Optional
To identify one or more reference numbers or identification numbers as specified by the Reference Qualifier			
- REF04 contains data relating to the value cited in REF02.			
Usage notes			
Required when the Referral Number reported in REF02 of this segment is for a non-destination payer.			

C040-01

128

Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

2U Payer Identification Number

C040-02

127

Other Payer Primary Identifier

Min 1Max 50String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- The payer identifier reported in this field must match the cooresponding payer identifier reported in Loop ID-2330B NM109.

Referring Clinical Laboratory Improvement Amendment (CLIA) Facility Identification

To specify identifying information

Usage notes

- Required for claims for any laboratory that referred tests to another laboratory covered by the CLIA Act that is billed on this line. If not required by this implementation guide, do not send.

Example

REF*F4*XX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Immunization Batch Number
- REF Line Item Control Number
- REF Mammography Certification Number
- REF Referral Number
- REF Repriced Line Item Reference Number
- REF Adjusted Repriced Line Item Reference Number
- REF Prior Authorization

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
	Code qualifying the Reference Identification		
	F4 Facility Certification Number		
REF-02	127 Referring CLIA Number	Min 1 Max 50 String (AN)	Required
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier		

REF

4700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > REF

Max use 1

Optional

Repriced Line Item Reference Number

To specify identifying information

Usage notes

- Required when a repricing (pricing) organization needs to have an identifying number on the service line in their submission to their payer organization. This segment is not completed by providers. If not required by this implementation guide, do not send.

Example

REF*9B*X~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Immunization Batch Number
- REF Line Item Control Number
- REF Mammography Certification Number
- REF Referral Number
- REF Referring Clinical Laboratory Improvement Amendment (CLIA) Facility Identification
- REF Adjusted Repriced Line Item Reference Number
- REF Prior Authorization

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

9B Repriced Line Item Reference Number

REF-02

127 Repriced Line Item Reference Number

Min 1 Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Adjusted Repriced Line Item Reference Number

To specify identifying information

Usage notes

- Required when a repricing (pricing) organization needs to have an identifying number on an adjusted service line in their submission to their payer organization. This segment is not completed by providers. If not required by this implementation guide, do not send.

Example

REF*9D*XXXXXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Immunization Batch Number
- REF Line Item Control Number
- REF Mammography Certification Number
- REF Referral Number
- REF Referring Clinical Laboratory Improvement Amendment (CLIA) Facility Identification
- REF Repriced Line Item Reference Number
- REF Prior Authorization

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
	Code qualifying the Reference Identification		
	9D Adjusted Repriced Line Item Reference Number		
REF-02	127 Adjusted Repriced Line Item Reference Number	String (AN)	Required
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier	Min 1	Max 50

REF

4700

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > REF

Max use 5

Optional

Prior Authorization

To specify identifying information

Usage notes

- Required when service line involved a prior authorization number that is different than the number reported at the claim level (Loop ID-2300).
If not required by this implementation guide, do not send.
- When it is necessary to report one or more non-destination payer Prior Authorization Numbers, the composite data element in REF04 is used to identify the payer which assigned this number.

Example

REF*G1*XX**2U>XXXXX~

Variants (all may be used)

- REF Clinical Laboratory Improvement Amendment (CLIA) Number
- REF Immunization Batch Number
- REF Line Item Control Number
- REF Mammography Certification Number
- REF Referral Number
- REF Referring Clinical Laboratory Improvement Amendment (CLIA) Facility Identification
- REF Repriced Line Item Reference Number
- REF Adjusted Repriced Line Item Reference Number

REF-01	128 Reference Identification Qualifier	Identifier (ID)	Required
	Code qualifying the Reference Identification		
	G1 Prior Authorization Number		
REF-02	127 Prior Authorization or Referral Number	Min 1 Max 50 String (AN)	Required
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier		
REF-04	C040 Reference Identifier	Max use 1	Optional
	To identify one or more reference numbers or identification numbers as specified by the Reference Qualifier		
	- REF04 contains data relating to the value cited in REF02.		
	Usage notes		
	Required when the Prior Authorization Number reported in REF02 of this segment is for a non-destination payer.		

C040-01

128

Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

2U Payer Identification Number

C040-02

127

Other Payer Primary Identifier

Min 1Max 50String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- The payer identifier reported in this field must match the cooresponding payer identifier reported in Loop ID-2330B NM109.

Sales Tax Amount

To indicate the total monetary amount

Usage notes

- Required when sales tax applies to the service line and the submitter is required to report that information to the receiver. If not required by this implementation guide, do not send.
- When reporting the Sales Tax Amount (AMT02), the amount reported in the Line Item Charge Amount (SV102) for this service line must include the amount reported in the Sales Tax Amount.

Example

AMT*T*00~

Variants (all may be used)

AMT Postage Claimed Amount

AMT-01	522 Amount Qualifier Code	Identifier (ID)	Required
	Code to qualify amount		
	T Tax		

AMT-02	782 Sales Tax Amount	Min 1	Max 15	# Decimal number (R)	Required
	Monetary amount				

Postage Claimed Amount

To indicate the total monetary amount

Usage notes

- Required when service line charge (SV102) includes postage amount claimed in this service line. If not required by this implementation guide, do not send.
- When reporting the Postage Claimed Amount (AMT02), the amount reported in the Line Item Charge Amount (SV102) for this service line must include the amount reported in the Postage Claimed Amount.

Example

AMT * F4 * 00000~

Variants (all may be used)

AMT Sales Tax Amount

AMT-01	522 Amount Qualifier Code	Identifier (ID)	Required
	Code to qualify amount		
	F4 Postage Claimed		
AMT-02	782 Postage Claimed Amount	Min 1 Max 15 # Decimal number (R)	Required
	Monetary amount		

K3

4800

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > K3

Max use 10

Optional

File Information

To transmit a fixed-format record or matrix contents

Usage notes

- Required when ALL of the following conditions are met:
- A regulatory agency concludes it must use the K3 to meet an emergency legislative requirement;
- The administering regulatory agency or other state organization has completed each one of the following steps:
contacted the X12N workgroup,
requested a review of the K3 data requirement to ensure there is not an existing method within the implementation guide to meet this requirement
- X12N determines that there is no method to meet the requirement.
If not required by this implementation guide, do not send.
- At the time of publication of this implementation, K3 segments have no specific use.
The K3 segment is expected to be used only when necessary to meet the unexpected data requirement of a legislative authority. Before this segment can be used :
- The X12N Health Care Claim workgroup must conclude there is no other available option in the implementation guide to meet the emergency legislative requirement.
- The requestor must submit a proposal for approval accompanied by the relevant business documentation to the X12N Health Care Claim workgroup chairs and receive approval for the request.
Upon review of the request, X12N will issue an approval or denial decision to the requesting entity. Approved usage(s) of the K3 segment will be reviewed by the X12N Health Care Claim workgroup to develop a permanent change to include the business case in future transaction implementations.
- Only when all of the requirements above have been met, may the regulatory agency require the temporary use of the K3 segment.
- X12N will submit the necessary data maintenance and refer the request to the appropriate data content committee(s).

Example

K3*X~

K3-01

449 Fixed Format Information

Min 1

Max 80

String (AN)

Required

Data in fixed format agreed upon by sender and receiver

Line Note

To transmit information in a free-form format, if necessary, for comment or special instruction

Usage notes

- Required when in the judgment of the provider, the information is needed to substantiate the medical treatment and is not supported elsewhere within the claim data set.
If not required by this implementation guide, do not send.
- Use SV101-7 to describe non-specific procedure codes. Do not use this NTE Segment to describe a non-specific procedure code. If an NDC code is reported in Loop 2410, do not use this segment for a description of the procedure code. The NDC in loop 2410 will provide the description.

Example

NTE*DCP*XXXXX~

Variants (all may be used)

NTE Third Party Organization Notes

NTE-01	363 Note Reference Code	Identifier (ID)	Required
--------	-------------------------	-----------------	----------

Code identifying the functional area or purpose for which the note applies

- ADD Additional Information
- DCP Goals, Rehabilitation Potential, or Discharge Plans

NTE-02	352 Line Note Text	Min 1 Max 80	String (AN)	Required
--------	--------------------	--------------	-------------	----------

A free-form description to clarify the related data elements and their content

NTE

4850

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > NTE

Max use 1

Optional

Third Party Organization Notes

To transmit information in a free-form format, if necessary, for comment or special instruction

Usage notes

- Required when the TPO/repricer needs to forward additional information to the payer. This segment is not completed by providers. If not required by this implementation guide, do not send.

Example

NTE*TPO*XX~

Variants (all may be used)

NTE Line Note

NTE-01	363 Note Reference Code	Identifier (ID)	Required
Code identifying the functional area or purpose for which the note applies			
TPO Third Party Organization Notes			
NTE-02	352 Line Note Text	Min 1Max 80String (AN)	Required
A free-form description to clarify the related data elements and their content			

PS1

4880

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > PS1

Max use 1

Optional

Purchased Service Information

To specify the information about services that are purchased

Usage notes

- Required on non-vision service lines when adjudication is known to be impacted by the charge amount for services purchased from another source.
OR
Required on vision service lines when adjudication is known to be impacted by the acquisition cost of lenses.
If not required by this implementation guide, do not send.

Example

PS1*X*0~

PS1-01

127 Purchased Service Provider Identifier

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- PS101 is provider identification number.

Usage notes

- This must be the identifier from the Purchased Service Provider Loop (Loop ID-2420B). When the Secondary Identifier REF is used, that is the identifier to be reported. If not present, use the identifier in NM109.

PS1-02

782 Purchased Service Charge Amount

Min 1

Max 15

Decimal number (R)

Required

Monetary amount

- PS102 is cost of the purchased service.

HCP

4920

Max use 1

Optional

Line Pricing/Repricing Information

To specify pricing or repricing information about a health care claim or line item

Usage notes

- This information is specific to the destination payer reported in Loop ID-2010BB.
- For capitated encounters, pricing or repricing information usually is not applicable and is provided to qualify other information within the claim.
- Required when this information is deemed necessary by the repricer. The segment is not completed by providers. The information is completed by repricers only. If not required by this implementation guide, do not send.

Example

HCP*07*000000000000*0000000000*XXX*00000000*XX*0000
00**HC*XX*UN*0*T6*2*2~

- If either Product or Service ID Qualifier (HCP-09) or Repriced Approved HCPCS Code (HCP-10) is present, then the other is required
- If either Unit or Basis for Measurement Code (HCP-11) or Repriced Approved Service Unit Count (HCP-12) is present, then the other is required

HCP-01

1473 Pricing Methodology

Identifier (ID)

Required

Code specifying pricing methodology at which the claim or line item has been priced or repriced

Usage notes

- Specific code use is determined by Trading Partner Agreement due to the variances in contracting policies in the industry.

- 00 Zero Pricing (Not Covered Under Contract)
- 01 Priced as Billed at 100%
- 02 Priced at the Standard Fee Schedule
- 03 Priced at a Contractual Percentage
- 04 Bundled Pricing
- 05 Peer Review Pricing
- 06 Per Diem Pricing
- 07 Flat Rate Pricing
- 08 Combination Pricing
- 09 Maternity Pricing
- 10 Other Pricing
- 11 Lower of Cost
- 12 Ratio of Cost
- 13 Cost Reimbursed
- 14 Adjustment Pricing

HCP-02

782 Repriced Allowed Amount

Min 1 Max 15 # Decimal number (R)

Required

Monetary amount

- HCP02 is the allowed amount.

HCP-03 **782 Repriced Saving Amount** Min 1 Max 15 # Decimal number (R) Optional

Monetary amount

- HCP03 is the savings amount.

HCP-04 **127 Repricing Organization Identifier** Min 1 Max 50 T String (AN) Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- HCP04 is the repricing organization identification number.

HCP-05 **118 Repricing Per Diem or Flat Rate Amount** # Decimal number (R) Optional
Min 1 Max 9

Rate expressed in the standard monetary denomination for the currency specified

- HCP05 is the pricing rate associated with per diem or flat rate repricing.

HCP-06 **127 Repriced Approved Ambulatory Patient Group Code** T String (AN) Optional
Min 1 Max 50

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

- HCP06 is the approved DRG code.
- HCP06, HCP07, HCP08, HCP10, and HCP12 are fields that will contain different values from the original submitted values.

HCP-07 **782 Repriced Approved Ambulatory Patient Group Amount** # Decimal number (R) Optional
Min 1 Max 15

Monetary amount

- HCP07 is the approved DRG amount.

HCP-09 **235 Product or Service ID Qualifier** ■ Identifier (ID) Optional

Code identifying the type/source of the descriptive number used in Product/Service ID (234)

ER Jurisdiction Specific Procedure and Supply Codes

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:

If a new rule names the Jurisdiction Specific Procedure and Supply Codes as an

allowable code set under HIPAA,
OR
The Secretary grants an exception to use the code set as a pilot project as allowed under the law,
OR
For claims which are not covered under HIPAA.

HC Health Care Financing Administration Common Procedural Coding System (HCPCS) Codes
☐ Because the AMA's CPT codes are also level 1 HCPCS codes, they are reported under HC.

IV Home Infusion EDI Coalition (HIEC) Product/Service Code
☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:
If a new rule names the Home Infusion EDI Coalition (HIEC) Product/Service Codes as an allowable code set under HIPAA,
OR
The Secretary grants an exception to use the code set as a pilot project as allowed under the law,
OR
For claims which are not covered under HIPAA.;

WK Advanced Billing Concepts (ABC) Codes
☐ At the time of this writing, this code set has been approved by the Secretary of HHS as a pilot project allowed under HIPAA law.
The qualifier may only be used in transactions covered under HIPAA;
By parties registered in the pilot project and their trading partners,
OR
If a new rule names the Complementary, Alternative, or Holistic Procedure Codes as an allowable code set under HIPAA,
OR
For claims which are not covered under HIPAA.

HCP-10

234 Repriced Approved HCPCS Code

Min 1Max 48

 String (AN)

Optional

Identifying number for a product or service

- HCP10 is the approved procedure code.

HCP-11

355 Unit or Basis for Measurement Code

 Identifier (ID)

Optional

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

MJ Minutes
UN Unit

HCP-12

380 Repriced Approved Service Unit Count

Decimal number (R)

Optional

Min 1Max 15

Numeric value of quantity

- HCP12 is the approved service units or inpatient days.

Usage notes

- Note: When a decimal is needed to report units, include it in this element, for example, "15.6".
- The maximum length for this field is 8 digits excluding the decimal. When a decimal is used, the maximum number of digits allowed to the right of the decimal is three.

HCP-13**901 Reject Reason Code**

■ Identifier (ID)

Optional

Code assigned by issuer to identify reason for rejection

- HCP13 is the rejection message returned from the third party organization.

T1 Cannot Identify Provider as TPO (Third Party Organization) Participant

T2 Cannot Identify Payer as TPO (Third Party Organization) Participant

T3 Cannot Identify Insured as TPO (Third Party Organization) Participant

T4 Payer Name or Identifier Missing

T5 Certification Information Missing

T6 Claim does not contain enough information for re-pricing

HCP-14**1526 Policy Compliance Code**

■ Identifier (ID)

Optional

Code specifying policy compliance

- 1 Procedure Followed (Compliance)
- 2 Not Followed - Call Not Made (Non-Compliance Call Not Made)
- 3 Not Medically Necessary (Non-Compliance Non-Medically Necessary)
- 4 Not Followed Other (Non-Compliance Other)
- 5 Emergency Admit to Non-Network Hospital

HCP-15**1527 Exception Code**

■ Identifier (ID)

Optional

Code specifying the exception reason for consideration of out-of-network health care services

- HCP15 is the exception reason generated by a third party organization.

1 Non-Network Professional Provider in Network Hospital

2 Emergency Care

3 Services or Specialist not in Network

4 Out-of-Service Area

5 State Mandates

6 Other

2410 Drug Identification Loop

Max 1 Optional

LIN

4930

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Drug Identification Loop > LIN

Max use 1 Required

Drug Identification

To specify basic item identification data

Usage notes

- Required when government regulation mandates that prescribed drugs and biologics are reported with NDC numbers.
OR
Required when the provider or submitter chooses to report NDC numbers to enhance the claim reporting or adjudication processes.
OR
Required when an HHS approved pilot project specifies reporting of Universal Product Number (UPN) by parties registered in the pilot and their trading partners.
OR
Required when government regulation mandates that medical and surgical supplies are reported with UPN's.

If not required by this implementation guide, do not send.

- Drugs and biologics reported in this segment are a further specification of service(s) described in the SV1 segment of this Service Line Loop ID-2400.

Example

LIN**UP*XXX~

LIN-02

235 Product or Service ID Qualifier

Identifier (ID)

Required

Code identifying the type/source of the descriptive number used in Product/Service ID (234)

- LIN02 through LIN31 provide for fifteen different product/service IDs for each item. For example: Case, Color, Drawing No., U.P.C. No., ISBN No., Model No., or SKU.

Usage notes

- At the time of this writing, UPN code sets designated by values EN, EO, HI, ON, UK, and UP have been approved by the Secretary of HHS as a pilot project allowed under HIPAA law. During the pilot, these code values may only be used by parties registered in the pilot project and their trading partners. Beyond the pilot, these codes may only be used if mandated by government regulation.

- EN EAN/UCC - 13
- EO EAN/UCC - 8
- HI HIBC (Health Care Industry Bar Code) Supplier Labeling Standard Primary Data Message
- N4 National Drug Code in 5-4-2 Format
- ON Customer Order Number
- UK GTIN 14-digit Data Structure
- UP UCC - 12

LIN-03

234

National Drug Code or Universal Product Number

String (AN)

Required

Min 1Max 48

Identifying number for a product or service

CTP

4940

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Drug Identification Loop > CTP

Max use 1

Required

Drug Quantity

To specify pricing information

Example

CTP****00000*UN~

CTP-04

380 National Drug Unit Count

Min 1

Max 15

#

Decimal number (R)

Required

Numeric value of quantity

CTP-05

C001 Composite Unit of Measure

To identify a composite unit of measure

Max use 1

Required

(See Figures Appendix for examples of use)

C001-01

355 Code Qualifier

Identifier (ID)

Required

- F2 International Unit
- GR Gram
- ME Milligram
- ML Milliliter
- UN Unit

REF

4950

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Drug Identification Loop > REF

Max use 1

Optional

Prescription or Compound Drug Association Number

To specify identifying information

Usage notes

- Required when dispensing of the drug has been done with an assigned prescription number.
OR
Required when the provided medication involves the compounding of two or more drugs being reported and there is no prescription number.
If not required by this implementation guide, do not send.
- In cases where a compound drug is being billed, the components of the compound will all have the same prescription number. Payers receiving the claim can relate all the components by matching the prescription number.
- For cases where the drug is provided without a prescription (for example, from a physician's office), the value provided in this segment is a "link sequence number". The link sequence number is a provider assigned number that is unique to this claim. Its purpose is to enable the receiver to piece together the components of the compound.

Example

REF*VY*XXXXXX~

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

VY Link Sequence Number

XZ Pharmacy Prescription Number

REF-02

127 Prescription Number

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

NM1

5000

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Rendering Provider Name Loop > NM1

Max use: 1Required

Rendering Provider Name

To supply the full name of an individual or organizational entity

Usage notes

- Used for all types of rendering providers including laboratories. The Rendering Provider is the person or company (laboratory or other facility) who rendered the care. In the case where a substitute provider (locum tenens) was used, enter that provider's information here.
- Required when the Rendering Provider NM1 information is different than that carried in the Loop ID-2310B Rendering Provider.
OR
Required when Loop ID-2310B Rendering Provider is not used AND this particular line item has different Rendering Provider information than that which is carried in Loop ID-2010AA Billing Provider.
If not required by this implementation guide, do not send.;

Example

NM1*82*2*XX*X*XXXX**XX*XX*XXXX~

■ If either Identification Code Qualifier (NM1-08) or Rendering Provider Identifier (NM1-09) is present, then the other is required

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

82 Rendering Provider

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.

- 1 Person
- 2 Non-Person Entity

<u>NM1-03</u>	1035 Rendering Provider Last or Organization Name			 String (AN)	Required
				Min 1	Max 60
	Individual last name or organizational name				
<u>NM1-04</u>	1036 Rendering Provider First Name	Min 1	Max 35	 String (AN)	Optional
	Individual first name

	Individual middle name or initial				
<u>NM1-07</u>	1039 Rendering Provider Name Suffix	Min 1	Max 10	 String (AN)	Optional
	Suffix to individual name				
<u>NM1-08</u>	66 Identification Code Qualifier			 Identifier (ID)	Optional
	Code designating the system/method of code structure used for Identification Code (67)				
	XX Centers for Medicare and Medicaid Services National Provider Identifier				
<u>NM1-09</u>	67 Rendering Provider Identifier	Min 2	Max 80	 String (AN)	Optional
	Code identifying a party or other code				

5050

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Rendering Provider Name Loop > PRV

Max use 1

Optional

Rendering Provider Specialty Information

To specify the identifying characteristics of a provider

Usage notes

- Required when adjudication is known to be impacted by the provider taxonomy code. If not required by this implementation guide, do not send.

Example

PRV*PE*PXC*XX~

PRV-01	1221 Provider Code	Identifier (ID)	Required
	Code identifying the type of provider		
	PE Performing		
PRV-02	128 Reference Identification Qualifier	Identifier (ID)	Required
	Code qualifying the Reference Identification		
	PXC Health Care Provider Taxonomy Code		
PRV-03	127 Provider Taxonomy Code	Min 1 Max 50 String (AN)	Required
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier		

REF

5250

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Rendering Provider Name Loop > REF

Max use 20Optional

Rendering Provider Secondary Identification

To specify identifying information

Usage notes

- Required prior to the mandated HIPAA National Provider Identifier (NPI) implementation date when an identification number other than the NPI is necessary for the receiver to identify the provider.
OR
Required on or after the mandated NPI Implementation Date when NM109 in this loop is not used and an identification number other than the NPI is necessary for the receiver to identify the provider.
If not required by this implementation guide, do not send.
- When it is necessary to report one or more non-destination payer Secondary Identifiers, the composite data element in REF04 is used to identify the payer who assigned this identifier.

Example

REF*G2*XX**2U>XXXXX~

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

- 0B State License Number
- 1G Provider UPIN Number
 - UPINs must be formatted as either X99999 or XXX999.
- G2 Provider Commercial Number
 - This code designates a proprietary provider number for the destination payer identified in the Payer Name loop, Loop ID-2010BB, associated with this claim. This is to be used by all payers including: Medicare, Medicaid, Blue Cross, etc.
- LU Location Number

REF-02

127 Rendering Provider Secondary Identifier

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF-04

C040 Reference Identifier

To identify one or more reference numbers or identification numbers as specified by the Reference Qualifier

Max use 1Optional

- REF04 contains data relating to the value cited in REF02.

Usage notes

Required when the identifier reported in REF02 of this segment is for a non-destination payer.

C040-01

128

Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

2U Payer Identification Number

C040-02

127

Other Payer Primary Identifier

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- The payer identifier reported in this field must match the cooresponding payer identifier reported in Loop ID-2330B NM109.

2420A Rendering Provider Name Loop end

2420B Purchased Service Provider Name Loop

Max 1 Optional

- Variants (all may be used)
- Rendering Provider Name Loop
- Service Facility Location Name Loop
- Supervising Provider Name Loop

- Referring Provider Name Loop
- Ambulance Pick-up Location Loop
- Ambulance Drop-off Location Loop

NM1

5000

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Purchased Service Provider Name Loop > NM1

Max use 1 Required

Purchased Service Provider Name

To supply the full name of an individual or organizational entity

Usage notes

- Required when the service reported in this line item is a purchased service. If not required by this implementation guide, do not send.
- Purchased services are situations where, for example, a physician purchases a diagnostic exam from an outside entity. Purchased services do not include substitute (locum tenens) provider situations.

Example

NM1*QB*1*****XX*XXXXXX~

- If either Identification Code Qualifier (NM1-08) or Purchased Service Provider Identifier (NM1-09) is present, then the other is required

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

Usage notes

- The entity identifier in NM101 applies to all segments in this iteration of Loop ID-2420.

QB Purchase Service Provider

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.

1 Person

2 Non-Person Entity

NM1-08

66 Identification Code Qualifier

Identifier (ID)

Optional

Code designating the system/method of code structure used for Identification Code (67)

XX Centers for Medicare and Medicaid Services National Provider Identifier

NM1-09

67 Purchased Service Provider Identifier

Min 2

Max 80

 String (AN)

Optional

Code identifying a party or other code

REF

5250

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Purchased Service Provider Name Loop > REF

Max use 20Optional

Purchased Service Provider Secondary Identification

To specify identifying information

Usage notes

- Required prior to the mandated HIPAA National Provider Identifier (NPI) implementation date when an identification number other than the NPI is necessary for the receiver to identify the provider.
OR
Required on or after the mandated NPI Implementation Date when NM109 in this loop is not used and an identification number other than the NPI is necessary for the receiver to identify the provider.
If not required by this implementation guide, do not send.
- When it is necessary to report one or more non-destination payer Secondary Identifiers, the composite data element in REF04 is used to identify the payer who assigned this identifier.

Example

REF*1G*X**2U>XXXX~

REF-01	128Reference Identification Qualifier	Identifier (ID)	Required
	Code qualifying the Reference Identification 0BState License Number 1GProvider UPIN Number UPINs must be formatted as either X99999 or XXX999. G2Provider Commercial Number This code designates a proprietary provider number for the destination payer identified in the Payer Name loop, Loop ID-2010BB, associated with this claim. This is to be used by all payers including: Medicare, Medicaid, Blue Cross, etc.		
REF-02	127Purchased Service Provider Secondary Identifier	String (AN)	Required Min 1Max 50
	Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier		
REF-04	C040Reference Identifier To identify one or more reference numbers or identification numbers as specified by the Reference Qualifier - REF04 contains data relating to the value cited in REF02. Usage notes Required when the identifier reported in REF02 of this segment is for a non-destination payer.	Max use 1	Optional

C040-01

128

Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

2U Payer Identification Number

C040-02

127

Other Payer Primary Identifier

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- The payer identifier reported in this field must match the cooresponding payer identifier reported in Loop ID-2330B NM109.

2420B Purchased Service Provider Name Loop end

Max 1Optional

- Variants (all may be used)
- Rendering Provider Name Loop
 - Purchased Service Provider Name Loop
 - Supervising Provider Name Loop
 - Ordering Provider Name Loop
 - Referring Provider Name Loop
 - Ambulance Pick-up Location Loop
 - Ambulance Drop-off Location Loop

NM1

5000

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Service Facility Location Name Loop > NM1

Max use 1Required

Service Facility Location Name

To supply the full name of an individual or organizational entity

Usage notes

- When an organization health care provider's NPI is provided to identify the Service Location, the organization health care provider must be external to the entity identified as the Billing Provider (for example, reference lab). It is not permissible to report an organization health care provider NPI as the Service Location if the entity being identified is a component (for example, subpart) of the Billing Provider. In that case, the subpart must be the Billing Provider.
- Required when the location of health care service for this service line is different than that carried in Loop ID-2010AA Billing Provider or Loop ID-2310C Service Facility Location. If not required by this implementation guide, do not send.
- The purpose of this loop is to identify specifically where the service was rendered. When reporting ambulance services, do not use this loop. Use the pick-up (2420G) and drop-off location (2420H) loops elsewhere in this transaction.;

Example

NM1*77*2*XXX*****XX*XXX~

- If either Identification Code Qualifier (NM1-08) or Laboratory or Facility Primary Identifier (NM1-09) is present, then the other is required

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

77 Service Location

NM1-02

1065 Entity Type Qualifier

Identifier (ID)

Required

Code qualifying the type of entity

- NM102 qualifies NM103.

2 Non-Person Entity

NM1-03

1035 Laboratory or Facility Name

Min 1Max 60

 String (AN)

Required

Individual last name or organizational name

NM1-08

66 Identification Code Qualifier

 Identifier (ID)

Optional

Code designating the system/method of code structure used for Identification Code (67)

XX Centers for Medicare and Medicaid Services National Provider Identifier

NM1-09

67 Laboratory or Facility Primary Identifier

Min 2Max 80

Optional

Code identifying a party or other code

N3

5140

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Service Facility Name Loop > N3

Max use 1Required

Service Facility Location Address

To specify the location of the named party

Usage notes

- If service facility location is in an area where there are no street addresses, enter a description of where the service was rendered (for example, "crossroad of State Road 34 and 45" or "Exit near Mile marker 265 on Interstate 80".)

Example

N3*XXX*X~

<u>N3-01</u>	166 Laboratory or Facility Address Line	Min 1	Max 55	T String (AN)	Required
	Address information				
<u>N3-02</u>	166 Laboratory or Facility Address Line	Min 1	Max 55	T String (AN)	Optional
	Address information				

N4

5200

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Service Facility Name Loop > N4

Max use 1

Required

Service Facility Location City, State, ZIP Code

To specify the geographic place of the named party

Example

N4*XXXXX*XX*XXX*XX~

- Only one of Laboratory or Facility State or Province Code (N4-02) or Country Subdivision Code (N4-07) may be present
- If Country Subdivision Code (N4-07) is present, then Country Code (N4-04) is required

N4-01

19 Laboratory or Facility City Name

Min 2 Max 30

String (AN)

Required

Free-form text for city name

- A combination of either N401 through N404, or N405 and N406 may be adequate to specify a location.

N4-02

156 Laboratory or Facility State or Province Code

Identifier (ID)

Optional

Min 2 Max 2

Code (Standard State/Province) as defined by appropriate government agency

- N402 is required only if city name (N401) is in the U.S. or Canada.

N4-03

116 Laboratory or Facility Postal Zone or ZIP Code

Identifier (ID)

Optional

Min 3 Max 15

Code defining international postal zone code excluding punctuation and blanks (zip code for United States)

Usage notes

- When reporting the ZIP code for U.S. addresses, the full nine digit ZIP code must be provided.

N4-04

26 Country Code

Min 2 Max 3

Identifier (ID)

Optional

Code identifying the country

Usage notes

- Use the alpha-2 country codes from Part 1 of ISO 3166.

N4-07

1715 Country Subdivision Code

Min 1 Max 3

Identifier (ID)

Optional

Code identifying the country subdivision

Usage notes

- Use the country subdivision codes from Part 2 of ISO 3166.

REF

5250

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Service Facility Location Name Loop > REF

Max use 3Optional

Service Facility Location Secondary Identification

To specify identifying information

Usage notes

- When it is necessary to report one or more non-destination payer Secondary Identifiers, the composite data element in REF04 is used to identify the payer who assigned this identifier.
- Required prior to the mandated HIPAA National Provider Identifier (NPI) implementation date when an identification number other than the NPI is necessary for the receiver to identify the provider.
OR
Required on or after the mandated NPI implementation date when the entity is not a Health Care provider (a.k.a. an atypical provider), and an identifier is necessary for the claims processor to identify the entity.
If not required by this implementation guide, do not send.

Example

REF*G2*XX**2U>XX~

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

G2 Provider Commercial Number

- ☐
- This code designates a proprietary provider number for the destination payer identified in the Payer Name loop, Loop ID-2010BB, associated with this claim. This is to be used by all payers including: Medicare, Medicaid, Blue Cross, etc.

LU Location Number

REF-02

127 Service Facility Location Secondary Identifier

String (AN)

Required

Supervising Provider Name

To supply the full name of an individual or organizational entity

Usage notes

- Required when the rendering provider is supervised by a physician and the supervising physician is different than that listed at the claim level for this service line. If not required by this implementation guide, do not send.

Example

NM1*DQ*1*XX*X*XXXXX**XXXXXX*XX*XXXXX~

- If either Identification Code Qualifier (NM1-08) or Supervising Provider Identifier (NM1-09) is present, then the other is required

NM1-01

98 Entity Identifier Code

Identifier (ID)Required

Code identifying an organizational entity, a physical location, property or an individual

DQ Supervising Physician

NM1-02

1065 Entity Type Qualifier

Identifier (ID)Required

Code qualifying the type of entity

- NM102 qualifies NM103.

1 Person

NM1-03

1035 Supervising Provider Last Name

Min 1Max 60String (AN)Required

Individual last name or organizational name

NM1-04

1036 Supervising Provider First Name

Min 1Max 35String (AN)Optional

Individual first name

NM1-05

1037

Supervising Provider Middle Name or Initial

String (AN)

Optional

Min 1Max 25

Individual middle name or initial

NM1-07

1039

Supervising Provider Name Suffix

String (AN)

Optional

Min 1Max 10

Suffix to individual name

NM1-08

66

Identification Code Qualifier

Identifier (ID)

Optional

Code designating the system/method of code structure used for Identification Code (67)

XX Centers for Medicare and Medicaid Services National Provider Identifier

NM1-09

67

Supervising Provider Identifier

String (AN)

Optional

Min 2Max 80

Code identifying a party or other code

REF

5250

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Supervising Provider Name Loop > REF

Max use 20Optional

Supervising Provider Secondary Identification

To specify identifying information

Usage notes

- Required prior to the mandated HIPAA National Provider Identifier (NPI) implementation date when an identification number other than the NPI is necessary for the receiver to identify the provider.
OR
Required on or after the mandated NPI Implementation Date when NM109 in this loop is not used and an identification number other than the NPI is necessary for the receiver to identify the provider.
If not required by this implementation guide, do not send.
- When it is necessary to report one or more non-destination payer Secondary Identifiers, the composite data element in REF04 is used to identify the payer who assigned this identifier.

Example

REF*1G*XX**2U>XXX~

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

- 0B State License Number
- 1G Provider UPIN Number
 - UPINs must be formatted as either X99999 or XXX999.
- G2 Provider Commercial Number
 - This code designates a proprietary provider number for the destination payer identified in the Payer Name loop, Loop ID-2010BB, associated with this claim. This is to be used by all payers including: Medicare, Medicaid, Blue Cross, etc.
- LU Location Number

REF-02

127 Supervising Provider Secondary Identifier

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF-04

C040 Reference Identifier

To identify one or more reference numbers or identification numbers as specified by the Reference Qualifier

Max use 1Optional

- REF04 contains data relating to the value cited in REF02.

Usage notes

Required when the identifier reported in REF02 of this segment is for a non-destination payer.

C040-01

128

Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

2U Payer Identification Number

C040-02

127

Other Payer Primary Identifier

Min 1

Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- The payer identifier reported in this field must match the cooresponding payer identifier reported in Loop ID-2330B NM109.

2420D Supervising Provider Name Loop end

Ordering Provider Address

To specify the location of the named party

Usage notes

- Required when a Durable Medical Equipment Regional Carrier Certificate of Medical Necessity (DMERC CMN) or DMERC Information Form (DIF), or Oxygen Therapy Certification is included on this service line. If not required by this implementation guide, do not send.

Example

N3*XX*XXXXXX~

<u>N3-01</u>	166 Ordering Provider Address Line	Min 1	Max 55	String (AN)	Required
Address information					
<u>N3-02</u>	166 Ordering Provider Address Line	Min 1	Max 55	String (AN)	Optional
Address information					

N4

5200

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Ordering Provider Loop > N4

Max use 1Optional

Ordering Provider City, State, ZIP Code

To specify the geographic place of the named party

Usage notes

- Required when a Durable Medical Equipment Regional Carrier Certificate of Medical Necessity (DMERC CMN) or DMERC Information Form (DIF), or Oxygen Therapy Certification is included on this service line. If not required by this implementation guide, do not send.

Example

N4*XXXX*XX*XXXXXXXX*XX~

- Only one of Ordering Provider State or Province Code (N4-02) or Country Subdivision Code (N4-07) may be present
- If Country Subdivision Code (N4-07) is present, then Country Code (N4-04) is required

N4-01

19 Ordering Provider City Name

Min 2Max 30

String (AN)

Required

Free-form text for city name

- A combination of either N401 through N404, or N405 and N406 may be adequate to specify a location.

N4-02

156 Ordering Provider State or Province Code

Min 2Max 2

Identifier (ID)

Optional

Code (Standard State/Province) as defined by appropriate government agency

- N402 is required only if city name (N401) is in the U.S. or Canada.

N4-03

116 Ordering Provider Postal Zone or ZIP Code

Min 3Max 15

Identifier (ID)

Optional

Code defining international postal zone code excluding punctuation and blanks (zip code for United States)

N4-04

26 Country Code

Min 2Max 3

Identifier (ID)

Optional

Code identifying the country

Usage notes

- Use the alpha-2 country codes from Part 1 of ISO 3166.

N4-07

1715 Country Subdivision Code

Min 1Max 3

Identifier (ID)

Optional

Code identifying the country subdivision

Usage notes

- Use the country subdivision codes from Part 2 of ISO 3166.

Max use 20Optional

Ordering Provider Secondary Identification

To specify identifying information

Usage notes

- Required prior to the mandated HIPAA National Provider Identifier (NPI) implementation date when an identification number other than the NPI is necessary for the receiver to identify the provider.
OR
Required on or after the mandated NPI Implementation Date when NM109 in this loop is not used and an identification number other than the NPI is necessary for the receiver to identify the provider.
If not required by this implementation guide, do not send.
- When it is necessary to report one or more non-destination payer Secondary Identifiers, the composite data element in REF04 is used to identify the payer who assigned this identifier.

Example

REF*G2*XX**2U>XXXXX~

REF-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

- 0B State License Number
- 1G Provider UPIN Number
 - UPINs must be formatted as either X99999 or XXX999.
- G2 Provider Commercial Number
 - This code designates a proprietary provider number for the destination payer identified in the Payer Name loop, Loop ID-2010BB, associated with this claim. This is to be used by all payers including: Medicare, Medicaid, Blue Cross, etc.

REF-02

127 Ordering Provider Secondary Identifier

Min 1Max 50

String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

REF-04

C040 Reference Identifier

To identify one or more reference numbers or identification numbers as specified by the Reference Qualifier

Max use 1Optional

- REF04 contains data relating to the value cited in REF02.

Usage notes

Required when the identifier reported in REF02 of this segment is for a non-destination payer.

C040-01

128 Reference Identification Qualifier

Identifier (ID)

Required

Code qualifying the Reference Identification

2U Payer Identification Number

C040-02

127 Other Payer Primary Identifier

Min 1Max 50String (AN)

Required

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Usage notes

- The payer identifier reported in this field must match the cooresponding payer identifier reported in Loop ID-2330B NM109.

PER

5300

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Ordering Provider Name Loop > PER

Max use 1Optional

Ordering Provider Contact Information

To identify a person or office to whom administrative communications should be directed

Usage notes

- Required when a Durable Medical Equipment Regional Carrier Certificate of Medical Necessity (DMERC CMN) or DMERC Information Form (DIF), or Oxygen Therapy Certification is included on this service line. If not required by this implementation guide, do not send.
- When the communication number represents a telephone number in the United States and other countries using the North American Dialing Plan (for voice, data, fax, etc.), the communication number must always include the area code and phone number using the format AAABBBCCCC where AAA is the area code, BBB is the telephone number prefix, and CCCC is the telephone number. Therefore, the following telephone number (555) 555-1234 would be represented as 5555551234. Do not submit long distance access numbers, such as "1", in the telephone number. Telephone extensions, when applicable, must be submitted in the next element immediately following the telephone number. When submitting telephone extensions, only submit the numeric extension. Do not include data that indicates an extension, such as "ext" or "x-".

Example

PER*IC*XXX*FX*XXX*EX*XXXXXX*EX*XXX~

- If either Communication Number Qualifier (PER-05) or Communication Number (PER-06) is present, then the other is required
- If either Communication Number Qualifier (PER-07) or Communication Number (PER-08) is present, then the other is required

- Ambulance Pick-up Location Loop
- Ambulance Drop-off Location Loop

NM1

5000

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Referring Provider Name Loop > NM1

Max use 1 Required

Referring Provider Name

To supply the full name of an individual or organizational entity

Usage notes

- When reporting the provider who ordered services such as diagnostic and lab, use Loop ID-2310A at the claim level. For ordered services such as Durable Medical Equipment, use Loop ID-2420E at the line level.
- When there is only one referral on the claim, use code "DN - Referring Provider". When more than one referral exists and there is a requirement to report the additional referral, use code DN in the first iteration of this loop to indicate the referral received by the rendering provider on this claim. Use code "P3 - Primary Care Provider" in the second iteration of the loop to indicate the initial referral from the primary care provider or whatever provider wrote the initial referral for this patient's episode of care being billed/reported in this transaction.
- Required when this service line involves a referral and the referring provider differs from that reported at the claim level (loop 2310A). If not required by this implementation guide, may be provided at the sender's discretion, but cannot be required by the receiver.

Example

NM1*DN*1*XXXXX*XXXXXX*XX**X*XX*XXXXXX~

- If either Identification Code Qualifier (NM1-08) or Referring Provider Identifier (NM1-09) is present, then the other is required

NM1-01

98 Entity Identifier Code

Identifier (ID)

Required

Code identifying an organizational entity, a physical location, property or an individual

- DN Referring Provider

☐ Use on the first iteration of this loop. Use if loop is used only once.
- P3 Primary Care Provider

☐ Use only if loop is used twice. Use only on second iteration of this loop.

2420H Ambulance Drop-off Location Loop end

2430 Line Adjudication Information Loop

Max 15

Optional

SVD

5400

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Line Adjudication Information Loop > SVD

Max use 1

Required

Line Adjudication Information

To convey service line adjudication information for coordination of benefits between the initial payers of a health care claim and all subsequent payers

Usage notes

- Required when the claim has been previously adjudicated by payer identified in Loop ID-2330B and this service line has payments and/or adjustments applied to it. If not required by this implementation guide, do not send.
- To show unbundled lines: If, in the original claim, line 3 is unbundled into (for example) 2 additional lines, then the SVD for line 3 is used 3 times: once for the original adjustment to line 3 and then two more times for the additional unbundled lines.

Example

SVD*XX*0000000*ER>XXXXX>XX>XX>XX>XX>XXXXX**000000
0000000*00000~

SVD-01

67 Other Payer Primary Identifier

Min 2

Max 80

String (AN)

Required

Code identifying a party or other code

- SVD01 is the payer identification code.

Usage notes

- This identifier indicates the payer responsible for the reimbursement described in this iteration of the 2430 loop. The identifier indicates the Other Payer by matching the appropriate Other Payer Primary Identifier (Loop ID-2330B, element NM109).

SVD-02

782 Service Line Paid Amount

Min 1

Max 15

Decimal number (R)

Required

Monetary amount

- SVD02 is the amount paid for this service line.

Usage notes

- Zero "0" is an acceptable value for this element.

SVD-03

C003 Composite Medical Procedure Identifier

To identify a medical procedure by its standardized codes and applicable modifiers

Max use 1

Required

- SVD03 represents the medical procedure code upon which adjudication of this service line was based. This may be different than the submitted medical procedure code.

C003-01

235 Product or Service ID Qualifier

Identifier (ID)

Required

Code identifying the type/source of the descriptive number used in Product/Service ID (234)

- C003-01 qualifies C003-02 and C003-08.

ER Jurisdiction Specific Procedure and Supply Codes

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:
If a new rule names the Jurisdiction Specific Procedure and Supply Codes as an allowable code set under HIPAA,
OR
The Secretary grants an exception to use the code set as a pilot project as allowed under the law,
OR
For claims which are not covered under HIPAA.

HC Health Care Financing Administration Common Procedural Coding System (HCPCS) Codes

- ☐ Because the AMA's CPT codes are also level 1 HCPCS codes, they are reported under HC.

IV Home Infusion EDI Coalition (HIEC) Product/Service Code

- ☐ This code set is not allowed for use under HIPAA at the time of this writing. The qualifier can only be used:
If a new rule names the Home Infusion EDI Coalition (HIEC) Product/Service Codes as an allowable code set under HIPAA,
OR
The Secretary grants an exception to use the code set as a pilot project as allowed under the law,
OR
For claims which are not covered under HIPAA.;

WK Advanced Billing Concepts (ABC) Codes

- ☐ At the time of this writing, this code set has been approved by the Secretary of HHS as a pilot project allowed under HIPAA law.
The qualifier may only be used in transactions covered under HIPAA;
By parties registered in the pilot project and their trading partners,
OR
If a new rule names the Complementary, Alternative, or Holistic Procedure Codes as an allowable code set under HIPAA,
OR
For claims which are not covered under HIPAA.

C003-02 **234 Procedure Code**

Min 1 Max 48  String (AN) **Required**

Identifying number for a product or service

- If C003-08 is used, then C003-02 represents the beginning value in the range in which the code occurs.

C003-03 **1339 Procedure Modifier**

Min 2 Max 2  String (AN) **Optional**

This identifies special circumstances related to the performance of the service, as defined by trading partners

- C003-03 modifies the value in C003-02 and C003-08.

C003-04 **1339 Procedure Modifier** Min 2 Max 2 **T** String (AN) **Optional**

This identifies special circumstances related to the performance of the service, as defined by trading partners

- C003-04 modifies the value in C003-02 and C003-08.

C003-05 **1339 Procedure Modifier** Min 2 Max 2 **T** String (AN) **Optional**

This identifies special circumstances related to the performance of the service, as defined by trading partners

- C003-05 modifies the value in C003-02 and C003-08.

C003-06 **1339 Procedure Modifier** Min 2 Max 2 **T** String (AN) **Optional**

This identifies special circumstances related to the performance of the service, as defined by trading partners

- C003-06 modifies the value in C003-02 and C003-08.

C003-07 **352 Procedure Code Description** Min 1 Max 80 **T** String (AN) **Optional**

A free-form description to clarify the related data elements and their content

- C003-07 is the description of the procedure identified in C003-02.

SVD-05 **380 Paid Service Unit Count** Min 1 Max 15 # Decimal number (R) **Required**

Numeric value of quantity

- SVD05 is the paid units of service.

Usage notes

- This is the number of paid units from the remittance advice. When paid units are not present on the remittance advice, use the original billed units.
- The maximum length for this field is 8 digits excluding the decimal. When a decimal is used, the maximum number of digits allowed to the right of the decimal is three.

SVD-06 **554 Bundled or Unbundled Line Number** Min 1 Max 6 # Numeric (N0) **Optional**

Number assigned for differentiation within a transaction set

- SVD06 is only used for bundling of service lines. It references the LX Assigned Number of the service line into which this service line was bundled.

5450

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Line Adjustment Information Loop > CAS

Max use 5 Optional

Line Adjustment

To supply adjustment reason codes and amounts as needed for an entire claim or for a particular service within the claim being paid

Usage notes

- Required when the payer identified in Loop 2330B made line level adjustments which caused the amount paid to differ from the amount originally charged. If not required by this implementation guide, do not send.
- A single CAS segment contains six repetitions of the "adjustment trio" composed of adjustment reason code, adjustment amount, and adjustment quantity. These six adjustment trios are used to report up to six adjustments related to a particular Claim Adjustment Group Code (CAS01). The first non-zero adjustment is reported in the first adjustment trio (CAS02-CAS04). If there is a second non-zero adjustment, it is reported in the second adjustment trio (CAS05-CAS07), and so on through the sixth adjustment trio (CAS17-CAS19).

Example

```
CAS*0A*XXXX*0000*00*XXXX*00000*0000000000*X*000000
00*00000*XXX*0000000*00*XX*000000000000000*00*XX*0
000000000000000*0000000000000000~
```

- If Adjustment Reason Code (CAS-05) is present, then at least one of Adjustment Amount (CAS-06) or Adjustment Quantity (CAS-07) is required
- If Adjustment Amount (CAS-06) is present, then Adjustment Reason Code (CAS-05) is required
- If Adjustment Quantity (CAS-07) is present, then Adjustment Reason Code (CAS-05) is required
- If Adjustment Reason Code (CAS-08) is present, then at least one of Adjustment Amount (CAS-09) or Adjustment Quantity (CAS-10) is required
- If Adjustment Amount (CAS-09) is present, then Adjustment Reason Code (CAS-08) is required
- If Adjustment Quantity (CAS-10) is present, then Adjustment Reason Code (CAS-08) is required
- If Adjustment Reason Code (CAS-11) is present, then at least one of Adjustment Amount (CAS-12) or Adjustment Quantity (CAS-13) is required
- If Adjustment Amount (CAS-12) is present, then Adjustment Reason Code (CAS-11) is required
- If Adjustment Quantity (CAS-13) is present, then Adjustment Reason Code (CAS-11) is required
- If Adjustment Reason Code (CAS-14) is present, then at least one of Adjustment Amount (CAS-15) or Adjustment Quantity (CAS-16) is required
- If Adjustment Amount (CAS-15) is present, then Adjustment Reason Code (CAS-14) is required
- If Adjustment Quantity (CAS-16) is present, then Adjustment Reason Code (CAS-14) is required
- If Adjustment Reason Code (CAS-17) is present, then at least one of Adjustment Amount (CAS-18) or Adjustment Quantity (CAS-19) is required
- If Adjustment Amount (CAS-18) is present, then Adjustment Reason Code (CAS-17) is required
- If Adjustment Quantity (CAS-19) is present, then Adjustment Reason Code (CAS-17) is required

<u>CAS-01</u>	1033 Claim Adjustment Group Code	Min 1	Max 5	Identifier (ID)	Required

Usage notes					
See CODE SOURCE 139: Claim Adjustment Reason Code					
<u>CAS-12</u>	782 Adjustment Amount	Min 1	Max 15	# Decimal number (R)	Optional
Monetary amount					
CAS12 is the amount of the adjustment.					
<u>CAS-13</u>	380 Adjustment Quantity	Min 1	Max 15	# Decimal number (R)	Optional
Numeric value of quantity					
CAS13 is the units of service being adjusted.					
<u>CAS-14</u>	1034 Adjustment Reason Code	Min 1	Max 5	■ Identifier (ID)	Optional
Code identifying the detailed reason the adjustment was made					
Usage notes					
See CODE SOURCE 139: Claim Adjustment Reason Code					
<u>CAS-15</u>	782 Adjustment Amount	Min 1	Max 15	# Decimal number (R)	Optional

Monetary amount

- CAS15 is the amount of the adjustment.

CAS-16

380 Adjustment Quantity

Min 1Max 15# Decimal number (R)

Optional

Numeric value of quantity

- CAS16 is the units of service being adjusted.

CAS-17

1034 Adjustment Reason Code

Min 1Max 5Identifier (ID)

Optional

Code identifying the detailed reason the adjustment was made

Usage notes

- See CODE SOURCE 139: Claim Adjustment Reason Code

CAS-18

782 Adjustment Amount

Min 1Max 15# Decimal number (R)

Optional

Monetary amount

- CAS18 is the amount of the adjustment.

CAS-19

380 Adjustment Quantity

Min 1Max 15# Decimal number (R)

Optional

Numeric value of quantity

- CAS19 is the units of service being adjusted.

Line Check or Remittance Date

To specify any or all of a date, a time, or a time period

Example

DTP*573*D8*X~

DTP-01	374 Date Time Qualifier	Identifier (ID)	Required
Code specifying type of date or time, or both date and time			
573 Date Claim Paid			
DTP-02	1250 Date Time Period Format Qualifier	Identifier (ID)	Required
Code indicating the date format, time format, or date and time format			
DTP02 is the date or time or period format that will appear in DTP03.			
D8 Date Expressed in Format CCYYMMDD			
DTP-03	1251 Adjudication or Payment Date	Min 1 Max 35 String (AN)	Required
Expression of a date, a time, or range of dates, times or dates and times			

Remaining Patient Liability

To indicate the total monetary amount

Usage notes

- In the judgment of the provider, this is the remaining amount to be paid after adjudication by the Other Payer referenced in SVD01 of this iteration of Loop ID-2430.
- This segment is only used in provider submitted claims. It is not used in Payer-to-Payer Coordination of Benefits (COB).
- Required when the Other Payer referenced in SVD01 of this iteration of Loop ID-2430 has adjudicated this claim, provided line level information, and the provider has the ability to report line item information. If not required by this implementation guide, do not send.
- This segment is not used if the claim level (Loop ID-2320) Remaining Patient Liability AMT segment is used for this Other Payer.

Example

AMT*EAF*0000000000~

AMT-01	522 Amount Qualifier Code	Identifier (ID)	Required
	Code to qualify amount		
	EAF Amount Owed		
AMT-02	782 Remaining Patient Liability	Min 1 Max 15 # Decimal number (R)	Required
	Monetary amount		

2430 Line Adjudication Information Loop end

2440 Form Identification Code Loop

Max >1Optional

LQ5510

Detail > Billing Provider Hierarchical Level Loop > Subscriber Hierarchical Level Loop > Patient Hierarchical Level Loop > Claim Information Loop > Service Line Number Loop > Form Identification Code Loop > LQ

Max use 1Required

Form Identification Code

To identify standard industry codes

Usage notes

- Required when adjudication is known to be impacted by one of the types of supporting documentation (standardized paper forms) listed in LQ01. If not required by this implementation guide, do not send.
- Loop ID-2440 is designed to allow providers to attach standardized supplemental information to the claim when required to do so by the payer. The LQ segment contains information to identify the form (LQ01) and the specific form number (LQ02). In the example given below, LQ01=UT which identifies the form as a Medicare DMERC CMN form. LQ02=01.02 identifies which DMERC CMN form is being used.
- An example application of this Form Identification Code Loop is for Medicare DMERC claims for which the DME provider is required to obtain a Certificate of Medical Necessity (DMERC CMN) or DMERC Information Form (DIF), or Oxygen Therapy Certification from the referring physician. Another example is payer documentation requirements for Home Health services.

Example

LQ*UT*X~

■ If Code List Qualifier Code (LQ-01) is present, then Form Identifier (LQ-02) is required

LQ-011270Code List Qualifier Code

Identifier (ID)Required

Code identifying a specific industry code list

AS Form Type Code

- ☐ Code value AS indicates that a Home Health form from External Code Source 656 is being identified in LQ02.

UT Centers for Medicare and Medicaid Services (CMS) Durable Medical Equipment Regional Carrier (DMERC) Certificate of Medical Necessity (CMN) Forms

LQ-021271Form Identifier

Min 1Max 30String (AN)Required

Code indicating a code from a specific industry code list

Supporting Documentation

To specify information in response to a codified questionnaire document

Usage notes

- The LQ segment is used to identify the general (LQ01) and specific type (LQ02) for the form being reported in Loop ID-2440. The FRM segment is used to answer specific questions on the form identified in the LQ segment. FRM01 is used to indicate the question being answered. Answers can take one of 4 forms: FRM02 for Yes/No questions, FRM03 for text/uncodified answers, FRM04 for answers which use dates, and FRM05 for answers which are percents. For each FRM01 (question) use a remaining FRM element, choosing the element which has the most appropriate format. One FRM segment is used for each question/answer pair.

The example below shows how the FRM can be used to answer all the pertinent questions on DMERC form 0802 (LQU708.02~).

Example

FRM*XXX*Y*XXXXXX*20260701*00000~

- At least one of Question Response (FRM-02), Question Response (FRM-03), Question Response (FRM-04) or Question Response (FRM-05) is required

FRM-01

350 Question Number/Letter

Min 1

Max 20

String (AN)

Required

Alphanumeric characters assigned for differentiation within a transaction set

- FRM01 is the question number on a questionnaire or codified form.

FRM-02

1073 Question Response

Identifier (ID)

Optional

Code indicating a Yes or No condition or response

- FRM02, FRM03, FRM04 and FRM05 are responses which only have meaning in reference to the question identified in FRM01.

N No
W Not Applicable
Y Yes

FRM-03

127 Question Response

Min 1

Max 50

String (AN)

Optional

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

FRM-04

373 Question Response

CCYYMMDD format

Date (DT)

Optional

Date expressed as CCYYMMDD where CC represents the first two digits of the calendar year

FRM-05	332 Question Response	Min 1	Max 6	# Decimal number (R)	Optional
Percent given in decimal format (e.g., 0.0 through 100.0 represents 0% through 100%)					

2440 Form Identification Code Loop end
2400 Service Line Number Loop end
2300 Claim Information Loop end
2000C Patient Hierarchical Level Loop end
2000B Subscriber Hierarchical Level Loop end
2000A Billing Provider Hierarchical Level Loop end

SE	5550	Detail > SE	Max use 1	Required
----	------	-------------	-----------	----------

Transaction Set Trailer

To indicate the end of the transaction set and provide the count of the transmitted segments (including the beginning (ST) and ending (SE) segments)

Example
SE*00000*0001~

SE-01	96 Transaction Segment Count	Min 1	Max 10	# Numeric (N0)	Required
Total number of segments included in a transaction set including ST and SE segments					
SE-02	329 Transaction Set Control Number	Min 4	Max 9	# Numeric (N)	Required
Identifying control number that must be unique within the transaction set functional group assigned by the originator for a transaction set					
Usage notes					

- The Transaction Set Control Number in ST02 and SE02 must be identical. The number must be unique within a specific interchange (ISA-IEA), but can repeat in other interchanges.

Detail end

Functional Group Trailer

To indicate the end of a functional group and to provide control information

Example

GE*000*000000000~

GE-01	97 Number of Transaction Sets Included	Min 1	Max 6	# Numeric (N0)	Required
-------	--	-------	-------	----------------	----------

Total number of transaction sets included in the functional group or interchange (transmission) group terminated by the trailer containing this data element

GE-02	28 Group Control Number	Min 1	Max 9	# Numeric (N0)	Required
-------	-------------------------	-------	-------	----------------	----------

Assigned number originated and maintained by the sender

Max use 1 Required

Interchange Control Trailer

To define the end of an interchange of zero or more functional groups and interchange-related control segments

Example

IEA*000*000000000~

<u>IEA-01</u>	I16 Number of Included Functional Groups	Min 1	Max 5	# Numeric (N0)	Required
---------------	---	-------	-------	----------------	----------

A count of the number of functional groups included in an interchange

<u>IEA-02</u>	I12 Interchange Control Number	Min 9	Max 9	# Numeric (N0)	Required
---------------	---------------------------------------	-------	-------	----------------	----------

A control number assigned by the interchange sender
